A.9 Describe the conditions and term of the prevailing mandate from the general meeting to the Board of Directors to issue, buy back and transfer treasury stock.

- The Annual General Meeting of Shareholders of BBVA held on 16 March 2012, under item three of the agenda, passed a resolution to delegate to the Board of Directors the power to increase the Bank's share capital, within a maximum term of 5 years following the date of the resolution, up to a maximum amount corresponding to 50% of BBVA's share capital on the date of such authorization, on one or several occasions, by issuing new ordinary or privileged shares with or without voting rights, including redeemable shares or shares of any other kind, with or without an issue premium, the countervalue of said shares comprising cash considerations. The authorization includes the setting out of the terms and conditions of the common stock increase, the determination of the nominal value of the shares to be issued, their characteristics and any privileges they may confer, the attribution of the right of redemption and the conditions of redemption, and the exercise of that right by BBVA; and grants the Board of Directors with the capacity to exclude the first refusal rights regarding shares issued by virtue of said resolution, though this capacity is limited to 20% of the share capital of BBVA on the date of said authorization.

In the meeting held on 19 November 2014, the BBVA's Board of Directors, by virtue of the aforementioned delegation, agreed to a common stock increase with exclusion to the rights to first refusal through an Accelerated Bookbuilding Offering (ABO). On 20 November 2014, the common stock increase was executed for a nominal amount of €118,787,879.56 by issuing 242,424,244 ordinary shares of BBVA, each one at a nominal value of €0.49, in the same class and series as the shares currently in circulation.

- The fifth item on the agenda at BBVA's Ordinary General Meeting of Shareholders held on 16 March 2012 agreed to powers to the Board of Directors to issue securities convertible and/or exchangeable for BBVA shares on one or multiple occasions within a maximum period of 5 years from the date of the adoption the agreement to do so, for a maximum amount of €12,000,000,000 or its equivalent in any other currency, extending the delegation's aspects and capacities to: establish the different aspects and conditions of each issue; increase the share capital by the amount needed to address the requests for conversion or subscription; exclude the right to first refusal to shareholders whenever necessary or required in the interest of the company; and determine the rate of conversion and/or exchange and the date of conversion and/or exchange.

In exercising this delegation in 2015, 2014 and 2013, BBVA executed three issues of convertible perpetual securities into new issues of ordinary BBVA shares (capital instruments of level 1 additional) with exclusion of the first refusal rights on subscription amounting to €1.5 billion, €1.5 billion and USD \$1.5 billion, respectively.

- The General Meeting of Shareholders of BBVA on 14 March 2014, under agenda item three, agreed to authorized BBVA, directly or via any of its subsidiaries, for a maximum term of five years from the date of said resolution, for the derivative acquisition of BBVA shares at any time and on as many occasions as it deems appropriate, by any means permitted by law, including charging the acquisition to the year's profits and/or unrestricted reserves, and to subsequently dispose of the shares acquired, indicating that derivative acquisition of shares will at all times be carried out in compliance with the conditions established under applicable

legislation and, in particular, the following conditions: (i) at no time will the nominal value of the treasury stock acquired, directly or indirectly, under this authorization, added to the shares already owned by the Company and its subsidiaries, exceed 10% of the subscribed share capital of BBVA or, as appropriate, the maximum amount permitted by applicable legislation; (ii) the acquisition shall not result in the equity being less than the share capital plus the legal reserves or the reserves that are restricted by the Company bylaws; (iii) a restricted reserve, equivalent to the sum of treasury stock of the company recorded to assets, may be established against the net equity; (iv) shares acquired must be fully paid up, unless the acquisition is without consideration, and must not entail any obligation to provide ancillary benefits; and (v) the acquisition price per share will not be below the nominal value of the share or more than 20% above the listed price or any other price associated with the shares on the acquisition date. Moreover, said General Meeting expressly authorized that the shares acquired by BBVA or its subsidiaries by exercising the aforementioned authorization may be earmarked for delivery to workers or administrators of BBVA or its subsidiaries.

- The General Meeting of Shareholders of BBVA held on 13 March 2015 resolved, under item four, sections 4.3 and 4.4 of the agenda, to perform two common stock increases to be charged to voluntary reserves through the issue of new ordinary shares each with a nominal value of €0.49, without issue premium, which as of 31 December 2015 had not been executed. The maximum term for the execution of said increases is one year from the date of the adoption of said resolutions.

A.9 bis Estimated floating capital:

	%
Estimated floating capital	100

A.10 Indicate whether there is any restriction on the transferability of securities and/or any restriction on voting rights. In particular, report the existence of any restrictions that might hinder the take-over of control of the company by purchasing its shares on the market.

NO

A.11 Indicate whether the General Meeting has agreed to adopt measures to neutralise a public takeover bid, pursuant to Act 6/2007.

NO

If so, explain the measures approved and the terms and conditions under which the restrictions would become inefficient:

A.12 Indicate whether the company has issued securities that are not traded on a regulated market in the EU.

YES

Where applicable, indicate the different classes of shares, and what rights and obligations each share class confers.

All the shares in BBVA's capital have the same class and series, and confer the same voting and economic rights. There are no different voting rights for any shareholder. There are no shares that do not represent capital.

The Bank's shares are admitted for trading on the Securities Exchanges in Madrid, Barcelona, Bilbao and Valencia, through the Spanish electronic trading platform (Continuous Market), and the stock markets in London and Mexico. BBVA's American Depositary Shares (ADS) are traded on the New York Stock Exchange and also on the Lima Exchange (Peru) under an exchange agreement between both markets.

Additionally, as of 31 December 2015, shares of BBVA Banco Continental, S.A., Banco Provincial S.A., BBVA Colombia, S.A., BBVA Chile, S.A. and BBVA Banco Francés, S.A., were traded on their respective local securities markets and, for the latter entity, on the New York Stock Exchange and in the Latin American securities exchange (LATIBEX) on the Stock Market of Madrid.

B GENERAL MEETING

B.1 Indicate, and where applicable give details, whether there are any differences from the minimum standards established under the Corporate Enterprises Act (CEA) with respect to the quorum and constitution of the General Meeting.

YES

	% quorum different from quorum in art. 193 of CEA for general circumstances	% quorum different from quorum in art. 194 of CEA for special circumstances in art. 194 of CEA
Quorum required on first summons	0.00%	66.66%
Quorum required on second summons	0.00%	60.00%

Description of differences
<p>Article 194 of the Corporate Enterprises Act establishes that in order for a General Meeting (whether annual or extraordinary) to validly resolve to increase or reduce capital or make any other amendment to the Company Bylaws, bond issuance, the cancellation or restriction of first refusal subscription rights over new shares, or the conversion, merger or spin-off of the company or global assignment of assets and liabilities or the transfer of the registered office abroad, the shareholders present and represented on first summons must own at least fifty percent of the subscribed capital with voting rights.</p> <p>On second summons, twenty-five percent of said capital will be sufficient.</p> <p>The above notwithstanding, article 25 of the BBVA Company Bylaws establishes that a reinforced quorum of two-thirds of the subscribed voting capital must attend the General Meeting at first summons or 60% of that capital at second summons, in order to adopt resolutions on replacing the corporate purpose, the transformation, total spin off, winding up of the Company and amending that article of Bylaws establishing this reinforced quorum.</p>

B.2 Indicate, and where applicable give details, whether there are any differences from the minimum standards established under the Corporate Enterprises Act (CEA) for the adoption of corporate resolutions:

NO

Describe any differences from the minimum standards established under the CEA.

B.3 Indicate the rules applicable to amendments to the company bylaws. In particular, report the majorities established to amend the bylaws, and the rules, if any, to safeguard shareholders' rights when amending the bylaws.

Article 30 of the BBVA Company Bylaws establishes that the General Meeting is empowered to amend the Company Bylaws and to confirm and/or rectify Board of Directors' interpretation of them.

To such end, the rules established under articles 285 et seq. of the Corporate Enterprises Act shall apply.

The above paragraph notwithstanding, article 25 of the Company Bylaws establishes that in order to adopt resolutions regarding any change to the corporate purpose, transformation, total spin-off or winding up the Company and amendment of the second paragraph of said article 25, two-thirds of the subscribed voting capital must attend the General Meeting at first summons, or 60% of that capital at second summons.

This English version is a translation of the original in Spanish for information purposes only. In case of a discrepancy, the Spanish original will prevail.

As regards the procedure for amending the Company Bylaws, article 4.2 c) of Act 10/2014 dated 26th June, on the regulation, supervision and solvency of credit institutions, establishes that the Bank of Spain shall be responsible for authorising the amendments to the bylaws of credit institutions.

Moreover, article 10 of Royal Decree 84/2015 dated 13rd February, implementing Act 10/2014, stipulates that the Bank of Spain shall have two months to decide following receipt of the request for amendment, which must be accompanied by a certification of minutes recording the agreement, a report substantiating the proposal drawn up by the board of directors and a project of new bylaws, identifying the cited amendments.

Notwithstanding the foregoing, article 10 of Royal Decree 84/2015 also establishes that no previous authorization from the Bank of Spain is required, though notification of said amendment must nevertheless be made, for amendments with the following purposes:

- Change of the registered office within the national territory.
- Stock capital increase.
- Incorporating verbatim into the bylaws legal or regulatory precepts of a mandatory or prohibitive nature, or for the purpose of complying with legal or administrative decisions.
- Those amendments for which the Bank of Spain, in response to a prior enquiry made by the affected bank, deems that authorization is not required due to their little relevance.

B.4 Indicate the data on attendance at general meetings held during the year to which this report refers and the previous year:

General Meeting date	Attendance figures				Total
	% shareholders present	% attending by proxy	% voting remotely		
			Electronic vote	Other	
14/03/2014	4.05%	38.36%	0.05%	20.72%	63.18%
13/03/2015	2.69%	39.68%	0.04%	19.64%	62.05%

B.5 Indicate the number of shares, if any, that are required to be able to attend the General Meeting and whether there are any restrictions on such attendance in the bylaws:

YES

Number of shares necessary to attend the General Meetings	500
--	-----

B.6 Section repealed.

B.7 Indicate the address and means of access through the company website to the information on corporate governance and other information on the general meetings that must be made available to shareholders on the company's website.

The contents on corporate governance and other information on the latest general meetings are directly accessible through the Banco Bilbao Vizcaya Argentaria corporate website, www.bbva.com, in the Shareholders and Investors, Corporate Governance section, www.bbva.com/Accionistas e Inversores/Gobierno Corporativo.

Explanation of measures
<p>Article 3 of the Board of Directors Regulations establishes that the proposals submitted to the General Meeting for appointment or reelection of directors and the appointments the Board makes directly to cover vacancies, exercising its powers of co-option, will be approved at the proposal of the Appointments Committee in the case of independent directors, and following a report from said Committee for all other directors. In any case, the proposal must be accompanied by a report of the Board of Directors explaining the grounds on which the Board of Directors has assessed the competence, experience and merits of the candidate proposed, which will be attached to the minutes of the General Meeting or of the Board of Directors. When there is a proposal to re-elect directors, the Board of Directors' resolutions and deliberations on these matters will take place in the absence of the directors whose re-election is proposed who, if present, must leave the meeting.</p> <p>The Appointments Committee's mission is to assist the Board of Directors in matters concerning the selection and appointment of directors and, in particular, to submit to the Board of Directors the proposals for the appointment, re-election or removal of independent directors and to report on the proposals for the appointment, re-election or removal of all other directors.</p> <p>To such end, article 33 of the Board of Directors Regulations establish that the Committee will evaluate the balance of skills, knowledge and expertise that the Board of Directors requires, as well as the conditions that candidates should display to fill the vacancies arising, assessing the dedication necessary to be able to suitably perform their duties in view of the needs that the Company's governing bodies may have at any time. The Committee will ensure that, in line with the principles set out in the BBVA Board of Directors Regulations, when filling new vacancies, the selection procedures are not marred by implicit biases that may entail any discrimination and, in particular, discrimination that may hinder the selection of female directors, trying to ensure that women who display the professional profile being sought are included on the shortlists.</p> <p>Moreover, BBVA has established a director selection policy stating that the selection procedures cannot involve discrimination in selecting female directors and that in 2020 the number of female board members will represent at least 30% of the total number of members of the Board of Directors.</p> <p>In the latest selection processes, the Appointments Committee has ensured that there are no implicit biases that may hinder the access of women to the vacancies. It evaluated the skills, knowledge and expertise of all the candidates according to the needs of the governing bodies at any given time, assessing the dedication necessary to be able to suitably perform their duties in the light of the principles contained in the BBVA Board of Directors Regulations. For these selection processes, the Committee has received support from renowned consultancy firms in the selection of directors at the international level.</p>

During these processes, the external expert was expressly requested to include women with the suitable profile among the candidates to be presented and the Committee analyzed the personal and professional profiles of all the candidates presented on the basis of the information provided by the consultancy firm, according to the needs of the Bank's governing bodies at any given time. The skills, knowledge and expertise necessary to be a director of the Bank were assessed and the rules on incompatibilities and conflicts of interest as well as the dedication deemed necessary to be able to comply with the duties were taken into account.

BBVA currently has three female directors on its governing body, one of whom is a member of the Group's Executive Committee.

C.1.6 Explain the measures, if any, agreed by the Appointments Committee to ensure that selection procedures do not suffer from implicit biases that may hinder the selection of female directors, and that the company deliberately seeks and includes potential female candidates that meet the professional profile sought:

Explanation of measures

See above section.

During the selection processes, the Appointments Committee, pursuant to the Board of Directors Regulations, has ensured that women who meet the sought-after professional profile are included among the potential candidates. In addition it has made sure that the selection procedures do not include implicit biases that might hinder the selection of female directors.

When, despite any measures that might have been adopted, the number of female directors is low or zero, explain the reasons:

Explanation of reasons

C.1.6.bis Explain the conclusions of the Appointments Committee regarding verification of compliance with the board member selection policy. And, in particular, explain how this policy is fostering the goal for 2020 to have the number of female board members represent at least 30% of the total number of members of the board of directors.

The Board of Directors has established a director selection policy stating that the individuals proposed for appointment as members of the Board of Directors must meet the requirements set out in current legislation, in the specific regulations applicable to credit institutions, Company Bylaws and Board Regulations. In particular, the directors must meet the suitability requirements needed to hold the position and display recognized commercial and professional repute, possess adequate knowledge and experience to hold the position, and be committed to good governance.

The selection policy states that the member selection, appointment and rotation procedures for the Board of Directors shall be aimed at attaining a composition of the company's corporate bodies that enable the powers established by law, Company Bylaws and its own regulations to be properly discharged in the company's best interest.

To this effect, the Board of Directors shall ensure that the appointment, selection and rotation procedures enable the most suitable candidates to be identified at all times, based on the requirements of the corporate bodies and that they favor diversity of experience, knowledge, skills and gender and, in general, do not suffer from implicit biases that may involve any kind of discrimination.

In particular, the director selection policy establishes that the selection procedures cannot entail any discrimination for the selection of female directors and that in 2020 the number of female board members will represent at least 30% of the total number of members of the Board of Directors. In this regard, the number of women on the Board of Directors has increased in recent years and women meeting the required professional profile have been expressly requested to be nominated for director selection processes.

<i>This English version is a translation of the original in Spanish for information purposes only. In case of a discrepancy, the Spanish original will prevail.</i>

Additionally, it sets out that the composition of the Board of Directors shall attempt to have an appropriate balance between the different types of board members and that non-executive members represent an ample majority over executive directors, taking steps so that the number of independent directors accounts for at least 50% of the total seats.

This policy has been followed by the Appointments Committee when submitting candidate proposals to the Board of Directors to be raised for appointment at the General Meeting of Shareholders in 2016. On approval of said proposal by the General Meeting of Shareholders of BBVA, Board of Directors' composition shall continue being 50% independent directors and a percentage of female directors on the board representing 25% of non-executive directors.

C.1.7 Explain the form of representation on the Board of shareholders with significant holdings.

C.1.8 Explain, where applicable, the reasons why proprietary directors have been appointed at the behest of a shareholder whose holding is less than 3% of the capital:

Indicate whether formal petitions have been ignored for presence on the Board from shareholders whose holding is equal to or higher than that of others at whose behest proprietary directors were appointed. Where applicable, explain why these petitions have been ignored.

