

BANCO BILBAO VIZCAYA ARGENTARIA, S.A.

Financial statements for the year ended
December 31, 2005

Translation of a report originally issued in Spanish based on our work performed in accordance with generally accepted auditing standards in Spain. In the event of a discrepancy, the Spanish-language version prevails.

AUDITOR'S REPORT ON FINANCIAL STATEMENTS

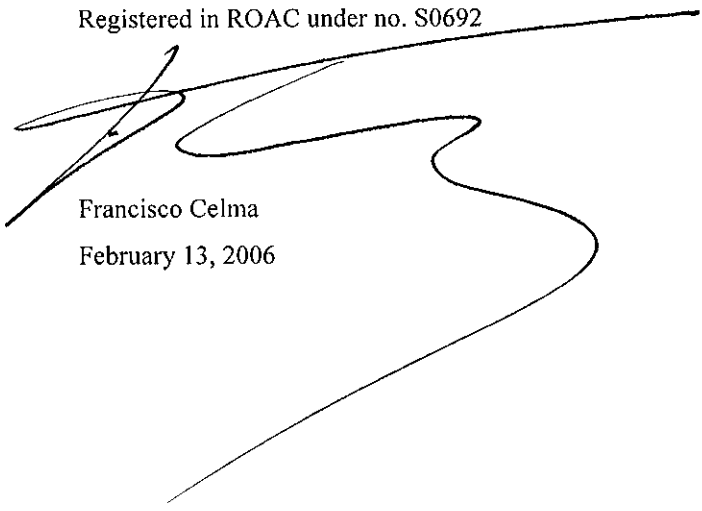

To the Shareholders of
Banco Bilbao Vizcaya Argentaria, S.A.:

1. We have audited the financial statements of BANCO BILBAO VIZCAYA ARGENTARIA, S.A. (the Bank) comprising the balance sheet at 31 December 2005, and the related income statement, cash flow statement, statement of changes in equity and notes to the financial statements for the year then ended. The preparation of these financial statements is the responsibility of the Bank's directors. Our responsibility is to express an opinion on the financial statements taken as a whole based on our audit work performed in accordance with generally accepted auditing standards in Spain, which require examination, by means of selective tests, of the documentation supporting the financial statements and evaluation of their presentation, of the accounting policies applied and of the estimates made.
2. As indicated in Note 1 to the financial statements referred to above, the financial statements for 2005 referred to above are the first that the Bank has prepared in accordance with Bank of Spain Circular 4/2004 of 22 December on the Public and Confidential Financial Reporting Rules and Formats applicable to Spanish credit institutions, which require, in general, that the financial statements present comparative information. In this regard, in accordance with corporate legislation, for comparison purposes the Bank's directors present, in addition to the figures for 2005 for each item in the balance sheet, income statement, cash flow statement, statement of changes in equity and notes to the financial statements, the figures for 2004, which were restated by applying the aforementioned Bank of Spain Circular 4/2004. Accordingly, the figures for 2004 presented in the financial statements for 2005 referred to above do not constitute the financial statements for 2004, since they differ from those contained in the financial statements for that year, which were prepared in accordance with the accounting principles and standards then in force (Bank of Spain Circular 4/1991) and approved by the shareholders at the Bank's Annual General Meeting on 26 February 2005. The main effects of the differences between the two sets of standards on the Bank's equity at 1 January and 31 December 2004, and on the Bank's income for 2004 are detailed in Note 3 to the financial statements for 2005 referred to above. Our opinion refers only to the financial statements for 2005. Our auditor's report dated 3 February 2005, on the financial statements for 2004, prepared in accordance with the accounting principles and standards in force in that year (Bank of Spain Circular 4/1991), contained a uniformity qualification.
3. The directors of the Bank prepared, at the same time as the Bank's individual financial statements for 2005, the 2005 consolidated financial statements of the Banco Bilbao Vizcaya Argentaria Group, on which we issued our auditor's report on 13 February 2006, containing an unqualified opinion. Based on the content of the aforementioned consolidated financial statements prepared in accordance with the International Financial Reporting Standards adopted by the European Union, the total assets and consolidated equity of the Banco Bilbao Vizcaya Argentaria Group at 2005 year-end amounted to EUR 392,389 million and EUR 17,302 million, respectively, and 2005 consolidated net income attributed to the Group amounted to EUR 3,806 million.
4. In our opinion, the financial statements for 2005 referred to above present fairly, in all material respects, the equity and financial position of the Bank at 31 December 2005, and the results of its operations, the changes in the equity and its cash flows for the year then ended, and contain the required information, sufficient for their proper interpretation and comprehension, in conformity with the accounting principles and standards contained in Bank of Spain Circular 4/2004 which were applied on a basis consistent with that used in the preparation of the financial statements and other information for 2004 which, as indicated in paragraph 2 above, are presented in the financial statements for 2005 referred to above for comparison purposes only.

5. The accompanying directors' report for 2005 contains the explanations which the directors consider appropriate about the Bank's situation, the evolution of its business and other matters, but is not an integral part of the financial statements. We have checked that the accounting information in the directors' report is consistent with that contained in the financial statements for 2005. Our work as auditors was confined to checking the directors' report with the aforementioned scope, and did not include a review of any information other than that drawn from the Bank's accounting records.

The accompanying Notes 1 to 46 and Appendixes I to IX are an integral part of the cash flow statements for the year ended 31 December 2005.

Notes to the Financial Statements for the year ended 31 December 2005

1. Introduction, basis of presentation of the financial statements and other information

1.1. Introduction

Banco Bilbao Vizcaya Argentaria, S.A. ("the Bank" or "BBVA") is a private-law entity governed by the rules and regulations applicable to banks operating in Spain. The Bank conducts its business through branches and offices located throughout Spain and abroad.

The articles of association and other public information on the Bank can be consulted both at its registered office (Plaza San Nicolás, 4, Bilbao) and on its official website, www.bbva.com.

In addition to the operations carried on directly by it, the Bank is the head of a group of subsidiaries, jointly controlled entities and associates that engage in various business activities and which compose, together with the Bank, the Banco Bilbao Vizcaya Argentaria Group ("the Group" or "BBVA Group"). Therefore, the Bank is obliged to prepare, in addition to its own financial statements, the Group's consolidated financial statements.

The Bank's financial statements for 2004 were approved by the shareholders at the Bank's Annual General Meeting on February 26, 2005. The 2005 financial statements of the Bank have not yet been approved by its shareholders at the Annual General Meeting. However, the Bank's Board of Directors considers that the aforementioned financial statements will be approved without any changes.

1.2. Basis of presentation of the financial statements

On 22 December 2004, the Bank of Spain issued Circular 4/2004 on Public and Confidential Financial Reporting Rules and Formats.

The aim of this new accounting Circular is to amend the accounting regime for Spanish credit institutions, adapting it to the new accounting environment arising from the adoption by the European Union, through various EU Regulations, of International Financial Reporting Standards ("EU-IFRSs") in conformity with Regulation 1606/2002 of the European Parliament and of the Council of 19 July 2002 on the application of International Accounting Standards.

The Bank's financial statements were prepared by the directors (at the Board of Directors Meeting held on 10 February 2006) on the basis of the Bank's accounting records and in accordance with the models established by Bank of Spain Circular 4/2004, so that they present fairly the Bank's equity and financial position at 31 December 2005, and the results of its operations, the changes in equity and the cash flows in 2005.

All accounting policies and measurement bases with a significant effect on the financial statements were applied in their preparation.

1.3. Comparative information

The financial statements for the year ended 31 December 2005 are the first to have been prepared in accordance with Circular 4/2004; consequently, with respect to the rules in force when the financial statements for 2004 were prepared (Bank of Spain Circular 4/1991), there have been significant changes in the accounting policies, measurement bases and presentation of the financial statements composing the annual accounts. Note 3 discloses the main effects of adapting to the newly implemented Bank of Spain Circular 4/2004.

The information relating to 2004 contained in these notes to the financial statements is presented, for comparison purposes, with the information relating to 2005 and, accordingly, it does not constitute the Bank's financial statements for 2004.

1.4. Responsibility for the information and for the estimates made

The information in these financial statements is the responsibility of the Bank's directors. In preparing these financial statements estimates were occasionally made by the Bank in order to quantify certain of the assets, liabilities, income, expenses and commitments reported herein. These estimates relate basically to the following:

- The impairment losses on certain assets.
- The assumptions used in the actuarial calculation of the post-employment benefit liabilities and commitments (Note 2-f).
- The useful life of tangible and intangible assets.
- The fair value of certain unquoted assets.

Although these estimates were made on the basis of the best information available at 31 December 2005 and 2004 on the events analysed, events that take place in the future might make it necessary to change these estimates (upwards or downwards) in coming years.

1.5. Environmental impact

At 31 December 2005 the Bank's financial statements did not disclose any item that should be included in the environmental information document envisaged in the related Ministry of the Economy Order dated 8 October 2001.

1.6. Detail of agents of credit institutions

Appendix IX includes the list of agents required pursuant to Article 22 of Royal Decree 1245/1995 of 14 July of the Ministry of Economy and Finance.

1.7. Report on the activity of the Customer Care Department and the Customer Ombudsman

The report on the activity of the Customer Care Department and the Customer Ombudsman required pursuant to Article 17 of Ministry of Economy and Finance Order ECO/734/2004 of 11 March is included in the management report accompanying these financial statements.

1.8. Minimum capital

Law 13/1992 of 1 June 1992 and Bank of Spain Circular 5/1993 and subsequent amendments thereto regulate the minimum capital requirements for Spanish credit institutions – both as individual entities and as consolidated groups – and the manner in which these capital requirements are to be calculated.

At 31 December 2005 and 2004 the Group's qualifying capital exceeded the minimum required under the aforementioned legislation.

1.9. Consolidation

The BBVA Group's consolidated financial statements for the year ended 31 December 2005 were prepared by the Bank's directors (at the Board Meeting held on 10 February 2006) in accordance with EU-IFRSs, taking into account Bank of Spain Circular 4/2004.

The Group's transactions were managed on a consolidated basis, regardless of the individual allocation of the related net worth effect and results. Consequently, the Bank's financial statements must be considered in the context of the Group, since they do not reflect the financial and net worth variations that result from applying full or proportional consolidation methods or the equity method.

These variations are reflected in the 2005 consolidated financial statements of the Banco Bilbao Vizcaya Argentaria Group, also prepared by the Bank, the main data of which are presented below.

1.10. Events after 31 December 2005

In the period from 31 December 2005, to the date when these consolidated financial statements were authorised for issue, no events took place having a material effect on the accompanying consolidated financial statements.

2. Accounting policies and measurement bases applied

The accounting policies and measurement bases applied in preparing the Bank's financial statements were as follows:

a) First-time adoption of Bank of Spain Circular 4/2004

Transitional Provision One of Bank of Spain Circular 4/2004 sets forth the criteria that must be adopted when implementing the Circular for the first time.

The main criteria used by the Bank in preparing the opening balance sheet are indicated in Note 3.

b) Fair value

The fair value of an asset or a liability on a given date is taken to be the amount for which it could be bought or sold on that date by two knowledgeable, independent parties in an arm's length transaction acting prudently. The most objective and common reference for the fair value of an asset or a liability is the price that would be paid for it on an organised, transparent and deep market ("quoted price" or "market price").

If there is no market price for a given asset or liability, its fair value is estimated on the basis of the price established in recent transactions involving similar instruments and, in the absence thereof, by using mathematical measurement models sufficiently tried and trusted by the international financial community. Such estimates would take into consideration the specific features of the asset or liability to be measured and, in particular, the various types of risk associated with the asset or liability. However, the limitations inherent to the measurement models developed and the possible inaccuracies of the assumptions required by these models may signify that the fair value of an asset or liability thus estimated does not coincide exactly with the price for which the asset or liability could be purchased or sold on the date of its measurement.

c) Financial instruments

c.1) Classification

Financial assets/liabilities held for trading: these include the financial assets and liabilities acquired with the intention of generating a profit from short-term fluctuations in their prices or from differences between their purchase and sale prices.

These headings also include financial derivatives not considered to qualify for hedge accounting and, in the case of financial liabilities held for trading, the financial liabilities arising from the outright sale of financial assets purchased under reverse repurchase agreements or borrowed ("short positions").

Other financial assets and financial liabilities at fair value through profit or loss: the heading Other Financial Assets at Fair Value through Profit or Loss includes the financial assets not held for trading that:

- are hybrid financial assets and contain an embedded derivative whose fair value cannot reliably be determined, or
- are managed jointly with "liabilities under insurance contracts" measured at fair value, with financial derivatives whose purpose and effect is to significantly reduce exposure to changes in fair value, or with financial liabilities and derivatives whose purpose is to significantly reduce overall interest rate risk exposure.

The heading Other Financial Liabilities at Fair Value through Profit or Loss includes the financial liabilities not held for trading that are hybrid financial liabilities and contain an embedded derivative whose fair value cannot be reliably estimated.

Financial instruments involved in this category are permanently subject to an integrated and consistent system of measuring, managing and controlling risks and profit or loss that enables all the financial instruments involved to be monitored and identified and allows the effective reduction of risk to be checked.

Available-for-sale financial assets: these include debt securities not classified as held-to-maturity investments or as financial assets at fair value through profit or loss, and equity instruments issued by entities other than subsidiaries,

associates and those jointly controlled, provided that such instruments have not been classified as held for trading or as other financial assets at fair value through profit or loss.

Loans and receivables: this heading relates to the financing granted to third parties, classified on the basis of the nature thereof, irrespective of the nature of the borrower and the form of financing granted, and includes finance leases in which the Bank acts as a lessor.

The Bank generally intends to hold the loans and credits granted by it until their final maturity; therefore, they are presented in the balance sheet at their amortised cost (which includes any corrections required to reflect the estimated losses on their recovery).

Held-to-maturity investments: this heading includes debt securities for which the Bank, from inception and at any subsequent date, has the intention to hold until final maturity, since it has the financial capacity to do so.

Financial liabilities at fair value through equity: these include financial liabilities associated with available-for-sale financial assets arising as a result of a transfer of assets in which the transferor neither transfers nor retains substantially all the risks and rewards of ownership of the assets.

Financial liabilities at amortised cost: this heading includes, irrespective of their instrumentation and maturity, the financial liabilities not included in any other heading in the balance sheet which relate to the typical deposit-taking activities carried on by financial institutions.

c.2) Measurement

All financial instruments are initially recognised at fair value which, in the absence of evidence to the contrary, shall be the transaction price. These instruments will subsequently be measured on the basis of their classification. In the case of quoted financial instruments, fair value will be taken to be their market price. For unquoted financial instruments, fair value will be obtained using the valuation techniques customarily used in the market.

Financial assets:

Financial assets are measured at fair value, except for:

- Loans and receivables,
- Held-to-maturity investments, and
- Equity instruments whose fair value cannot be determined in a sufficiently objective manner and financial derivatives that have those instruments as their underlying and are settled by delivery of those instruments.

Loans and receivables and held-to-maturity investments are measured at amortised cost using the effective interest rate method. Amortised cost is understood to be the acquisition cost of a financial asset or liability minus principal repayments, plus or minus the systematic amortisation (as reflected in the income statements) of the difference between the initial cost and the maturity amount. In the case of financial assets, amortised cost also includes any value adjustments for impairment.

The effective interest rate is the discount rate that exactly equates the carrying amount of a financial instrument to all its estimated cash flows of all kinds during its residual life. For fixed rate financial instruments, the effective interest rate coincides with the contractual interest rate established on the acquisition date plus, where applicable, the fees and commissions which, because of their nature, can be equated with a rate of interest. In the case of floating rate financial instruments, the effective interest rate coincides with the rate of return prevailing in all connections until the date on which the reference interest rate is to be revised for the first time.

Equity instruments whose fair value cannot be determined in a sufficiently objective manner and financial derivatives that have those instruments as their underlying and are settled by delivery of those instruments are measured at acquisition cost adjusted, where appropriate, by any related impairment loss.

Financial liabilities:

Financial liabilities are measured at amortised cost, except for:

- Those included under the headings Financial Liabilities Held for Trading, Financial Liabilities at Fair Value through Profit or Loss and Financial Liabilities at Fair Value through Equity and the financial liabilities designated as hedged in fair value hedges or as hedging instruments, which are all measured at fair value, and

- Financial derivatives that have as their underlying equity instruments whose fair value cannot be determined in a sufficiently objective manner and are settled by delivery of those instruments; these derivatives are measured at cost.

c.3) Recognition of changes in the measurement of financial assets and liabilities

Based on the classification of financial instruments, any changes in the carrying amounts of the financial assets and liabilities classified as held for trading and as other financial assets and liabilities through profit or loss are recognised with a balancing entry in the income statement. A distinction is made between the changes resulting from the accrual of interest and similar, which are recorded under the headings Interest and Similar Income or Interest Expense and Similar Charges, as appropriate, and those arising for other reasons, which are recorded at their net amount under the heading Gains or Losses on Financial Assets and Liabilities in the income statement.

Valuation adjustments arising on available-for-sale financial assets are recognised temporarily under the heading Valuation Adjustments - Available-for-Sale Financial Assets, unless they relate to exchange differences, in which case they are recognised temporarily under the heading Valuation Adjustments - Exchange Differences.

charged or credited to the headings Valuation Adjustments - Available-for-Sale Financial Assets and Valuation Adjustments - Exchange Differences remain in the Bank's equity until the asset giving rise to them is removed from the balance sheet, whereupon they are charged or credited to the income statement.

Valuation adjustments arising on non-current assets held for sale and the liabilities associated with them are recognised with a balancing entry under the heading Valuation Adjustments - Non-Current Assets Held for Sale.

Valuation adjustments arising on financial liabilities at fair value through equity are recognised with a balancing entry under the heading Valuation Adjustments - Financial Liabilities at Fair Value through Equity.

In the specific case of financial instruments designated as hedged or qualifying for hedge accounting (Note 2.e), valuation differences are recognised as follows:

- In fair value hedges, the differences arising on both the hedging instruments and the hedged – with regard to the type of risk being hedged – are recognised directly in the income statement.
- In cash flow hedges and hedges of net investments in foreign operations, the valuation differences relating to the ineffective portion of the hedging transaction are recognised directly in the income statement.
- In cash flow hedges, the valuation differences arising on the effective portion of the hedging instruments are recognised temporarily under the heading Valuation Adjustments - Cash Flow Hedges.
- In hedges of net investments in foreign operations, the valuation differences arising on the effective portion of the hedging instruments are recognised temporarily under the heading Valuation Adjustments - Hedges of Net Investments in Foreign Operations.

In the two last-mentioned cases, the valuation differences are not recognised in profit or loss until the gains or losses of the hedged item are recognised in the income statement or until the date of maturity of the hedged item.

In fair value portfolio hedges of interest rate risk, the gains or losses that arise on measuring the hedging instruments are recognised directly in the income statement, whereas the gains or losses due to changes in the fair value of the hedged amount are recorded in the income statement with a balancing entry under the heading Changes in the Fair Value of the Hedged in Portfolio Hedges of Interest Rate Risk on the asset or liability side of the balance sheet, as appropriate.

In cash flow portfolio hedges of interest rate risk, the effective portion of the change in value of the hedging instrument is recognised temporarily under the heading Valuation Adjustments - Cash Flow Hedges until the forecast transactions are performed, at which time it is recorded in the income statement. The ineffective portion of the change in value of hedging derivatives is recognised directly in the income statement.

c.4) Impairment

A financial asset is considered to be impaired – and therefore its carrying amount is adjusted to reflect the effect of its impairment – when there is objective evidence that events have occurred which:

- In the case of debt instruments (loans and debt securities), give rise to a negative impact on the future cash flows that were estimated at the time the transaction was arranged.
- In the case of equity instruments, mean that the carrying amount of these instruments cannot be recovered.

As a general rule, the carrying amount of impaired financial instruments is adjusted with a charge to the income statement for the period in which the impairment becomes known, and the recoveries of previously recognised impairment losses are recognised in the income statement for the period in which the impairment is reversed or reduced.

Balances are considered to be impaired, and accrual of the interest thereon is suspended, when there are reasonable doubts that the balances will be recovered in full and/or the related interest will be recovered for the amounts and on the dates initially agreed upon, taking into account the guarantees received by the entities to assure (in part or in full) the performance of transactions. Amounts collected in relation to impaired loans and credits are used to recognise the related accrued interest and any excess amount is used to reduce the principal not yet repaid.

When the recovery of any recognised amount is considered to be remote, this amount is removed from the balance sheet, without prejudice to any actions taken by the Bank in order to collect the amount until its rights extinguish in full (through expiry, forgiveness or for other reasons).