NO

C.1.9 Indicate if any director has stood down before the end of his/her term of office, if the director has explained his/her reasons to the Board and through which channels, and if reasons were given in writing to the entire Board, explain below, at least the reasons that were given:

C.1.13 Indicate and, where applicable, if board regulations have established rules on the maximum number of company boards on which its directors may sit:

YES

Explanation of rules
<p>Article 11 of the Board of Directors Regulations establishes that in the performance of their duties, directors will be subject to the rules on limitations and incompatibilities established under the applicable regulations at any time, and in particular to the provisions of Spanish Act 10/2014 on the organisation, supervision and solvency of credit institutions.</p> <p>Article 26 of Act 10/2014 establishes that the directors of credit institutions may not hold at the same time more positions than those set out in one of the following combinations: (i) an executive position together with two non-executive positions; or (ii) four non-executive positions. Executive positions are defined as those performing management duties irrespective of the legal bond attributed by those duties. The following will count as a single position: 1) executive or non-executive positions held within the same group; 2) executive or non-executive positions held within: (i) entities belonging to the same institutional protection scheme; or (ii) companies in which the entity holds a significant stake. The positions held in non-profit organizations or entities pursuing non-commercial purposes shall not count when determining the maximum number of positions. Nonetheless, the Bank of Spain may authorize members of the Board of Directors and general directors (or assimilated parties) to hold an additional non-executive post if deeming that such a post would not interfere with the correct performance of the activities thereof in the credit institution.</p> <p>Likewise, directors may not provide professional services to enterprises competing with the Bank or of any of its Group companies, or be an employee, manager or director of such companies unless they have received express prior authorization from the Board of Directors or the General Meeting, whichever may be the authorizing party, or unless these activities had been provided or performed before they became a Bank director, do not involve effective competition and had been reported to the Bank at that time.</p> <p>Directors may not take a direct or indirect stake in businesses or enterprises in which the Bank or its Group companies hold an interest, unless such stake was held prior to joining the Board of Directors or to the time when the Group took out its holding in such business or enterprise, or unless such companies are listed on domestic or international securities exchanges, or unless authorized to do so by the Board of Directors.</p> <p>Directors of the Bank may not be a director in companies in which the Group or any of the Group companies hold a stake. As an exception and when proposed by the Bank, executive directors are able to hold directorships in companies directly or indirectly controlled by the Bank with the approval of the Executive Committee, and in other</p>

Non-executive directors may hold a directorship in the Bank's associate companies or in any other Group company provided the directorship is not related to the Group's holding in such companies. They must have prior approval from the Bank's Board of Directors. For these purposes, holdings of the Bank or its Group in companies resulting from its ordinary business activities, asset management, treasury trading, derivative hedging and/or other transactions will not be taken into account.

Likewise, directors may not hold political office or engage in other activities that might have a public significance or affect the image of the Company in any manner, unless there is prior authorisation from the Board of Directors of the Bank.

C.1.19. Indicate procedures for selection, appointment, re-election, assessment and removal of directors. List the competent bodies, the procedures to be followed and the criteria to be employed in each procedure.

Selection and appointment procedure:

BBVA has established a policy setting out the main general principles applicable in the selection and appointment of directors. Additionally, articles 2 and 3 of the Board of Directors Regulations stipulate that the General Meeting is responsible for the appointment of members of the Board. However, if a seat falls vacant, the Board has the authority to co-opt members. In any event, persons proposed for appointment as directors must meet the requirements of prevailing legislation, the specific regulations applicable to financial institutions and the provisions of the Company Bylaws. In particular, directors should meet the necessary suitability requirements to exercise their directorship. Thus, they must be considered to be of commercial and professional good repute, with adequate knowledge and expertise to perform their duties and in situation in which they can exercise good governance of the entity.

The Board of Directors will endeavor to ensure that the selection procedures for directors favour diversity in experience, knowledge, skills and gender and, in general, do not suffer from implicit biases that may imply any

discrimination. The Board will submit its proposals to the General Meeting in such a way that there is an ample majority of non-executive directors over the number of executive directors on the Board. The proposals submitted to the General Meeting for appointment or re-election of directors and the appointments the Board makes directly to cover vacancies, exercising its powers of co-option, will be approved at the proposal of the Appointments Committee in the case of independent directors, and following a report from said Committee for all other directors. In any case, the proposal must be accompanied by a report of the Board explaining the grounds on which the Board of Directors has assessed the competence, experience and merits of the candidate proposed, which will be attached to the minutes of the General Meeting or of the Board of Directors. The Board's resolutions and deliberations on these matters will take place in the absence of the director whose re-election is proposed who, if present, must leave the meeting.

To such end, the Board of Directors Regulations establish that the Appointments Committee will evaluate the balance of skills, knowledge and expertise on the Board of Directors, as well as the conditions that candidates should display to fill the vacancies arising, assessing the dedication necessary to be able to suitably perform their duties in view of the needs that the Company's governing bodies may have at any time. The Committee will ensure that when filling new vacancies, the selection procedures are not marred by implicit biases that may involve any discrimination and, in particular, those that hinder the selection of female directors, trying to ensure that women who display the professional profile being sought are included on the shortlists.

Directors will stay in office for the term established by the Company Bylaws or, if they have been co-opted, until the first General Meeting is held.

Re-election: See above section.

Assessment:

As indicated in article 17 w) of the Board's Regulations, the Board of Directors is responsible for assessing the quality and efficiency of the Board's operation and assessment of the performance of the duties of the Chairman of the Board. Such assessment will always begin with the report submitted by the Appointments Committee. Likewise, evaluation of the operation of its Committees, on the basis of the report that these submit to it. Moreover, article 5 of the Board's Regulations establishes that the Chairman, who is responsible for efficiently running of the Board, will organize and coordinate the regular assessment of the Board with the Chairs of the relevant Committees. Moreover, article 5 ter of the Board's Regulations establishes that the Lead Director is especially empowered to conduct the regular assessment of the Chairman of the Board.

Pursuant to the provisions of the Board Regulations, as in previous years, in 2015 the Board of Directors assessed the quality and efficiency of its own running and that of its Committees, as well as the performance of the duties of the Chairman, both as Chairman of the Board and as the first executive of the Bank, based on the report of the Appointments Committee.

Severance:

Directors will stand down from office when the term for which they were appointed has expired, unless they are re-elected.

Directors must apprise the Board of any circumstances affecting them that might harm the Company's reputation and credit and circumstances that may impact their suitability for the post. Directors must place their directorship at the disposal of the Board and accept its decision regarding their continuity or non-continuity in office, under the circumstances listed in section C.1.21 below. If its decision is negative, they are obliged to tender their resignation. In any event, directors will resign their positions on reaching 75 years of age. They must present their resignation at the first meeting of the Bank's Board of Directors after the General Meeting of Shareholders that approves the accounts for the year in which they reach this age.

C.1.20 Explain to what degree the self- assessment has led to significant changes in its internal organization and the procedures applicable to its activities:

Description of changes
Article 17 of the Board of Directors Regulations establishes that the Board will assess the quality and efficiency of the Board's operation, based on the report submitted by the Appointments Committee, which it has done in 2015, likewise producing certain changes (indicated below), similar to previous years, to continue the ongoing adaptation

process of corporate governance to the regulatory requirements and best practices, though none of the changes was particularly significant.

Throughout 2015, the Bank analyzed its needs for improvement and changes in the regulatory, supervisory and market areas, both at a national and international level, and introduced various measures to adapt its Corporate Governance system and practices to the new environment in which the Bank carries out its activity, including yet not restricted to the following measures: (i) improvements and progress was made in the procedure for verifying the information submitted for consideration by the corporate bodies, coordinated by a specific unit independent of the areas that prepare the information. This procedure seeks to improve the quality, consistency and uniformity thereof and ensure that corporate bodies have sufficient, adequate and complete information to exercise their duties. The implementation of the duties of this new unit underwent reporting to the Audit and Compliance Committee of the Board of Directors as part of its information oversight and control duties; (ii) progress was made on the training program for directors and persons incorporated as members of the corporate bodies; (iii) the composition of their committees was adapted, during the session of the Board of Directors on 4 May 2015, so that they have the most suitable composition to discharge their duties; (iv) a decision was made to commission a renowned independent expert to assist the Appointments Committee in assessing the operations of the Board of Directors and the Chairman of the Board; (v) the duties of the Lead Directors were expanded; and (vi) the duties of the Audit and Risk (and other) Committees were enlarged.

C.1.20.bis Describe the assessment process and the assessed areas conducted by the board of directors assisted, as the case may be, by an external consultant, regarding the diversity in its composition and capacities, duties and composition of its committees, the performance of the chair of the board of directors and the first executive of the company, and the performance and contribution of each board member.

According to article 17 of the Board of Directors Regulations, the Board shall evaluate the quality and efficiency of its running and the performance of the functions of the Chairman of the Board, based in each case on the report submitted by the Appointments Committee. Likewise, the Board of Directors shall assess of the running of its Committees, based on the report they submit.

In the most recent assessment process carried out for 2015, the Board of Directors assessed: (i) the quality and efficiency of the Board of Directors' operation, (ii) the performance of the Chairman of the Board of Directors; and (iii) the running of the Committees of the Board of Directors. The procedure to conduct these assessments was:

- Throughout the year, the Committee has been analyzing the structure, size and composition of the Board of Directors during the selection processes to incorporate new members of the Board of Directors and to re-elect directors and also to conduct the yearly assessment on the running of the Board of Directors. Thus the quality and efficiency of the running of the Board of Directors was examined based on the prior report submitted by the Appointments Committee and raised to the Board of Directors. The Appointments Committee, with a view to drawing up this report, mined detailed reports on the composition and operations thereof, and on the main activities implemented by these bodies in the performance of the duties attributed thereto by the Company Bylaws and the Board of Directors Regulations. The committee also had the support of a renowned external expert.
- The performance of the duties of the Chairman of the Board of Directors, as Chair and first executive was examined by the Board of Directors based on the previous report submitted by the Appointments Committee, and the Lead Director conducted the assessment process as established in article 5 ter of the Board Regulations. The Appointments Committee drew up its report with detailed information on the performance of the duties by the Chairman and the support of a renowned external expert.
- The Board of Directors conducted the quality and efficiency assessment on the operations of the Audit and Compliance, Risk, Appointment and Remuneration Committees based on the reports submitted by their respective Chairs. Thus, the activities carried out by the Audit and Compliance Committee underwent the corresponding examination in the Board during the meeting held on 29 October 2015 by the director Chair of the Committee. Moreover, during its meeting on 25 November 2015, the Board of Directors received the report of the director Chair of the Risk Committee regarding the activities undertaken by the Committee during 2015, apprising of the tasks executed by the Committee in the analysis and preparation of the proposals for resolution that, within the scope of risks, were conveyed to the Executive Committee and the Board for consideration; and insofar as risk tracking and control. In its session on 22 December 2015, the Board received the report of the director Chair of the Remuneration Committee regarding the activities undertaken by the Committee during 2015, apprising of the tasks executed by the Committee in the analysis and preparation

This English version is a translation of the original in Spanish for information purposes only. In case of a discrepancy, the Spanish original will prevail.

of the remuneration-related proposals for resolution presented to the Board, particularly regarding the amendment to the remuneration policy; tracking of the application of the remuneration policy approved by the Board, which had been analyzed based on the report issued for such purpose by Internal Audit; and regarding the other tasks executed. Likewise, in its session on 22 December 2015, the Board received the report of the director Chair of the Appointments Committee regarding the activities undertaken by the Committee during 2015 within the different scopes of duties. The operations of the Committees were also analyzed in the Board's general assessment process described above.

C.1.20.ter Break down, where pertinent, the business relationship that the consultant or any company of its group maintains with the company or any company of its group.

The external consultant assisting in the self-assessment process of the Board of Directors also participated as a benchmark company in the field of director selection in the selection process for new board members and directors that the Group carried out.

C.1.21 Indicate the circumstances under which directors are obliged to resign.

In addition to the circumstances set out in applicable legislation, as established in article 12 of the BBVA Board of Directors Regulations, the directors will stand down from office when the term for which they were appointed has expired, unless they are re-elected. Directors must apprise the Board of Directors of any circumstances affecting them that might harm the Company's reputation and credit circumstances that may impact their suitability for the post.

As set out in article 12 of the BBVA Board of Directors Regulations, directors must place their office at the disposal of the Board of Directors and accept the its decision regarding their continuity or non-continuity in office, under the circumstances given below. Should the Board resolve they not continue, they will be obliged to tender their resignation:

- When they are affected by circumstances of incompatibility or prohibition as defined under prevailing legislation, in the Company Bylaws or in the Board of Directors Regulation;
- When significant changes occur in their personal or professional situation that may affect the condition by virtue of which they were appointed to the Board;
- When they are in serious dereliction of their duties as directors;
- When for reasons attributable to the director in his or her condition as such, serious damage has been done to the Company's net worth, credit or reputation; or
- When they lose their suitability to hold the position of director of the Bank.

C.1.27 Indicate whether the bylaws or the Board Regulations establish a limited term of office for independent directors, other than that established by law:

NO

C.1.28 Indicate whether the bylaws or the Board Regulations establish specific rules for proxy voting in the Board of Directors, the way this is done and, in particular, the maximum number of proxies a director may have, and whether it has established any limit regarding the categories that may be delegated beyond the limits stipulated by legislation. If so, briefly give details on such standards.

The BBVA Board of Directors Regulations establishes that directors are required to attend the meetings of corporate bodies and the meetings of the Board Committees on which they sit, except for a justifiable reason. Directors shall participate in the deliberations, discussions and debates on matters submitted for their consideration.

However, article 21 of the Board of Directors Regulations establishes that should it not be possible for directors to attend any of the Board of Directors meetings, they may grant proxy to another director to represent and vote for them. This may be done by a letter or e-mail sent to the Company with the information required for the proxy director to be able to follow the absent director's indications, in observance of the applicable legislation, though non-executive directors may only grant their proxy to another director that is also non-executive.

C.1.29 Indicate the number of meetings the Board of Directors has held during the year. Where applicable, indicate how many times the Board has met without the Chairman in attendance. In calculating this number, proxies given with specific instructions will be counted as attendances.

Where applicable, identify the person(s) who has(have) certified the Company's individual and consolidated financial statements to be filed by the Board:

C.1.32 Explain the mechanisms, if any, established by the Board of Directors to prevent the individual and consolidated financial statements that it files from being presented to the General Meeting with a qualified auditors report.

Article 29 of BBVA's Board of Directors Regulations establishes that the Audit and Compliance Committee will be formed exclusively by independent directors and its main task is to assist the Board of Directors in supervising the financial information and exercising oversight for the Group. In this regard, its functions are as follows: oversee the efficacy of the internal control of the Company, the internal audit and the risk management systems in the process of drawing up and reporting the regulatory financial information, including tax-related risks, as well as to discuss with the financial auditor any significant weaknesses in the internal control system detected when the audit is conducted and oversee the process of drawing up and reporting the financial information. For such purposes, the Audit and Compliance Committee may submit recommendations or proposals to the Board of Directors.

Moreover, article 3 of the Audit and Compliance Committee Regulations establishes that the Committee shall verify that the external audit schedule is conducted under the agreed conditions at appropriate intervals, and that it meets the requirements of the competent authorities and the Bank's governing bodies. The Committee will also periodically – at least once a year – request from the auditor its evaluation of the quality of the group's internal control procedures regarding the drafting and presentation the financial information of the Group.

The Committee shall also be apprised of any infringements, situations requiring adjustments, or anomalies that may be detected during the course of the external audit and are of a material nature; materiality in this context signifies those issues that, in isolation or as a whole, may give rise to a significant and substantive impact or harm to assets, earnings or the reputation of the Group; discernment of such matters shall be at the discretion of the auditor who, if in doubt, must opt to report on them

In exercising these duties, the Audit and Compliance Committee holds monthly meetings with the external auditor without the presence of executives, to monitor on an ongoing basis their work, guaranteeing that the activity is carried out under the best conditions and with no interference in management.

C.1.35 Indicate what mechanisms the company has established, if any, to preserve the independence of the external auditors, the financial analysts, the investment banks and the rating agencies.

The BBVA Audit and Compliance Committee Regulations establish that this Committee's duties, described in section C.2.1, include ensuring the independence of the external audit in two ways:

- Avoiding any possibility of the warnings, opinions or recommendations of the auditors being adversely influenced. To this end, ensure that compensation for the auditor's work does not compromise either its quality or independence, in compliance with current legislation on auditing at all times.
- Stipulating as incompatible the provision of audit and consulting services unless they are not available in the market alternatives as regards content, quality or efficiency of equal value to those which the auditor could provide; in this

case approval by the Committee will be required, but this decision may be delegated in advance to its Chair. The auditor shall be prohibited from providing prohibited services outside the audit, in compliance with what is set out at all times by audit legislation.

This matter is the subject of special attention by the Audit and Compliance Committee, which holds regular meetings with the external auditor, without Bank directors being present, to know the details of the progress and quality of the external audit work, as well as to confirm the independence of the performance of their duties. It also monitors the engagement of consultancy services to ensure compliance with the Committee's Regulations and applicable legislation in order to safeguard the independence of the external auditor.

Moreover, in accordance with the provisions of point f), section 4 of article 529 quaterdecies of the Corporate Enterprises Act and article 30 of the BBVA Board of Directors Regulations, the Audit and Compliance Committee each year before the external financial auditor issues their report on the financial statements, has to issue a report expressing an opinion on the independence of the auditor.

This report must in any event contain the reasoned assessment of the provision of additional services of any kind by the auditors to the Group's entities, considered individually and as a whole, other than the legal audit and in relation to the regime of independence or the rules regulating the account audit activity. The external auditor must issue, also on an annual basis, a report confirming its independence *vis-à-vis* BBVA or entities linked to BBVA, either directly or indirectly, with information on the additional services of any kind provided to these entities by the external auditor, or by the individuals or entities linked to them, as set out in the redrafted text of the Audit Act.

In keeping with the legislation in force, the relevant reports confirming the auditor's independence were issued in 2015.

In addition, as BBVA's shares are listed on the New York Stock Exchange, it is subject to compliance with the Sarbanes Oxley Act and its implementing regulations.

C.1.36 Indicate whether the company has changed its external auditor during the year. If so, identify the incoming and outgoing auditors:

NO

If there were disagreements with the outgoing auditor, explain their grounds.