Debt instruments carried at amortised cost:

The amount of the impairment losses incurred on these instruments relates to the positive difference between their respective carrying amounts and the present values of their expected future cash flows. However, the market value of listed debt instruments is deemed to be a fair estimate of the present value of their future cash flows.

The following is to be taken into consideration when estimating the future cash flows of debt instruments:

- All the amounts that are expected to be obtained over the residual life of the instrument; including, where appropriate, those which may result from the guarantees provided for the instrument (after deducting the costs required for foreclosure and subsequent sale),
- The various types of risk to which each instrument is subject, and
- The circumstances in which collections will foreseeably be made.

These cash flows are subsequently discounted using the instrument's effective interest rate (if its contractual rate is fixed) or the effective contractual interest rate at the discount date (if it is variable).

The possible impairment losses on these assets are determined:

- Individually, for all significant debt instruments and for those which, although not significant, cannot be classified in homogenous groups of instruments of similar characteristics, i.e. by instrument type, debtor's industry and geographical location, type of guarantee, age of past-due amounts, etc.
- Collectively, in all other cases.

Bank of Spain Circular 4/2004 establishes the criteria for determining impairment losses resulting from materialization of the insolvency risk of the obligors. Under these criteria, a debt instrument is impaired due to insolvency:

- When there is evidence of a deterioration of the obligor's ability to pay, either because it is in arrears or for other reasons, and/or
- When country risk materialises; country risk is considered to be the risk associated with debtors resident in a given country due to circumstances other than normal commercial risk.

Bank of Spain Circular 4/2004 classifies transactions on the basis of the nature of the obligors, the conditions of the countries in which they reside, transaction status, type of associated guarantee, and time in arrears. For each of these risk groups it establishes the minimum impairment losses ("identified losses") that must be recognised in the financial statements of entities.

In addition to the recognition of identified losses, Bank of Spain Circular 4/2004 requires provisioning for the losses inherent in debt instruments not measured at fair value through profit or loss and in contingent risks classified as standard, taking into account the historical experience of impairment and the other circumstances known at the time of the assessment. For these purposes, inherent losses are the losses incurred at the date of the financial statements, calculated using statistical procedures, that have not been allocated to specific transactions.

Inherent losses are quantified by applying the parameters established by the Bank of Spain on the basis of its experience and of information on the Spanish banking industry.

Other debt instruments:

The impairment losses on debt securities included in the available-for-sale financial asset portfolio are equal to the positive difference between their acquisition cost (net of any principal repayment) and their fair value after deducting any impairment loss previously recognised in the income statement.

When there is objective evidence that the negative differences arising on measurement of these assets are due to an impairment, they are no longer considered as Valuation Adjustments - Available-for-Sale Financial Assets and are recognised in the income statement. If all or part of the impairment losses are subsequently recovered, the amount is recognised in the income statement for the period in which the recovery occurred.

Similarly, in the case of debt instruments classified as non-current assets held for sale, losses previously recorded in equity are considered to be realised – and are recognised in the income statement – on the date the instruments are so classified.

Equity instruments measured at fair value:

The criteria for quantifying and recognising impairment losses on these instruments are similar to those for other debt instruments, with the exception that any recovery of these losses recognised is under the heading Valuation Adjustments - Available-for-Sale Financial Assets.

Equity instruments measured at cost:

The impairment losses on equity instruments measured at acquisition cost are equal to the difference between their carrying amount and the present value of expected future cash flows discounted at the market rate of return for similar securities. These impairment losses are determined taking into account the equity of the investee (except for valuation adjustments due to cash flow hedges) per the last approved balance sheet, adjusted for the unrealised gains at the measurement date.

Impairment losses are recognised in the income statement for the period in which they arise as a direct reduction of the cost of the instrument. These losses may only be reversed subsequently in the event of the sale of the assets.

d) Recognition of income and expenses

The most significant criteria used by the Bank to recognise its income and expenses are summarised as follows:

Interest income and expenses and similar:

As a general rule, interest income and expenses and similar are recognised on the basis of their period of accrual using the effective interest method. Specifically, dividends received from other companies are recognised as income when the right to receive them arises.

However, when a debt instrument is deemed to be impaired individually or is included in a group of instruments that are impaired because of amounts more than three months past-due, the recognition of accrued interest in the income statement is interrupted. This interest is recognised for accounting purposes when it is received, as a recovery of the impairment loss.

Commissions, fees and similar:

Income and expenses relating to commissions and similar fees are recognised in the income statement using criteria that vary according to their nature. The most significant income and expense in this connection are:

- Those relating linked to financial assets and liabilities measured at fair value through profit or loss, which are recognised when collected.
- Those arising from transactions or services that are provided over a period of time, which are recognised over the life of these transactions or services.
- Those relating to a singular act, which are recognised when the singular act is carried out.

Non-financial income and expenses:

These are recorded for accounting purposes on an accrual basis.

Deferred collections and payments:

These are recorded for accounting purposes at the amount resulting from discounting the expected cash flows at market rates.

Loan arrangement fees and commissions:

The financial fees and commissions that arise on the arrangement of loans, mainly origination and analysis fees, must be deferred and recognised in the income statement over the life of the loan. The direct costs incurred in arranging these transactions can be deducted from the amount thus recognised. Bank of Spain Circular 4/2004 stipulates that, in the absence of any cost accounting records with which to determine the direct costs, these costs may be offset against an arrangement fee by up to 0.4% of the loan principal, subject to a limit of EUR 400 per transaction; this amount is credited to the income statement when the loan is arranged and is recorded as a reduction of the aforementioned deferred fees and commissions.

e) Financial derivatives and hedge accounting

Financial derivatives are instruments that permit the transfer to third parties of all or part of the credit and/or market risks associated with balances and transactions. The underlyings used in these derivatives can be interest rates, specific indices, the prices of certain securities, cross-currency exchange rates or other similar references.

All derivatives are recognised in the balance sheet at fair value from the date of arrangement. If the fair value of a derivative is positive, it is recorded as an asset and if it is negative, it is recorded as a liability. Unless there is evidence to the contrary, it is understood that on the date of arrangement the fair value of the derivatives is equal to the transaction price. Changes in the fair value of derivatives after the date of arrangement are recognised with a balancing entry under the heading Gains or Losses on Financial Assets and Liabilities in the income statement. Specifically, the fair value of the standard financial derivatives included in the held for trading portfolios is equal to their daily quoted price. If, under exceptional circumstances, their quoted price cannot be established on a given date, these derivatives are measured using methods similar to those used to measure over-the-counter ("OTC") derivatives.

The fair value of OTC derivatives is equal to the sum of the future cash flows arising from the instrument, discounted at the measurement date ("present value" or "theoretical close"); these derivatives are measured using methods recognised by the financial markets, including the net present value (NPV) method and option price calculation models.

Financial derivatives that have as their underlying equity instruments whose fair value cannot be determined in a sufficiently objective manner and are settled by delivery of those instruments, are measured at cost.

Hedge accounting

A financial derivative may be considered as qualifying for hedge accounting only if it meets the following three conditions:

- It must hedge one of the following three types of risk:

- Changes in the value of assets and liabilities due to fluctuations in the interest rate and/or exchange rate to which the position or balance to be covered ("fair value hedge"),
- Changes in the estimated cash flows arising from financial assets and liabilities and highly probable transactions which an entity plans to carry out ("cash flow hedge"),
- Net investment in a foreign operation ("hedge of net investments in foreign operations"), which, in practice, is equivalent to a cash flow hedge.

- It must effectively eliminate a significant portion of the risk inherent in the hedged item or position over the expected term of the hedge, which means that:

- At the date of arrangement the hedge is expected, under normal conditions, to be highly effective ("prospective effectiveness").
- There is sufficient evidence that the hedge was fully effective during the whole life of the hedged item or position ("retrospective effectiveness").

- Lastly, there must be adequate documentation evidencing the specific designation of the financial derivative to hedge certain balances or transactions and the manner in which this hedge is expected to be achieved (provided that this is in line with the Bank's management of own risks).

Most of the hedges arranged by the Bank are fair value hedges.

Portfolio hedge of interest rate risk –

A portfolio hedge of interest rate risk is that which hedges the interest rate risk exposure of a certain amount of financial assets or financial liabilities forming part of the overall financial instrument portfolio, but not the interest rate risk exposure of specific instruments. Portfolio hedges can take the form of fair value or cash flow hedges.

The gains or losses arising from changes in the fair value of the interest rate risk of effectively financial instruments are charged or credited, as appropriate, to the heading Changes in the Fair Value of the Hedged in Portfolio Hedges of Interest Rate Risk on the asset or liability side of the balance sheet.

At 31 December 2005, the Bank had no portfolio hedge of interest rate risk operations.

f) Pension commitments and other commitments to employees

1. Commitments in Spain

1.1. Pots-employment benefit

Following is a description of the most significant accounting criteria and the salient data relating to the post-employment benefit commitments of the Bank in Spain. These commitments include the undertaking to supplement the public social security benefits in the event of retirement, permanent disability or death; compensation and indemnities payable; and contributions to employee welfare systems for early retirees and post-employment welfare benefits.

1.1.1. Public social security system benefit supplement

Under the collective labour agreement in force, Spanish banks are required to supplement the social security benefits received by employees or their beneficiary rightholders in the event of retirement (except for those hired after 8 March 1980), permanent disability, death of spouse or death of parent.

The employee welfare system in place at the Bank supersede and improve the terms and conditions of the collective labour agreement for the banking industry; the commitments envisaged in the event of retirement, death and disability cover all employees, including those hired after 8 March 1980. The Bank externalised all its commitments to serving and retired employees pursuant to Royal Decree 1588/1999. These commitments are instrumented in pension plans, insurance contracts with a non-Group company and insurance contracts with BBVA Seguros, S.A. de Seguros y Reaseguros, which is 99.93% owned by the Banco Bilbao Vizcaya Argentaria Group. This employee welfare system includes defined contribution commitments, the amounts of which are determined, on a case-by-case basis, as a percentage of certain compensation and/or as a pre-established fixed amount. Defined benefit commitments are funded by insurance contracts.

Defined contribution commitments: The current contributions made by the Bank for defined contribution retirement commitments covering substantially all current employees, which are recognised with a charge to the heading "Personnel Expenses – Contributions to pension funds" in the accompanying income statements, amounted to EUR 37,462 and EUR 41,871 thousand in 2005 and 2004, respectively.

Defined benefit commitments: The Bank has defined benefit commitments for permanent disability and death of current employees and early retirees; for death of certain retired employees; and for retirement of certain specific groups of current employees, early retirees and retired employees (benefits in progress).

The present values of the vested obligations were quantified on a case-by-case basis. The valuation method used for current employees is the projected unit credit method, which views each period of service as giving rise to an additional unit of benefit entitlement and measures each unit separately. The actuarial assumptions used in quantifying these obligations are unbiased and mutually compatible and comply with Bank of Spain Circular 4/2004. Specifically, the most significant actuarial assumptions used in 2005 and 2004 were as follows:

- Mortality tables: PERM/F 2000 P.
- Discount rate: 4% (cumulative annual)/AA corporate bond yield curve.
- Consumer price index: 1.5% (cumulative annual).
- Salary growth rate: at least 2.5% (cumulative annual; depending on employee group).
- Retirement ages: those relating to the earliest dates at which the employees are entitled to retire

The defined benefit commitments at 31 December 2005 and 2004 were as follows:

	Thousands of Euros	
	2005	2004
Pension commitments to retired employees	2,494,515	2,526,109
Pension contingencies in respect of current employees	216,455	210,370
	2,710,970	2,736,479
Funding at the end of each year:		
Insurance contracts with related insurance companies	2,089,985	2,097,376
Insurance contracts with unrelated insurance companies	620,985	639,103
	2,710,970	2,736,479

The current contributions made by the Bank in relation to defined benefit retirement commitments are recorded with a charge to the "Personnel Expenses – Contributions to pension funds" account of the accompanying income statement and amounted to EUR 27,722 thousand and EUR 11,217 thousand in 2005 and 2004, respectively.

1.1.2. Early retirements

The commitments to early retirees include the compensation and indemnities and contributions to external pension funds payable during the period of early retirement. The commitments relating to this group of employees after they have reached the age of effective retirement are included in the employee welfare system.

In 2005 and 2004 the Bank offered certain employees the possibility of taking early retirement before reaching the age stipulated in the collective labour agreement in force. This offer was accepted by 673 and 1,363 employees, respectively. The total cost of these agreements amounts to EUR 284,803 thousand and EUR 568,683 thousand (EUR 185,122 thousand and 369,644 thousand, net of the related tax effect) and the corresponding provisions were recognised with a charge to the heading Provisioning Expense (Net) - Transfers to Funds for Pensions and Similar Obligations - Early Retirements in the accompanying income statement.

The present values of the vested obligations are quantified on a case-by-case basis. The actuarial assumptions used in quantifying these obligations are unbiased and mutually compatible and comply with Bank of Spain Circular 4/2004. Specifically, the most significant actuarial assumptions used in 2005 and 2004 were as follows:

- Mortality tables: PERM/F 2000 P
- Discount rate: 4% (cumulative annual)/AA corporate bond yield curve
- Consumer price index: 1.5% (cumulative annual)
- Retirement ages: those agreed upon contractually for each individual employee, relating to the earliest dates at which the employees are entitled to retire

The changes in the years ended 31 December 2005 and 2004 in the present value of the vested obligations for commitments to early retirees were as follows:

	Thousands of Euros	
	2005	2004
Present actuarial value at beginning of year	2,625,909	2,428,511
+ Interest cost	93,432	85,283
+ Early retirements in the current year	284,803	568,683
- Payments made	(475,303)	(460,338)
+/- Other changes	9,768	(2,697)
+/- Actuarial losses (gains)	16,635	6,467
Present actuarial value at end of year	2,555,244	2,625,909
Funding at end of each year:		
Internal provisions	2,555,244	2,625,909
	2,555,244	2,625,909

1.1.3. Post-employment welfare benefits

The Bank has welfare benefit commitments, the effects of which extend beyond the retirement of the employees entitled to the benefits. These commitments relate to certain current employees and retirees, depending upon the employee group to which they belong.

The present value of the vested obligations for post-employment welfare benefits were quantified on a case-by-case basis. The valuation method used for current employees is the projected unit credit method. The actuarial assumptions used in quantifying these obligations are unbiased and mutually compatible and comply with Bank of Spain Circular 4/2004. Specifically, the most significant actuarial assumptions used in 2005 and 2004 were as follows:

- Mortality tables: PERM/F 2000 P
- Discount rate: 4% (cumulative annual) / AA corporate bond yield curve.
- Consumer price index: 1.5% (cumulative annual)
- Retirement ages: those relating to the earliest dates at which the employees are entitled to retire

The detail of these commitments at 31 December 2005 and 2004 is as follows:

	Thousands of Euros	
	2005	2004
Post-employment welfare benefit commitments to retired employees	157,868	154,951
Vested post-employment welfare benefit contingencies in respect of current employees	51,262	47,381
	209,130	202,332
Funding at end of each year:		
Internal provisions	209,130	202,332
	209,130	202,332

The changes in 2005 and 2004 in the present value of the vested obligation for post-employment welfare benefit commitments were as follows:

	Thousands of Euros	
	2005	2004
Present actuarial value at beginning of year	202,332	200,825
+ Interest cost	8,178	7,803
+ Normal cost for the period	2,107	1,998
- Payments made	(12,075)	(11,493)
+/- Actuarial losses (gains)	8,588	3,199
Present actuarial value at end of year	209,130	202,332

1.1.4. Summary

Following is a summary of the charges recorded in the 2005 and 2004 income statements for post-employment benefit commitments:

	Thousands of Euros	
	2005	2004
Interest expense and similar charges:		
Interest cost of pension funds	101,610	93,086
Personnel expenses:		
Welfare benefits	2,107	1,998
Transfers to pension plans	68,664	54,971
Provisioning expense (net):		
Transfers to funds for pensions and similar obligations		
Pension funds	25,223	11,955
Early retirement	284,803	568,683
	482,407	730,693

At 31 December 2005 and 2004 there were no unfunded actuarial gains or losses arising from differences between the actuarial assumptions and what had actually occurred or, where appropriate, from the effects of changes in the actuarial assumptions used.

1.2. Other commitments to employees:

1.2.1. Compensation in kind

The Bank is obliged to deliver partially or fully subsidised goods and services under the collective banking labour agreements applicable to it and the related corporate agreements. The most significant employee welfare benefits, in terms of the type of compensation and the event giving rise to the commitment, are loans to employees, life insurance, study aid and long-service bonuses. They may be applied differently to the various employee groups.

Long-service bonuses are a form of long-term compensation, entitlement to which is conditional upon the qualifying beneficiary employees remaining in service for a stipulated number of years (15, 25, 40 or 50 years' effective service in the case of share-based bonuses and 45 years' effective service in the case of cash bonuses).

The present values of the vested obligation at 31 December 2005 and 2004 for long-service cash bonuses and for the gifts and vacation days relating to long-service share-based bonuses (the treatment applicable to share-based payment is summarised in section 4 below) was quantified on a case-by-case basis using the projected credit unit valuation method. The main actuarial assumptions used in the quantification process are unskewed, mutually compatible and comply with the criteria of Bank of Spain Circular 4/2004. Specifically, the most significant actuarial assumptions used in 2005 and 2004 are as follows:

Mortality tables: PERM/F 2000 P

- Disability tables: IASS – 90 (reflecting the experience of the Spanish Social Security authorities)
- Assumed interest rate: 4% (cumulative annual) / AA corporate bond yield curve.
- Retirement ages: those relating to the earliest dates at which the employees are entitled to retire.

The changes in 2005 and 2004 in the present value of the vested obligation for these commitments were as follows:

	Thousands of Euros	
	2005	2004
Present actuarial value at beginning of year	31,590	30,693
+ Interest cost	1,318	1,228
+ Normal cost for the period	1,337	1,323
- Payments made	(546)	(735)
+ Past service cost and actuarial losses (gains)	(2,464)	(570)
+/- Actuarial losses (gains)	(1,243)	(349)
Present actuarial value at end of year	30,033	31,590
Funding at end of each year:		
Internal provisions(*)	30,033	31,590
	30,033	31,590

(*) These funds are recognised in the heading "Provisions- Other provisions" in the accompanying balance sheet.

Since all other employee welfare benefits for current employees accrue and are settled on a yearly basis, it is not necessary to record a provision in this connection.

The total cost of the employee welfare benefits provided by the Bank to its current employees in the 2005 and 2004 was EUR 30,929 thousand and EUR 28,822 thousand, respectively, and these amounts were recognised with a charge to Personnel Expenses - Other in the accompanying income statements.

1.2.2. Bank share-based compensation system

In 2005 and 2004 the Bank had no target-based compensation plans involving the delivery of stock options or shares of Banco Bilbao Vizcaya Argentaria, S.A.

However, the Bank is obliged, under the related corporate agreement, to deliver shares of Banco Bilbao Vizcaya Argentaria, S.A. to certain of its employees when they complete a given number of years of effective service:

	Number of Shares
15 years	180
25 years	360
40 years	720
50 years	900

The present values of the vested obligation at 31 December 2005 and 2004, in terms of the probable number of shares, were quantified on a case-by-case basis using the projected unit credit method. The main actuarial assumptions used in quantifying this obligation are summarised as follows:

- Mortality tables: PERM/F 2000 P
- Disability tables: IASS – 90 (reflecting the experience of the Spanish Social Security authorities)
- Retirement ages: those relating to the earliest dates at which the employees are entitled to retire

The changes in 2005 and 2004 in the present value of the vested obligation, in terms of the probable number of shares, for share-based long-service bonuses were as follows:

	Number of Shares	
	2005	2004
Present actuarial value at the beginning of year	6,658,067	6,932,004
+ Period accrual	399,753	385,661
- Deliveries made	(269,100)	(305,100)
+/- Actuarial losses (gains)	157,747	(354,498)
Present actuarial value at the end of year	6,946,467	6,658,067

In March 1999, pursuant to a resolution adopted by the Bank's shareholders at the Annual General Meeting on 27 February 1999, 32,871,301 new shares were issued at a price of EUR 2.14 per share (similar to the average reference price of the share-based commitments to Bank employees existing at that date which the new shares were assigned to

fund). These shares were subscribed and paid by a non-BBVA company and, simultaneously, the Bank acquired a call option on these shares which can be exercised on any date, at one or several times, prior to 31 December 2011, at an exercise price equal to the share issue price, adjusted on the basis of the related antidilution clauses. On several occasions since 1999 the call option was partially exercised to meet share-based commitments to Bank employees. At 31 December 2004, the Bank still held an option on a total of 4,826,645 shares at a price of EUR 2.09 per share, which were assigned in full to share-based long-service bonuses. In 2005 the option was exercised on a total of 269,100 shares to settle long-service bonuses when they fell due (305,100 shares in 2004).

At 31 December 2005, the Bank still held an option on a total of 4,557,545 shares and, in addition, it had arranged a futures transaction with a non-BBVA entity on a total of 2,388,922 shares at an exercise price of EUR 15.06 per share (1,831,422 shares at an exercise price of EUR 12.30 per share at 31 December 2004).

The changes in 2005 and 2004 in the related internal provisions, which take into account the present value of the vested obligation, at any given date, in terms of the probable number of shares and the instruments assigned to the commitment, were as follows:

	Thousands of Euros	
	2005	2004
Internal provision at beginning of year	32,614	33,692
+ Normal cost for the period	5,879	4,389
- Payments relating to partial exercises of the call option (Settlement of long-service bonuses when they fall due)	(562)	(638)
+/- Collections / (Payments) due to quarterly settlements of futures transactions	5,244	1,685
+/- Actuarial losses (gains)	2,375	(6,514)
Internal provision at end of year (*)	45,550	32,614

(*) These funds are recognised in the heading "Provisions- Other provisions" in the accompanying balance sheet.

In the last quarter of 2005, certain Group companies in Spain implemented a corporate programme for its permanent employees to enable them to acquire, at a discount, shares of Banco Bilbao Vizcaya Argentaria, S.A. The conditions of the first phase of the programme comprise an initial discount of 4% of the employees' initial investment, subject to the shares being held for a period of two years and to the delivery in shares of 3% of the initial investment after three and five years, respectively, if the initially acquired shares are held for that long. In this first phase there is the possibility of financing the acquisition of shares through a personal loan. The total number of shares acquired as part of this programme amounted to 2.5 million at a market price of EUR 14.68 per share (2.4 million of these shares related to employees of the Bank). At 31 December 2005, the unamortized balance of the financing granted to employees of the group amounted to EUR 30,064 thousand (of which EUR 29,039 thousand related to employees of the Bank).

2. Commitments abroad

Part of the Bank's Foreign Network has post-employment benefit commitments to certain current and/or retired employees. The most salient data relating to these commitments are as follows:

Defined benefit commitments recorded in internal provisions: the accrued liability for defined benefit commitments to current and/or retired employees, net, where appropriate, of the specific assets assigned to fund them, amounted to EUR 34,374 thousand and EUR 27,215 thousand at 31 December 2005 and 2004, respectively, and is included under Provisions – Provisions for Pensions and Similar Obligations in the accompanying balance sheets.

The present values of the vested obligations of the Foreign Network are quantified on a case-by-case basis, and the projected unit credit valuation method is used for current employees. As a general rule, the actuarial assumptions used are as follows: the discount rate is the AA corporate bond yield curve; the mortality tables are those applicable in each local market when an insurance contract is arranged; and the inflation and salary growth rates are those applicable in each local market. These assumptions should be prudent and mutually compatible.

The changes in 2005 and 2004, in the Foreign Network as a whole, in the balances of Provisions – Provisions for Pensions and Similar Obligations were as follows:

	Miles de euros	
	2005	2004
Balance at beginning of period	26,430	24.864
+ Period provisions charged to income	8,392	1,980
- Payments made	(2,309)	(225)
+/- Other changes	829	(189)
+/- Exchange differences	1,032	-
Balance at end of period	34,374	26,430

Cost of commitments of the Foreign Network: The total charges recorded in the 2005 and 2004 income statements for the defined contribution and defined benefit post-employment compensation commitments of the Foreign Network amounted to EUR 11,976 thousand and EUR 5,329 thousand, respectively, of which EUR 3,584 thousand and EUR 3,266 thousand are related to contribution to external pension funds, in 2005 and 2004, respectively.

At 31 December 2005 and 2004 there were no unfunded actuarial gains or losses arising from differences between the actuarial assumptions and what had actually occurred or, where appropriate, from the effects of changes in the actuarial assumptions used.

3. Termination benefits

Termination benefits must be recognised when the company is committed to severing its contractual relationship with its employees and, to this end, has a formal detailed redundancy plan. There are currently no redundancy plans making it necessary to record a provision in this connection.

g) Exchange differences

Assets, liabilities and futures transactions

The assets and liabilities in foreign currencies, including those of branches abroad, and the unmatured hedging forward foreign currency purchase and sale transactions were translated to euros at the average exchange rates on the Spanish spot currency market (or based on the price of the dollar on local markets for the currencies not listed on this market) at the end of each period, with the exception of:

- non-current investments in securities denominated in foreign currencies and financed in euros or in a currency other than the investment currency, which were translated at historical exchange rates.
- unmatured non-hedging forward foreign currency purchase and sale transactions, which are translated at the exchange rates on the forward currency market at the end of each period published by the Bank of Spain for this purpose.

Structural currency positions

As a general policy, the Bank's investments in foreign subsidiaries and the endowment funds provided to branches abroad are financed in the same currency as the investment in order to eliminate the future currency risk arising from these transactions. However, the investments made in countries whose currencies do not have a market which permits the obtainment of unlimited, lasting and stable financing at long-term are financed in another currency. In 2005 and 2004 most of this financing was in euros.

The details, by currency, of various balances and headings in these notes to the financial statements include, under the name "foreign currencies", currencies other than the euro.

2005	Equivalent Value in Thousands of Euros	
	Assets	Liabilities
Financial assets/liabilities held for trading	4,386,982	242,535
Available-for-sale financial assets	2,643,465	-
Loans and receivables	12,941,947	-
Investments	9,075,156	-
Tangible assets	8,687	-
Financial liabilities at amortised cost	-	40,652,943
Other	286,132	766,106
Total	29,342,369	41,661,584

2004	Equivalent Value in Thousands of Euros	
	Assets	Liabilities
Financial assets/liabilities held for trading	3,313,322	410,584
Available-for-sale financial assets	1,139,169	-
Loans and receivables	10,280,974	-
Investments	9,119,335	-
Tangible assets	9,460	-
Financial liabilities at amortised cost	-	35,328,465
Other	369,149	89,058
Total	24,231,409	35,828,107

h) Non-current assets held for sale and liabilities associated with non-current assets held for sale

The heading Non-current Assets Held for Sale reflects the carrying amount of the assets – composing a “disposal group” or forming part of a business unit that the Group intends to sell (“discontinued operations”) – which will very probably be sold in their current condition within one year from the date of the financial statements. Therefore, the carrying amount of these assets – which can be financial or non-financial – will foreseeably be recovered through the price obtained on their sale.

Specifically, the assets received by the Bank from its debtors in full or part settlement of the debtors’ payment obligations are treated as non-current assets held for sale (foreclosed assets), unless the Bank has decided to make continuing use of these assets.

Symmetrically, the heading Liabilities Associated with Non-current Assets Held for Sale reflects the balances payable arising on disposal groups and discontinued operations.

i) Tangible assets

Non-current tangible assets for own use:

Functional non-current assets -including both tangible assets intended to be held for continuing use received by the Bank in full or part settlement of financial assets representing receivables from third parties and tangible assets acquired under finance leases- are presented at acquisition cost less any accumulated depreciation and, where appropriate, any estimated impairment losses (carrying amount higher than fair value).

For this purpose, the acquisition cost of foreclosed assets held for own use is equal to the carrying amount of the financial assets delivered in exchange for their foreclosure.

Depreciation is calculated, using the straight-line method, on the basis of the acquisition cost of the assets less their residual value; the land on which the buildings and other structures stand has an indefinite life and, therefore, is not depreciated.

The period tangible asset depreciation charge is recognised with a balancing entry in the income statement and is based on the application of the following depreciation rates (determined on the basis of the average years of estimated useful life of the various assets):

	Annual Percentage
Buildings for own use	1,33% to 4%
Furniture	8% to 10%
Fixtures	6% to 12%
Office supplies and computerisation	8% to 25%
Remodelling of rented offices	6%

At each accounting close, the Bank analyses whether there is any internal or external indication that the carrying amounts of its tangible assets exceed the related recoverable amounts. If there is such an indication, the carrying amount of the asset in question is reduced to its recoverable amount and the future depreciation charges are adjusted in proportion to the asset's new remaining useful life and/or to its revised carrying amount.

Similarly, if there is any indication that the value of a tangible asset has been recovered, the entities recognise the reversal of the impairment loss recorded in prior periods and, consequently, adjust the future depreciation charges. In no circumstances may the reversal of an impairment loss on an asset raise its carrying amount above that which it would have if no impairment losses had been recognised in prior years.

Upkeep and maintenance expenses relating to tangible assets held for own use are charged to the income statement for the period in which they are incurred.

Investments properties and other assets leased out under an operating lease:

The heading "Tangible Assets - Investment Properties" - in the balance sheet reflects the net values of the land, buildings and other structures held either to earn rentals or for capital appreciation.

The criteria used to recognise the acquisition cost of assets leased out under operating leases, to calculate their depreciation and their respective estimated useful lives and to record the impairment losses thereon are the same as those described in relation to functional tangible assets.

j) Intangible assets

These assets can have an indefinite useful life- when, based on an analysis of all relevant factors, it is concluded that there is no foreseeable limit to the period over which the asset is expected to generate net cash flows for the Bank- or a finite useful life, in all other cases.

Intangible assets with indefinite useful lives are not amortised, but rather at the end of each reporting period the Bank reviews the remaining useful lives of the assets in order to ensure that they continue to be indefinite or, if this is not the case, to take the appropriate steps.

The Bank has not recognised any intangible assets with indefinite useful lives.

Intangible assets with finite lives are amortised over those useful lives using methods similar to those used to depreciate tangible assets.

In both cases the Bank recognises any impairment loss on the carrying amount of these assets with a charge to the heading Impairment Losses (Net) - Other Intangible Assets in the income statement. The criteria used to recognise the impairment losses on these assets and, where applicable, the recovery of impairment losses recognised in prior periods are similar to those used for tangible assets.

k) Tax assets and liabilities

Spanish corporation tax expense is recognised in the income statement, except when it results from transactions the gains or losses on which are recognised directly in equity, in which case the related tax effect is also recognised in equity.

The current income tax expense is calculated by aggregating the current tax arising from the application of the related tax rate to the taxable profit (or tax loss) for the period (after deducting the tax credits allowable for tax purposes) and the change in deferred tax assets and liabilities recognised in the income statement.

Deferred tax assets and liabilities include temporary differences, measured at the amount expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities and their tax bases, and tax loss and tax credit carryforwards. These amounts are measured at the tax rates that are expected to apply in the period when the asset is realised or the liability settled.

Deferred tax assets are recognised to the extent that it is considered probable that there will be sufficient taxable profits in the future against which the deferred tax assets can be utilised.

The deferred tax assets and liabilities recognised are reassessed at each balance sheet date in order to ascertain whether they still exist, and the appropriate adjustments are made on the basis of the findings of the analyses performed.

Income and expenses recognised directly in equity are recorded as temporary differences.

l) Leases

Leases are classified as finance leases when they transfer substantially the risks and rewards incidental to ownership of the asset forming the subject matter of the contract.

When the entities act as the lessor of an asset, the aggregate present values of the lease payments receivable from the lessee plus the guaranteed residual value (normally the exercise price of the lessee's purchase option on expiration of the lease agreement) are recorded as financing provided to third parties and, therefore, are included under the heading Loans and Receivables in the balance sheet.

Leases other than finance leases are classified as operating leases. Assets provided under operating leases to Group entities are treated as other assets leased out under an operating lease or as investment property.

m) Provisions and contingent liabilities

Provisions are present obligations arising from legal or contractual requirements, valid expectations created by the Bank in third parties regarding the assumption of certain types of responsibilities, or virtual certainty as to the future course of regulation in particular respects, especially proposed new legislation that the Bank cannot avoid.

Provisions are recognised in the balance sheet when each and every one of the following requirements is met: the Bank has a present obligation resulting from a past event and, at the balance sheet date, it is more likely than not that the obligation will have to be settled; it is probable that to settle the obligation the entity will have to give up resources embodying economic benefits; and a reliable estimate can be made of the amount of the obligation.

Contingent liabilities are possible obligations of the Bank that arise from past events and whose existence is conditional on the occurrence or non-occurrence of one or more future events beyond the control of the entity. They include the present obligations of the Bank when it is not probable that an outflow of resources embodying economic benefits will be required to settle them or when, in extremely rare cases, their amount cannot be measured with sufficient reliability. Contingent liabilities are recorded in memorandum accounts.

Contingent assets are possible assets that arise from past events and whose existence is conditional on, and will be confirmed only by the occurrence or non-occurrence of, events beyond the control of the entity. Contingent assets are not recognised in the balance sheet or in the income statement; however, they are disclosed in the notes to the financial statements, provided that it is probable that these assets will give rise to an increase in resources embodying economic benefits.

n) Transfers of financial assets and derecognition of financial assets and liabilities

The accounting treatment of transfers of financial assets depends on the extent to which the risks and rewards associated with the transferred assets are transferred to third parties. If substantially all the risks and rewards are transferred to third parties, the transferred financial asset is derecognised and, at the same time, any right or obligation retained or created as a result of the transfer is recognised.

If substantially all the risks and rewards associated with the transferred financial asset are retained, the transferred financial asset is not derecognised and continues to be measured using the same criteria as those used prior to the transfer.

Financial assets are only derecognised when the cash flows they generate have extinguished or when substantially all the risks and rewards incidental to them have been transferred. Similarly, financial liabilities are only derecognised when the obligations they generate have extinguished or when they are acquired (with the intention either settle them or re-sell them).

o) Own equity instruments

The balance of the heading Own Funds - Treasury Shares in the balance sheets relates to Bank shares held by the Bank at 31 December 2005 and 2004. These shares are carried at acquisition cost, and the gains or losses arising on their disposal are credited or debited, as appropriate, to the heading "Shareholders' Equity – Reserves" in the accompanying balance sheets (Note 24).

All the shares of the Bank held by the Bank at 31 December 2005 and 2004 represented 0.0914% and 0.0193%, respectively, of the issued share capital at those dates (the transactions involving treasury shares in the 2005 and 2004 are summarised in Note 25).

3. Reconciliation of the closing balances for 2003 and 2004 to the opening balances for 2004 and 2005

Bank of Spain Circular 4/2004 requires that the first financial statements prepared in accordance with the Circular include a reconciliation of the closing balances for the immediately preceding period to the opening balances for the period to which these financial statements refer.

The reconciliation of the balances in the balance sheets and income statements is shown in Appendixes VI, VII and VIII. The definition of certain terms used therein is as follows:

- Data according to CBE 4/1991 as of 12-31-03: the balances at 31 December 2003 in accordance with the standards in force at that date (Bank of Spain Circular 4/1991), following in general the presentation criteria of the new normative.
- Data according to CBE 4/2004 as of 01-01-04: the balances resulting from considering the effect on the closing balances for the preceding period of the adjustments and reclassifications made under Bank of Spain Circular 4/2004 at 1 January.
- Data according to CBE 4/2004 as of 12-31-04: the balances at 31 December 2004 in accordance with Bank of Spain Circular 4/1991 in force at that date, following in general the presentation criteria of the new normative.
- Data according to CBE 4/2004 as of 01-01-05: the balances resulting from considering the effect on the closing balances for the preceding period of the adjustments and reclassifications made under Bank of Spain Circular 4/2004.

Main effects of adaptation to Bank of Spain Circular 4/2004.

The estimated main effects of adaptation to the new Circular are as follows:

a) Financial instruments

In accordance with the new Circular, financial assets and liabilities held for trading are measured at fair value through profit or loss. Also, the gains and losses on the available-for-sale securities portfolio are recorded, net of their tax effect, in the equity account Valuation Adjustments.

As regards the classification of equity securities portfolios, under Bank of Spain Circular 4/2004 significant influence is presumed to exist when an ownership interest of 20% is held in an investee. The Bank classified Banca Nazionale del Lavoro, S.p.A. (BNL) as an associate, i.e. a company over which significant influence is exercised, since it considered that, although its equity interest is less than 20% (general criterion), the current shareholders' agreement gives it significant influence over the management of this entity. The entities classified as associates under the previous Circular and in which the Group has an ownership interest of less than 20% were reclassified to the available-for-sale portfolio (except for BNL), since it is considered that the Bank does not exercise significant influence over them.

The recognition, measurement and disclosure criteria included in IASs 32 and 39, and the respective rules contained in Bank of Spain Circular 4/2004, were applied retrospectively to 1 January 2004.

1 January 2004 was considered to be the date of application of the rules on the derecognition of financial instruments. Transactions which on or after that date met the recognition and derecognition requirements included in IASs 32 and 39 were removed from the balance sheet (Note 13.2). However, the securitization funds created subsequent to 1 January 2004 through the transfer of derecognised loans, of which the Bank retains certain of the risks or rewards, were included in the financial statements.

b) Loan portfolio provisioning

The Bank estimated the impact of recording the provisions for the loan portfolio using the methods described in Note 2.c for estimating the impairment of financial instruments.

c) Loan arrangement fees

As a result of the application of the new accounting treatment for these fees (Note 2.d), the Bank estimated the impact of reversing, with a charge to equity, the fees and commissions credited to income in prior years and recorded the same amount under prepayments and accrued income as a balancing entry. With regard to 2004, the portion of these fees and commissions relating to that year were recognised in the income statement.

d) Pensions

Under Bank of Spain Circular 4/2004 the assumptions used to measure defined benefit pension commitments must be unbiased and mutually compatible, and the market interest rate relating to high quality assets must be used for discounting purposes. IFRSs also stipulate that, for employees subject to Spanish labour legislation, the actuarial assumptions to be used must be based on the applicable Spanish legislation and the actuarial assumptions published by the Directorate-General of Insurance and Pension Funds (DGSFP).

As a result of the application of these criteria, the Bank reviewed all its actuarial assumptions for existing commitments and funded all the deficits relating to externalised commitments existing at 1 January 2004.

All cumulative actuarial losses at 1 January 2004 were recognised with a charge to reserves.

e) Derivatives

Under Bank of Spain Circular 4/2004 all derivatives are measured at fair value through profit or loss. Hedging transactions require greater documentation and periodic monitoring of their effectiveness. In fair value hedges, changes in the fair value of the hedged item are recognised in income, and the related carrying amount is adjusted. The Bank's review of the validity of the transactions classified as hedges demonstrated that most of the hedges were highly effective.

The most significant impacts of IFRSs are the recognition in reserves of the unrealised gains existing at the date of transition (1 January 2004) and the recognition in profit or loss of the changes in the unrealised gains or losses for the period.

In the case of transactions that were designated as subject to hedge accounting at 1 January 2004 but which did not comply with the conditions of Rule Thirty-One of Bank of Spain Circular 4/2004 to be so designated, hedge accounting was discontinued. Net positions designated as hedged under the previous standards and rules were replaced as hedged at 1 January 2004 by an amount of assets or liabilities of the net positions.

Transactions initiated before 1 January 2004 were not designated as hedges retrospectively.

f) Tangible assets

In the case of tangible assets, the Group used as attributed cost on the revaluation date the amounts revalued prior to 1 January 2004, on the basis of the legislation then in force. In this connection, the revaluations performed under Spanish law were considered to be valid.

g) Equity-instrument-based employee compensation

As permitted by Transitional Provision One of Bank of Spain Circular 4/2004, Rule Thirty-Six of Bank of Spain Circular 4/2004 was not applied to the equity instruments granted to employees before 7 November 2002 title to which had not yet passed to these employees on 1 January 2005.

h) Transactions involving own equity instruments

The gains or losses obtained on transactions involving treasury shares are recognised as changes in equity and these shares continue to be carried at their acquisition cost. Under the previous Circular, these gains or losses were recognised in the income statement.

4. Distribution of profit

In 2005 the Board of Directors of Banco Bilbao Vizcaya Argentaria, S.A. resolved to pay the shareholders three interim dividends out of 2005 profit, amounting to a total of EUR 0,345 gross per share. The aggregate amount of the interim

dividends declared at 31 December 2005 was EUR 1,169,844 thousand and is recorded under the heading Dividends and Remuneration in the related balance sheet (Note 21). The last of the aforementioned interim dividends, which amounted to EUR 0,115 gross per share and was paid to the shareholders on 10 January 2006, was recorded under the heading Financial Liabilities at Amortised Cost – Other Financial Liabilities in the balance sheet at 31 December 2005 (Note 19).