Details of the procedure
<p>Article 6 of the BBVA Board of Directors Regulations expressly recognizes that directors may request any additional information or advice they require to comply with their duties, and may request the Board of Directors for assistance from external experts on matters subject to their consideration whose special complexity or importance so requires.</p> <p>The Audit & Compliance Committee, pursuant to article 31 of the Board of Directors Regulations, may engage external advisory services for relevant issues when it considers that these cannot be properly provided by experts or technical staff within the Group on grounds of specialization or independence.</p> <p>Under articles 34, 37 and 40 of the Board of Directors Regulations, the rest of the Committees may obtain such advice as may be necessary to establish an informed opinion on matters related to its business. This will be done through the Secretariat of the Board.</p>

C.1.41 Indicate and, where applicable, give details on the existence of a procedure for directors to obtain the information they need to prepare the meetings of the governing bodies with sufficient time:

YES

Details of the procedure
<p>Article 6 of the Board of Directors Regulations establishes that before meetings the directors will be apprised of the necessary information to be able to form their own opinions regarding questions corresponding to the Bank's corporate bodies. They may request any additional information and advice they require to comply with their duties.</p> <p>Exercise of these rights will be channeled through the Chairman and/or Secretary of the Board of Directors, who will attend to requests by providing the information directly or by establishing suitable arrangements within the organisation for this purpose, unless a specific procedure has been established in the regulations governing the Board of Directors Committees.</p>

C.1.42 Indicate and, where applicable give details, whether the company has established rules requiring directors to inform and, where applicable, resign under circumstances that may undermine the company's credit and reputation:

In accordance with article 12 of the Board of Directors Regulations, directors must apprise the Board of Directors of any circumstances affecting them that might harm the Company's reputation and credit and circumstances that may impact their suitability for the post.

Directors must place their office at the disposal of the Board of Directors and accept its decision regarding their continuity or non-continuity in office. Should the Board resolve they not continue, they will be obliged to tender their resignation when for reasons attributable to the director in his or her condition as such, serious damage has been done to the Company's net worth, credit and/or reputation or when they lose their suitability to hold the position of director of the Bank.

C.1.43 Indicate whether any member of the Board of Directors has informed the company of any legal suit or court proceedings against him or her for any of the offences listed in article 213 of the Corporate Enterprises Act:

NO

Indicate whether the Board of Directors has analysed the case. If so, explain the grounds for the decision taken as to whether or not the director should retain his/her directorship or, where applicable, describe the actions taken or planned to be taken by the Board of Directors on the date of this report.

Explain the committee's duties, describe the procedure and organisational and operational rules and summarize the main actions taken during the year.

In accordance with article 27 of BBVA's Board of Directors Regulations, the Executive Committee shall be apprised of matters delegated by the Board of Directors, in accordance with the pertinent legislation currently in force or the Company Bylaws.

As regards its organisational and operating rules of this Committee, article 28 of the Board Regulations establishes that the Executive Committee shall meet on the dates set out in the annual calendar of meetings and at the request of the Chair or the Chair's delegate. All other aspects of its organisation and operation will be subject to the provisions established for the Board of Directors by the Board Regulations. Once the minutes of the meeting of the Executive Committee are approved, they shall be signed by the meeting's Secretary and countersigned by whoever has chaired the meeting.

Directors will be given access to the approved minutes of the Executive Committee at the beginning of Board meetings, so that they can be apprised of the content of its meetings and the resolutions it has adopted.

Regarding its most important activities during 2015, the Executive Committee has ascertained and examined the quarterly and annual results of the Bank, and the monthly performance of the activity and results of the Group throughout 2015. It has been informed on the main resolutions of the Committee regarding Bank Assets and Liabilities; undertaken tasks of risk management, control and supervision at the BBVA Group during 2015; analyzed the most relevant aspects regarding the BBVA share performance; been informed on the most prominent aspects of legal and regulatory developments affecting financial institutions; analyzed and, where pertinent, approved the different operations and projects arising in Group activities; and been informed of the amendments

Explain the committee's duties, describe the procedure and organisational and operational rules and summarize the main actions taken during the year.

As established in article 30 of the Board of Directors Regulations, the duties of the Audit and Compliance Committee include the following:

- Report to the General Meeting on questions raised with respect to those matters falling within the Committee's competence.
- Oversee the efficacy of the internal control of the Company, the internal audit and the risk-management systems in the process of drawing up and reporting the regulatory financial information, including tax risks. Also to discuss with the financial auditor any significant weaknesses in the internal control system detected when the audit is conducted, without undermining its independence.
- Oversee the process of drawing up and reporting financial information and submit recommendations or proposals to the Board of Directors aimed at safeguarding its completeness.
- Submit to the Board of Directors proposals on the selection, appointment, re-election and replacement of the external auditor, taking responsibility for the selection process in accordance with applicable regulations, as well as their contractual conditions, and regularly collect information from the external auditor regarding the audit plan and its implementation, as well as preserving the auditor's independence in the performance of their duties.
- Establish correct relations with the external auditor in order to receive information on any matters that may jeopardise their independence, for examination by the Committee, and any others relating to the process of the financial auditing; as well as those other communications provided for by law and by the auditing regulations.
- Each year before the external financial auditor issues their report on the financial statements, to issue a report expressing an opinion on whether the independence of the external financial auditor has been compromised. This report must unfailingly contain the reasoned valuation of the provision of each of the additional services referred to in the previous subsection, considered individually and as a whole, other than the legally-required audit and with respect to the regime of independence or to the standards regulating the audit activity.

This English version is a translation of the original in Spanish for information purposes only. In case of a discrepancy, the Spanish original will prevail.

- Report, prior to the Board of Directors adopting resolutions, on all those matters established by law, by the Company Bylaws and by these Regulations, and in particular on: (i) the financial information that the Company must periodically publish; (ii) the creation or acquisition of a holding in special-purpose entities or entities domiciled in countries or territories considered tax havens; and (iii) related-party transactions.
- Oversee compliance with applicable domestic and international regulations on matters related to money laundering, conduct on the securities markets, data protection and the scope of Group activities with respect to anti-trust regulations. Also to ensure that any requests for action or information made by official authorities with competence in these matters are dealt with in due time and in due form.
- Ensure that the codes of ethics and of internal conduct and conduct on the securities market, as they apply to Group personnel, comply with regulatory requirements and are adequate.
- Especially to oversee compliance with the provisions applicable to directors contained herein, as well as their compliance with the applicable standards of conduct on the securities markets.

In keeping with the organisational and operating rules, article 31 of the Board Regulations states that the Audit and Compliance Committee shall meet as often as necessary to discharge its duties, though an annual calendar of meetings will be drawn up in accordance with its tasks. The officers responsible for the areas within their remit, in particular, Accounting, Internal Audit and Compliance, may be invited to attend Committee meetings. They may request that other staff be invited from their areas who have particular knowledge or responsibility in the matters contained on the agenda, when their presence at the meeting is deemed advisable. However, only the Committee members and the Secretary shall be present when the results and conclusions of the meeting are assessed. The Committee may hire external advisory services for matters of importance if, for reasons of specialization or independence, it considers that such services cannot be rendered by Group experts or technical personnel. The Committee may also call on the personal cooperation and reports of any employee when it considers that this is necessary to fulfill its duties with regard to relevant issues. The usual channel for a request of this nature shall be through the reporting lines of the Company. However, in exceptional cases the request may be notified directly to the person in question. The system of convening meetings, quorums, the approval of resolutions, minutes and other details of its system of operation will be governed by the provisions of the Board Regulations insofar as they are applicable to the Committee and by any specific Regulations that may be established.

The most important activities carried out by the Audit & Compliance Committee in 2015 are detailed in section C.2.5.

Explain the committee's duties, describe the procedure and organizational and operational rules and summarize the main actions taken during the year.

The Appointments Committee is bound to assist the Board of Directors in matters relating to the selection and appointment of Board members. Thus, as provided for under article 33 of the Board Regulations, the Appointments Committee will discharge the following duties:

- Submit proposals to the Board of Directors on the appointment, re-election or separation of independent directors and report in proposals for the appointment, re-election or separation of the other directors.

To such end, the Committee will evaluate the balance of skills, knowledge and expertise on the Board of Directors, as well as the conditions that candidates should display to fill the vacancies arising, assessing the dedication necessary to be able to suitably perform their duties in view of the needs that the Company's governing bodies may have at any time.

The Committee will ensure that when filling new vacancies, the selection procedures are not marred by implicit biases that may entail any discrimination and in particular discrimination that may hinder the selection of female directors, trying to ensure that women who display the professional profile being sought are included on the shortlists.

Likewise, when drawing up proposals within its scope of competence for the appointment of directors the Committee will take into account in case they may be considered suitable, any applications that may be made by any member of the Board of Directors for potential candidates to fill the vacancies.

- Submit proposals to the Board of Directors for policies on the selection and diversity of members of the Board of Directors.

- Establish a target for representation of the underrepresented gender in the Board of Directors and draw up guidelines on how to reach that target.

- Analyse the structure, size and composition of the Board of Directors, at least once a year when carrying out its operational assessment.

- Analyse the suitability of the various members of the Board of Directors.

- Perform an annual review of the status of each director, so that this may be reflected in the annual corporate governance report.

- Report the proposals for the appointment of the Chairman and the Secretary and, where applicable, of the Deputy Chairman and the Deputy Secretary.

- Report on the performance of the duties of the Chairman of the Board, for the purposes of the periodic assessment by the Board of Directors, under the terms established in the Board Regulations.

- Examine and organise the succession of the Chairman in conjunction with the Lead Director and, as applicable, file proposals with the Board of Directors so that the succession takes place in an planned and orderly manner.

- Review the Board of Directors' policy on the selection and appointment of members of senior management, and file recommendations with the Board when applicable.

- Report on proposals for appointment and separation of senior managers.

Moreover, article 34 of the Board Regulations regulates the organisational and operating rules of the Appointments Committee, establishing that it will meet as often as necessary to fulfill its duties, convened by its Chair or by whoever stands in for its Chair pursuant to the provisions of article 32 of the Regulations. The Committee may request the attendance at its sessions of persons with tasks in the Group that are related to the Committee's duties. It may also obtain advice as necessary to establish criteria related to its business. This will be done through the Secretary of the Board. For all else, the system for convening meetings, quorums, adopting resolutions, minutes and other details of its operation will be in accordance with the provisions of the Board Regulations insofar as they are applicable.

The most important activities carried out by the Appointments Committee in 2015 are detailed in section C.2.5.

Explain the committee's duties, describe the procedure and organizational and operational rules and summarize the main actions taken during the year.

The Remuneration Committee's main task is to assist the Board of Directors in matters related to the remuneration policy for directors, senior management and any employees whose professional activities have a significant impact on the Bank's risk profile, ensuring that the established remuneration policy is observed. Thus, as provided for under article 36 of the Board of Directors Regulations, it will discharge the following duties:

- Propose to the Board of Directors, for its submission to the General Meeting, the directors' remuneration policy, with respect to its items, amounts, and parameters for its determination and its vesting. Also to submit the corresponding report, in the terms established by applicable law at any time.
- Determine the extent and amount of the individual remunerations, entitlements and other economic compensations and other contractual conditions for the executive directors, so that these can be reflected in their contracts. The Committee's proposals on such matters will be submitted to the Board of Directors.
- Propose the annual report on the remuneration of the Bank directors to the Board of Directors each year, which will then be submitted to the Annual General Meeting, in compliance with the applicable legislation.
- Propose the remuneration policy to the Board of Directors for senior managers and employees whose professional activities have a significant impact on the Company's risk profile.
- Propose the basic conditions of the senior management contracts to the Board, and directly supervise the remuneration of the senior managers in charge of risk management and compliance functions within the Company.
- Oversee observance of the remuneration policy established by the Company and periodically review the remuneration policy applied to directors, senior managers and employees whose professional activities have a significant impact on the Company's risk profile.
- Verify the information on directors and senior managers remunerations contained in the different corporate documents, including the annual report on directors' remuneration.

Moreover, article 37 of the Board of Directors Regulations states that the Remuneration Committee will meet as often as necessary to fulfill its duties, convened by its Chair or by whoever stands in for its Chair pursuant to the provisions of article 35 of the Regulations. The Committee may request the attendance at its sessions of persons with tasks in the Group that are related to the Committee's duties. It may also obtain advice as necessary to establish criteria related to its business. This will be done through the Secretary of the Board. For all else, the system for convening meetings, quorums, adopting resolutions, minutes and other details of its operation will be in accordance with the provisions of the Board Regulations insofar as they are applicable.

The most important activities carried out by the Remuneration Committee in 2015 are detailed in section C.2.5.

Explain the committee's duties, describe the procedure and organisational and operational rules and summarize the main actions taken during the year.

The Risk Committee will be tasked with assisting the Board of Directors in determining and monitoring the Group's risk control and management policy and its strategy in this area. Thus, as provided for under article 39 of the Board of Directors Regulations, it will discharge the following duties:

- Analyse and assess proposals to the Group's risk management, control and strategy. In particular, these will identify:

- i. The Group's risk appetite; and
- ii. Establishment of the level of risk considered acceptable according to the risk profile and capital at risk, broken down by the Group's businesses and areas of activity.

- Analyse and assess the control and management policies for the Group's different risks and the information and internal control systems.

- The measures established to mitigate the impact of the risks identified, should they materialise.

- Monitor the performance of the Group's risks and their fit with the strategies and policies and the Group's risk appetite.

- Analyse, prior to submitting them to the Board of Directors or the Executive Committee, those risk transactions that must be put to its consideration.

- Examine whether the prices of the assets and liabilities offered to customers take fully into account the Bank's business model and risk strategy and, if not, present a remedy plan to the Board of Directors.

- Participate in the process for establishing the remuneration policy, checking that is consistent with sound and effective risk management and does not encourage risk-taking that exceeds the level of tolerated risk of the Company.

- Check that the Company and its Group has the means, systems, structures and resources in line with best practices that enable it to implement its risk management strategy, ensuring that the entity's risk management mechanisms are matched to its strategy.

Moreover, article 40 of the Board Regulations regulates the organisational and operating rules of the Risk Committee, establishing that it will meet as often as necessary to fulfill its duties, convened by its Chair or by whoever stands in for its Chair pursuant to the provisions of article 38 of the Board Regulations, though an annual calendar of meetings will be drawn up in accordance with its tasks. The Committee may request the attendance at its meetings of the Group's Chief Risk Officer, as well as the executives to whom the various risk areas report or the persons with tasks in the Group that are related to the Committee's duties. The Board Regulations are available on the Company's website and regulate the composition, duties and operation of the Board Committees. In its meeting on 22 December 2015, the Board agreed to modify the duties of the Audit and Compliance, Appointments and Remuneration Committees to adapt them to the Account Audit Act (Law 22/2015) and the Code of Good Governance.

REMUNERATION COMMITTEE: The Chair of the Remuneration Committee presented a report to the Board on its activities during 2015, describing the following aspects: the proposal to the Board of a new remuneration policy of directors, implementation thereof, determination of a new structure for indicators and weighting for generating the 2015 Annual Variable Remuneration was submitted for the consideration by the General Meeting and included the scales associated therewith; the proposal to the Board for its approval of the remuneration policy of the identified group; the assignment of "theoretical shares" of the remuneration system with deferred distribution to non-executive directors; the basic contractual conditions for Senior Management; and the remuneration for executive directors, such as liquidation of the 2014 Annual Variable Remuneration, the updated of the deferred portions of the variable remuneration from previous years, and the revision of the fixed and variable remuneration of reference for 2015. This also included, inter alia, the tasks executed by the Committee in relation to the Annual Report on Directors' Remuneration, proposed to the Board for a consultative vote by the General Meeting, review of the application of the Remuneration Policy in the previous year and the monitoring of the remuneration for the officers in the Risk and Compliance areas.

AUDIT & COMPLIANCE COMMITTEE: The Audit & Compliance Committee has specific Regulations approved by the Board and available on the company's website, which govern its operation and powers. These Regulations have been amended by the Board in 2015 to adapt them to the new legislative requirements and best practices in corporate governance.

The Chair of the Audit and Compliance Committee submitted to the Board a report on its activity in 2015, giving an account of the tasks performed by the Committee in relation to the functions within its remit, indicating that the Committee had carried out its activity with no incidents and fulfilled its duties in relation to the supervision of financial information; the internal control system for financial-accounting information; the monitoring and supervision of the internal and external audits; the matters related to compliance; and those related to the regulatory area. European Central Bank; on the annual plan for the Compliance area and its regular monitoring; and the communications with both national and international supervisory and regulatory authorities. With respect to the external audit, it covered the working plans, schedules and communication with the persons responsible for the account auditors, the Committee having ensured the independence of the account auditor in compliance with applicable regulations.

RISK COMMITTEE: The Risk Committee has specific Regulations approved by the Board and available on the company's website, which govern matters including its duties and procedural standards. These Regulations were amended in 2015 to adapt to the new legislative requirements.

The Chair of the Risk Committee submitted to the Board a report related to the most significant aspects of the activity carried out in 2015 by the Committee in the performance of its duties, giving an account of the analysis conducted on the corporate policies, the proposed limits on the Group's different risks and the treatment of the transactions put to its consideration, on which the relevant report had been issued. The Chair also informed on the Group's general control and risk management model and its progress, also giving an account of the regular monitoring of the development of the fundamental metrics established in the Group's risk management system and the solvency indicators of the Group and for its capital ratios. The Chair likewise reported on the work carried out by the Committee concerning the review of the general policies for the purposes of risk management governance, monitoring and oversight tasks insofar as the Risk Data Aggregation (RDA) Project and the liquidity and financing ratio monitoring established by the Group. Likewise, Chair reported on the monitoring of the Committee on the Group risk profile; risk weighted assets; evolution of the Group's structural risks, particularly management on the structural change risk; evolution of market risks; and the management and development of credit risk, with a detailed analysis of its positioning by classes of assets, distribution by geographical area, portfolio and customer, as well as on the development of the main ratios and metrics; and provisions for charge-offs. The Chair also reported on the tracking and progress of the other main risks managed by the Group, underscoring the monitoring made by the Committee regarding the evolution of technology and real estate risks.