The provisional accounting statements prepared in 2005 by Banco Bilbao Vizcaya Argentaria, S.A. in accordance with legal requirements evidencing the existence of sufficient liquidity for the distribution of the interim dividends were as follows:

	Thousands of Euros		
	31/05/05	31/08/05	30/11/05
Interim dividend	Dividend 1	Dividend 2	Dividend 3
Profit at each of the dates indicated, after the provision for income tax	502,337	1,156,526	1,630,026
Less-			
Interim dividends paid	-	(389,948)	(779,896)
Maximum amount distributable	502,337	766,578	850,130
Amount of proposed interim dividend	389,948	389,948	389,948

The Bank's Board of Directors will propose to the shareholders at the Annual General Meeting that a final dividend of EUR 0.186 per share be paid out of 2005 income. Based on the number of shares representing the share capital at 31 December 2005 (Note 22), the final dividend would amount to EUR 630,698 thousand and profit would be distributed as follows:

	Thousands of Euros
Net Profit for 2005	1,911
Distribution:	
Dividends	
- Interim	1,169,844
- Final	630,698
To voluntary reserves	117,600

5. Remuneration of the Bank's directors and senior management

Remuneration and other benefits paid to directors and to members of the Management Committee.

- Remuneration of non-executive directors**

The detail, by item, of the remuneration paid to the non-executive members of the Board of Directors in 2005 is as follows:

Thousand of euros							
	BOARD	STANDING COMMITTEE	AUDIT	APPOINTMENTS AND COMPENSATION	RISK	COMMITTEE CHAIRMANSHIP	TOTAL
JUAN CARLOS ALVAREZ MEZQUIRIZ	115	146	-	37	-	-	298
RICHARD C. BREEDEN	312	-	-	-	-	-	312
RAMÓN BUSTAMANTE Y DE LA MORA	115	-	62	-	94	-	271
JOSE ANTONIO FERNANDEZ RIVERO (*)	115	-	-	-	-	187	302
IGNACIO FERRERO JORDI	115	-	62	-	-	94	271
ROMAN KNÖRR BORRAWS	115	146	-	-	-	-	261
RICARDO LACASA SUAREZ	115	-	-	-	94	156	365
CARLOS LORING MARTINEZ DE IRUJO	115	-	62	37	-	-	214
ENRIQUE MEDINA FERNANDEZ	115	146	-	-	94	-	355
SUSANA RODRIGUEZ VIDARTE	115	-	62	-	-	-	177
JOSE MARIA SAN MARTIN ESPINO	115	146	-	37	-	-	298
TELEFONICA ESPAÑA, S.A.	115	-	-	-	-	-	115
TOTAL	1,577	584	248	111	282	437	3,239

(*) In 2005 this director received, in addition to the amounts shown in the preceding table, a total of EUR 652 thousand relating to his early retirement bonus as a former BBVA senior executive.

- **Remuneration of executive directors**

The detail, by item, of the remuneration paid to the executive directors in 2005 is as follows:

	Thousands of Euros		
	FIXED REMUNERATIONS	VARIABLE REMUNERATION (*)	TOTAL (**)
CHAIRMAN	1,649	2,486	4,135
CHIEF EXECUTIVE OFFICER	1,220	2,097	3,317
GENERAL SECRETARY	544	645	1,189
TOTAL	3,413	5,228	8,641

* Figures relating to variable remuneration for 2004 paid in 2005.

** In addition, the executive directors received remuneration in kind totalling EUR 33 thousand in 2005, of which EUR 7 thousand goes to chairman; EUR 14 thousands to Chief Executive Officer; EUR 12 thousands to general secretary.

The executive directors earned the following amounts of variable remuneration in 2005, and these amounts, which are recognised under the heading Accrued Expenses and Deferred Income in the financial statements, will be paid in the first quarter of 2006:

	Thousand of euros
Chairman	2,744
Chief Executive Officer	2,304
General Secretary	703

- **Remuneration of the members of the Management Committee**

The remuneration paid in 2005 to the members of BBVA's Management Committee, excluding executive directors, comprised EUR 6,730 thousand of fixed remuneration and EUR 15,751 thousand of variable remuneration earned in 2004 and received in 2005.

In addition, the members of the Management Committee, excluding executive directors, received remuneration in kind totalling EUR 521 thousand in 2005.

The members of the Management Committee earned variable remuneration totalling EUR 14,012] thousand in 2005, and this amount, which is recognised under the heading Accrued Expenses and Deferred Income in the financial statements, will be paid in the first quarter of 2006.

The membership of the Management Committee increased from 12 to 18 in December 2005. This section includes information relating to all the members of the Management Committee at 31 December 2005, excluding executive directors.

- **Long-term incentive plan for 2003 to 2005**

The multi-year remuneration plan for the management team, including executive directors and the Management Committee, for the years from 2003 to 2005, will be settled in the first half of 2006. This plan established certain long-term (2003/2005) objectives taking into consideration the BBVA Group's position regarding earnings per share, efficiency and ROE in comparison to its benchmark competitors. Under the plan, a sliding scale would be applied to the ordinary variable remuneration received by beneficiaries over its three-year term.

At the end of the 2003/2005 period, following publication by the benchmark entities of their final data, the average earnings per share, efficiency and ROE figures for the three-year period will be calculated.

Taking into account the 2003 and 2004 data and the published information for 2005, it is estimated that the amounts to be paid to the executive directors when the multi-year remuneration plan is settled will be as follows: the Chairman, EUR 4,812 thousand; the Chief Executive Officer, EUR 4,034 thousand and the Director-General Secretary, EUR 1,229 thousand.

These amounts were recorded under the heading Accrued Expenses and Deferred Income with a charge to Personnel Expenses in 2003, 2004 and 2005, respectively.

Also, it is considered that the amounts to be paid to the members of the Management Committee in settlement of the multi-year remuneration plan will total EUR 16,939 thousand were recorded under the heading Accrued Expenses and Deferred Income with a charge to Personnel Expenses in 2003, 2004 and 2005, respectively.

The implementation of the long-term incentive plan does not entail the granting to the beneficiaries of BBVA shares or share options.

- **Welfare benefit obligations**

The provisions recorded at 31 December 2005 to cater for welfare benefit obligations to non-executive members of the Board of Directors were as follows:

DIRECTORS	Thousand of Euros
JUAN CARLOS ALVAREZ MEZQUIRIZ	248
RAMON BUSTAMANTE Y DE LA MORA	259
JOSE ANTONIO FERNANDEZ RIVERO	101
IGNACIO FERRERO JORDI	258
ROMAN KNÖRR BORRAS	195
RICARDO LACASA SUAREZ	245
CARLOS LORING MARTINEZ DE IRUJO	75
ENRIQUE MEDINA FERNANDEZ	369
SUSANA RODRIGUEZ VIDARTE	131
JOSEMARIA SAN MARTIN ESPINOS	346
TOTAL	2,227

Of this cumulative total, EUR 623 thousand were recorded with a charge to income in 2005.

The provisions recorded at 2005 year-end to cater for welfare benefit obligations to executive directors were as follows:

	Thousand of Euros
CHAIRMAN	43,242
CHIEF EXECUTIVE OFFICER	38,545
GENERAL SECRETARY	5,986
Total	87,773

Of this cumulative total, EUR 14,272 thousand were recorded with a charge to income in 2005.

Also, insurance premiums amounting to EUR 70 thousand were paid on behalf of members of the Board of Directors.

- **Termination benefits**

As stipulated in their contracts, the Bank's executive directors (Chairman, Chief Executive Officer and Director-General Secretary) are entitled to receive termination benefits in the event that they are terminated for a reason other than their own free will, retirement, disability or serious breach of their duties.

Per the terms of their respective contracts, the termination benefits payable to these executive directors in the event of their termination as such in 2006 would be: EUR 122,568 thousand.

Entitlement to receive these termination benefits is conditional upon these directors' handing in their notice as such, resigning from any posts they hold at other entities in representation of the Bank, relinquishing their pre-existing labour relations with the Bank (including that of senior management) and waiving any termination benefits other than those specified.

From the termination date, the individual concerned will be barred, for a period of two years, from providing services to other financial institutions that compete with the Bank or its subsidiaries, as stipulated by Board regulations.

6. Risk exposure

Activities concerned with financial instruments may involve the assumption or transfer of one or more types of risk by financial entities. The risks associated with financial instruments are:

- a) Market risks: these arise as a consequence of holding financial instruments whose value may be affected by changes in market conditions; they include three types of risk:
 - (i) Currency risk, which arises as a result of changes in the exchange rate between currencies.
 - (ii) Fair value interest rate risk, which arises as a result of changes in market interest rates.
 - (iii) Price risk, which arises as a result of changes in market prices, due either to factors specific to the individual instrument or to factors that affect all instruments traded on the market.
- b) Credit risk: this is the risk that one of the parties to the financial instrument agreement will fail to honour its contractual obligations due to the insolvency or incapacity of the individuals or legal entities involved and will cause the other party to incur a financial loss.
- c) Liquidity risk: occasionally referred to as funding risk, this arises either because the entity may be unable to sell a financial asset quickly at an amount close to its fair value, or because the entity may encounter difficulty in finding funds to meet commitments associated with financial instruments.

The Bank has developed a global risk management system based on three components: a corporate risk management structure, with segregated functions and responsibilities; a set of tools, circuits and procedures that make up the different risk management systems; and an internal control system. Following is a summary of each of the three components:

Corporate risk management structure

The Board of Directors is the body that determines the Group's risk policy. It approves, where appropriate, any non-delegated financial transactions or programmes involving credit risk, with no restrictions as to the amount. It also authorises the operating limits and the delegation of powers relating to credit risk, market risk and structural risk.

These tasks are performed by the Standing Committee, which reports to the Board.

The Board has a Lending Committee, a specialized body whose functions include, inter alia: assessment of the Bank's risk management in terms of risk profile and capital map, broken down by business and area of activity; evaluation of the general risk policies and establishment of limits by type of risk or business, and of management resources, procedures and systems, structures and processes; approval of individual or group risks that may affect the Bank's solvency, in keeping with the established delegation system; analysis and approval, where appropriate, of credit risks in terms of maximum customer or group exposure; monitoring of the Bank's various risks, ensuring they comply with the profile defined by the Bank; ensuring compliance with the recommendations of regulatory and supervisory bodies, and implementation of these recommendations in the Group's risk management model; and analysis of the Bank's risk control systems.

The Asset-Liability Committee (ALCO) is the body responsible for actively managing the Bank's structural liquidity, interest rate and currency risks, and its core capital.

The Internal Risk Committee, which is composed of the persons responsible for the Bank risk management at corporate level, develops and implements the risk management model at BBVA and ensures that the risks assumed by the Bank are in line with the target risk profile defined by the governing bodies.

The Technical Transactions Committee analyses and approves, where appropriate, the financial transactions and programmes that are within its level of authorisation, and refers any transactions exceeding the scope of its delegated powers to the Lending Committee.

Tools, circuits and procedures

The Bank has implemented an integral risk management system designed to cater for the needs arising in relation to the various types of risk; this prompted it to equip the management processes for each risk with measurement tools for risk acceptance, assessment and monitoring and to define the appropriate circuits and procedures, which are reflected in manuals that also include management criteria. Specifically, the main risk management activities performed are as follows: calculation of the risk exposures of the various portfolios, considering any related mitigating factors (netting, collateral, etc.); calculation of the probability of default (PD), loss severity and expected loss of each portfolio, and assignment of the PD to the new transactions (ratings and scorings); measurement of the values-at-risk of the portfolios based on various scenarios using historical and Monte Carlo simulations; establishment of limits to the potential losses based on the various risks incurred; determination of the possible impacts of the structural risks on the income statement; setting of limits and alerts to safeguard the Bank's liquidity; identification and quantification of operational risks by business line to enable the mitigation of these risks through corrective measures; and definition of efficient circuits and procedures which contribute to the achievement of the targets set.

Internal control – risk maps

The Bank has an independent function which, in keeping with the recommendations of the regulators, draws up Risk Maps identifying any gaps in the Group's risk management and the best practices, and establishes working plans with the various business areas to remedy these gaps.

Market risk management

a.1) Risk management in market areas

BBVA manages together credit and market risks in the market and treasury areas through their Central Risk Unit.

With regard to market risk (including interest rate risk, currency risk and equity price risk), BBVA's limit structure determines an overall VaR limit for each business unit and specific sublimits by type of risk, activity and desk. The Bank also has in place limits on losses and other control mechanisms such as delta sensitivity calculations. The proactive management of this limit structure is supplemented by a range of indicators and alerts which automatically activate procedures aimed at addressing any situations that might have a negative effect on the activities of the business area.

In 2005 the market exposure of BBVA (Investment Banking + Corporate Market Positions) continued to fall to very moderate levels and ended the year with weighted average utilisation of limits of 24%.

The market risk profile at 31 December 2005 and 2004 was as follows:

	Thousands of Euros	
	2005	2004
Interest risk	6,938	5,216
Spread risk	3,343	3,967
Currency risk	1,540	1,149
Stock market risk	1,685	1,912
Vega risk	4,443	3,904
Correlation risk	1,817	1,986

a.2) Structural interest rate risk

The aim of on-balance-sheet interest rate risk management is to maintain the BBVA exposure to market interest rate fluctuations at levels in keeping with its risk strategy and profile. To this end, the ALCO actively manages the balance sheet through transactions intended to optimize the level of risk assumed in relation to the expected results, thus enabling the Group to comply with the tolerable risk limits.

The ALCO bases its activities on the interest rate risk measurements performed by the Risk Area. Acting as an independent unit, the Risk Area periodically quantifies the impact of interest rate fluctuations on the BBVA's net interest income and economic value.

In addition to measuring sensitivity to 100-basis-point changes in market interest rates, the Group performs probabilistic calculations to determine the economic capital for structural interest rate risk in the BBVA's banking activity (excluding the Treasury Area) based on interest rate curve simulation models.

All these risk measurements are subsequently analysed and monitored, and the levels of risk assumed and the degree of compliance with the limits authorised by the Standing Committee are reported to the various managing bodies of the BBVA Group.

The average sensitivity of net interest income to 100-basis-point increases in interest rates is -166 (-156 in euro terms, -8 in dollar terms and -4 in the rest of currencies).

The impact of 100-basis-point increases in interest rates on the Bank's economic value is EUR 506 million (+483 in euro terms, +28 in dollar terms and -3 in other currencies). Economic capital at 99% for structural interest rate risk is EUR 324 million.

As part of the measurement process, the Bank established the assumptions regarding the evolution and behaviour of certain, such as those relating to products with no explicit or contractual maturity. These assumptions are based on studies that estimate the relationship between the interest rates on these products and market rates and enable specific balances to be classified into trend-based balances maturing at long term and seasonal or volatile balances with short-term residual maturity.

a.3) Structural currency risk

Structural currency risk derives mainly from exposure to exchange rate fluctuations arising in relation to the Bank's subsidiaries in Latinoamérica and from the endowment funds of the branches abroad financed in currencies other than the investment currency.

The ALCO is responsible for arranging hedging transactions to limit the net worth impact of fluctuations in exchange rates, based on their projected trend, and to guarantee the equivalent euro value of the foreign currency earnings expected to be obtained from these investments.

Structural currency risk management is based on the measurements performed by the Risk Area. These measurements use an exchange rate scenario simulation model which quantifies possible changes in value with a confidence interval of 99% and a pre-established time horizon. The Standing Committee limits the economic capital or unexpected loss arising from the currency risk of the foreign-currency investments.

a.4) Structural equity price risk

BBVA's exposure to structural equity price risk derives mainly from investments in industrial and financial companies with medium- to long-term investment horizons. It is reduced by the net short positions held in derivative instruments on the same underlyings in order to limit the sensitivity of the portfolio to possible falls in prices. To determine this figure, Bank considers the exposure on shares measured at market price or, in the absence thereof, at fair value, including the net positions in equity swaps and options on the same underlyings in delta equivalent terms. Treasury Area portfolio positions are not included in the calculation, which also assumes an across-the-board fall of 1% in all the shares in the portfolio.

The Risk Area measures and effectively monitors the structural equity price risk. To this end, it estimates the sensitivity figures and the capital required to cover the possible unexpected losses arising from fluctuations in the value of the companies in the investment portfolio, with a confidence interval equal to the entity's target rating, taking into account the liquidity of the positions and the statistical behaviour of the assets under consideration. These measurements are supplemented by periodic stress- and back-testing and scenario analyses.

b) Credit risk management

Evolution of credit risk exposure and quality

The maximum exposure to the credit risk of BBVA reaches EUR 346,239 million at 31 December 2005, 23.7% more than the previous end of the year. By business segments, retail banking explains the 52.6% of the exposure, wholesale banking the 47.3% and America the 0.1%.

Customer lending exposure (62% of total risk exposure, including off-balance-sheet) and the amounts drawable by third parties (16%) increased by 31.6% and 20.5%, respectively, while there was a smaller increase of 7.6% in the potential credit risk exposure in market activities (which accounts for 22% of the total).

By business segments, the breakdown of the credit risk with clients of the Bank is as follows:

	Thousands of Euros	
	2005	2004
Retail Banking Spain and Portugal	130,477,350	108,707,845
- Commercial	83,726,104	71,052,851
- Companies	34,044,777	28,391,200
- Mortgages	11,295,777	8,394,452
- Asset Management and Private Banking	1,410,692	869,342
Wholesale and Investment Banking	59,304,409	45,571,155
- Institutions	11,071,234	10,539,936
- Domestic Corporate	21,676,538	19,867,016
- International Corporate	17,754,679	11,074,759
- Products and Business	943,558	931,990
- Capital Market	43,153	5,636
- Global Markets	7,815,247	3,151,818
The Americas (International Private Banking)	315,480	349,860
Subtotal business segments	190,097,239	154,628,860
Corporate Activities	24,491,587	8,414,970
Total credit risk exposure	214,588,826	163,043,830

In 2005 BBVA continued to improve its credit risk quality indicators (total doubtful loans and the non-performing loans ratio). Accordingly, doubtful loans fell by EUR 160 million; the detail, by business segment, at 31 December 2005 is as follows:

	Thousands of Euros	
	2005	2004
Retail Banking Spain and Portugal	753,492	855,120
- Commercial	562,722	642,538
- Companies	180,584	200,156
- Mortgages	9,829	12,076
- Asset Management and Private Banking	357	350
Wholesale and Investment Banking	82,100	128,176
- Institutions	9,890	13,568
- Domestic Corporate	7,818	8,348
- International Corporate	10,071	37,960
- Products and Business	54,321	68,299
- Capital Market	-	-
- Global Markets	-	1
The Americas (International Private Banking)	63	194
Subtotal business segments	835,655	983,490
Corporate Activities	51,752	64,174
Total	887,407	1,047,664

Retail Banking reduced its doubtful loans in 2005 due to the positive trend in the flows of loans becoming non-performing and of doubtful balances recovered, the most notable performances in this respect being those of the House-Buyer Mortgage business in Commercial Banking and the Companies business, with balances of EUR 143 million and EUR 181 million, respectively. Wholesale Banking's performance in 2005 was marked by the absence of loans becoming non-performing and by high recovery levels, amounting to EUR 19 million and EUR 58 million, respectively.

Loans becoming non-performing (as a percentage of credit risk) stood at 0.36% at 2005 year-end (0.41% in 2004). Also, the recovery rate improved to 37.9% of the critical mass (doubtful balances plus loans becoming doubtful in the year), as compared with 28.4% in 2004.

The result of the dynamic business activity and the efforts to reduce the doubtful balances mentioned above was a further reduction of 23 basis points in BBVA's non-performing loans ratio to 0.41% at 31 December 2005, thus wiping out the 19-basis-point increase triggered by the change in accounting standards.

This good performance was witnessed across-the-board in all the business segments, most notably in Commercial Banking, with a reduction of 23 basis points to 0.67%, Companies Banking, with a reduction of 17 basis points to 0.53%, and International Corporate Banking, with a reduction of 29 basis points to 0.06%.

Credit risk provisions for the customer loan portfolio increased by EUR 422 million in 2005. Substantially all of this increase related to provisions for credit risk calculated collectively. In addition, the coverage ratios showed an across-the-board increase 2005 in all the business segments, as can be seen in the following table:

	Thousands of Euros			
	Credit Risk Provision		Coverage Ratio	
	2005	2004	2005	2004
Retail Banking Spain and Portugal	2,529,998	2,209,440	335.8%	258.4%
- Commercial	1,494,808	1,352,981	265.6%	210.6%
- Companies	813,044	693,418	450.2%	346.4%
- Mortgages	194,075	150,161	1974.5%	1243.5%
- Asset Management and Private Banking	28,071	15,446	n.s.	n.s.
- Other	-	(2,566)	-	n.s.
Wholesale and Investment Banking	854,447	768,497	1040.7%	599.6%
- Institutions	42,332	38,999	428.0%	287.4%
- Domestic Corporate	390,834	378,247	4999.2%	4531.0%
- International Corporate	345,527	288,650	3430.9%	760.4%
- Products and Business	40,414	15,748	74.4%	23.1%
- Capital Market	1,599	343	n.s.	n.s.
- Global Markets	33,741	46,341	n.s.	n.s.
- Other	-	169	-	n.s.
The Americas (International Private Banking)	16	2,410	25.4%	1242.3%
Subtotal business segments	3,384,461	2,980,347	n.s.	n.s.
Corporate Activities	(45,463)	(63,352)	-	-
Total	3,338,998	2,916,995	376.3%	278.4%

BBVA's overall coverage ratio was 376.3% at 31 December 2005, up 97.9 percentage points on the figure for 31 December 2004.

c) Liquidity risk

The aim of liquidity risk management and control is to ensure that the Bank's payment commitments can be met without having to resort to borrowing funds under onerous conditions.

The Bank's liquidity risk is monitored using a dual approach: the short-term approach (90-day time horizon), which focuses basically on the management of payments and collections of Treasury and Markets, ascertains the Bank's possible liquidity requirements; and the structural, medium- and long-term approach, which focuses on the financial management of the balance sheet as a whole.

The Risk Area performs a control function and is totally independent of the management areas.

For each entity, the management areas request an outline of the quantitative and qualitative limits and alerts for short-, medium- and long-term liquidity risk, which is authorized by the Standing Committee. Also, the Risk Area performs periodic (daily and monthly) risk exposure measurements, develops the related valuation tools and models, conducts periodic stress tests, measures the degree of concentration on interbank counterparties, prepares the policies and procedures manual, and monitors the authorised limits and alerts.

The liquidity risk data are sent periodically to the Group's ALCO and to the management areas involved. As established in the Contingency Plan, the Technical Liquidity Group (GTL), in the event of an alert of a possible crisis, conducts an initial analysis of the Bank's short- and long-term liquidity situation. The GTL comprises personnel from the Short-Term Cash Desk, Financial Management and UCRAM-Structural Risk.

If the alert is serious, the GTL reports the matter to the Liquidity Committee, which is composed of the managers of the related areas. The Liquidity Committee is responsible, in situations requiring urgent attention, for calling a meeting of the Crisis Committee chaired by the CEO.

Following are the Bank's maturity matrixes in euros and in dollars at 31 December 2005:

Maturity matrix in euros. Sensitive assets

2005	Thousands of Euros						
	Balance	On Demand	Up to 1 Month	1 to 3 Months	3 to 12 Months	1 to 5 Years	Over 5 Years

	898,516	411,296
Other		
Listed	365,701	361,382
Unlisted	4,602	38,178
	370,303	399,560
	1,268,819	798,079
Shares in the net assets of mutual funds	949,342	875,367
	8,039,236	4,012,543
Total	32,895,371	27,320,242

In 2005 and 2004, EUR 84,083 thousand and EUR 130,796 thousand, respectively, were debited from Valuation Adjustments and recorded under Gains or Losses on Financial Assets and Liabilities in the income statements for 2005 and 2004.

The detail, by geographical area, of the balance of Available-for-Sale Financial Assets disregarding the balance of the impairment losses and accrued accounts is as follows:

	Thousands of Euros	
	2005	2004
Europe	31,023,274	26,242,666
United States	666,981	401,390
Latin America	883,671	480,936
Rest of the world	347,728	254,543
Total	32,921,654	27,279,535

9. 2. Impairment losses

Following is a summary of the changes in 2005 and 2004 in the impairment losses on available-for-sale financial assets:

	Thousands of Euros	
	2005	2004
Balance at beginning of year	59,293	56,978
Increase in impairment losses charged to income	879	3,477
Decrease in impairment losses credited to income	(18,036)	-
Elimination of impaired balance due to transfer of Asset to write-off	(15,834)	-
Others	(19)	(1,162)
Balance at end of year	29,283	59,293
Of which:		
Determined individually	2,716	27,616
Determined collectively	23,567	31,667

At 31 December 2005 and 2004, the balances of the individually determined impairment losses related in full to debt securities from countries belonging to the Latin America geographical area.

Additionally, the balance of the heading Impairment Losses (Net) - Available-for-Sale Financial Assets in the accompanying income statement includes increases of EUR 2,265 thousand and EUR 12,060 thousand in the impairment losses relating to Other Equity Instruments at 31 December 2005 and 2004, respectively.

10. Loans and receivables

10. 1. Breakdown of the balance

The detail of the balance of this heading in the balance sheets at 31 December 2005 and 2004, based on the nature of the related financial instrument, is as follows:

	Thousands of Euros	
	2005	2004
Loans and advances to credit institutions	29,249,439	19,876,311
Money market operations through counterparties	-	242,063
Loans and advances to other debtors	155,452,303	130,937,189
Debt securities	12,762	33,906
Other financial assets	1,476,526	917,100
Total, gross	186,191,030	152,006,569
Less: valuation adjustments	(2,940,102)	(2,624,574)
Total, net	183,250,928	149,381,995

10. 2. Loans and advances to credit institutions

The detail of the balance of this heading in the balance sheets at 31 December 2005 and 2004, disregarding the balance of the impairment losses, based on the nature of the related financial instrument, is as follows:

	Thousands of Euros	
	2005	2004
Reciprocal accounts	320,079	138,095
Deposits with agreed maturity	17,443,549	15,413,217
Other accounts	872,168	414,822
Repurchase agreements	10,481,365	3,840,968
Impaired Assets	9,982	25,980
Total, gross	29,127,143	19,833,082
Less: valuation adjustments(*)	122,296	43,229
Total, net	29,249,439	19,876,311

(*) The valuation adjustments shown above relate to the accrual of interest and similar income and fees.

10. 3. Loans and advances to other debtors

The detail, by loan type and status, of the balance of this heading in the balance sheets at 31 December 2005 and 2004, disregarding the balance of the impairment losses, is as follows:

	Thousands of Euros	
	2005	2004
Commercial credit	9,837,179	6,673,924
Secured loans	80,970,938	66,637,967
Credit accounts	11,485,550	12,208,260
Other loans	42,665,273	36,683,233
Reverse repurchase agreements	1,023,134	481,523
Receivable on demand and other	2,947,904	2,637,528
Finance leases	5,583,053	4,584,330
Impaired assets	859,114	1,006,076
Total, gross	155,372,145	130,912,841
Valuation adjustments(*)	80,158	24,348
Total, net	155,452,303	130,937,189

(*) The valuation adjustments shown above relate to the accrual of interest and similar income and to the valuation adjustments of the hedging derivatives associated with loans and advances.

The breakdown, by borrower sector, of the balance of this heading at 31 December 2005 and 2004 is as follows:

2005	Thousands of Euros		
	Residents	Non-Residents	Total
Public sector	6,860,040	773,686	7,633,726
Agriculture	1,543,656	119,386	1,663,042
Industry	13,249,742	1,128,615	14,378,357
Real estate and construction	23,241,279	406,001	23,647,280
Trade and finance	10,976,975	11,633,046	22,610,021
Loans to individuals	66,341,034	1,204,293	67,545,327
Leases	5,505,890	-	5,505,890
Other	11,672,227	716,275	12,388,502
Total	139,390,843	15,981,302	155,372,145

2004	Thousands of Euros		
	Residents	Non-Residents	Total
Public sector	6,491,282	764,072	7,255,354
Agriculture	1,217,638	77,375	1,295,013
Industry	11,614,019	728,360	12,342,379
Real estate and construction	18,064,966	262,044	18,327,010
Trade and finance	12,845,381	7,509,535	20,354,916
Loans to individuals	54,066,063	777,880	54,843,943
Leases	4,543,576	-	4,543,576
Other	11,753,205	197,445	11,950,650
Total	120,596,130	10,316,711	130,912,841

The detail, by geographical area, of the balance of Loans and Advances to Other Debtors at 31 December 2005 and 2004 is as follows:

	Thousands of Euros	
	2005	2004
Europe	148,542,567	126,049,534
United States	1,045,981	455,230
Latin America	4,281,059	3,363,324
Rest of the world	1,502,538	1,044,753
Total	155,372,145	130,912,841

The Bank provides financing to its customers to enable them to acquire both personal and real property through finance lease contracts which are recorded under Loans and Advances to Other Debtors.

Of the total balance of Loans and Advances to Other Debtors, EUR 5,374,589 thousand and EUR 1,949,816 thousand relate to loans securitised through six and two securitisation funds, respectively, created by the Bank; since the Bank retains the risks and rewards of these loans, they cannot be derecognised. The detail of these loans, based on the nature of the related financial instrument, is as follows:

	Thousands of Euros	
	2005	2004
Securitised mortgage assets	2,172,406	559,804
Other securitised assets	3,202,183	1,390,012
Total	5,374,589	1,949,816

Conversely, at December 31, 2005 and 2004 EUR 900,317 and 1,280,639 thousand relate to securitised loans that were derecognised because they met the related requirements (see Note 3.a).

10.4. Impaired assets and impairment losses

The changes in 2005 and 2004 in the Impaired Assets balance in the table above were as follows:

	Thousands of Euros	
	2005	2004
Balance at beginning of year	1,006,076	1,088,224
Additions	694,210	665,986
Recoveries	(643,154)	(507,805)
Transfers to write-off	(211,978)	(208,147)
Exchange differences and other	13,960	(32,182)
Balance at end of year	859,114	1,006,076

The changes in the balance of the provisions covering the impairment losses on the assets included under Loans and Receivables were as follows:

	Thousands of Euros	
	2005	2004
Balance at beginning of year	2,624,574	2,371,098
Increase in impairment losses charged to income	635,972	611,526
Decrease in impairment losses credited to income	(128,521)	(209,729)
Elimination of impaired balance due to transfer of asset to write-off	(210,938)	(132,934)
Transfers	(4,084)	(5,196)
Exchange differences and other	23,099	(10,191)
Balance at end of year	2,940,102	2,624,574
<i>Of which:</i>		
Determined individually	636,171	686,759
Determined collectively	2,303,931	1,937,815
	2,940,102	2,624,574
Of which:		
Based on the nature of the asset covered:		
Loans and advances to credit institutions	15,069	26,744
Loans and advances to other debtors	2,914,225	2,584,697
Debt securities	10,808	13,133
	2,940,102	2,624,574
Of which:		
By geographical area:		
Europe	2,704,779	2,414,808
United States	19,189	11,397
Latin America	172,074	128,520
Rest of the world	44,060	69,849
	2,940,102	2,624,574

Recoveries of assets written off in 2005 and 2004 amounted to EUR 86,126 thousand and EUR 92,214 thousand, respectively, and are deducted from the balance of the heading Impairment Losses (Net) – Loans and Receivables in the accompanying income statements.

At 31 December 2005, accumulated financial income of the impaired assets amounting to EUR 362,650 y 266,491 thousand, respectively, had accrued, but was not recorded in the income statement because there were doubts regarding its collectability.

11. Held-to-maturity investments

At 31 December 2005 and 2004, the detail of the balance of this heading in the balance sheets was as follows:

	Thousands of Euros	
	2005	2004
Listed Spanish government bonds	363,022	337,435
Listed foreign government bonds	2,272,186	1,297,558
Issued by Spanish credit institutions	264,150	154,065
Issued by foreign credit institutions	481,940	325,191
Debentures and bonds	583,080	111,357
Issued by other resident sectors	583,080	111,357
Total, gross	3,964,378	2,225,606
Impairment losses	(5,114)	(4,104)
Total, net	3,959,264	2,221,502

The balance of this heading at 31 December 2005 and 2004 relates in full to securities of European countries.

The gross changes in 2005 and 2004 in the balance of this heading in the balance sheets, disregarding the balance of the impairment losses, are summarised as follows:

	Thousands of Euros	
	2005	2004
Balance at beginning of year	2,225,606	-
Acquisitions	1,884,772	2,225,606
Redemptions	(146,000)	
Balance at end of year	3,964,378	2,225,606

Following is a summary of the changes in 2005 and 2004 in the impairment losses on held-to-maturity investments

	Thousands of Euros	
	2005	2004
Balance at beginning of year	4,104	-
Increase in impairment losses charged to income	1,008	4,106
Other	2	(2)
Balance at end of year	5,114	4,104
<i>Of which:</i>		
<i>Determined collectively</i>	5,114	4,104

:

12. Hedging derivatives (receivable and payable)

The detail of the fair value of the hedging derivatives held by the Bank at 31 December 2005 and 2004 and recognised in the balance sheets is as follows:

2005	Thousands of euros		
	Interest Rate Risk	Equity Price Risk	Total
OTC markets	1,528,444	29,651	1,558,095
Credit institutions	978,927	29,958	1,008,885
Fair value micro-hedge	1,080,088	29,958	1,110,046
Cash flow micro-hedge	(101,161)		(101,161)
Other financial institutions	194,522	(307)	194,215
Fair value micro-hedge	194,522	(307)	194,215
Other sectors	354,995		354,995
Fair value micro-hedge	354,768		354,768
Cash flow micro-hedge	227		227
Total	1,528,444	29,651	1,558,095
of which: Asset Hedging Derivatives	2,474,657	30,445	2,505,102
of which: Liability Hedging Derivatives	(946,213)	(794)	(947,007)

2004	Thousands of euros		
	Interest Rate Risk	Equity Price Risk	Total
OTC markets			
Credit institutions	1,253,458	(158,828)	1,076,630
Fair value micro-hedge	1,100,504	(158,828)	941,676
Cash flow micro-hedge	16,664	-	16,664
Fair value macro-hedge	118,290	-	118,290
Other financial Institutions	176,205	151	176,356
Fair value micro-hedge	160,836	151	176,356
Fair value macro-hedge	15,369	-	15,369
Other sectors	463,182	-	463,182
Fair value micro-hedge	412,128	-	412,128
Cash flow micro-hedge	1,512	-	1,512
Fair value macro-hedge	49,542	-	49,542
Total	1,874,844	(158,677)	1,716,168
of which: Asset Hedging Derivatives	3,594,636	438,653	4,033,289
of which: Liability Hedging Derivatives	(1,719,791)	(597,330)	(2,317,121)

The notional and/or contractual amounts of the contracts entered into do not reflect the actual risk assumed by the Bank, since the net position in these financial instruments is the result of offsetting and/or combining them.

13. Non-current assets held for sale and liabilities associated with non-current assets held for sale

The balance of Non-Current Assets Held for Sale relates in full to foreclosed assets.

The changes in 2005 and 2004 in the balance of this heading in the balance sheets were as follows:

	Thousands of Euros	
	2005	2004
Revalued cost		
Balance at beginning of year	56,879	69,825

Net balance-		
Balance at 31 December 2004	-	51,919
Balance at 31 December 2005	29,722	-

At 31 December 2005 and 2004, there were no liabilities associated with non-current assets held for sale.

The fair value of these was determined by reference to appraisals performed by companies registered as valuers in each of the geographical areas in which the assets are located.

The independent valuation and appraisal companies registered in the Bank of Spain's Official Registry that are used for the measurement of these assets are Eurovaloraciones, S.A., Valtecnic, S.A., General de Valoraciones, S.A., Krata, S.A., Tinsa, S.A., Alia Tasaciones, S.A., Ibertasa, S.A., Tasvalor, S.A. and Gesvalt, S.A.

Most of the non-current assets held for sale recorded as assets in the balance sheets at 31 December 2005 and 2004 relate to properties.

These properties classified as "non-current assets held for sale" are assets available for sale, which is considered highly probable. The sale of most of these assets is expected to be completed within one year of the date on which they are classified as "non-current assets held for sale".

The period provisions for non-current assets held for sale recorded with a charge to the income statements for 2005 and 2004 amounted to EUR 4,808 thousand and EUR 2,569 thousand, respectively.

The cost of the properties classified as "non-current assets held for sale" at 31 December 2005 and 2004 is broken down into the following categories:

	Thousands of Euros	
	2005	2004
Residential assets	15,951	20,384
Industrial assets	1,293	27,194
Agricultural assets	12,379	4,088
	29,623	51,666

In 2005 and 2004 the Bank financed 24.78% and 10.57%, respectively, of the sales of non-current assets held for sale. The amount of the loans granted to the purchasers of these assets in 2005 and 2004 was EUR 31,822 thousand and EUR 11,610 thousand, respectively (giving cumulative totals of EUR 107,530 thousand and EUR 75,707 thousand, respectively).

As a result of the financed sale of assets, the unrecognised gains at 31 December 2005 and 2004 amounted to EUR 20,268 thousand and EUR 18,746 thousand, respectively.

14. Investments

14. 1. Investments in associates

The detail, by currency and listing status, of this heading in the accompanying balance sheets is as follows:

	Thousands of Euros	
	2005	2004
By currency:		
Euros	785,477	793,585
By listing status:		
Listes	766,786	764,554
Unlisted	18,790	29,031
Less-		
Impairment losses	(99)	-
Total	785,477	793,585

The most significant investment in associates at 31 December 2005 and 2004 was that held in Banca Nazionale del Lavoro S.p.A. ("BNL"), in which the Bank owned 14,427% y 14,639% respectively of the share capital.

On 28 March 2005, the Bank's Board of Directors resolved to launch a tender offer for the voluntary exchange of all the ordinary shares of BNL. Once the relevant authorisations had been obtained from the competent bodies, the shareholders approved the details of the transaction at the Special General Meeting held on 13 June 2005.

Prior to the expiration of the acceptance period of BBVA's offer (22 July), the Italian insurance group Unipol Assicurazioni S.p.A. ("Unipol") announced that it had entered into side agreements with certain entities, as a result of which they controlled 46.95% of BNL's capital. In view of this situation, and since it did not expect to obtain more than 50% of BNL's capital, the Group withdrew its tender offer for the voluntary exchange of shares.

As permitted by Italian legislation, in August Unipol presented a tender offer for all the shares of BNL, subject to obtaining of the relevant authorisation. However, on 3 February 2006, the Bank of Italy ultimately refused to grant Unipol authorisation to launch the offer. On that same day, Unipol announced that it had reached an agreement with the French entity BNP Paribas ("BNP") for the sale of the BNL shares held by it, and notified BNP of its intention to launch a tender offer on all BNL's capital.

At the date of preparation of these financial statements, the transactions described in the preceding paragraph had not been performed since the related authorisation had not been obtained. Accordingly, the shareholders' agreement under which the Group has significant influence over the Board of Directors of BNL remains in force, and the Group's investment in BNL is recorded under the heading "Investments - Associates" in the accompanying balance sheet.

The gross changes in 2005 and 2004 in Investments - Associates in the balance sheets, without considering impairment losses, were as follows:

	Thousands of Euros	
	2005	2004
Balance at beginning of year	793,585	1,104,512
Acquisitions	2,340	186,470
Sales	(1,312)	(162,738)
Transfers	(8,330)	-
Others	(707)	(334,659)
Balance at end of year	785,576	793,585

14. 2. Investments in jointly controlled entities

The detail, by currency and listing status, of this heading in the accompanying balance sheets is as follows:

	Thousands of Euros	
	2005	2004
By currency:		
Euro	5,483	2,620
By listing status:		
Listed	-	-
Unlisted	7,489	2,620
Less-		
Impairment losses	(2,006)	-
Total	5,483	2,620

The gross changes in 2005 and 2004 in Investments - Jointly Controlled Entities in the balance sheets were as follows:

	Thousands of Euros	
	2005	2004
Balance at beginning of year	2,620	-
Acquisitions	1,539	2,620
Transfers	3,330	-
Balance at end of year	7,489	2,620

14. 3. Investments in Group entities

The heading Investments - Group Entities in the accompanying balance sheets includes the carrying amount of the shares of companies forming part of the BBVA Group. The percentages of direct and indirect ownership and other relevant information on these companies are provided in Appendixes I and III.