C.2.6 Section repealed.

D RELATED-PARTY TRANSACTIONS AND INTRA-GROUP TRANSACTIONS

D.1 Explain the procedure, if any, for approving related-party and intra-group transactions.

Procedures for approving related party transactions
<p>Article 17 v) of the Board of Directors Regulations establishes that the Board is responsible for approving, where applicable, the transactions that the Company or its Group companies may make with directors or with shareholders that individually or in concert hold a significant interest. This includes shareholders represented on the Company's Board of Directors or the boards of other Group companies, or with parties related to them, with the exceptions established by law.</p> <p>Moreover, article 8 of the Board of Directors Regulations establishes that approval of the transactions of the Company or its Group companies with directors needing to be approved by the Board of Directors will be granted after receiving a report from the Audit Committee. The only exceptions to this approval will be transactions that simultaneously meet the three following specifications: (i) they are carried out under contracts with standard terms and are applied en masse to a large number of customers; (ii) they go through at market rates or prices set in general by the party acting as supplier of the goods or services; and (iii) they are worth less than 1% of the Company's annual revenues.</p>

D.2 Detail any significant transactions, entailing a transfer of a significant amount or obligations between the company or its group companies, and the company's significant shareholders:

Name of the directors and/or senior managers (person or company)	Name of the related party (person or company)	Nature of relationship	Nature of transaction	Amount (€k)

D.4 Detail the significant transactions in which the company has engaged with other companies belonging to the same group, except those that are eliminated in the process of drawing up the consolidated financial statements and that do not form part of the company's usual trade with respect to its object and conditions.

In any event, provide information on any intragroup transaction with companies established in countries or territories considered tax havens.

Name of the Group Company	Brief description of the transaction	Amount (€k)
BBVA GLOBAL FINANCE LTD.	Holding of securities representing debt	1,410
BBVA GLOBAL FINANCE LTD.	Current account deposits	1,403
BBVA GLOBAL FINANCE LTD.	Issue-linked subordinated liabilities	351,942

D.5 State the amount of the transactions carried out with other related parties.

D.6 Detail the mechanisms established to detect, determine and resolve possible conflicts of interest between the company and/or its group, and its directors, managers and/or significant shareholders.

Articles 7 and 8 of the Board Regulations regulate issues relating to possible conflicts of interest as follows:

Article 7

Directors must adopt necessary measures to avoid finding themselves in situations where their interests, whether for their own account or for that of others, may enter into conflict with the corporate interest and with their duties with respect to the Company, unless the Company has granted its consent under the terms established in applicable legislation and in the Board of Directors Regulations.

Likewise, they must refrain from participating in deliberations and votes on resolutions or decisions in which they or a related party may have a direct or indirect conflict of interest, unless these are decisions relating to appointment to or severance from positions on the governing body.

Directors must notify the Board of Directors of any situation of direct or indirect conflict that they or parties related to them may have with respect to the Company's interest.

Article 8

This English version is a translation of the original in Spanish for information purposes only. In case of a discrepancy, the Spanish original will prevail.

The duty of avoiding situations of conflict of interest referred to in the previous article obliges the directors to refrain from, in particular:

- Carrying out transactions with the Company, unless these are ordinary business, performed under standard conditions for the customers and of insignificant quantity. Such transactions are deemed to be those whose information is not necessary to provide a true picture of the net worth, financial situation and performance of the Company.
- Using the Company's name or invoking their position as director to unduly influence the performance of private transactions.
- Making use of the corporate assets, including the Company's confidential information, for private ends.
- Taking advantage of the Company's business opportunities.
- Obtaining advantages or remuneration from third parties other than the Company and its Group, associated to the performance of their position, unless they are mere tokens of courtesy.
- Engaging in activities for their own account or on behalf of third parties that involve effective actual or potential competition with the Company or that, in any other way, bring them into permanent conflict with the Company's interests.

The above provisions will also apply should the beneficiary of the prohibited acts or activities described in the previous subsections be a related party related to the director. However, the Company may dispense with the aforementioned prohibitions in specific cases, authorising a director or a related party to carry out a certain transaction with the Company, to use certain corporate assets, to take advantage of a specific business opportunity or to obtain an advantage or remuneration from a third party.

When the authorization is intended to dispense with the prohibition against obtaining an advantage or remuneration from third parties, or affects a transaction whose value is over 10% of the corporate assets, it must necessarily be agreed by a General Meeting resolution.

The obligation not to compete with the Company may only be dispensed with when no damage is expected to the Company or when any damage that is expected is compensated by benefits that are foreseen from the dispensation. The dispensation will be conferred under an express and separate resolution of the General Meeting.

In other cases, the authorisation may also be resolved by the Board of Directors, provided the independence of the members conferring it is guaranteed with respect to the director receiving the dispensation. Moreover, it will be necessary to ensure that the authorized transaction will not do harm to the corporate net worth or, where applicable, that it is carried out under market conditions and that the process is transparent.

Approval of the transactions of the Company or its Group companies with directors needing to be approved by the Board will be granted after receiving a report from the Audit Committee. The only exceptions to this approval will be transactions that simultaneously meet the following 3 specifications: 1) they are carried out under contracts with standard terms and are applied en masse to a large number of customers; 2) they go through at market rates or prices set in general by the party acting as supplier of the goods or services; and 3) they are worth less than one per cent of the Company's annual revenues.

Since BBVA is a credit institution, it is subject to the provisions of Act 10/2014, dated 26th June, on the regulation, supervision and solvency of credit institutions, whereby the directors and general managers or similar may not obtain credits, bonds or guarantees from the Bank on whose board or management they work, above the limit and under the terms established in article 35 of Royal Decree 84/2015, which implemented Law 10/2014, unless expressly authorized by the Bank of Spain.

All the members of the Board of Directors and the senior management are subject to the Company's Code of Conduct on the Securities Markets. This Code is intended to control possible conflicts of interest. It establishes that everyone subject to it must notify the head of their area or the Compliance Unit of situations that could potentially and under specific circumstances may entail conflicts of interest that could compromise their impartiality, before they engage in any transaction or conclude any business in which they could arise.

E RISK CONTROL AND MANAGEMENT SYSTEMS

E.1 Explain the scope of the company's Risk Management System, including risks of a tax-related nature.

The BBVA Group has a general model of risk management and control in place which is appropriate to its business model, its organization and countries in which it operates, that enables it to carry out its activity within the framework of the risk control and management strategy and policy defined by the Bank's corporate bodies and adapt to a changing economic and regulatory environment, addressing its management in a global way adapted to the circumstances in any given time.

The risk management function at BBVA (Global Risk Management) is organized and developed by establishing procedures and specific rules for each type of risk, bringing the elements of the model closer to the day-to-day management of risks in the Group.

The elements comprising the model are:

1. A system of governance and organization of the risk management function that has an adequate definition of roles and responsibilities in all areas, a series of committees and delegation structures, and an internal control system which is consistent with the nature and scale of the risks.
2. A Group risk appetite approved by the Board that determines the risks and the risk level that the Group is willing to assume to achieve its business objectives.
3. A management model that, in addition to a risk planning scheme, also includes a homogeneous set of regulations and comprehensive management of the risks throughout their life cycle.
4. A framework of risk identification, evaluation, monitoring and reporting that provides the model with a dynamic and proactive vision to enable compliance with the risk appetite, even in adverse scenarios.
5. An adequate infrastructure that ensures that the Group has the human, technological and methodological resources needed for effective management and supervision of risks in order to carry out the functions included in the model.

Some notes on the management of different risks are given below:

- Credit risk: the most relevant for the Group and includes management of counterparty, issuer, settlement and country-specific risks. Management of this risk is based on the following principles: A) availability of basic information for assessing risks, proposing risks and having supporting documentation for approval purposes; B) sufficient customer fund generation and solvency to assume the repayments of principal and interest on loans owed; C) establishment of adequate and sufficient guarantees to allow effective recovery of the operation, considered a secondary and exceptional method of recovery for when the first has failed. Credit risk management is based on a comprehensive structure covering for objective and independent decision-making throughout its life cycle.
- Structural interest-rate risk: This includes the potential impact that changes in market interest rates have on the

This English version is a translation of the original in Spanish for information purposes only. In case of a discrepancy, the Spanish original will prevail.

net interest income and book value of entities. Its management model in the Group is decentralized, thus the Balance-Sheet Management unit, pertaining to Finance, designs and executes the strategies to implement via ALCO in accordance with the tolerances set out in the risk appetite framework.

- Structural exchange-rate risk: Managed centrally in the Group and is focused on the risk that arises when consolidating holdings in subsidiaries with functional currencies other than the euro. The corporate Balance-Sheet Management unit, through ALCO, designs and executes the hedging strategies with the main purpose of controlling the potential negative effect of exchange-rate fluctuations on capital ratios and on the equivalent value in euros of the foreign-currency earnings of the different subsidiaries, considering the transactions according to market expectations and their cost.

- Structural equity risk: the exposure to this risk mainly stems from holdings in non-strategic industrial and financial companies with medium- and long-term investment horizons. It is managed in accordance with risk management policies for equity positions in the equity portfolio to ensure their adaptation to BBVA's business model and risk tolerance level.

- Market risk (trading portfolio): This arises from the probability of losses in the value of the positions held as a result of changes in the market prices of financial instruments. The Value at Risk (VaR) model is employed to measure market risk.

- Liquidity risk: The short-term aim of the control, monitoring and management of liquidity and funding risk is to meet the payment commitments in due time and form, without having to raise funds under burdensome conditions or conditions that may damage the institution's reputation. In the medium and long term, the aim is to ensure that the Group's funding structure is appropriate and that its evolution is suitable regarding the economic situation, the markets and the regulatory changes, in accordance with the established risk appetite.

- Operational risk: operational risk management is based on the value provided by the Advanced Measurement Approach model (AMA): knowledge, identification, prioritization and management of potential and actual risks, supported by a governance model to drive management across all of the Group's units. The aim is to reduce operating losses by managing an adequate control environment.

Regarding taxation, BBVA has defined a tax-related management policy based on a suitable control environment, a system for identifying risks and a monitoring process including continuous improvement of the effectiveness of the established controls.

E.2 Identify the corporate bodies responsible for drawing up and enforcing the Risk Management System, including tax-related risks.

BBVA's risk governance system is characterized by a special involvement of its corporate bodies, both in setting the risk strategy and in monitoring and supervising its implementation on an ongoing basis.

The Board of Directors approves the risk strategy and supervises the internal control and management systems. Specifically, the strategy approved by the Board includes, at least, the Group's risk appetite statement, the fundamental metrics and the basic structure of limits by geographical areas, types of risk and classes of assets, as well as the bases of the risk management and control model established in this way. The Board ensures that the budget is in line with the approved risk appetite.

On the basis established by the Board of Directors, the Executive Committee approves specific corporate policies for each type of risk. This Committee also approves and monitors the Group's risk limits, and is kept informed of any over-limits and of the corrective measures established.

Lastly, the Board of Directors has set up a committee specializing in risks, the Risks Committee. This committee conducts an ongoing analysis and monitoring of risks within the remit of the corporate bodies, assisting the Board of Directors and the Executive Committee in the determination and monitoring of the risk strategy and the corporate policies, respectively. Another task of special relevance it carries out is detailed control and monitoring of the risks that affect the Group as a whole, which enables it to supervise the effective integration of the risk strategy into management and the application of the corporate policies approved by the corporate bodies.

The head of GRM is the Group's Chief Risk Officer (CRO), whose main responsibility is to ensure that the Group's risks are managed in accordance with the model. For the better performance of his duties, the Chief Risk Officer is supported by a structure consisting of cross-cutting risk units in the corporate area and specific risk units in the Group's geographical areas and/or business areas. Each of these units is headed by a Risk Officer who, within his/her field of competence, carries out risk management and control functions and is responsible for applying the corporate policies and rules approved at the Group level in a consistent manner, adapting them if necessary to the local requirements and reporting to the local corporate bodies.

This English version is a translation of the original in Spanish for information purposes only. In case of a discrepancy, the Spanish original will prevail.

The Risk Officers of the geographical and/or business areas report both to the Group's Chief Risk Officer and to the head of their geographical and/or business area. This dual reporting system aims to ensure the independence of the local risk management function from the operating functions and enable its alignment with the Group's corporate policies and goals related to risks.

The risks function has a decision-making process supported by a structure of committees. The Global Risk Management Committee (GRMC) is the highest executive body in the risk area and proposes, examines and, where applicable, approves, among others, the internal risk regulatory framework and the procedures and infrastructures needed to identify, assess, measure and manage the risks facing the Group in its businesses, as well as the admission of operations involving more relevant risks.

Regarding the tax-related risk, the Tax Department establishes the control mechanisms and internal rules necessary to ensure compliance with the tax laws in force and the tax strategy approved by the Board of Directors.

This duty undergoes supervision by the Audit Committee of the BBVA Group.

E.3 Indicate the principal risks, including tax-related risks that could prevent business targets from being met.

BBVA has processes for risk identification and scenario analysis that enable the Group to conduct a dynamic and proactive risk management.

The risk identification processes are forward-looking to ensure the identification of emerging risks, and take into account the concerns of both the business areas, which are closer to the reality of the different geographical areas, and the corporate areas and senior management.

Risks are captured and measured in a consistent way using the most appropriate methodologies in each case. Their measurement includes the design and application of scenario analyses and stress testing, and considers the controls the risks are subjected to.

As part of this process, a forward projection is performed of the risk appetite variables in stress scenarios with the aim of identifying possible deviations from the established thresholds; if such deviations are detected, the appropriate measures are adopted to keep those variables within the target risk profile.

In this context, there are a series of emerging risks that could affect the Group's business performance. These risks are organized into the following large blocks:

- Macroeconomic and geopolitical risks
 - A slowdown in growth in emerging economies and possible difficulties in Europe's economic recovery are major focal points for the Group.
 - On the other hand, financial institutions are exposed to the risks derived from political and social instability in the countries in which they operate, which can have a major impact on their economies and even at regional level.

The Group's diversification is the key to achieving a high level of recurring revenue, despite the conditions of the environment and the economic cycles of the economies in which it operates.

- Regulatory, legal, tax-related and reputational risks
 - Financial institutions are exposed to a complex and changing regulatory and legal environment that can impact their growth capacity and the conducting of certain businesses, with higher liquidity and capital requirements and lower profitability ratios. The Group monitors changes in the regulatory framework on an ongoing basis to enable it to anticipate and adapt to those changes sufficiently in advance, adopt the best practices and the most efficient and rigorous criteria for their implementation.
 - The financial sector is coming under intense scrutiny by regulators, governments and society itself. Negative news or inappropriate conduct can seriously damage an institution's reputation and affect its ability to conduct a sustainable business. The attitudes and conduct of the Group and of its members are governed by the principles of integrity, honesty, long-term vision and best practices, thanks to the internal control model, the Code of Conduct, tax strategy and the Group's Responsible Business strategy, among others.
 - The financial sector is exposed to growing litigation rates in that financial entities are facing an elevated

number of lawsuits whose economic consequences cannot be easily foreseen. The Group carries out a constant management and tracking of such lawsuits in defense of its own interests, and allocates, when considered necessary, the corresponding provisions for coverage thereof, following the criteria of internal lawyers and external legal experts handling the legal prosecution of the proceedings themselves and based on the applicable laws and regulations.

- Business and operational risks

- New technologies and forms of customer relations: The development of the digital world and the information technologies poses major challenges for financial institutions, that represent threats (new competitors, disintermediation...) and also opportunities (new customer relations framework, greater ability to adapt to their needs, new products and distribution channels...). In this regard, digital transformation is one of the priorities for the Group, which aims to lead the digital banking of the future.
- Technological risks and security breaches: Financial institutions are exposed to new threats such as cyber-attacks, internal and customer database theft, payment system fraud... that require major investments in security from the technological and human point of view. The Group attaches a great deal of importance to active management and control of operational and technological risk. One example is the early adoption of advanced models for managing these risks (AMA - Advanced Measurement Approach).

E.4 Identify whether the entity has a risk tolerance level, including tax-related risks.

The Group's risk appetite approved by the Board of Directors determines the risks and the risk level that the Group is willing to assume to achieve its business objectives. These are expressed in terms of capital, liquidity, profitability, recurring revenue, cost of risk or other metrics.

The definition of the risk appetite has the following goals:

- To express the Group's strategy and the maximum levels of risk it is willing to assume, at both Group and geographical and/or business area level.
- To establish a set of action guidelines and a management framework in the medium and long term that prevent actions (at both Group and geographical and/or business area level) that could compromise the future viability of the Group.
- To establish a framework for relations with the geographical and/or business areas that, while preserving their decision-making autonomy, ensures their consistency, avoiding inconsistent conduct.
- To establish a common language throughout the organization and develop an enforcement-oriented risk culture.
- Alignment with the new regulatory requirements, facilitating communication with regulators, investors and other stakeholders, thanks to an integrated and stable risk management framework.

The risk appetite is expressed through the following elements:

- Risk appetite statement: sets out the general principles of the Group's risk strategy and the target risk profile. BBVA's risk policy is aimed at maintaining the risk profile expressed in the Group's risk appetite statement, which is structured around a series of metrics (fundamental metrics and limits).
- Fundamental metrics: they reflect, in quantitative terms, the principles and the target risk profile set out in the risk appetite statement.
- Limits: they shape the risk appetite at geographical area, risk type and asset class level, enabling its integration into management.

The corporate risk area works with the various geographical and/or business areas to define their risk appetite, so that it is coordinated with, and integrated into the Group's risk appetite, making sure that its profile is in line with the one defined.

The BBVA Group assumes a certain degree of risk to be able to provide financial services and products to its customers and obtain attractive returns for its shareholders. The organization must understand, manage and control the risks it assumes.

The aim of the organization is not to eliminate all risks, but to assume a prudent level of risks that allows it to generate returns while maintaining acceptable capital and funding levels and generating recurrent earnings.

E.5 State what risks, including tax-related risks, have occurred during the year.

This English version is a translation of the original in Spanish for information purposes only. In case of a discrepancy, the Spanish original will prevail.

Risk is inherent to financial business, so the occurrence of risk to a greater or lesser extent is absolutely implicit in the Group's activities. BBVA thus provides detailed information on its yearly financial statements (note 7 in the Report and note 19 in the consolidated accounts insofar as tax-related risks) regarding the developments of such risks, since their very nature can permanently affect the Group in undertaking its activities.

E.6 Explain the response and supervision plans for the principal risks faced by the company, including tax-related risks

The BBVA Group's internal control system takes its inspiration from the best practices developed both in the COSO (Committee of Sponsoring organizations of the Treadway Commission) "Enterprise Risk Management - Integrated Framework" and in the "Framework for Internal Control Systems in Banking Organizations", drawn up by the Basel Bank of International Settlements (BIS).

The control model has a system comprising three lines of defense:

- The first line is made up of the Group's business units, which are responsible for control within their remit and for implementing any measures that have been established higher up the management chain.
- The second line of defense comprises the specialist control units (Regulatory Compliance, Global Accounting & Information Management/Internal Financial Control, Internal Risk Control, Cybersecurity & digital trust, Operational Control and Control of the Production Departments of the support units, such as Talent&Culture, Legal Department, etc.). This line supervises control over the different units within its cross-cutting area of specialization, defines the mitigation and improvement measures necessary and promotes their proper implementation. The Corporate Operational Risk Management unit is also part of this line of defense, providing a common management methodology and tools.
- The third line consists of the Internal Audit unit, which conducts an independent review of the model, verifying the effectiveness and compliance with corporate policies, and providing independent information about the control model.

In addition, within the risk area, the Group has units for Internal Risk Control and Internal Validation that are independent of the units that develop the models, manage the processes and execute the controls.

Its scope of action is global, both from the geographical point of view and in terms of the types of risks. It encompasses all the areas of the organization and is designed to identify and manage the risks faced by the Group entities, in order to guarantee the established corporate objectives.

The main function of Internal Risk Control is to ensure the existence of a sufficient internal regulatory framework, a process and measures defined for each type of risks identified in the Group, and for those other types of risk that may potentially affect the Group, control their application and operation, and ensure that the risk strategy is integrated into the Group's management. Among other functions, Internal Validation is responsible for the independent review and validation, at internal level, of the models used to measure and assume the risks and for determining the Group's capital requirements.

The Group's Internal Risk Control Director is responsible for the function and reports its activities and informs on its work plans to CRO and to the Board's Risks Committee, assisting it in any matters where requested.

To perform its duties, the unit has a structure of teams at a corporate level and also in the most important geographical areas in which the Group operates. As in the corporate area, the local units remain independent from the business areas that implement the processes, and from the units that carry out the controls, reporting functionally to the Internal Risk Control unit. The unit's lines of action are established at Group level and it is then responsible for their local-level adaptation and implementation, and for reporting on the most relevant aspects.

Turning to tax risks, the Board of Directors approved the Tax Strategy for the BBVA Group on 1 July 2015. This strategy reflects the tax-related postures of the Group. In this regard, the Tax Department establishes the policies and control processes for guaranteeing compliance with the tax laws currently in force and the tax strategy.

F SYSTEMS OF INTERNAL RISK MANAGEMENT AND INTERNAL CONTROL OVER FINANCIAL REPORTING (ICFR)

Describe the mechanisms comprising the risk management and control systems for financial reporting (ICFR) in the entity.

This English version is a translation of the original in Spanish for information purposes only. In case of a discrepancy, the Spanish original will prevail.

F.1 The entity's control environment

Give information, describing the key features of at least:

F.1.1. Which bodies and/or functions are responsible for: (i) the existence and maintenance of an adequate and effective ICFR; (ii) its implementation; and (iii) its supervision.

Pursuant to article 17 of the Board Regulations, the Board of Directors approves the financial information that BBVA is required to publish periodically as a publicly traded company. The Board of Directors has an Audit & Compliance Committee, whose mission is to assist the Board supervise financial information and exercise control over the BBVA Group.

In this respect, the BBVA Audit & Compliance Committee Regulations establishes that the Committee's duties include the supervision of the sufficiency, suitability and effective operation of the internal control systems in the process of drawing up and preparing financial information, so as to rest assured of the correctness, accuracy, sufficiency and clarity of the financial information of the Entity and its consolidated Group.

The BBVA Group complies with the requirements imposed by the Sarbanes Oxley Act ("SOX") for each year's consolidated annual accounts due to its status as a publicly traded company listed with the U.S. Securities Exchange Commission ("SEC"). The main Group executives are involved in the design, compliance and maintenance of an effective internal control model that guarantees the quality and veracity of the financial information. The Global Accounting & Information Management Department ("GA&IM") is responsible for the operation and maintenance of the internal financial control model.

In addition, and with the aim of reinforcing internal control in the Group, the Corporate Assurance model was implemented in 2013 (which includes the ICFR). It establishes a framework for the supervision of the internal control model. The Corporate Assurance model (in which the business areas, support areas and the areas specializing in internal control participate) is organized into a system of committees that analyze the most relevant issues related to internal control in each geographical area, with the participation of the country's top managers. These committees report to the Group's Global Committee, chaired by the CEO with the assistance of the main executives responsible for the business and control areas.

The different internal control units at holding and local level are responsible for implementing and applying the internal control and operational risk methodology defined in the Group. These internal control units are responsible, together with the business areas, for identifying, prioritizing and assessing the risks, helping the units to implement a control model, documenting it and supervising it periodically as well as defining risk mitigating measures and promoting their proper implementation.

The effectiveness of this internal control system is assessed on an annual basis for those risks that may have an impact on the proper drawing up of the Group's financial statements. The Internal Financial Control area, the control specialists of the business and support areas and the Group's Internal Audit department collaborate in this assessment. In addition, the external auditor of the BBVA Group issues an opinion every year on the effectiveness of internal control over financial reporting based on criteria established by COSO (Committee of Sponsoring Organizations of the Treadway Commission) and in accordance with the standards of the U.S. Public Company Accounting Oversight Board (PCAOB). This opinion appears in the Form 20-F that is filed every year with the SEC.

The result of the annual assessment of the System of Internal Control over Financial Reporting is reported to the Group's Audit and Compliance Committee by the heads of Internal Control and Internal Financial Control.

F.1.2. Whether, especially in the process of drawing up the financial information, the following elements exist:

- Departments and/or mechanisms responsible for: (i) the design and review of the organisational structure; (ii) the clear definition of lines of responsibility and authority, with an adequate distribution of tasks and functions; and (iii) ensuring that sufficient procedures exist for their correct dissemination within the entity.

The drafting of the financial information is carried out by the local Financial Management units of the countries and in a centralized manner by the GA&IM Division, which is overall responsible for the drafting and reporting of accounting and regulatory information.

The BBVA Group has organizational structure design and review mechanisms that clearly define action lines, responsibility and authority so as to guarantee compliance with all legal requirements in force that would the drawing

up of financial information of the entity and consolidated group, and also has the channels and circuits necessary for their communication and distribution. The units responsible for drawing up these financial statements have a distribution of tasks and segregation of functions necessary to draw up these statements in an appropriate operational and control framework.

Additionally, there is an accountability model aimed at extending the culture of, and commitment to internal control. Those in charge of the design and operation of the processes that have an impact on financial reporting certify that all the controls associated with its operation under their responsibility are sufficient and have worked correctly.

- Code of conduct, approval body, degree of dissemination and instruction, principles and values included (indicating whether specific mention is made of recording the transactions and drawing up of the financial information), body in charge of analysing non-compliance and proposing corrective measures and sanctions.

BBVA has a Code of Conduct, approved by the Board of Directors, that sets out BBVA's specific commitments in developing one of the principles of its Corporate Culture: Integrity as a way of understanding and carrying out its businesses. This Code likewise establishes the corresponding channel for whistleblowers regarding possible infringements of the Code. It is the subject of ongoing training and refresher programs including key personnel in the financial function. The Code of Conduct has been updated in 2015 insofar as content and form to adjust its content to developments in the sector and the experience accumulated during the application thereof in recent years; simplifying and rendering its style more clear, accessible and integrative; adapting it even more to the international structure of the Group; and attempting to cover the ever-growing expectations of stakeholders and society in general regarding the manner to conduct business, especially in the financial sector.

The Code of Conduct applies to all entities comprising the BBVA Group and all its employees and management team. It has thus been distributed to apprise them of its content, and is published on the Bank's corporate website (www.bbva.com) and on the employees' website (intranet). Additionally, Group integrants undertake to observe its principles and rules in an express declaration of awareness and adhesion.

The content of the Code of Conduct is structured around the following blocks: Conduct with clients, conduct with coworkers, conduct with the company, conduct with society, and application of the code; with particular mention to the conduct criteria applicable when recording operations in sections 3.1 and 3.2 therein; and the transparency in financial information and market in sections 1.2, 3.13 and 3.17 therein.

The dissemination of its content is supplemented with training activities. They are underpinned by a mandatory online training course for all the employees and on-site refresher sessions, where deemed necessary.

The duties of the Audit & Compliance Committee include ensuring that the internal codes of ethics and conduct and on securities market, applicable to all personnel of the Group, comply with legal requirements and are adequate for the Bank.

Additionally, BBVA has adopted a structure of Corporate Integrity Management Committees (with individual powers at jurisdiction or Group entity levels, as applicable). Their joint scope of action covers all the Group businesses and activities and their main duty is to ensure effective application of the Code of Conduct. There is also a Corporate Integrity Management Committee whose scope of responsibility extends throughout BBVA. The fundamental mission of this committee entails ensuring uniform application of the Code in BBVA.

The Compliance Unit in turn independently and objectively promotes and supervises to ensure that BBVA acts with integrity, particularly in areas such as money-laundering prevention, conduct with clients, security market conduct, corruption prevention, data protection and other areas that could entail a reputational risk for BBVA. The unit's duties include fostering the knowledge and application of the Code of Conduct, promoting the drafting and distribution of its implementing standards, assisting in the resolution of any concern insofar as interpretation of the Code that may arise, and managing the Whistle-Blowing Channel.

- Whistle-blowing channel, to allow financial and accounting irregularities to be communicated to the Audit Committee, as well as possible non-compliance with the code of conduct and irregular activities in the organization, reporting where applicable if this is confidential in nature.

Preservation of the Corporate Integrity of BBVA transcends the merely personal accountability for individual actions, it calls for all employees to have zero tolerance for activities outside the Code of Conduct or that could harm the reputation or good name of BBVA, an attitude that is reflected in everyone's commitment to whistle-blowing, by timely

communication, of situations that, even when unrelated to their activity or area of responsibility, could be illegal or infringe upon the values and guidelines of the Code.

The Code of Conduct itself establishes the communication guidelines to follow and contemplates a Whistle-Blowing Channel, likewise guaranteeing the duty to reserve of the reporting parties, confidentiality of the investigations and the prohibition of retaliation or adverse consequences in light of communications made in good faith.

Telephone lines and email boxes have been set up for these communications in each jurisdiction. A list of these appears on the Group Intranet.

As described in the previous section, BBVA has adopted a structure of Corporate Integrity Management Committees (with individual powers at jurisdiction or Group entity levels, as applicable), whose joint scope of action covers all the Group businesses and activities and whose functions (explained in greater detail in their corresponding regulations) include:

- To promote adoption of the measures necessary to resolve ethically questionable actions that any of the Group members may have become aware of, either in the pursuit of their duties within the areas they represent, or as a consequence of receiving the aforementioned communications.

- To promptly report on those circumstances that could lead to significant risks for BBVA to:

(1) the Board of Directors or the Audit & Compliance Committee, as appropriate.

(2) Senior Management.

(3) The person in charge of drawing up the financial statements in order to ensure that they reflect what may be appropriate.

- [Periodic training and refresher courses for employees involved in preparing and revising the financial information, and in ICFR assessment, covering at least accounting standards, audit, internal control and risk management.](#)

Specific training and periodic refresher courses are given on accounting and tax-related standards, internal control and risk management in units involved in preparing and reviewing the financial and tax-related information and in evaluating the internal control system, to help them perform their functions correctly.

Within GA&IM there is an annual training program for all members of the area on aspects related to the drawing up of financial information: accounting, finance and tax matters, and other courses in accordance with the needs of the area. These courses are taught by professionals from the area and renowned external providers.

This specific training program includes bank-wide training, which includes courses on finance and technology.

Additionally, the BBVA Group has a personal development plan for all employees, which forms the basis of a personalized training program to deal with the areas of knowledge necessary to perform their functions.

F.2 Financial reporting risk assessment

Give information on at least:

[F.2.1. The key features of the risk identification process, including error and fraud risks, with respect to:](#)

- [Whether the process exists and is documented.](#)

The ICFR was developed by the Group Management in accordance with international standards set forth by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO"), establishing five components on which the effectiveness and efficiency of internal control systems must be based:

- Establishing an adequate control environment for monitoring all these activities.
- Evaluating the risks that may be incurred by an entity in drawing up its financial information.
- Designing the necessary controls to mitigate the most critical risks.
- Establishing the adequate information circuits to detect and communicate the system's weaknesses or inefficiencies.

This English version is a translation of the original in Spanish for information purposes only. In case of a discrepancy, the Spanish original will prevail.

- Monitoring such controls to ensure they are operational and the validity of their effectiveness over time.

In order to identify the risks with a greater potential impact on the generation of financial information, the processes from which such information is derived are identified and documented, and an analysis of the risks that may arise in each one is conducted.

Based on the corporate internal control and operational risk methodology, the risks are included in a range of categories by type, which include the error and fraud (internal/external) categories, and their probability of occurrence and possible impact is analyzed.

The process of identifying risks of error, falsehood or omission in the drawing up of the financial statements is carried out by the Financial Reporting Internal Control unit. The scope of the annual/quarterly or monthly assessment of their controls is determined based on the materiality of the risks, thus ensuring coverage of the critical risks for the financial statements.

The assessment of the aforementioned risks and of the effectiveness of their controls begins with the management's understanding of and insight into the business and the analyzed operating process, considering criteria of quantitative materiality, likelihood of occurrence and economic impact, in addition to qualitative criteria associated with the type, complexity and nature of the risks or of the business structure itself.

The system for identifying and assessing the risks of internal control over financial reporting is dynamic. It evolves continuously, always reflecting the reality of the Group's business, changes in operating processes, the risks affecting them and the controls that mitigate them.

All this is documented in a corporate management tool developed and managed by Operational Risk (Storm). This tool documents all the processes, risks and controls managed by the different control specialists, including the Financial Reporting Internal Control unit.

- Whether the process covers all the objectives of financial reporting (existence and occurrence; completeness; valuation; presentation, breakdown and comparability; and rights and obligations), whether the information is updated and with what frequency.

All the processes developed in the BBVA Group for drawing up financial information aim to record all financial transactions, value the assets and liabilities in accordance with applicable accounting regulations and provide a breakdown of the information in accordance with regulatory requirements and market needs.

The model of control over financial information analyses each of the aforementioned processes in order to ensure that error or fraud risks are properly covered with controls that work efficiently, and is updated when there are changes in the relevant processes for drawing up the financial information.

- The existence of a process for identifying the consolidation perimeter, taking into account aspects including the possible existence of complex corporate structures, instrumental or special purpose vehicles.

The GA&IM (Global Accounting and Information Management) organization includes a Consolidation department that carries out a monthly process of identification, analysis and updating of the Group's consolidation perimeter.

In addition, the information from the consolidation department on new companies set up by the Group's different units and the changes made to existing companies is compared with the issues analyzed by two specific committees whose function is to analyze and document the changes in the composition of the corporate group (Holding Structure Committee and Investments in Non-Banking Companies Committee, both corporate).

- Whether the process takes into account the effects of other types of risks (operational, technological, financial, legal, tax-related, reputational, environmental, etc.) insofar as they impact the financial statements.

The model of internal control over financial reporting applies to processes for drawing up such financial information and all operational or technical processes that could have a relevant impact on the financial, accounting, tax-related or management information.

As explained above, all the specialist control areas apply a standard methodology and use a common tool (Storm) to document the identification of the risks, including tax risks, of the controls that mitigate those risks, and of the assessment of their effectiveness.

This English version is a translation of the original in Spanish for information purposes only. In case of a discrepancy, the Spanish original will prevail.

There are control specialists in all the operational or support areas, and therefore any type of risk that may affect the Group's operations is analyzed under that methodology (market, credit, operational, technological, financial, legal, tax-related, reputational or any other type of risk) and is included in the ICFR insofar as it may have an impact on the financial information.

- Which of the entity's governance bodies supervises the process.

The process for identifying risks and assessing the effectiveness and suitability of the controls is documented at least once a year, supervised by the Internal Audit area and reported to the Global Corporate Assurance Committee of the Group.