The detail, by currency and listing status, of this heading in the accompanying balance sheets is as follows:

		Thousands of Euros	
		2005	2004
By currency:			
Euro		3,430,802	3,332,023
Foreign currency		9,075,156	7,940,766
	Total	12,505,958	11,272,789
By listing status:			
Listed		557,214	480,505
Unlisted		11,975,693	10,792,284
Less-			
Impairment losses		(26,949)	-
	Total	12,505,958	11,272,789

The changes in 2005 and 2004 in the balance of this heading, disregarding the impairment losses, were as follows:

		Thousands of Euros	
		2005	2004
Balance at beginning of year		11,272,789	10,568,056
Capital increases and purchases		836,024	3,968,120
Sales		(38,245)	(196,208)
Transfers		5,000	-
Exchange differences and other		457,339	(3,067,179)
Balance at end of year		12,532,907	11,272,789

The most notable transactions performed in 2005 and 2004 were as follows:

2005

- In 2005 24,318,329 shares of Grupo Financiero BBVA Bancomer were acquired for a disbursement of EUR 20,795 thousand and, accordingly, the Bank's direct ownership was 48.956%.
- In July 2005 the Bank contributed EUR 114,929 thousand through its subscription to 9,723,286 shares in the capital increase of BBVA Seguros, S.A. issued with a par value of EUR 6.01 plus a share premium of EUR 5.81 per share.
- In April 2005, pursuant to the agreement entered into in September 2004 and after obtaining the mandatory authorisations, the Bank acquired all the shares of Laredo National Bancshares, Inc., a bank holding located in Texas (United States) which operates in the banking business through two independent banks: Laredo National Bank and South Texas National Bank. This acquisition gave rise to a disbursement of EUR 666,882 thousand.
- In December 2005, as part of its business and corporate internal restructuring strategies, the Bank decided to acquire the ownership interests of Casa de Bolsa BBVA Bancomer, S.A. de C.V. in BBVA Bancomer Holding Corporation and BBVA Investments Inc. of 100% and 5%, respectively. BBVA Bancomer Holding Corporation in turn holds a 90% ownership interest in BBVA Investments Inc. The Bank acquired the remaining 5% of BBVA Investments Inc. from BBVA Bancomer, S.A. The acquisition of these ownership interests gave rise to a disbursement of USD 26 million.
- In October 2005 the Bank, which owns all the shares of Banco Francés (Cayman) Ltd., liquidated this last-mentioned company, generating a gain of EUR 2,569 thousand.
- In December 2005 BBVA Uruguay, S.A. reduced capital and EUR 8,425 thousand were refunded to the Bank.

2004

- On 20 March 2004, the BBVA Group completed the tender offer on 40.6% of the share capital of Grupo Financiero BBVA Bancomer, S.A. de C.V. (Note 18). The final number of shares presented in the offer and accepted by BBVA was 3,660,295,210, which represent 39.45% of the share capital of the Mexican entity. Following the acquisition of these shares through the tender offer, the ownership interest held by BBVA in the capital of Grupo Financiero BBVA

Bancomer, S.A. de C.V. was 47.861%. Lastly, at 31 December 2004, as a result of the purchase of shares subsisting in the market, the holding increased to 48.694% (99.70% at BBVA Group level).

- In 2004 the Bank decided to concentrate its real estate business and, accordingly, it partially spun off Corporación General Financiera, S.A. through the segregation of the shares of Corporación Área Inmobiliaria, S.L. and their transfer to BBVA Área Inmobiliaria, S.L. The transaction was performed based on the carrying amount of the holding (EUR 88,820 thousand) and the Bank recorded no gain in this connection.

Subsequently, on 21 July 2004, the deed was executed for the merger of Corporación Área Inmobiliaria, S.L. into BBVA Área Inmobiliaria, S.L. through the transfer *en bloc* of the assets and liabilities of the former to the latter, and the dissolution of the former. On this same date the deed was executed whereby BBVA Área Inmobiliaria, S.L. changed its business name to Anida Grupo Inmobiliario, S.L.

- On 21 January 2004, BBVA Banco Francés, S.A. presented the new formulation of the regularisation and reorganisation plan (which begun in 2002) requested by the Argentinean authorities. The new plan envisaged, mainly, the sale of this company's subsidiary BBVA Banco Francés (Cayman) Ltd. to BBVA, which was carried out on 18 March 2004, and the conversion into equity of a USD 78 million loan granted by BBVA to BBVA Banco Francés, S.A.

In compliance with the commitment thus assumed, on 22 April 2004, the Annual General Meeting of BBVA Banco Francés, S.A. authorised a capital increase with a par value of ARP 385 million, which was carried out in October 2004. BBVA subscribed to this capital increase through the conversion into equity of the aforementioned USD 78 million loan, which was fully provisioned in the Bank's balance sheet (Note 16). At 31 December 2004, the holding was 45.654%.

- In the last quarter of 2004, BBVA Uruguay, S.A. reduced capital and EUR 7,816 thousand were refunded to the Bank.
- In October the Bank contributed EUR 15,999 thousand to subscribe to 99.99% of Dinero Express Servicios Globales, S.A.'s share capital and share premium.
- In December the Bank resolved to capitalize BBV América, S.L. and for this purpose it made a capital contribution of EUR 118,530 thousand, thereby implementing the resolution adopted by this company's Annual General Meeting on 23 December 2004.

At 31 December 2005 and 2004 no other capital increases were underway at any Group companies.

In 1990, 1994 and 1995, tax assessments for 1986 to 1990 were issued to BBVA Seguros, S.A. (formerly Euroseguros, S.A.) and Senorte Vida y Pensiones, S.A. totalling EUR 88,066 thousand of principal and EUR 39,072 thousand of late-payment interest, plus EUR 66,057 thousand of penalties, after correction pursuant to the revised General Tax Law. The companies filed pleadings and appeals against the assessments and several administrative decisions and court rulings were handed down in 1997 through 2000. As a result of application of the criteria set forth in these court rulings, some of which have been appealed against by the Group and by the Spanish tax authorities, the tax debts would be reduced to EUR 50,677 thousand of principal and EUR 19,851 thousand of interest. In order to file these appeals, the Bank provided guarantees totalling EUR 97,876 thousand to the tax authorities. In 2003 further court rulings were handed down, which have been appealed against. However, the Bank's directors and legal advisers consider that, in any case, the possible effects of these rulings would not materially affect the consolidated financial statements and, additionally, in accordance with the accounting principle of prudence, adequate provisions have been recorded therefor. Lastly, in 2005 the check relating to Senorte Vida y Pensiones was completed with no material effect on the Group.

14. 4. Notifications of the acquisition of investments

Appendix IV lists the Bank's acquisitions and disposals of holdings in associates or jointly controlled entities and the notification dates thereof, in compliance with Article 86 of the Spanish Corporations Law and Article 53 of Securities Market Law 24/1988.

14. 5. Impairment

The detail of the changes in impairment losses in 2005 and 2004 in this heading is as follows:

	Thousands of Euros	
	2005	2004
Balance at beginning of year	-	2,909,748
Net period provisions		
Provision charged to income	29,054	508,748
Available funds	-	(222,996)
Provisions used	-	(118,367)
Other	-	(3,076,761)
Balance at beginning of year	29,054	-

The balance of the "Other" account includes the amount written off, as a reduction of the portfolio balance, relating to the impairment losses disclosed at 31 December 2004.

15. Tangible assets

The detail of the changes in 2005 and 2004 in this heading in the balance sheets, based on the nature of the related, is as follows:

2005	Thousands of Euros			
	For own use		Investment Property	Total
	Land and Buildings	Furniture, Fixtures and Vehicles		
Revalued cost-				
Balances at 1 January 2005	1,432,621	2,683,610	34,348	4,150,579

Balance at 1 January 2004	1,083,944	947,536	27,963	2,059,443
Balance at 31 December 2004	1,062,806	945,486	25,721	2,034,013

The net tangible asset impairment losses charged to the accompanying income statements for 2005 and 2004 amounted to EUR 522 thousand and EUR 15,194 thousand, respectively.

The gains and losses on tangible asset disposals amounted to EUR 75,436 thousand and EUR 6,836 thousand in 2005 (EUR 63,889 thousand and EUR 8,608 thousand in 2004) and are presented under the headings "Other gains" and "Other losses" in the accompanying income statements (Note 42).

16. Intangible assets

The detail of the balance of this heading in the balance sheets at 31 December 2005 and 2004 relates in full to the net balance of the disbursements made on the acquisition of computer software.

The changes in 2004 and 2005 in the balance of Intangible Assets were as follows:

	Thousands of Euros	
	2005	2004
Balance at beginning of year	37,316	21,619
Additions	26,321	24,285
Period amortisation	(12,104)	(7,251)
Exchange differences and other	387	(1,337)
Balance at the end of year	51,920	(37,316)

17. Prepayments and accrued income and accrued expenses and deferred income

The detail of the balance of these headings in the balance sheets at 31 December 2005 and 2004 is as follows:

	Thousands of Euros	
	2005	2004
Assets -		
Prepaid expenses	6,569	6,439
Other prepayments and accrued income	505,808	304,515
Total	512,377	310,954
Liabilities -		
Funds taken at a discount	2,828	13
Unmatured accrued expenses	609,279	559,116
Other accrued expenses and deferred income	150,370	158,945
Total	762,477	718,074

18. Other assets and liabilities

The detail of the balances of these headings in the balance sheets at 31 December 2005 and 2004 was as follows:

	Thousands of Euros	
	2005	2004
Assets -		
Transactions in transit	1,968	6,098
Other assets	614,820	420,075
Total	616,788	426,173
Liabilities -		
Transactions in transit	6,071	1,262
Other liabilities	933	-
Total	7,004	1,262

19. Financial liabilities at amortised cost

The detail of the composing the balances of this heading in the accompanying balance sheets is as follows:

	Thousands of Euros	
	2005	2004
Deposits from central banks	17,772,094	15,050,309
Deposits from credit institutions	43,010,834	44,031,939
Money market operations through counterparties	23,252	658,082
Deposits from other creditors	129,982,249	103,949,469
Debt certificates including bonds	34,079,250	27,461,923
Subordinated liabilities	12,392,657	11,659,541
Other financial liabilities	4,777,207	4,106,989
Total	242,037,543	206,918,252

At 31 December 2005 and 2004, Other Financial Liabilities included EUR 389,948 thousand and EUR 339,085 thousand, respectively, relating to the third interim dividend (Note 4).

19.1. Deposits from Central Banks

The breakdown of the balance of this heading in the accompanying balance sheets is as follows:

	Thousands of Euros	
	2005	2004
Bank of Spain		
Credit account drawdowns	3,409,451	5,999,482
Other State debt and Treasury bills under reverse repurchase agreement	383,423	38,642
Other assets under reverse repurchase agreement	8,931,130	4,271,038
Other central banks	5,028,315	4,729,737
Valuation adjustments	19,775	11,410
Total	17,772,094	15,050,309

At 31 December 2005 and 2004, the financing limit assigned to the Bank by the Bank of Spain and other central banks was EUR 5,345,350 thousand and EUR 8,386,909 thousand, respectively, of which EUR 3,409,451 thousand and EUR 5,999,482 thousand had been drawn down.

19.2. Deposits from credit institutions

The breakdown, by type, of the balance of this heading in the accompanying balance sheets, in accordance with the nature of the transactions, is as follows:

	Thousands of Euros	
	2005	2004
Reciprocal accounts	229,684	53,573
Deposits with agreed maturity	33,346,342	31,577,996
Other accounts	983,380	984,746
Reverse repurchase agreements	8,255,169	11,249,267
Valuation adjustments	196,259	166,357
Total	43,010,834	44,031,939

The detail, by geographical area, of this heading for 2005 is as follows:

	Thousands of euros			
	Non Interest-Bearing Deposits	Deposits with Agreed Maturity	Repos	TOTAL
Europe	977,865	23,154,982	8,255,169	32,388,016

19.4. Debt certificates including bonds

The breakdown of the balance of this heading in the accompanying balance sheets is as follows:

	Thousands of Euros	
	2005	2004
Bonds and debentures issued:		
Mortgage-backed securities	26,726,893	18,354,449
Other non-convertible securities	5,775,057	7,774,657
Own bonds	(32,523)	(43,908)
Valuation adjustments		
Accrued accounts, adjustments for hedging derivatives and other	1,609,823	1,376,725
Total	34,079,250	27,461,923

The detail, disregarding valuation adjustments and own bonds, of the balance of this heading in the accompanying balance sheets, based on the currency in which the bonds and debentures are issued, and of the related interest rates is as follows:

	Thousands of Euros	
	2005	2004
In euros-		
Non-convertible bonds and debentures at floating interest rates	5,594,753	7,594,353
Non-convertible bonds and debentures at a weighted fixed interest rate	180,304	180,304
Covered bonds	26,726,893	18,354,449
Total	32,501,950	26,129,106

The "Nonconvertible bonds and debentures at floating rate debentures" account includes the following:

- Issue of EUR 60,101 thousand of nonconvertible debentures launched by the Bank in July 1998, which bears variable annual interest through final maturity in July 2008, which is calculated as 83% of the simple average between the offer and bid rate offered by certain reference institutions, in accordance with the calculation procedure for a 30-year peseta-denominated swap against the 6-month LIBOR interest rate in pesetas on the date the rate is set.
- Issue of EUR 30,051 thousand, launched in August 1998, maturing in August 2008, which bears variable annual interest on the nominal amount of the debentures, which is calculated as the 10-year swap rate multiplied by a coefficient of 0,865.
- February 2004 issue amounting to EUR 1,000,000 thousand which bears variable quarterly interest of three-month EURIBOR plus 10 basis points through final redemption in February 2009.
- Issue of EUR 2,000,000 thousand, launched in June 2004 and maturing in June 2008, which bears variable quarterly interest on the face value of the bonds equal to three-month EURIBOR plus 10 basis points.
- Issue of EUR 2,500,000 thousand, launched by the Bank in September 2004 and maturing in September 2006, which bears variable quarterly interest of three-month EURIBOR plus 1 basis point.

At 31 December 2005 and 2004, the Non-convertible Bonds and Debentures at Floating Interest Rates account includes the issue in February 1997 with a fixed interest rate of 6.81% repayable at one time in February 2007.

The Covered Bonds account includes several issues, the last of which has final redemption in 2025.

The valuation adjustments include mostly adjustments for accrued interest, microhedging transactions and issuance fees.

19.5. Subordinated liabilities

The detail, disregarding valuation adjustments, of the balance of this heading in the balance sheets, based on the related issue currency and interest rate, is as follows:

Issuance Date	Thousands of Euros		Prevailing Interest Rate 2005	Maturity Date
	2005	2004		
Nonconvertible Issues in Euros				
July 1996	82,291	82,291	9.33 (a)	12.22.2006
July 1996	27,332	27,332	9.37 (a)	12.22.2016
February 1997	60,101	60,101	6.97 (a)	12.18.2007
September 1997	36,061	36,061	6.65 (a)	12.17.2007
December 2001	1,500,000	1,500,000	3.50 (b)	01.01.2017
July 2003	600,390	600,390	2.54 (c)	07.17.2013
November 2003	749,782	749,782	4.50 (a)	11.12.2015
October 2004	992,000	992,000	4.37 (d)	10.20.2019
Subordinated deposits	7,971,290	7,171,677		
	12,019,247	11,219,634		

- (a) The interest rate on these issues is fixed.
- (b) The interest rate is fixed for the first two coupons and floating for the remainder. The APR of the first two coupons will be 4.00%, which is equal to a nominal annual interest rate of 3.94%. The nominal interest rate for the subsequent interest accrual periods, i.e. for each quarter, will be three-month Euribor, published on the "Reuters Euribor 01" page at 11:00 a.m. two working days immediately before the start of each accrual period.
- (c) The interest rate for the period from July 17, 2003 to July 17, 2008, will be three-month Euribor plus 35 basis points. From July 17, 2008 to July 17, 2013, interest rate will be three-month Euribor plus 85 basis points.
- (d) The 4.37% interest rate is fixed for the period from the Issue Disbursement Date through the first early redemption date for the issuer. A variable interest rate of three-month EURIBOR plus 87 basis points will be applied from the first early redemption date for the issuer (the 10th anniversary of the Issue Disbursement Date) through maturity of the Issue.

These issues are non-convertible subordinated debt and, accordingly, for the purposes of payment priority, they rank behind ordinary debt.

In 2005 and 2004 there were no early redemptions of these issues.

At 31 December 2005, the Subordinated Deposits account of the foregoing detail includes the subordinated deposits taken relating to the subordinated debt and preference share issues launched by BBVA Global Finance Ltd., BBVA Capital Funding Ltd., BBVA Subordinated Capital S.A.U., BBVA International Preferred S.A.U., BBVA Preferred Capital Ltd., BBVA International Ltd., BBVA Capital Finance, S.A. and BBVA Privanza International (Gibraltar) Ltd., which are unconditionally and irrevocably secured by the Bank.

In 2005 and 2004 the subordinated debt bore interest of EUR 468,584 thousand and EUR 474,319 thousand, respectively (Note 35).

20. Provisions

The detail of the balance of this heading in the balance sheets at 31 December 2005 and 2004 is as follows:

	Thousands of Euros	
	2005	2004
Provisions for pensions and similar obligations	4,888,733	4,952,047
Provisions for contingent exposures and commitments	424,786	333,086
Other provisions	1,062,909	1,007,335
Total	6,376,428	6,292,468

The changes in 2005 and 2004 in the balances of the headings Provisions – Provisions for Pensions and Provisions – Other Provisions in the accompanying balance sheets were as follows:

	Thousands of Euros		
	Provisions for pensions and similar obligations	Provisions for contingent exposures and commitments	Other provisions
Balance at beginning of year 2004	4,804,628	241,301	919,141
Add-			
Period provision with a charge to income for the period	679,585	91,884	128,064
Transfers and other charges	-	-	111,237
Less-			
Available funds	-	(111)	(124,592)
Payments to early retirees	(460,338)	-	-
Provisions used	(14,007)	-	(26,515)
Other charges	(57,821)	12	-
Balances at end of year 2004	4,952,047	333,086	1,007,335
Add-			
Period provision with a charge to income for the period	425,615	99,669	57,098
Other charges	758	-	110,071
Less-			
Available funds	-	(1,386)	(85,916)
Payments to early retirees	(475,303)	-	-
Provisions used	-	-	(25,679)
Other charges	(14,384)	(6,583)	-
Balances at end of year 2005	4,888,733	424,786	1,062,909

The period provisions for pensions charged to income in 2005 under the headings Interest expenses and similar charges, Personnel Expenses and Provisions Expense (Net) of the income statement of 2005 amounted to EUR 101,610 thousand, EUR 6,356 thousand and EUR 317,649 thousand (EUR 93,953 thousand, EUR 4,949 thousand and EUR 580,683 thousand, respectively, in 2004).

Period provisions relating to the heading Provisions for contingent exposures and commitments were recorded under the heading Provisions Expense (Net) of the income of statements.

Also, period provisions totalling EUR 1,319 thousand, EUR 7,256 thousand and EUR 48,523 thousand relating to the heading Provisions - Other Provisions were recorded in 2005 under the headings Interest expenses and similar charges, Personnel Expenses and Provisions Expense (Net) (EUR 1,228 thousand, EUR 3,738 thousand and EUR 123,098 thousand, respectively, in 2004). Available funds were recorded in the heading Provisions Expense (Net) in the accompanying income statements of 2005 and 2004, and amounted to EUR 85,916 thousand and EUR 124,592 thousand, respectively.

21. Changes in equity

The changes in net equity in 2005 and 2004 are as follows:

2005	Thousands of euros							
	Share Capital	Reserves (*)	Other Equity Instruments	Treasury Shares	Profit of the period	Interim Dividends	Valuation Adjustments	Equity
Balances at 31 December 200	1,661,518	8,560,321	-	(8,500)	1,581,382	(1,017,256)	933,037	11,710,502

22. Capital stock

At 31 December 2005, the capital of Banco Bilbao Vizcaya Argentaria, S.A, amounted to EUR 1,661,517,501,07, and consisted of 3,390,852,043 fully subscribed and paid registered shares of EUR 0,49 par value each.

There were no variations in capital in 2005. In February 2004, as a result of the tender offer launched on 40.6% of the capital stock of BBVA Bancomer, S.A., capital was increased through the issuance of 195,000,000 shares, with a price per share of EUR 10.25 (consisting of a par value of EUR 0.49 and additional paid-in capital of EUR 9.76).

The shares of Banco Bilbao Vizcaya Argentaria, S.A, are listed on the computerized trading system of the Spanish stock exchanges and on the New York, Frankfurt, London, Zurich and Milan stock markets, and on 19 August 2005 were admitted for listing on the Mexican stock market.

At 31 December 2005, no individual shareholder owned more than 5% of the capital of the Bank.

At the Annual General Meeting on 28 February 2004 the shareholders resolved to delegate to the Board of Directors, in accordance with Article 153.1.b) of the Spanish Corporations Law, the power to increase capital, on one or several occasions, by a maximum par value equal to 50% of the Company's subscribed and paid capital at the date of the resolution, i.e. EUR 830,758,750.54. The legally stipulated period within which the directors can carry out this increase is five years. At 31 December 2005, the Board of Directors had not made use of this power.