Moreover, the Internal Audit Director and head of the Group's Internal Financial Control report each year to the Audit & Compliance Committee on the analysis and certification work carried out pursuant to SOX methodology, to comply with the legal requirements of the Sarbanes Oxley Act on internal control systems for the financial reporting included in Form 20-F, which is filed every year with the SEC (as explained in point one regarding the control environment).

F.3 Control activities

Give information on the main features, if at least the following exist:

F.3.1. Procedures for review and authorisation of the financial information and the description of the ICFR, to be published on the securities markets, indicating who is responsible for it, and the documentation describing the activity flows and controls (including those concerning risk of fraud) for the different types of transactions that may materially impact the financial statements, including the procedure for closing the accounts and the specific review of the relevant judgments, estimates, valuations and projections.

All the processes related to the drawing up of the financial information are documented, together with their control model: risks in each process and controls established for their mitigation. As explained in point F.2.1, the aforementioned risks and controls are recorded in the corporate tool Storm, which also includes the result of the assessment of the operation of the controls and the degree of risk mitigation.

In particular, the main processes related to the generation of financial information are: accounting, consolidation, financial reporting, financial planning and monitoring, financial and tax-related management. The analysis of these processes, their risks and their controls is also supplemented by all other critical risks that may have a financial impact from business areas or other support areas.

Likewise, there are procedures for review by the areas responsible for generating the financial and tax-related information disseminated to the securities markets, including the specific review of the relevant judgments, estimates and projections.

As mentioned in the annual financial statements, it is occasionally necessary to make estimates to determine the amount at which some assets, liabilities, income and expenses and commitments should be recorded. These estimates are mainly related to:

- Impairment losses on certain financial assets.
- The assumptions used to quantify certain provisions and in the actuarial calculation of liabilities and commitments for post-employment and other obligations.
- The useful life and impairment losses of tangible and intangible assets.
- The appraisal of goodwill and price assignments in business combinations.
- The fair value of certain unlisted assets and liabilities.
- The recoverability of deferred tax assets.

These estimates are made based on the best information available on the financial statement closing date and, together with the other relevant issues for the closing of the annual and six-monthly financial statements, are analyzed and authorized by a Technical Committee at GA&IM (GA&IM Executive Steering Committee) and submitted to the Audit and Compliance Committee before their filing by the Board of Directors.

F.3.2. Internal control procedures and policies for information systems (among others, access security, change control, their operation, operational continuity and segregation of functions) that support the relevant processes in the entity with respect to the drawing up and publication of the financial information.

This English version is a translation of the original in Spanish for information purposes only. In case of a discrepancy, the Spanish original will prevail.

The internal control models include procedures and controls regarding the operation of information systems and access security, functional segregation, development and modification of computer applications used to generate financial information.

The current methodology for internal control and operational risk establishes a list of controls by category whose breakdown includes (among others) two categories: access control and functional segregation. Both categories are identified in the model of internal control of financial information and their risks and controls are analyzed and assessed on a regular basis, so the integrity and reliability of the information drawn up can be guaranteed.

Additionally, there is a corporate level procedure for managing system access profiles. It is developed, implemented and updated by the Group's internal technology control unit. This unit is also in charge of providing support for control processes in change management (development in test environments and putting changes into production), incident management, management of transactions, media and backup copy management, and management of business continuity, inter alia.

With all these mechanisms, the BBVA Group ensures the maintenance of adequate management of access control, the establishment of the correct and necessary steps to put applications into production and their subsequent support, the creation of backup copies, and assurance of continuity in the processing and recording of transactions.

F.3.3. Internal control procedures and policies designed to supervise the management of activities subcontracted to third parties, and those aspects of the evaluation, calculation and assessment outsourced to independent experts, which may materially impact the financial statements.

The internal control policies establish controls and procedures for the management of subcontracted activities or those aspects of evaluation, calculation and assessment outsourced to independent experts.

There is a set of standards and an Outsourcing Committee that establishes and supervises the requirements that must be met at group level for the activities to be subcontracted. Regarding the financial processes, there are procedural manuals contemplating the outsourced activity that identify the processes to be executed and the controls to be applied by the service provider units and units entrusted with the outsourcing thereof. The controls established in the outsourced processes concerning the generation of financial information are also tested by the Internal Financial Control area.

The valuations from independent experts used for matters relevant for generating financial information are included within the standard circuit of review procedures executed by internal control, internal auditing and external auditing.

F.4 Information and communication

Give information on the main features, if at least the following exist:

F.4.1. A specific function in charge of defining and keeping the accounting policies updated (accounting policy department or area) and dealing with queries or conflicts stemming from their interpretation, ensuring fluent communication with those in charge of operations in the organization, and an up-to-date manual of accounting policies, communicated to the units through which the entity operates.

The organization has two areas within GA&IM (Group Financial Accounting and Global Supervisory Relations) in charge of the Accounting (Accounting Working Group) and Solvency Technical Committees. Their purpose is to analyze, study and issue standards that may impact the drawing up of the Group's financial information, determining the accounting and solvency criteria required to ensure correct recording of transactions to the accounts and calculation of capital requirements within the framework of standards issued by the Bank of Spain, the European Union (IASB, directives on equity) and the Basel Committee.

There is an updated accounting policies manual, disseminated over the Company intranet to all the units in the Group. This manual is the tool that guarantees that all the decisions related to accounting policies or specific accounting criteria to be applied in the Group are supported and are standardized. The Accounting Policies Manual is approved in the Accounting Working Group and is documented and updated for its use and analysis by all the Group's entities.

F.4.2. Mechanisms to capture and prepare the financial reporting in standardised formats, for application and use by all the units of the entity or the group, that support the main financial statements and the notes, and the information detailed on ICFR.

This English version is a translation of the original in Spanish for information purposes only. In case of a discrepancy, the Spanish original will prevail.

The GA&IM area of the Group and the financial areas of each countries are responsible of the elaboration of the financial reporting in accordance with the applicable accounting and consolidation rules. There is also a consolidation computer application that includes the information on the accounting of the various Group companies and performs the consolidation processes, including the standardization of accounting criteria, aggregation of balances and consolidation adjustments.

Control measures have also been implemented in each process to guarantee that all the data underpinning the financial information are collected in a comprehensive, exact and timely manner. There is also a single and standardized format for the financial reporting system. It is applicable to and used by all the Group units and supports the main financial statements and the explanatory notes. There are also control measures and procedures to ensure that the information disclosed to the markets includes a sufficient level of detail to enable investors and other users of the financial information to understand and interpret it.

F.5 Supervision of the system's operation

Give information, describing the key features of at least:

F.5.1. The ICFR supervision activities carried out by the Audit Committee and whether the entity has an internal audit function whose powers include providing support to the Audit Committee in its task of supervising the internal control system, including the ICFR. Likewise, give information on the scope of the ICFR assessment carried out during the year and of the procedure by which the person in charge of performing the assessment communicates its results, whether the entity has an action plan listing the possible corrective measures, and whether its impact on the financial reporting has been considered.

The internal control units of the business areas and of the support areas conduct a preliminary assessment of the internal control model, assess the risks of the processes and the degree of mitigation of the controls, identify weaknesses, design, implement and monitor the mitigation measures and action plans.

BBVA also has an Internal Audit unit that provides support to the Audit & Compliance Committee on the independent supervision of the financial information internal control system. The Internal Audit function is entirely independent of the units that draw up the financial information.

All the control weaknesses, mitigation measures and specific action plans are documented in the corporate tool Storm and submitted to the internal control and operational risk committees of the areas, as well as to the local or global Corporate Assurance Committees, based on the relevance of the detected issues.

To sum up: both the weaknesses identified by the internal control units and those detected by the internal or external auditor have an action plan in place to correct or mitigate the risks.

During 2015, internal control areas conducted a full assessment of the financial information internal control system, and, to date, no material or significant weakness have been revealed therein. The assessment was reported to the Audit & Compliance Committee, and the Global Corporate Assurance Committee.

Additionally, in compliance with SOX, the Group annually assesses the effectiveness of the internal control model for financial reporting on group of risks (within the perimeter of SOX companies and critical risks) that could impact the drawing up of financial statements at local and consolidated levels. This perimeter considers risks and controls of other specialities that are not directly financial (regulatory compliance, technology, risks, operational, human resources, procurement, legal, etc.).

F.5.2. Whether there is a discussion procedure by which the auditor (in line with the technical auditing notes), the internal audit function and other experts can inform senior management and the audit committee or the directors of the entity of significant weaknesses in the internal control encountered during the review processes for the annual accounts or any others within their remit. Likewise, give information on whether there is an action plan to try to correct or mitigate the weaknesses observed.

As mentioned in the preceding section (F.5.1) of this Annual Corporate Governance Report, the Group does have a procedure in place whereby the internal auditor, the external auditor and the heads of Internal Financial Control can report to the Audit Committee any significant internal control weaknesses detected in the course of their work.

Since BBVA is a company listed with the SEC, the BBVA Group's auditor issues on an annual basis its opinion on the effectiveness of the internal control over the financial information contained in the Group's annual consolidated

This English version is a translation of the original in Spanish for information purposes only. In case of a discrepancy, the Spanish original will prevail.

statements as of 31 December each year under PCAOB standards (“Public Company Accounting Oversight Board”), with a view to filing the financial information under Form 20-F with the SEC. The latest report issued on the financial information for 2014 is available on www.sec.gov. As of the date of this report, the auditor of the annual consolidated statements corresponding to 2015 reported no significant or material weakness to the Audit Committee, the Board of Directors or executive management bodies of the Group.

The internal control oversight carried out by the Audit & Compliance Committee, described in the Audit & Compliance Committee Regulations published on the Group website, includes the following activities:

- Analyse the financial statements of the Bank and of its consolidated Group contained in the annual, six-monthly and quarterly reports prior to their submission to the Board and in sufficient depth to verify their correctness, sufficiency and clarity, as well as all other required financial information, with the necessary detail deemed appropriate. For this purpose, the Committee shall be provided with the necessary support by the Group's executive management, especially that of the Accounting Department and the Company and Group auditor.
- Review the necessary scope of consolidation, the correct application of accounting criteria, and all the relevant changes relating to the accounting principles used and the presentation of the financial statements.
- Oversee the effectiveness of the company's internal control, internal audit and risk management systems in the process of drawing up and reporting the mandatory financial information, including tax-related risks, as well as discuss with the auditor any significant weaknesses in the internal control systems detected during the audit, without undermining its independence. For such purposes, and where appropriate, they may submit recommendations or proposals to the Board of Directors, at the corresponding period for monitoring.
- Analyze, and approve as the case may be, the Annual Internal Audit Plan, monitoring it and being apprised of the degree to which the audited units are complying with the corrective measures recommended.
- Examine the draft codes of ethic and conduct, and respective amendments thereto drawn up by the corresponding areas of the Group, and express an opinion before the proposals being put to the Bank's governing bodies.

The external auditor regularly attends the Audit and Compliance Committee and is duly informed of the matters addressed therein.

F.6 Other relevant information

F.7 External auditor report

Report on:

F.7.1. Whether the ICFR information disclosed to the markets has been submitted by the external auditor, in which case the entity must attach the corresponding report as an annexe. Otherwise, explain the reasons why it was not.

The information related to internal control over the financial information of the BBVA Group described in this report is reviewed by the external auditor, which issues its opinion on the control system and on its effectiveness in relation to the statements published at the close of each financial year.

On 15 April 2015, the BBVA Group, as a private foreign issuer in the United States, filed the Annual Report (Form 20-F) which was published on the SEC website on that same date.

In accordance with the requirements set out in Section 404 of the Sarbanes-Oxley Act of 2002 by the Securities and Exchange Commission (SEC), the annual report Form 20-F included the certification of the main Group executives on the establishment, maintenance and assessment of the Group's financial reporting internal control system. Form 20-F report also included the opinion of the external auditor regarding the effectiveness of the entity's financial reporting internal control system at year-end 2014.

G DEGREE OF COMPLIANCE WITH CORPORATE GOVERNANCE RECOMMENDATIONS

Indicate the extent to which the company follows the recommendations of the Good Governance Code of listed companies.

Should any recommendation not be followed or be only partially followed, a detailed explanation should be given of the reasons so that the shareholders, investors and the market in general have sufficient information to assess the way the company works. General explanations will not be acceptable.

1. The bylaws of listed companies should not place an upper limit on the votes that can be cast by a single shareholder, or impose other obstacles to the takeover of the company by means of share purchases on the market.

COMPLIANT

2. When a dominant and a subsidiary company are both listed, they should provide detailed disclosure on:

- a) The activity they engage in and any business dealings between them, as well as between the listed subsidiary and other group companies.
- b) The mechanisms in place to resolve possible conflicts of interest.

NOT APPLICABLE

3. During the annual general meeting the chairman of the board should verbally inform shareholders in sufficient detail of the most relevant aspects of the company's corporate governance, supplementing the written information circulated in the annual corporate governance report. In particular:

- a) Changes taking place since the previous annual general meeting.
- b) The specific reasons for the company not following a given Good Governance Code recommendation and any alternative procedures followed in its stead.

COMPLIANT

4. The company should draw up and implement a policy of communication and contacts with shareholders, institutional investors and proxy advisors that complies in full with market abuse regulations and accords equitable treatment to shareholders in the same position.

This policy should be disclosed on the company's website, complete with details of how it has been put into practice and the identities of the relevant interlocutors or those charged with its implementation.

COMPLIANT

5. The board of directors should not make a proposal to the general meeting for the delegation of powers to issue shares or convertible securities without pre-emptive subscription rights for an amount exceeding 20% of capital at the time of such delegation.

When a board approves the issuance of shares or convertible securities without pre-emptive subscription rights, the company should immediately post a report on its website explaining the exclusion as envisaged in company legislation.

COMPLIANT

6. Listed companies drawing up the following reports on a voluntary or compulsory basis should publish them on their website well in advance of the annual general meeting, even if their distribution is not obligatory:

- a) Report on auditor independence.
- b) Reviews of the operation of the audit committee and the nomination and remuneration committee.
- c) Audit committee report on third-party transactions.

This English version is a translation of the original in Spanish for information purposes only. In case of a discrepancy, the Spanish original will prevail.

d) Report on corporate social responsibility policy.

COMPLIANT

7. The company should broadcast its general meetings live on the corporate website.

COMPLIANT

8. The audit committee should strive to ensure that the board of directors can present the company's accounts to the general meeting without limitations or qualifications in the auditor's report. In the exceptional case that qualifications exist, both the chairman of the audit committee and the auditors should give a clear account to shareholders of their scope and content.

COMPLIANT

9. The company should disclose its conditions and procedures for admitting share ownership, the right to attend general meetings and the exercise or delegation of voting rights, and display them permanently on its website.

Such conditions and procedures should encourage shareholders to attend and exercise their rights and be applied in a non-discriminatory manner.

COMPLIANT

10. When an accredited shareholder exercises the right to supplement the agenda or submit new proposals prior to the general meeting, the company should:

a) Immediately circulate the supplementary items and new proposals.

b) Disclose the model of attendance card or proxy appointment or remote voting form duly modified so that new agenda items and alternative proposals can be voted on in the same terms as those submitted by the board of directors.

c) Put all these items or alternative proposals to the vote applying the same voting rules as for those submitted by the board of directors, with particular regard to presumptions or deductions about the direction of votes.

d) After the general meeting, disclose the breakdown of votes on such supplementary items or alternative proposals.

NOT APPLICABLE

11. In the event that a company plans to pay for attendance at the general meeting, it should first establish a general, long-term policy in this respect.

NOT APPLICABLE

12. The board of Directors should perform its duties with unity of purpose and independent judgement, according the same treatment to all shareholders in the same position. It should be guided at all times by the company's best interest, understood as the creation of a profitable business that promotes its sustainable success over time, while maximising its economic value.

In pursuing the corporate interest, it should not only abide by laws and regulations and conduct itself according to principles of good faith, ethics and respect for commonly accepted customs and good practices, but also strive to reconcile its own interests with the legitimate interests of its employees, suppliers, clients and other stakeholders, as well as with the impact of its activities on the broader community and the natural environment.

COMPLIANT

13. The Board of Directors should have an optimal size to promote its efficient functioning and maximize participation. The recommended range is accordingly between five and fifteen members.

COMPLIANT

14. The board of directors should approve a director selection policy that:

This English version is a translation of the original in Spanish for information purposes only. In case of a discrepancy, the Spanish original will prevail.

- a) Is concrete and verifiable.
- b) Ensures that the appointment or reelection proposals are based on a prior analysis of the board's needs.
- c) Favours a diversity of knowledge, experience and gender.

The results of the prior analysis of board needs should be written up in the nomination committee's explanatory report, to be published when the general meeting is convened that will ratify the appointment and re-election of each director.

The director selection policy should pursue the goal of having at least 30% of total board places occupied by women directors before the year 2020.

The nomination committee should run an annual check on compliance with the director selection policy and set out its findings in the annual corporate governance report.

COMPLIANT

15. Proprietary and independent directors should constitute an ample majority on the board of directors, while the number of executive directors should be the minimum practical bearing in mind the complexity of the corporate group and the ownership interests they control.

COMPLIANT

16. The percentage of proprietary directors out of all non-executive directors should be no greater than the proportion between the ownership stake of the shareholders they represent and the remainder of the company's capital.

This criterion can be relaxed:

- a) In large cap companies where few or no equity stakes attain the legal threshold for significant shareholdings.
- b) In companies with a plurality of shareholders represented on the board but not otherwise related.

COMPLIANT

17. Independent directors should be at least half of all board members.

However, when the company does not have a large market capitalisation, or when a large cap company has shareholders individually or concertedly controlling over 30 percent of capital, independent directors should occupy, at least, a third of board places.

COMPLIANT

18. Companies should disclose the following director particulars on their websites and keep them regularly updated:

- a) Background and professional experience.
- b) Directorships held in other companies, listed or otherwise, and other paid activities they engage in, of whatever nature.
- c) Statement of the director class to which they belong, in the case of proprietary directors indicating the shareholder they represent or have links with.
- d) Dates of their first appointment as a board member and subsequent re-elections.
- e) Shares held in the company, and any options on the same.

COMPLIANT

19. Following verification by the nomination committee, the annual corporate governance report should disclose the reasons for the appointment of proprietary directors at the urging of shareholders controlling less than 3 percent of

capital; and explain any rejection of a formal request for a board place from shareholders whose equity stake is equal to or greater than that of others applying successfully for a proprietary directorship.

NOT APPLICABLE

20. Proprietary directors should resign when the shareholders they represent dispose of their ownership interest in its entirety. If such shareholders reduce their stakes, thereby losing some of their entitlement to proprietary directors, the latter's number should be reduced accordingly.

COMPLIANT

21. The Board of Directors should not propose the removal of independent directors before the expiry of their tenure as mandated by the Bylaws, except where they find just cause, based on a proposal from the Nomination Committee. In particular, just cause will be presumed when directors take up new posts or responsibilities that prevent them allocating sufficient time to the work of a board member, or are in breach of their fiduciary duties or come under one of the disqualifying grounds for classification as independent enumerated in the applicable legislation.

The removal of independent directors may also be proposed when a takeover bid, merger or similar corporate transaction alters the company's capital structure, provided the changes in board membership ensue from the proportionality criterion set out in recommendation 16.

COMPLIANT

22. Companies should establish rules obliging directors to disclose any circumstance that might harm the organisation's name or reputation, tendering their resignation as the case may be, and, in particular, to inform the board of any criminal charges brought against them and the progress of any subsequent trial.

The moment a director is indicted or tried for any of the offences stated in company legislation, the board of directors should open an investigation and, in light of the particular circumstances, decide whether or not he or she should be called on to resign. The board should give a reasoned account of all such determinations in the annual corporate governance report.

COMPLIANT

23. Directors should express their clear opposition when they feel a proposal submitted for the board's approval might damage the corporate interest. In particular, independents and other directors not subject to potential conflicts of interest should strenuously challenge any decision that could harm the interests of shareholders lacking board representation.

When the board makes material or reiterated decisions about which a director has expressed serious reservations then he or she must draw the pertinent conclusions. Directors resigning for such causes should set out their reasons in the letter referred to in the next recommendation.

The terms of this recommendation also apply to the secretary of the board, even if he or she is not a director.

COMPLIANT

24. Directors who give up their place before their tenure expires, through resignation or otherwise, should state their reasons in a letter to be sent to all members of the board. Whether or not such resignation is disclosed as a material event, the motivating factors should be explained in the annual corporate governance report.

COMPLIANT

25. The nomination committee should ensure that non-executive directors have sufficient time available to discharge their responsibilities effectively.

The board of directors regulations should lay down the maximum number of company boards on which directors can serve.

COMPLIANT

This English version is a translation of the original in Spanish for information purposes only. In case of a discrepancy, the Spanish original will prevail.

26. The board should meet with the necessary frequency to properly perform its functions, eight times a year at least, in accordance with a calendar and agendas set at the start of the year, to which each director may propose the addition of initially unscheduled items.

COMPLIANT

27. Director absences should be kept to a strict minimum and quantified in the Annual Corporate Governance Report. In the event of absence, directors should delegate their powers of representation with the appropriate instructions.

COMPLIANT

28. When directors or the secretary express concerns about some proposal or, in the case of directors, about the company's performance, and such concerns are not resolved at the meeting, they should be recorded in the minute book if the person expressing them so requests.

COMPLIANT

29. The company should provide suitable channels for directors to obtain the advice they need to carry out their duties, extending if necessary to external assistance at the company's expense.

COMPLIANT

30. Regardless of the knowledge directors must possess to carry out their duties, they should also be offered refresher programmes when circumstances so advise.

COMPLIANT

31. The agendas of board meetings should clearly indicate on which points directors must arrive at a decision, so they can study the matter beforehand or gather together the material they need.

For reasons of urgency, the chairman may wish to present decisions or resolutions for board approval that were not on the meeting agenda. In such exceptional circumstances, their inclusion will require the express prior consent, duly minuted, of the majority of directors present.

COMPLIANT

32. Directors should be regularly informed of movements in share ownership and of the views of major shareholders, investors and rating agencies on the company and its group.

COMPLIANT

33. The chairman, as the person charged with the efficient functioning of the board of directors, in addition to the functions assigned by law and the company's bylaws, should prepare and submit to the board a schedule of meeting dates and agendas; organise and coordinate regular evaluations of the board and, where appropriate, the company's chief executive officer; exercise leadership of the board and be accountable for its proper functioning; ensure that sufficient time is given to the discussion of strategic issues, and approve and review refresher courses for each director, when circumstances so advise.

COMPLIANT

34. When a lead independent director has been appointed, the Bylaws or Board of Directors regulations should grant him or her the following powers over and above those conferred by law: chair the board of directors in the absence of the chairman and vice chairmen give voice to the concerns of non-executive directors; maintain contacts with investors and shareholders to hear their views and develop a balanced understanding of their concerns, especially those to do with the company's corporate governance; and coordinate the chairman's succession plan.

COMPLIANT

35. The board secretary should strive to ensure that the board's actions and decisions are informed by the governance recommendations of the Good Governance Code of relevance to the company.

COMPLIANT

This English version is a translation of the original in Spanish for information purposes only. In case of a discrepancy, the Spanish original will prevail.

36. The board in full should conduct an annual evaluation, adopting, where necessary, an action plan to correct weakness detected in:

- a) The quality and efficiency of the board's operation.
- b) The performance and membership of its committees.
- c) The diversity of board membership and competences.
- d) The performance of the chairman of the board of directors and the company's chief executive.
- e) The performance and contribution of individual directors, with particular attention to the chairmen of board committees.

The evaluation of board committees should start from the reports they send the board of directors, while that of the board itself should start from the report of the nomination committee.

Every three years, the board of directors should engage an external facilitator to aid in the evaluation process. This facilitator's independence should be verified by the nomination committee.

Any business dealings that the facilitator or members of its corporate group maintain with the company or members of its corporate group should be detailed in the annual corporate governance report.

The process followed and areas evaluated should be detailed in the annual corporate governance report.

COMPLIANT

37. When an executive committee exists, its membership mix by director class should resemble that of the board. The secretary of the board should also act as secretary to the executive committee.

PARTIALLY COMPLIANT

The Executive Committee of the Board of Directors comprises two executive directors and 3 other external directors.

As of 31 December 2015, the BBVA Executive Committee partially reflected the participation of the Board of Directors, since its Chair and Secretary sit on the Board of Directors, and according to article 26 of the Board of Directors Regulations, has more non-executive directors than executive directors.

38. The board of directors should be kept fully informed of the business transacted and decisions made by the executive committee. To this end, all board members should receive a copy of the committee's minutes.

COMPLIANT

39. All members of the audit committee, particularly its chairman, should be appointed with regard to their knowledge and experience in accounting, auditing and risk management matters. A majority of committee places should be held by independent directors.

COMPLIANT

40. Listed companies should have a unit in charge of the internal audit function, under the supervision of the audit committee, to monitor the effectiveness of reporting and control systems. This unit should report functionally to the board's non-executive chairman or the chairman of the audit committee.

COMPLIANT

41. The head of the unit handling internal audit function should present an annual work programme to the audit committee, inform it directly of any incidents arising during its implementation and submit an activities report at the end of each year.

COMPLIANT

42. The audit committee should have the following functions over and above those legally assigned:

This English version is a translation of the original in Spanish for information purposes only. In case of a discrepancy, the Spanish original will prevail.

1. With respect to internal control and reporting systems:

a) Monitor the preparation and the integrity of the financial information prepared on the company and, where appropriate, the group, checking for compliance with legal provisions, the accurate demarcation of the consolidation perimeter, and the correct application of accounting principles.

b) Monitor the independence of the unit handling the internal audit function; propose the selection, appointment, re-election and removal of the head of the internal audit service; propose the service's budget; approve its priorities and work programmes, ensuring that it focuses primarily on the main risks the company is exposed to; receive regular report-backs on its activities; and verify that senior management are acting on the findings and recommendations of its reports.

c) Establish and supervise a mechanism whereby staff can report, confidentially and, if appropriate and feasible, anonymously, any significant irregularities that they detect in the course of their duties, in particular financial or accounting irregularities.

2. With regard to the external auditor:

a) Investigate the issues giving rise to the resignation of the external auditor, should this come about.

b) Ensure that the remuneration of the external auditor does not compromise its quality or independence.

c) Ensure that the company notifies any change of external auditor to the CNMV as a material event, accompanied by a statement of any disagreements arising with the outgoing auditor and the reasons for the same.

d) Ensure that the external auditor has a yearly meeting with the board in full to inform it of the work undertaken and developments in the company's risk and accounting positions.

e) Ensure that the company and the external auditor adhere to current regulations on the provision of non-audit services, limits on the concentration of the auditor's business and other requirements concerning auditor independence.

COMPLIANT

43. The audit committee should be empowered to meet with any company employee or manager, even ordering their appearance without the presence of another senior officer.

COMPLIANT

44. The Audit Committee should be informed of any fundamental changes or corporate transactions the company is planning, so the committee can analyse the operation and report to the board beforehand on its economic conditions and accounting impact and, when applicable, the exchange ratio proposed.

COMPLIANT

45. Risk control and management policy should identify at least:

a) The different types of financial and non-financial risk the company is exposed to (including operational, technological, financial, legal, social, environmental, political and reputational risks), with the inclusion under financial or economic risks of contingent liabilities and other offbalance-sheet risks.

b) The determination of the risk level the company sees as acceptable.

c) The measures in place to mitigate the impact of identified risk events should they occur.

d) The internal control and reporting systems to be used to control and manage the above risks, including contingent liabilities and off-balancesheet risks.

COMPLIANT

46. Companies should establish a risk control and management function in the charge of one of the company's internal department or units and under the direct supervision of the audit committee or some other dedicated board committee. This function should be expressly charged with the following responsibilities:

- a) Ensure that risk control and management systems are functioning correctly and, specifically, that major risks the company is exposed to are correctly identified, managed and quantified.
- b) Participate actively in the preparation of risk strategies and in key decisions about their management.
- c) Ensure that risk control and management systems are mitigating risks effectively in the frame of the policy drawn up by the board of directors.

COMPLIANT

47. Appointees to the nomination and remuneration committee – or of the nomination committee and remuneration committee, if separately constituted – should have the right balance of knowledge, skills and experience for the functions they are called on to discharge. The majority of their members should be independent directors.

COMPLIANT

48. Large cap companies should operate separately constituted nomination and remuneration committees.

COMPLIANT

49. The Nomination Committee should consult with the company's Chairman and chief executive, especially on matters relating to executive Directors.

When there are vacancies on the board, any Director may approach the Nomination Committee to propose candidates that it might consider suitable.

COMPLIANT

50. The remuneration committee should operate independently and have the following functions in addition to those assigned by law:

- a) Propose to the board the standard conditions for senior officer contracts.
- b) Monitor compliance with the remuneration policy set by the company.
- c) Periodically review the remuneration policy for directors and senior officers, including share-based remuneration systems and their application, and ensure that their individual compensation is proportionate to the amounts paid to other directors and senior officers in the company.
- d) Ensure that conflicts of interest do not undermine the independence of any external advice the committee engages.
- e) Verify the information on director and senior officers' pay contained in corporate documents, including the annual directors' remuneration statement.

COMPLIANT

51. The remuneration committee should consult with the company's chairman and chief executive, especially on matters relating to executive directors and senior officers.

COMPLIANT

52. The terms of reference of supervision and control committees should be set out in the board of directors regulations and aligned with those governing legally mandatory board committees as specified in the preceding sets of recommendations. They should include at least the following terms:

- a) Committees should be formed exclusively by non-executive directors, with a majority of independents.

This English version is a translation of the original in Spanish for information purposes only. In case of a discrepancy, the Spanish original will prevail.

- b) They should be chaired by independent directors.
- c) The board should appoint the members of such committees with regard to the knowledge, skills and experience of its directors and each committee's terms of reference; discuss their proposals and reports; and provide report-backs on their activities and work at the first board plenary following each committee meeting.
- d) They may engage external advice, when they feel it necessary for the discharge of their functions.
- e) Meeting proceedings should be minuted and a copy made available to all board members.

COMPLIANT

53. The task of supervising compliance with corporate governance rules, internal codes of conduct and corporate social responsibility policy should be assigned to one board committee or split between several, which could be the audit committee, the nomination committee, the corporate social responsibility committee, where one exists, or a dedicated committee established ad hoc by the board under its powers of self-organisation, with at the least the following functions:

- a) Monitor compliance with the company's internal codes of conduct and corporate governance rules.
- b) Oversee the communication and relations strategy with shareholders and investors, including small and medium-sized shareholders.
- c) Periodically evaluate the effectiveness of the company's corporate governance system, to confirm that it is fulfilling its mission to promote the corporate interest and catering, as appropriate, to the legitimate interests of remaining stakeholders.
- d) Review the company's corporate social responsibility policy, ensuring that it is geared to value creation.
- e) Monitor corporate social responsibility strategy and practices and assess compliance in their respect.
- f) Monitor and evaluate the company's interaction with its stakeholder groups.
- g) Evaluate all aspects of the non-financial risks the company is exposed to, including operational, technological, legal, social, environmental, political and reputational risks.
- h) Coordinate non-financial and diversity reporting processes in accordance with applicable legislation and international benchmarks.

COMPLIANT

54. The corporate social responsibility policy should state the principles or commitments the company will voluntarily adhere to in its dealings with stakeholder groups, specifying at least:

- a) The goals of its corporate social responsibility policy and the support instruments to be deployed.
- b) The corporate strategy with regard to sustainability, the environment and social issues.
- c) Concrete practices in matters relative to: shareholders, employees, clients, suppliers, social welfare issues, the environment, diversity, fiscal responsibility, respect for human rights and the prevention of illegal conducts.
- d) The methods or systems for monitoring the results of the practices referred to above, and identifying and managing related risks.
- e) The mechanisms for supervising non-financial risk, ethics and business conduct.
- f) Channels for stakeholder communication, participation and dialogue.
- g) Responsible communication practices that prevent the manipulation of information and protect the company's honour and integrity.

COMPLIANT

55. The company should report on corporate social responsibility developments in its directors' report or in a separate document, using an internationally accepted methodology.

COMPLIANT

56. Director remuneration should be sufficient to attract individuals with the desired profile and compensate the commitment, abilities and responsibility that the post demands, but not so high as to compromise the independent judgement of non-executive directors.

COMPLIANT

57. Variable remuneration linked to the company and the director's performance, the award of shares, options or any other right to acquire shares or to be remunerated on the basis of share price movements, and membership of long-term savings schemes such as pension plans should be confined to executive directors.

The company may consider the share-based remuneration of non-executive directors provided they retain such shares until the end of their mandate. This condition, however, will not apply to shares that the director must dispose of to defray costs related to their acquisition.

COMPLIANT

58. In the case of variable awards, remuneration policies should include limits and technical safeguards to ensure they reflect the professional performance of the beneficiaries and not simply the general progress of the markets or the company's sector, or circumstances of that kind.

In particular, variable remuneration items should meet the following conditions:

- a) Be subject to predetermined and measurable performance criteria that factor the risk assumed to obtain a given outcome.
- b) Promote the long-term sustainability of the company and include non-financial criteria that are relevant for the company's long-term value, such as compliance with its internal rules and procedures and its risk control and management policies.
- c) Be focused on achieving a balance between the delivery of short, medium and long-term objectives, such that performance-related pay rewards ongoing achievement, maintained over sufficient time to appreciate its contribution to long-term value creation. This will ensure that performance measurement is not based solely on one-off, occasional or extraordinary events.

COMPLIANT

59. A major part of variable remuneration components should be deferred for a long enough period to ensure that predetermined performance criteria have effectively been met.

COMPLIANT

60. Remuneration linked to company earnings should bear in mind any qualifications stated in the external auditor's report that reduce their amount.

COMPLIANT

61. A major part of executive directors' variable remuneration should be linked to the award of shares or financial instruments whose value is linked to the share price.

COMPLIANT

62. Following the award of shares, share options or other rights on shares derived from the remuneration system, directors should not be allowed to transfer a number of shares equivalent to twice their annual fixed remuneration, or to exercise the share options or other rights on shares for at least three years after their award.

The above condition will not apply to any shares that the director must dispose of to defray costs related to their acquisition.

PARTIALLY COMPLIANT

As a credit entity and thus bound to requirements insofar as remunerations, BBVA establishes its specific rules and regulations by furnishing its remuneration policy with a variable remuneration system that includes deferral conditions, payment in shares, unavailability and clauses for the ex-post adjustment of the remuneration depending on the risk.

In this regard, the BBVA remuneration policy establishes that the executive directors will receive 50% of the Annual Variable Remuneration in equal parts in cash and in shares, in the first quarter of the financial year following the year to which the remuneration corresponds, and the remaining 50% (in cash and shares) deferred as a whole for a period of three years, whereby its accrual and vesting shall be subject to compliance with a series of multi-year indicators, which may reduce the deferred amount even to zero. Moreover, all shares paid for the settlement of Annual Variable Remuneration, both the initial percentage and deferred amounts subject to multi-year indicators shall be unavailable during a certain period, which shall be established on an annual basis by the Board of Directors, applying such a withholding on the resulting number of shares after discounting the part required to honor the tax payments.