At 31 December 2005, the resolutions adopted by the shareholders at the Annual General Meetings on 1 March 2003 and 9 March 2002 were still in force. These resolutions authorized the issuance of up to EUR 6,000 million of debentures convertible to and/or exchangeable for Bank shares and empowered the Board of Directors to issue, on one or several occasions, warrants on shares of the Company up to a maximum of EUR 1,500 million, fully or partially convertible to or exchangeable for Company shares. At 31 December 2005, no issues had been made under these authorisations.

At the BBVA Special General Meeting held on 14 June 2005 the shareholders resolved to increase the Bank's capital by a par value of EUR 260,254,745.17 to cater for the consideration established in the tender offer for the acquisition of up to 2,655,660,664 ordinary shares of Banca Nazionale del Lavoro S.p.A. and delegated to the Board of Directors the power to carry out the capital increase within a maximum period of one year from the date of the resolution. At 31 December 2005, this capital increase had not taken place.

In addition to the aforementioned resolutions, at the Annual General Meetings held in February 2004 and February 2005, the shareholders authorized the Board of Directors, for a period of five years, to issue fixed-income securities of any class or type, up to a maximum of EUR 121,750 million.

23. Share premium

The balance of this heading in the balance sheet amounts to EUR 6,658,390 thousand and includes, inter alia, the amounts of the share premiums arising from the capital increases and the surpluses arising from the merger of Banco Bilbao, S.A. and Banco Vizcaya, S.A., the detail of which is as follows:

	Thousands of euros
Revaluation of:	
Buildings	592,243
Equity securities portfolio	278,383
Less-	
Appropriations in 1988	(229,484)
Total	641,142

The revised Spanish Corporations Law expressly permits the use of the share premium balance to increase capital and establishes no specific restrictions as to its use,

24. Reserves

The breakdown of the balance of this heading in the accompanying balance sheets is as follows:

	Thousands of Euros	
	2005	2004
Restricted reserves:		
Legal reserve	332,303	313,194
Restricted reserve for retired capital	87,918	87,918
Restricted reserve for Parent Company shares	356,821	20,826
Restricted reserve for redenomination of capital in euros	1,861	1,861
Revaluation Royal Decree-Law 7/1996	176,281	176,281
Unrestricted reserves:		
Voluntary reserves and other	1,046,670	1,277,638
Total	2,001,854	1,877,718

24.1. Legal reserve:

Under the revised Corporations Law, 10% of profit for each period must be transferred to the legal reserve until the balance of this reserve reaches 20% of capital. This limit had already been reached by Banco Bilbao Vizcaya Argentaria, S.A. at 31 December 2005. The legal reserve can be used to increase capital provided that the remaining reserve balance does not fall below 10% of the increased capital amount.

Except as mentioned above, until the legal reserve exceeds 20% of capital, it can only be used to offset losses, provided that sufficient other reserves are not available for this purpose.

24.2. Restricted reserves:

According to the revised Corporations Law, a restricted reserve is registered to the reduction of the par value of each share in April 2000 to the redenomination of capital stock in euros and, another restricted reserve related to the amount of the treasury shares owned by the bank at the end of each period, as well as to the amounts of the credits still in effect at those dates granted to clients for buying shares of the Bank or with the guarantee of those shares.

Finally, and according to Law 46/1998 on the introduction of the euro, the respective restricted reserves were recorded in relation to treasury stock held by the Bank, to customer loans secured by shares of the Bank.

24.3. Revaluation Royal Decree-Law 7/1996 (Asset revaluations):

Prior to the merger, Banco de Bilbao, S.A. and Banco de Vizcaya, S.A. availed themselves of the asset revaluation provisions of the applicable enabling legislation. In addition, on 31 December 1996, the Bank revalued its tangible assets pursuant to Royal Decree-Law 7/1996 by applying the maximum coefficients authorized, up to the limit of the market value arising from the existing measurements. The resulting increases in the cost and accumulated depreciation of tangible assets and, where appropriate, in the cost of equity securities, were allocated as follows:

	Thousands of Euros
	2005
Legal revaluations of tangible assets:	
Cost	186,692
Less -	
Single revaluation tax (3%)	(5,601)
Balance at 31 December 1999	181,091
Adjustment as a result of review by the tax authorities in 2000	(4,810)
Total	176,281

Following the review of the balance of the account Revaluation Reserve Royal Decree-Law 7/1996 by the tax authorities in 2000, this balance can only be used, free of tax, to offset recorded losses and to increase capital through 1 January 2007. From that date, the remaining balance of this account can also be taken to unrestricted reserves, provided that the surplus has been depreciated or the revalued assets have been transferred or derecognised. If this balance were used in a manner other than that described above, it would be subject to tax.

25. Treasury shares and other equity instruments

In 2005 and 2004 the Group entities performed the following transactions involving Bank shares:

	Number of Shares	Thousands of Euros
Balance at 31 December 2003	7,493,411	82,002
+ Purchases	277,652,703	3,213,465
- Sales	(282,272,150)	(3,266,937)
+/- Other changes	-	7,317
Balance at 31 December 2004	2,873,964	35,847
+ Purchases	242,189,100	3,364,673
- Sales	(237,453,797)	(3,281,832)
+/- Other changes		(5,978)
Balance at 31 December 2005	7,609,267	112,710
Balance of BBVA share options sold		(16,390)
TOTAL		96,320

The average purchase price of the Bank's shares in 2005 was EUR 13.74 per share and the average selling price of the Bank's shares in 2005 was EUR 13.80 per share.

The net gains or losses on transactions with shares issued by the Bank were recognised in equity under the heading Other Equity Instruments. At 31 December 2005, the gains on transactions involving treasury shares amounted to EUR 17,297 thousand.

Pursuant to the revised Spanish Corporations Law, a restricted reserve was recorded equal to the carrying amount of the treasury shares owned by the Bank and its subsidiaries (see Note 24).

26. Tax matters

The balance of the heading Other Liabilities - Tax Collection Accounts in the accompanying balance sheets contains the liability for applicable taxes, including the provision for corporation tax of each year, net of tax withholdings and prepayments for that period, and the provision for current period corporation tax in the case of companies with a net tax liability. The amount of the tax refunds due to Group companies and the tax withholdings and prepayments for the current period are included under Other Assets - Tax Receivables in the accompanying balance sheets.

Banco Bilbao Vizcaya Argentaria, S.A. and its tax-consolidable subsidiaries file consolidated tax returns. The subsidiaries of Argentaria, which had been in Tax Group 7/90, were included in Tax Group 2/82 from 2000, since the merger had been carried out under the tax neutrality system provided for in Title VIII, Chapter VIII of Corporation Tax Law 43/1995. On 30 December 2002, the pertinent notification was made to the Ministry of Economy and Finance to extend its taxation under the consolidated taxation regime indefinitely, in accordance with current legislation.

In 2003, as in prior years, the Bank has performed or participated in corporate restructuring transactions under the special tax neutrality system regulated by Law 29/1991 of 16 December adapting certain tax to EU directives and regulations and by Title VIII, Chapter VIII of Corporation Tax Law 43/1995 of 27 December. The disclosures required under the aforementioned legislation are included in the notes to the financial statements of the relevant Group entities for the period in which the transactions took place.

a) Years open for review by the tax authorities

The Bank had 2001 and subsequent years open for review by the tax authorities for the main taxes applicable to it.

In 2005, as a result of the tax audit conducted by the tax authorities, tax assessments were issued for the years up to and including 2000, some of which were signed on a contested basis. After considering the temporary nature of certain of the assessed, the amounts, if any, that might arise from these assessments were provisioned in full in at 2005 year-end.

The varying interpretations which can be made of the tax regulations applicable to the operations of banks give rise to certain contingent tax liabilities for the open years that cannot be objectively quantified. However, the Bank's Board of Directors and its tax advisers consider that the possibility of these contingent liabilities becoming actual liabilities in future tax audits is remote and that, in any case, the tax charge which might arise therefrom would not materially affect the financial statements.

b) Reconciliation

The reconciliation of corporation tax payable, calculated on the basis of accounting profit before taxes, to the provision recorded for the period from 1 January 2005 to 31 December 2005, is as follows:

	Thousands of Euros	
	2005	2004
Corporation tax at the standard rate of 35%	793,862	638,436
Decreases due to permanent differences:		
Tax credits and tax relief	(201,273)	(405,882)
Other , net	(146,356)	99,271
Net increases (decreases) due to temporary differences	(47,101)	110,790
Income tax and other taxes payable	399,132	442,615
Deferred tax assets or liabilities recorded (used)	47,101	(110,790)
Provision for income tax and other taxes accrued in the year	446,233	331,825
Adjustments to the provision for prior years'		
income tax and other taxes	(96,198)	(89,103)
Income tax and other taxes	350,035	242,722

The Bank avails itself of the tax credits for investments in new fixed assets (in the scope of the Canary Islands tax regime, for a non-material amount), tax relief, and training and double taxation tax credits, in conformity with corporate income tax legislation.

The Bank and certain Group companies have opted to defer corporation tax on the gains on disposals of tangible assets and shares in investees more than 5% owned by them, the breakdown of which by year is as follows:

Year	Thousands of Euros
1996	26,097
1997	150,346
1998	567,733
1999	117,286
2000	75,199
2001	731,223

Under the regulations in force until 31 December 2001, the amount of the aforementioned gains for each year had to be included in equal parts in the taxable profit of the seven tax years ending from 2000, 2001, 2002, 2003, 2004 and 2005, respectively. Following inclusion of the portion relating to 2001, the amount of the gains not yet included was EUR 1,638,883 thousand, with respect to which the Bank availed itself of Transitional Provision Three of Law 24/2001 (of 27 December) on Administrative, Tax, Labour and Social Security Measures. Substantially all this amount (EUR 1,633,643 thousand) was included as a temporary difference in the 2001 taxable profit.

The share acquisitions giving rise to an ownership interest of more than 5%, particularly investments of this kind in Latin America, were assigned to meet reinvestment commitments assumed in order to qualify for the above-mentioned tax deferral.

Since 2002 the Bank has availed itself of the tax credit for reinvestment of extraordinary income obtained on the on the transfer for consideration of properties and shares representing ownership interests of more than 5%. The acquisition of these shares in 2003, 2004 and 2005, in particular, Banco Bradesco ,S.A. and Grupo Financiero BBVA Bancomer, S.A. de C.V., inter alia, affected compliance with the reinvestment commitments relating to the aforementioned tax credit.

c) **Tax recognised in equity**

In addition to the income tax recognised in the consolidated income statements, in 2005 and 2004 the Bank recognised the following amounts in consolidated equity:

	Miles de Euros	
	2005	2004
Charged to equity:		
Fixed-income securities portfolio	(88,092)	(124,641)
Equity securities portfolio	(942,202)	(371,402)
Credited to equity:		
Other	55,796	0
	(974,498)	(496,043)

d) Deferred taxes

The balance of the heading Tax Assets in the balance sheets includes the tax receivables relating to deferred tax assets; in turn, the balance of the heading Tax Liabilities includes the liability relating to the Bank's various deferred tax liabilities.

Deferred tax assets amounted to EUR 3,326,367 thousand and EUR 3,171,232 thousand in 2005 and 2004, respectively. The main for which deferred tax assets were recognised are provisions for pension commitments and similar obligations to employees (EUR 1,491,141 thousand and EUR 1,444,826 thousand in 2005 and 2004, respectively) and period loan loss provisions (EUR 687,230 thousand and EUR 534,966 thousand in 2005 and 2004, respectively).

Deferred tax liabilities amounted to EUR 1.248.338 thousand and EUR 663.461 thousand in 2005 and 2004, respectively.

27. Residual maturity of transactions

Following is a detail, by maturity, of the balances of certain headings in the balance sheets at 31 December 2005 and 2004:

2005	Thousands of Euros						
	Demand	Up to 1 Month	1 to 3 Months	3 to 12 Months	1 to 5 Years	Over 5 Years	Total
ASSETS -							
Cash and balances with central banks	2,654,628	52,854	-	-	-	-	2,707,482
Loans and advances to credit institutions	4,576,951	11,653,392	2,891,803	3,618,595	5,079,082	1,307,320	29,127,143
Loans and advances to other debtors	1,178,437	14,073,705	13,531,424	22,285,812	37,992,553	66,310,214	155,372,145
Debt securities		2,706,584	2,310,896	11,108,746	15,020,758	10,736,257	41,883,241
Other held-to-maturity assets	1,410,056	61,520	3,300	-	-	1,650	1,476,526
LIABILITIES -							
Deposits from central banks	5,030,285	12,382,965	127,151	211,918	-	-	17,752,319
Deposits from credit institutions	2,701,669	19,154,466	6,579,403	6,619,396	5,475,054	2,284,587	42,814,575
Money market operations through counterparties	-	23,000	-	245	-	-	23,245
Deposits from other creditors	49,448,890	40,447,278	7,904,337	9,758,482	18,475,927	2,724,128	128,759,042
Debt certificates including bonds	-	19	-	2,500,007	15,739,769	14,229,632	32,469,427
Subordinated liabilities	-	-	211,918	314,037	1,793,239	9,700,053	12,019,247
Other held-to-maturity liabilities	4,777,207	-	-	-	-	-	4,777,207

28. Fair value of assets and liabilities

Following is a comparison of the carrying amounts of the Bank's financial assets and liabilities and their respective fair values at period-end:

	Thousands of Euros	
	Carrying Amount	Fair Value
Assets		
CASH AND BALANCES WITH CENTRAL BANKS (Note 7)	2,707,634	2,707,634
FINANCIAL ASSETS HELD FOR TRADING (Note 8)	31,223,865	31,223,865
AVAILABLE-FOR-SALE FINANCIAL ASSETS (Note 9)	32,895,371	32,895,371
LOANS AND RECEIVABLES (Note 10)	183,250,928	203,262,360
HELD-TO-MATURITY INVESTMENTS (Note 11)	3,959,264	4,074,742
HEDGING DERIVATIVES (Note 12)	2,505,102	2,505,102
Liabilities		
FINANCIAL LIABILITIES HELD FOR TRADING (Note 8)	14,579,963	14,579,963
FINANCIAL LIABILITIES AT AMORTISED COST (Note 19)	242,037,543	250,748,969
HEDGING DERIVATIVES (Note 12)	947,007	947,007

29. Financial guarantees and drawable by third parties

The memorandum Contingent Exposures and Contingent Commitments in the accompanying balance sheets include the amounts that would be payable by the Bank on behalf of third parties if the parties originally obliged to pay fail to do so, in connection with the commitments assumed by those entities in the course of their ordinary business.

The breakdown of the balances of these at 31 December 2005 and 2004 is as follows:

	Thousands of Euros	
	2005	2004
Contingent exposures-		
Collateral, bank guarantees and indemnities	50,496,199	32,404,769
Rediscounts, endorsements and acceptances	6,829,488	3,346,723
Other	1,810,836	1,517,002
	59,136,523	37,268,494
Contingent commitments-		
Drawable by third parties:		
Credit institutions	2,978,474	2,747,342
General government sector	2,382,394	1,016,085
Other resident sectors	32,547,030	29,852,312
Non-resident sector	17,689,026	12,518,554
	55,596,924	46,134,293
Other commitments	4,061,067	3,737,734
	59,657,991	49,872,027

Since a significant portion of these amounts will reach maturity without any payment obligation materializing for the Bank, the aggregate balance of these commitments cannot be considered as an actual future requirement for financing or liquidity to be provided by the Bank to third parties.

Income from the guarantee instruments is recorded under the heading Fee and Commission Income in the income statement and is calculated by applying the rate established in the related contract to the nominal amount of the guarantee.

30. Assets assigned to other own and third-party obligations

At 31 December 2005 and 2004, the Bank assets assigned to own obligations were available-for-sale financial assets amounting to EUR 34,679,816 and EUR 28,008,024, respectively. Also, at 31 December 2005 and 2004, there were no Bank assets assigned to third-party obligations.

The amount of "Assets pledged as security for own obligations" is related mainly to assets that serve as collateral for financing facilities arranged with the Bank of Spain.

31. Other contingent assets

At 31 December 2005 and 2004, there were no contingencies assets and liabilities.

32. Purchase and sale commitments

The financial instruments sold with a commitment to subsequently repurchase them are not derecognized from the consolidated balance sheets and the amount received from the sale is considered financing from third parties.

At 31 December 2005 and 2004, the Bank had sold financial assets totalling EUR 34,555,166 thousand and EUR 30,462,166 thousand, respectively, with a commitment to subsequently repurchase them, and had purchased financial assets totalling EUR 11,505,077 thousand and EUR 4,564,490 thousand, respectively, with a commitment to subsequently resell them.

33. Transactions for the account of third parties

The detail of the most significant composing this heading is as follows:

	Thousands of Euros	
	2005	2004
Assets acquired in the entity's own name for the account of third parties	366,023,392	358,650,834
Asset transfers		
<i>Derecognised in full from the balance sheet</i>	900,317	1,280,639
Retained in full on the balance sheet	5,374,589	1,949,816
Conditional bills and other securities received for collection	1,553,646	1,635,481
Borrowed securities		
Off-balance-sheet customer funds		
<i>Managed by the Group</i>		
Investment companies and mutual funds	44,905,985	41,288,858
Pension funds	13,543,623	11,973,281
Insurance-cum-savings contracts	2,923,004	2,246,332
Customer portfolios managed on a discretionary basis	3,943,123	2,999,054
Total	439,167,679	422,024,295

34. Interest and similar income

The breakdown of the most significant interest and similar income earned by the Bank in 2005 and 2004 is as follows:

	Thousands of Euros	
	2005	2004
Central banks	38,965	37,523
Loans and advances to credit institutions	548,344	414,405
Loans and advances to other debtors:		
General government	220,816	211,455
Resident sector	4,564,413	4,072,945
Non-resident sector	477,708	277,035
Debt securities	1,278,129	1,406,742
Rectification of income as a result of hedging transactions	(83,238)	(151,199)
Other income	124,182	113,946
Total	7,169,319	6,382,852

35. Interest expense and similar charges

The breakdown of the balance of this heading in the accompanying income statements is as follows:

	Thousands of Euros	
	2005	2004
Bank of Spain and other central banks	251,238	245,767
Deposits from credit institutions	1,237,387	1,004,966
Deposits from other creditors	2,038,727	1,639,707
Debt certificates including bonds	1,163,501	799,133
Subordinated liabilities (Note 19)	468,584	474,319
Rectification of expenses as a result of hedging transactions	(794,404)	(562,476)
Cost attributable to pension funds (Note 20)	102,929	95,181
Other charges	5,892	4,490
Total	4,473,854	3,701,087

36. Return on equity instruments

The breakdown of the balance of this heading in the accompanying income statements is as follows:

	Thousands of Euros	
	2005	2004
Dividends	1,774	3,483
Investments	770,199	782,889
Other shares and equity instruments	284,939	305,106
Total	1,056,912	1,091,478

37. Fee and commission incomes

The breakdown of the balance of this heading in the accompanying income statements is as follows:

	Thousands of Euros	
	2005	2004
Commitment fees	42,086	37,391
Contingent liabilities		
Documentary credits	21,594	19,847
Bank and other guarantees	120,907	108,579
Arising from exchange of foreign currencies and banknotes	3,790	5,137
Collection and payment services	759,187	713,255
Securities services	154,977	137,875
Counselling on and management of one-off transactions	33,142	38,407
Financial and similar counselling services	27,085	21,323
Factoring transactions	593,128	500,509
Other fees and commissions	173,089	107,264
Total	1,928,985	1,689,587

38. Fee and commission expenses

The breakdown of the balance of this heading in the accompanying income statements is as follows:

	Thousands of Euros	
	2005	2004
Brokerage fees on lending and deposit transactions	1,666	2,018
Fees and commissions assigned to third parties	210,990	193,156
Other fees and commissions	118,062	131,569
Total	330,718	326,743

39. Gains or losses on financial assets and liabilities

The detail of the balance of this heading in the accompanying income statements is as follows:

	Thousands of Euros	
	2005	2004
Net gains or losses on sale or measurement of assets		
Financial assets held for trading	244,494	264,010
Available-for-sale financial assets	238,045	224,732
Other	47,132	(299,099)
Total	529,671	189,643

The breakdown, by type, of the financial instruments which gave rise to the above balances is as follows:

	Thousands of Euros	
	2005	2004
Debt instruments	26,833	289,321
Equity instruments	932,365	208,282
Derivatives	(470,496)	(269,462)
Other	40,969	(38,498)
Total	529,671	189,643

40. Personnel expenses

The detail of the balance of this heading in the accompanying income statements is as follows:

	Thousands of Euros	
	2005	2004
Wages and salaries	1,536,376	1,489,294
Social security costs	310,770	302,972
Transfers to pension funds (Note 2)	3,480	2,951
Contributions to pension funds (Note 2)	68,768	56,354
Other personnel expenses	94,853	87,330
Total	2,014,247	1,938,901

The average number of employees in the Bank, by professional category and country, was as follows:

	2005	2004
Executives	1,067	1,036
Technical staff	21,543	21,164
Administrative staff	6,980	7,493
General Services	62	74
Abroad	674	662
Total	30,326	30,429

41. Other administrative expenses

The breakdown of the balance of this heading in the income statements is as follows:

	Thousands of Euros	
	2005	2004
Technology and systems	241,796	236,763
Communications	58,708	59,850
Advertising	78,530	65,228
Property, fixtures and materials	156,090	144,914
Taxes other than income tax	24,775	22,260
Other expenses	244,128	228,155
Total	804,027	757,170

The heading Property, Fixtures and Materials includes expenses relating to operating leases of buildings amounting to EUR 73,077 thousand and EUR 66,297 thousand in 2005 and 2004, respectively. The Bank does not expect to terminate the lease contracts early.