Lastly, the payment of the variable shall be conditioned to the non-occurrence of the cases contemplated in the policy insofar as the reduction or suppression thereof (malus clauses).

63. Contractual arrangements should include provisions that permit the company to reclaim variable components of remuneration when payment was out of step with the Director's actual performance or based on data subsequently found to be misstated.

COMPLIANT

64. Termination payments should not exceed a fixed amount equivalent to two years of the director's total annual remuneration and should not be paid until the company confirms that he or she has met the predetermined performance criteria.

H OTHER INFORMATION OF INTEREST

1. If there is any other aspect relevant to the corporate government in the company or in the group entities that has not been reflected in the rest of the sections of this report, but is necessary to include to provide more comprehensive and well grounded information on the corporate governance structure and practices in your entity or its group, detail them briefly.

2. This section may also include any other relevant information, clarification or detail related to previous sections of the report insofar as they are relevant and not reiterative.

Specifically indicate whether the company is subject to corporate governance legislation from a country other than Spain and, if so, include the mandatory information to be provided when different from that required by this report.

3. The company may also indicate if it has voluntarily signed up to other international, industry-wide or any other codes of ethical principles or best practices. Where applicable, the code in question will be identified along with the date of signing. In particular, mention will be made as to whether it has adhered to the Code of Best Tax Practices (Código de Buenas Prácticas Tributarias) of 20 July 2010.

The data in this report refer to the year ending 31 December 2015, except in those cases when another date of reference is specifically stated.

Further to Section A.2, State Street Bank and Trust Co., The Bank of New York Mellon S.A.N.V. and Chase Nominees Ltd., as international custodian/depositary banks, held 13.48%, 4.19% and 7.11% of BBVA's share capital, respectively, as of December 31 2015. Of said positions held by the custodian banks, BBVA is not aware of any individual shareholders with direct or indirect holdings greater than or equal to 3% of the BBVA common stock.

Filings of significant holdings to CNMV: On 21 December 2015, Blackrock Inc. filed a report with the CNMV (securities exchange authority) stating that it now had an indirect holding of 4.893% of the BBVA share capital,

through the company Blackrock Investment Management. Likewise, on 18 December 2016, Blackrock Inc. filed a report with the CNMV (securities exchange authority) stating that it now had an indirect holding of 5.032% of the BBVA share capital.

The director holdings indicated in section A.3 are those reported as of 31 December 2015 and therefore may have subsequently changed. Moreover, following the instructions in Circular 7/2015 of the CNMV to complete the Corporate Governance Report, the owners of indirect holdings are not identified in this section, as none of them reaches the 3% of share capital and none of them reside in tax havens.

Moreover, as an explanation to section A.3., the number of direct rights on shares in the Company corresponds with the shares from the Annual Variable Remuneration from previous years that was deferred and pending payment on the date of this Report. Thus, the following "rights to shares" of BBVA executive directors are included:

1) 207,449 shares deferred and pending payment for the Group Executive Chairman. Among these shares, in 2016 he shall receive the corresponding total of 36,163 shares equivalent to the last third of the Annual Variable Remuneration for 2012; in 2016 and 2017 he shall receive 29,557 shares and 29,555 shares equivalent to the second and third thirds of the Annual Variable Remuneration for 2013, respectively; and in 2016, 2017 and 2018 he shall receive 37,392 shares, 37,392 shares and 37,390 shares equivalent to the first, second and third thirds of the Annual Variable Remuneration for 2014, respectively.

2) 59,292 shares deferred and pending payment for the CEO. Among these shares, in 2016 he shall receive the corresponding total of 8,120 shares equivalent to the last third of the Annual Variable Remuneration for 2012; in 2016 and 2017 he shall receive 7,937 shares and 7,937 shares equivalent to the second and third thirds of the Annual Variable Remuneration for 2013, respectively; and in 2016, 2017 and 2018 he shall receive 11,766 shares equivalent to the first, second and third thirds of the Annual Variable Remuneration for 2014, respectively.

3) 14,576 shares deferred and pending payment for José Manuel González-Páramo. Among these shares, in 2016 and 2017 he shall receive the corresponding total of 1,768 shares equivalent to the second and third thirds of the Annual Variable Remuneration for 2013; in 2016, 2017 and 2018 he shall receive 3,681 shares, 3,681 shares and 3,678 shares equivalent to the first, second and third thirds of the Annual Variable Remuneration for 2014, respectively.

The distribution of these deferred shares is subject to the non-occurrence of any of the situations established by the Board of Directors that could reduce or impede payment thereof (malus clauses) in addition the remaining conditions of the liquidation and payment system.

Further to the information in section A.8, regarding earnings from treasury-stock trading, rule 21 of Circular 4/2004 and IAS 32, paragraph 33, expressly prohibit the recognition in the income statement of profits or losses made on transactions carried out with treasury stock, including their issue and redemption. Said profits and losses are directly booked against the company's net assets. The table listing significant changes includes the date of the CNMV incoming register of Annex VI of communications with treasury stock and the reason for the communication.

Regarding section A.9 bis, the resulting estimated floating capital of BBVA less the capital held by the members of the Board of Directors and as treasury stock, both as of 31 December 2015, following the instructions to complete the Corporate Governance Report contained in Circular 7/2015, is 98.52%.

Further to the information in section A.10, there are no legal or bylaws restrictions on the exercise of voting rights and there are no legal or bylaws restrictions on the free acquisition or transfer of shares in the company's share capital. As for the legal restrictions on the free acquisition or transfer of shares in the company's share capital, Spanish Act 10/2014, dated 26th June, on the regulation, supervision and solvency of credit institutions establishes that the direct or indirect acquisition of a significant holding (as defined in section 16 of that Act) is subject to assessment by the Bank of Spain as set out in sections 16 et seq. of that Act. Additionally, article 25 of Royal Decree 84/2015, implementing Law 10/2014, establishes that the Bank of Spain shall evaluate proposals for acquisitions of significant shares and submit a proposal to the European Central Bank regarding whether to oppose this acquisition or not. This same article establishes the criteria that should be considered during said evaluation and the applicable timelines.

Further to section C.1.12, Juan Pi Llorens is the Chairman of the Board of Directors of Ecolumber, S.A. as a natural person representing the company Relocation Inversiones, S.L.

The amount indicated as "Remuneration of the Board of Directors" includes remuneration stemming from the remuneration systems established for non-executive and executive directors as provided for in the Remuneration policy for BBVA directors and pursuant to article 33 bis and 50 bis of the Company Bylaws, respectively, and includes:

- a) The fixed remuneration (for pertaining to the Board and Committees) and remuneration in kind corresponding to 2015 of non-executive board members.
- b) The fixed remuneration and in kind for executive directors currently seated on the date of this Report (3) corresponding to 2015, including the remuneration settled to the Group Executive Chairman; to the current CEO (for the part proportional to the 4 months as Digital Banking Director and to the 8 months holding the post as CEO); and the executive director José Manuel González-Páramo.
- c) The Annual Variable Remuneration 2015, equally distributed in cash and shares, for executive directors seated on the date of this Report (3), including the remuneration of the Group Executive Chairman; current CEO (for the part proportional to the 4 months as Digital Banking Director and to the 8 months holding the post as CEO); and the executive director José Manuel González-Páramo. It should nonetheless be noted that this remuneration, has not accrued to the executive directors in its entirety on the date of this Report, since, according to the BBVA director remuneration policy applicable to them, described in the Annual Report on Directors' Remuneration of BBVA, they will only receive 50% of this amount in 2016, while the remaining amount will be deferred for a period of three years, and its accrual and payment is subject to the concurrence of the multi-year assessment indicators. Furthermore, the deferred Annual Variable Remuneration will be subject to the non-occurrence of any of the situations established by the Board of Directors that could reduce or impede payment thereof (malus clauses) in addition the remaining conditions of the liquidation and payment system of the Annual Variable Remuneration.
- d) The fixed remuneration in kind and the Annual Variable Remuneration for 2015, in cash and shares, to the Former President & COO, who opted for early retirement as of 4th May 2015, for the part proportional to the 4 months during which he held this post. It should also be mentioned that this remuneration has not fully accrued on the date of this Report in application of the rules mentioned in section c) above for executive directors.

The total amount indicated, pursuant to the instructions in this Report, corresponds to the amount declared as total remuneration accrued according to chart c) "Summary of Remuneration", section D.1 in the Annual Report on Directors' Remuneration of BBVA.

For calculating the cash value of the shares corresponding to the Annual Variable Remuneration for 2015, and in accordance with the Remuneration Policy, the reference used was the average BBVA share closing price corresponding to the trading days between 15 December 2015 and 15 January 2016, namely €6.631 per share.

All these items are included for each individual director in Note 53 of the Annual Report.

The provisions recorded as of 31 December 2015 to cover the pension commitments assumed for executive directors stood at €13,123 thousand for the CEO, which include the amounts accumulated as Group director and currently rendered in his current position as CEO in the terms expressed above; and €436 thousand for José Manuel González-Páramo Martínez-Murillo; after the sums of €9,856 thousand and €261 thousand were set aside in 2015 for the CEO and José Manuel González-Páramo Martínez-Murillo, respectively, to cover contractually recognized contingencies for retirement, death and disability.

Furthermore, in 2015 the Board of Directors determined the pension entitlements of the Former President & COO in accordance with the initial contractual terms and conditions, that establish that when no longer holding said position for any reason other than his/her own will, retirement, disability or serious breaches of duty, he/she would be given early retirement with a pension payable, as he chooses, through a lifelong annuity pension or capital, of 75% on the pensionable base; having established his entitlements to pension at a lifelong annuity at an annual gross amount of €1,795 thousand, which will be settled in twelve monthly payments, with a deduction of the amounts necessary to satisfy the corresponding taxes.

To these effects, the provision on record on the date of his stepping down for attending to the pension commitments assumed for the Former President & COO stood at €45,209 thousand, of which €26,026 thousand are contingent upon the results from previous years, hereby contributing an additional €19,252 thousand.

No other obligations regarding pensions for other executive directors are in place.

The balance of the item "Provisions - Funds for pensions and similar liabilities" on the Group's consolidated balance sheet as of 31 December 2015 includes €136 million under the item for post-employment benefit commitments maintained with former members of the Board of Directors.

Further to the information included in section C.1.16:

The heading "Total senior management remuneration" includes the remuneration of members of Senior Management listed as such as of 31 December 2015 (17 members), comprising:

- a) The fixed remuneration and the remuneration in kind during 2015
- b) The annual variable remuneration received during the first quarter of 2015 corresponding to 2014, both in cash and in shares
- c) The deferred part of the variable remuneration received during the first quarter of 2015, corresponding to previous years (2013, 2012 and 2011), both in cash and in shares, as well as the part of the ILP 2010-2011, which was deferred in shares, plus the amount of the corresponding updates.

For calculating the cash value of the shares corresponding to said remuneration, the reference used was the average BBVA share closing price corresponding to the trading days between 15 December 2014 and 15 January 2015, namely €7.72 per share.

Moreover, members of Senior Management of the BBVA Group who had ceased activities as such in 2015 (7) received an overall total amount during this period of: €2,082 thousand as fixed remuneration; €1,596 thousand and 181,256 shares in BBVA corresponding to 50% of the Annual Variable Remuneration for 2014; and €1,432 thousand and 196,539 shares in BBVA as liquidation of the parts deferred from the Annual Variable Remuneration from 2013, 2012 and 2011, and the ILP 2010-2011, whose corresponding payment was settled during the first quarter of 2015, including the corresponding update; and as remuneration in kind and others amounting to €682 thousand. The sum of these remunerations, using the aforementioned share price of €7.72, represents a total of €8,709 thousand.

Moreover, in 2015 following the severance with some members of senior management from the group, compensations were settled for a total amount of €26,277 thousand, which is recorded in note 43 to the Annual Report under Other Personnel Expenses. Payments have been made to beneficiaries for a part equivalent to amounts that the Group have previously allocated to attend to the commitments assumed contractually for provisions amounting to €11,458 thousand.

Lastly, the provisions on record as of 31 December to fulfill the provision-related obligations assumed with current members of Senior Management, excluding executive directors, amount to €55,666 thousand, of which €6,782 thousand were allocated in 2015. These amounts include the allocations to cover possible retirement contingency and provisions for death and disability contingencies.

The balance of the item "Provisions - Funds for pensions and similar liabilities" on the Group's consolidated balance sheet as of 31 December 2015 includes €229 million under the item for post-employment benefit commitments maintained with former members of the Bank's Senior Management.

In reference to section C.1.29, the Board of Directors always meets with the attendance of its chair and therefore the Lead Director has never chaired a meeting of the Board of Directors. The Lead Director, in the scope of his entrusted duties, maintains fluid contact with the independent directors to simplify the discharge of his duties.

With regard to section C.1.31, as BBVA shares are listed on the New York Stock Exchange, it is subject to the supervision of the Securities & Exchange Commission (SEC) and, thus, to compliance with the Sarbanes Oxley Act and its implementing regulations, and for this reason each year the Group Executive Chairman, the CEO and the executive tasked with preparing the Accounts sign and submit the certifications described in sections 302 and 906 of this Act, related to the content of the Annual Financial Statements. These certificates are contained in the annual registration statement (Form 20-F) which the Company files with this authority for the official record.

As reference to section C.1.45, the contractual terms and conditions insofar as provisions of the CEO, shall determine that when no longer holding said position for any reason other than his/her own will, retirement, disability or serious breaches of duty, he/she would be given early retirement with a pension payable, as he chooses, through a lifelong annuity pension or capital, whose amount will be calculated on the basis of the provisions that, according to current actuarial criteria applicable at that moment, the Bank might have made to said date in fulfillment of the

pension commitments for retirement as established in his/her contract, though in no case whatsoever shall this commitment bind the Bank to any additional provisions. This pension may not exceed 75% on the pensionable base if the event occurs before turning 55 or 85% on the pensionable base if the event occurs after turning said age. Likewise, the Board of Directors only approves the contract conditions related to executive directors and senior management members as set out in article 17 of the Board Regulations, which are reported to the General Meeting through this Report and the Annual Report on Directors' Remuneration of BBVA, but does not authorize those of other technical and specialist professionals.

Further to section C.2.1, on 31 December 2015, the BBVA Executive Committee partially reflected participation in the Board of Directors, since its Chair and Secretary sit on the Board of Directors whose composition, according to article 26 of the Regulations of the Board of Directors, has more non-executive directors than executive directors.

Moreover, and further to section C.2.1, we provide brief indications regarding what the regulations establish about the composition and functions of each board committee:

- **Audit & Compliance Committee:** Article 29 of the Board Regulations establishes that the Audit and Compliance Committee will exclusively comprise independent directors tasked with assisting the Board of Directors in supervising the financial information and exercising oversight for the Group. The members of the Audit and Compliance Committee, and particularly its Chair, shall be appointed with regard to their knowledge and background in accounting, auditing and risk management. It will be made up of four members appointed by the Board, one of whom will be appointed taking into account his/her knowledge of accounting, auditing or both. The Board will also appoint the Chair of this Committee, who must be replaced every four years and may be re-elected one year after the end of his/her term of office. When the Chair cannot be present, his/her duties will be performed by the most senior independent director on the Committee, and, where more than one person of equal seniority are present, by the eldest. The Committee will appoint a Secretary who may or may not be a member of the Committee.

Turning to the duties of the Audit and Compliance Committee mentioned in section C.2.1, in addition to the duties cited in said section, the Audit and Compliance Committee has its own operating regulations available on the BBVA website (www.bbva.com) and includes a full breakdown of the duties of this Committee.

Further, in its meeting on 4 May 2015, the Board of Directors appointed José Miguel Andrés Torrecillas as Chair of the BBVA Audit and Compliance Committee.

- **Appointments Committee:** Article 32 of the Board Regulations establish that the Appointments Committee will comprise a minimum of three members who will be appointed by the Board of Directors, which will also appoint its Chair. All the members of this Committee must be non-executive directors, and a majority of them independent directors, as its Chair. When the Chair cannot be present, the meetings will be chaired by the most senior independent director on the Committee, and, where more than one person of equal seniority are present, by the eldest.

- **Remuneration Committee:** Article 35 of the Board Regulations establish that the Remuneration Committee will comprise a minimum of three members who will be appointed by the Board of Directors, which will also appoint its Chair. All the members of this Committee must be non-executive directors, and a majority of them independent directors, as its Chair. When the Chair cannot be present, the meetings will be chaired by the most senior independent director on the Committee, and, where more than one person of equal seniority are present, by the eldest.

- **Executive Committee:** Article 26 of the Board Regulations establishes the following: In accordance with the Company Bylaws, the Board of Directors may, with the favorable vote of two-thirds of its members, appoint an Executive Committee, ensuring that there is a majority of non-executive directors over executive directors. The Executive committee will be chaired by the Chairman of the Board of Directors, or when this is not possible, by whomever the Company Bylaws determines. The secretary of the Committee will be the Secretary of the Board. If absent, the person the meeting's members appoint for this purpose will stand in for the secretary.

- **Risks Committee:** Article 38 of the Company Board Regulations establishes that the Risks Committee will comprise a minimum of three members who will be appointed by the Board of Directors, which will also appoint its Chair. All the members of this Committee must be non-executive directors of whom at least one third, and in any event the Chair, must be independent. When the Chair cannot be present, the meetings will be chaired by the most senior independent director on the Committee, and, where more than one person of equal seniority are present, by the eldest.