The balance of the heading Other expenses in the foregoing table includes the audit fees paid by the Bank to their respective auditors, the detail for 2005 being as follows:

	Thousands of Euros
Audits by firms belonging to the Deloitte worldwide organisation	3,459
Other reports required pursuant to applicable legislation bodies of the countries in which the Bank operates, reviewed by firms belonging to the Deloitte worldwide organisation	1,205
Fees for audits conducted by other firms	66
Total	4,730

The detail of the other services provided to the Bank is as follows:

	Thousands of Euros
Firms belonging to the Deloitte worldwide organisation	1,197
Other firms	2,687
Total	3,884

42. Other gains and other losses

The breakdown of the balances of these headings in the accompanying income statements is as follows:

	Thousands of Euros	
	2005	2004
Losses		
Net losses on fixed asset disposals	6,833	8,608
Net losses on long-term investments due to write-downs	885	155
Other losses	27,267	(6,291)
	34,985	2,472
Income		
Net gains on sale of long-term investments	2,915	326,336
Net gains on fixed asset disposals (Note 15)	75,436	63,889
Income from the provision of non-typical services	7,368	7,910
Other income	22,153	50,233
	107,872	448,368
Total	72,887	445,896

43. Transactions with related parties

43.1. Transactions with subsidiaries

The balances of the main aggregates in the financial statements arising from transactions performed in 2005 and 2004 by the Bank with subsidiaries, which consist of money transfer and ordinary business transactions carried out on an arm's-length basis, are as follows:

	Miles de euros	
	2005	2004
Assets		
Loans and advances to credit institutions	12.992.303	11.343.190
Loans and receivables	459.396	2.512.974
Available-for-sale financial assets	197.313	42.860
	13.649.012	13.899.024
Liabilities		
Deposits from credit institutions	10.012.130	10.304.280
Deposits from other debtors	17.771.469	7.404.332
	27.783.599	17.708.612
Memorandum accounts :		
Contingent liabilities	31.415.456	17.751.808
Contingent commitments and exposures	881.526	1.803.139
	32.296.982	19.554.947
Gains and losses:		
Income	1.007.442	1.527.775
Expenses	1.000.430	836.762

There are no other material effects on the financial statements of the Bank arising from dealings with these subsidiaries, other than the effects arising from using the equity method from the insurance policies to cover pension or similar commitments (Note 2.f.).

At 31 December 2005, the notional amount of the futures transactions arranged by the Bank with the main related companies amounted to EUR 128,283,592 thousand and EUR 2,956,702 thousand, respectively.

In addition, as part of its normal activity, the Bank has entered into agreements and commitments of various types with shareholders of subsidiaries and associates, which have no material effects on the financial statements.

43.2. Transactions with key entity personnel

The information on the remuneration of key personnel (members of the Board of Directors of BBVA and of the Management Committee) is included in Note 5.

The loans granted at 31 December 2005, to members of the Board of Directors of BBVA totalled EUR 698 thousand. At 31 December 2005, no guarantees had been provided on their behalf.

The loans granted at 31 December 2005, to 18 members of the Management Committee, excluding the executive directors, amounted to EUR 4,249 thousand. At 31 December 2005, no guarantees had been provided on behalf of members of the Management Committee.

At 31 December 2005, the loans granted to parties related to key personnel (the aforementioned members of the Board of Directors of BBVA and of the Management Committee) totalled EUR 10,324 thousand. At 31 December 2005, the other exposure to parties related to key personnel (guarantees, finance leases and commercial loans) amounted to EUR 22,712 thousand.

The demand and time deposits held on an arm's length basis as part of BBVA's ordinary banking business by directors, Management Committee members and their related parties totalled EUR 6,838 thousand at 31 December 2005.

In addition, BBVA and other Group companies, in the normal course of their business and in their capacity as financial institutions, habitually perform transactions with members of the Board of Directors of BBVA and of the Management Committee and their respective related parties. All these transactions, which are scantily material, are conducted on an arm's length basis.

The provisions recorded at 31 December 2005 to cover post-employment benefit obligations to the members of the Management Committee, excluding the executive directors, amounted to EUR 50,292 thousand, of which EUR 12,538 thousand were charged to 2005 income.

43.3. Transactions with other related parties

There were no significant transactions with other related parties.

44. Other information

On 22 March 2002, BBVA notified the supervisory authorities of the stock markets on which its shares are listed that the Bank of Spain had commenced a proceeding against BBVA and 16 of its former directors and executives. These proceedings arose as a result of the existence of funds belonging to BBV that were not included in the entity's financial statements until they were voluntarily regularized by being recorded in the 2000 consolidated income statement as extraordinary income, for which the related corporation tax was recorded and paid. These funds totalled Ptas. 37,343 million (approximately EUR 225 million) and arose basically from the gains on the sale of shares of Banco de Vizcaya, S.A. and Banco Bilbao Vizcaya, S.A. from 1987 to 1992, and on the purchase and sale by BBV of shares of Argentaria, Caja Postal and Banco Hipotecario, S.A. in 1997 and 1998.

After dissolving the legal vehicles where the unrecorded funds were located and including the funds in its accounting records, BBVA notified the Bank of Spain of these matters on 19 January 2001. The Bank of Spain's supervisory services commenced an investigation into the origin of the funds, their use and the persons involved, the findings of which were included in the supervisory services' report dated 11 March 2002. On 15 March 2002, the Bank of Spain notified the Bank of the commencement of a proceeding relating to these events.

On 22 May 2002, the Council of the Spanish National Securities Market Commission (CNMV) commenced a proceeding against BBVA for possible contravention of the Securities Market Law (under Article 99 ñ) thereof) owing to the same events as those which gave rise to the Bank of Spain's proceeding.

Since various court proceedings are in progress to determine the possible criminal liability of the persons involved in the aforementioned events, the conduct of the two administrative proceedings was stayed until the final court decision is handed down.

At the date of preparation of these financial statements, none of the persons party to the proceedings or prosecuted in relation to the events referred to above is a member of the Board of Directors or the Management Committee or held executive office at BBVA. BBVA not party to the criminal proceedings and no charges or claim for liability have been levelled against the Bank.

The proceedings DP 161/00 initiated in 2000 relating to the alleged participation of certain BBVA Privanza Bank employees in purported tax offences resulting from the marketing of BBVA Privanza Jersey fiduciary products, as well as to the purported tax offence by BBVA for not including in its balance sheet the net assets of Canal Trust Company (a wholly-owned subsidiary of BBVA Privanza) are still at the initial investigative stage.

The Bank's legal advisers do not expect the aforementioned administrative and criminal proceedings to have any material impact on the Bank.

45. Detail of the Directors' holdings in companies with similar business activities

Pursuant to Article 127 ter, of the Spanish Corporations Law, introduced by Law 26/2003 of 17 July amending Securities Market Law 24/1988 of 28 July, and the revised Corporations Law, in order to reinforce the transparency of listed companies, set forth below are the companies engaging in an activity that is identical, similar or complementary to that which constitutes the corporate purpose of BBVA, in which the members of the Board of Directors have a direct or indirect ownership interest.

None of the directors discharge executive or administrative functions at these companies.

Translation of a report originally issued in Spanish. In the event of a discrepancy, the Spanish-language version prevails.

BANCO BILBAO VIZCAYA ARGENTARIA, S.A.

MANAGEMENT REPORT FOR THE YEAR ENDED DECEMBER 31, 2005

Banco Bilbao Vizcaya Argentaria, S.A. ("the Bank" or "BBVA") is a private-law entity governed by the rules and regulations applicable to banks operating in Spain. The Bank conducts its business through branches and offices located throughout Spain and abroad.

The Bank's management report was prepared from the individual accounting and management records of Banco Bilbao Vizcaya Argentaria, S.A.

BBVA is the parent company of the internationally diversified finance group ("the Group") with a significant presence in traditional retail banking, asset management, private banking and wholesale banking.

INTRODUCTION

2005 witnessed the continued expansion of the world economy which, with growth of over 4%, notably withstood the pressure exerted by rising oil prices. As economic growth gathered momentum and inflation risk rose, the U.S. Federal Reserve gradually increased its official interest rates from 1% in June 2004 to 4.25% at 2005 year-end, in spite of which long-term interest rates remained very low (on average in 2005, the 10-year rate was the same as in 2004), resulting in a flattening of the rate curve.

On 1 December, the European Central Bank signalled an imminent rise in interest rates when it set its official rate at 2.25%, following two-and-a-half years in which it had stood at 2%. Although this triggered an upswing in Euribor in the fourth quarter, in 2005 10-year interest rates were lower, on average, than in 2004. The European economy grew at a slower rate than in 2004. However, the Spanish economy reported 3.4% growth, up 0.3% on 2004, fuelled by burgeoning domestic consumer demand and household and corporate investment; this growth figure also reflects the adverse contribution of the foreign sector and rising inflation.

The financial information included in this management report is presented in accordance with the criteria established by Bank of Spain Circular 4/2004. The data for 2004 were prepared using the same criteria and, therefore, are uniform. Consequently, they differ from the data published in that year.

CAPITAL STOCK AND TREASURY SHARES

At 31 December 2005, the capital of Banco Bilbao Vizcaya Argentaria, S.A. amounted to EUR 1,661,517,501.07, and consisted of 3,390,852,043 fully subscribed and paid registered shares of EUR 0.49 par value each.

There were no variations in capital in 2005. In February 2004, as a result of the tender offer launched on 40.6% of the capital stock of BBVA Bancomer, S.A., capital was increased through the issuance of 195,000,000 shares, with a price per share of EUR 10.25 (consisting of a par value of EUR 0.49 and additional paid-in capital of EUR 9.76).

The shares of Banco Bilbao Vizcaya Argentaria, S.A. are listed on the computerized trading system of the Spanish stock exchanges and on the New York, Frankfurt, London, Zurich and Milan stock markets, and on 19 August 2005 were admitted for listing on the Mexican stock market.

At 31 December 2005, no individual shareholder owned more than 5% of the Bank's capital. 50.8% of total capital was held by resident shareholders (51.7% in 2004).

At the Annual General Meeting on 28 February 2004 the shareholders resolved to delegate to the Board of Directors, in accordance with Article 153.1.b) of the Spanish Corporations Law, the power to increase capital, on one or several occasions, by a maximum par value equal to 50% of the Bank's subscribed and paid capital at the date of the resolution, i.e. EUR 830,758,750.54. The legally stipulated period within which the directors can carry out this increase is five years. At 31 December 2005, the Board of Directors had not made use of this power.

At 31 December 2005, the resolutions adopted by the shareholders at the Annual General Meetings on 1 March 2003 and 9 March 2002 were still in force. These resolutions authorized the issuance of up to EUR 6,000 million of debentures convertible to and/or exchangeable for Bank shares and empowered the Board of Directors to issue, on one or several

occasions, warrants on shares of the Bank up to a maximum of EUR 1,500 million, fully or partially convertible to or exchangeable for Bank shares. At 31 December 2005, no issues had been made under these authorisations.

At the BBVA Special General Meeting held on 14 June 2005, the shareholders resolved to increase the Bank's capital by a par value of EUR 260,254,745.17 to cater for the consideration established in the tender offer for the acquisition of up to 2,655,660,664 ordinary shares of Banca Nazionale del Lavoro S.p.A and delegated to the Board of Directors the power to carry out the capital increase within a maximum period of one year from the date of the resolution. At 31 December 2005, this capital increase had not taken place.

In addition to the aforementioned resolutions, at the Annual General Meetings held in February 2004 and February 2005, the shareholders authorized the Board of Directors, for a period of five years, to issue fixed-income securities of any class or type, up to a maximum of EUR 121,750 million.

At 31 December 2005, there were no significant capital increases in progress at any of the Group companies.

The detail of the transactions performed by Group companies with Bank shares in 2005 and 2004 is as follows:

	Number of Shares	Thousands of Euros
Balance at 31 December 2003	7,493,411	82,002
+ Purchases	277,652,703	3,213,465
- Sales	(282,272,150)	(3,266,937)
+/- Other changes	-	7,317
Balance at 31 December 2004	2,873,964	35,847
+ Purchases	242,189,100	3,364,673
- Sales	(237,453,797)	(3,281,832)
+/- Other changes		(5,978)
Balance at 31 December 2005	7,609,267	112,710
Balance of BBVA share options sold		(16,390)
TOTAL		96,320

The average purchase price of the Bank's shares in 2005 was EUR 13.89 per share and the average selling price was EUR 13.82 per share.

The net gains on transactions involving Bank shares were recognised in equity under the heading Reserves. At 31 December 2005, income from treasury share transactions amounted to EUR 17,297 thousand.

DISTRIBUTION OF PROFIT

In 2005, the Board of Directors of Banco Bilbao Vizcaya Argentaria, S.A. resolved to pay the shareholders three interim dividends out of 2005 profit, amounting to a total of EUR 0.345 gross per share. The aggregate amount of the interim dividends declared as of 31 December 2005, net of the amount collected and to be collected by the consolidable Group companies, was EUR 1,169,844 thousand and is recorded under Own Funds - Dividends and Remuneration in the related consolidated balance sheet. The last of the aforementioned interim dividends, which amounted to EUR 0.115 gross per share and was paid to the shareholders on 10 January 2006, was recorded under the heading Financial Liabilities at Amortised Cost – Other Financial Liabilities in the consolidated balance sheet at 31 December, 2005.

The provisional accounting statements prepared in 2005 by Banco Bilbao Vizcaya Argentaria, S.A. in accordance with legal requirements evidencing the existence of sufficient liquidity for the distribution of the interim dividends were as follows:

	Thousands of Euros		
	05/31/05	08/31/05	11/30/05
	Dividend 1	Dividend 2	Dividend 3
Interim dividend- Profit at each of the dates indicated, after the provision for income tax	502,337	1,156,526	1,630,026
Less- Interim dividends paid		(389,948)	(779,896)
Maximum amount distributable	502,337	766,578	850,130
Amount of proposed interim dividend	389,948	389,948	389,948

The Bank's Board of Directors will propose to the shareholders at the Annual General Meeting that a final dividend of EUR 0.186 per share be paid out of 2005 income. Based on the number of shares representing the share capital at 31 December 2005, the final dividend would amount to EUR 630,698 thousand and profit would be distributed as follows:

	Thousands of Euros
Net profit for 2005	1,918,142
Distribution:	
Dividends	
- Interim	1,169,844
- Final	630,698
To voluntary reserves	117,600
To legal reserve	

GROUP EQUITY

Eligible equity as defined by the Basel-based Bank for International Settlements (BIS) amounted to EUR 26,045 million at 2005 year-end, up 14.2% on the figure at 31 December 2004. Thus, the Group's cushion with respect to the BIS capital requirements (8% of risk-weighted assets) was EUR 8,694 million, 6.0% more than at 2004 year-end.

The major growth achieved in the Group's business in 2005, combined with the impact of the appreciation of the Latin-American currencies against the euro, led to an increase in risk-weighted assets. Also, the acquisitions made in the year gave rise to further capital requirements.

Core capital (capital, reserves, minority interests and retained earnings for the year minus goodwill and intangible assets) amounted to EUR 12,151 million, signifying growth of 14.5% with respect to 31 December 2004, which is lower than the 18.7% rise in risk-weighted assets.

If preference shares are included in the calculation of core capital, Tier I amounts to EUR 16,279 million at 2005 year-end, 12.9% more than in 2004, and represents 7.5% of risk-weighted assets (7.9% at 31 December 2004). As a result, the proportion of core capital represented by preference shares fell to 25.4% at 31 December 2005, one percentage point less than at 2004 year-end.

Other eligible equity (mainly subordinated debt and valuation adjustments) totalled EUR 9,766 million at 2005 year-end, a year-on-year increase of 16.4%, giving rise to Tier II of 4.5%, as compared with 4.6% at 31 December 2004. Consequently, the Group's BIS ratio was 12.0% (12.5% at 2004 year-end).

BALANCE SHEET AND BUSINESS ACTIVITY

As of December 31, 2005, the Bank's total balance sheet amounted to €279,141 million (€240,663 million, in 2004). In 2005 loans increased by €33,869 million (22.67%) with respect to 2004. In relation to fixed income investments the increase amounted €3,489 millions (0.08%) with respect to 2004.

Also, as of December 31, 2005, customer funds grow €25,850 million (24.82%) with respect to 2004.

INCOME STATEMENT

In 2005 the Bank posted a pre-tax profit of €2,268 million (€1,824 million in 2004). Its income after taxes amounted to €1,918 million (€1,581 million in 2004).

General administrative expenses did not vary significantly with respect to the preceding year, evidencing the efforts made to control these expenses in 2005 and 2004.

The gross operating income amounted €6,013 million in 2004, €5,531 million in 2004. This increase is caused by the commissions and the market operation.

The net interest income amounted €3,752 million in 2005 (€3,773 million in 2004).

Lastly, worthy of mention is the fact that the basic margin (financial revenues less financial expenses without income from equities portfolio) amounted €2,695 million in 2005, €2,682 million in 2004.

THE RISK MANAGEMENT SYSTEM AT BBVA

The BBVA Group considers risk management to be an intrinsic part of the banking business and a source of its competitive advantage.

The risk function is designed to provide management methods which allow the Bank to attain the necessary balance between its risk exposure and the expected profitability of its business, with a view to maximizing returns for shareholders and the creation of value.

BBVA developed a global risk management system based on a three-pronged model: a corporate risk management structure; a set of tools, circuits and procedures and an internal control system.

Corporate risk management structure

The Board of Directors is the highest-ranking body that determines the Group's risk policy. It approves, where appropriate, any non-delegated financial transactions or programmes involving credit risk, with no restrictions as to the amount. It also authorises the operating limits and the delegation of powers relating to credit risk, market risk and structural risk.

These tasks are performed by the Standing Committee, which reports to the Board.

The Board has a Lending Committee, a specialized body whose functions include, inter alia:

- Assessment of the Group's risk management in terms of risk profile and capital map, broken down by business and area of activity.
- Evaluation of the general risk policies and establishment of limits by type of risk or business, and of management resources, procedures and systems, structures and processes.
- Approval of individual or Group risks that may affect the Bank's solvency, in keeping with the established delegation system.
- Analysis and approval, where appropriate, of credit risks in terms of maximum customer or Group exposure.
- Monitoring of the Group's various risks, ensuring they comply with the profile defined by the Group.
- Ensuring compliance with the recommendations of regulatory and supervisory bodies, and implementation of these recommendations in the Group's risk management model.
- Analysis of the Group's risk control systems.

The Asset-Liability Committee (ALCO) is the body responsible for actively managing BBVA's structural liquidity, interest rate and currency risks, and its core capital.

The Internal Risk Committee, which is composed of the persons responsible for Group risk management at corporate level, develops and implements the risk management model at BBVA and ensures, on a day-to-day basis, that the risks assumed by the Group are in line with the target risk profile defined by the senior governing bodies.

The Technical Transactions Committee analyses and approves, where appropriate, the financial transactions and programmes that are within its level of authorisation, and refers any transactions exceeding the scope of its delegated powers to the Lending Committee.

Tools, circuits and procedures

BBVA has set up management systems designed to cater for the needs arising in relation to the various types of risk.

The Bank's understanding of risk management as an ongoing task prompted it to shape the management processes for each risk, including measurement tools for risk acceptance, assessment and monitoring, and to define the appropriate circuits and procedures, which are reflected in manuals that also include management criteria.

Consequently, the following activities, inter alia, are performed:

- Calculation of the risk exposures of the various portfolios, considering any related mitigating factors (netting, collateral, etc.).
- Calculation of the probability of default (PD), loss severity and expected loss of each portfolio, and assignment of the PD to the new transactions (ratings and scorings).
- Measurement of the values-at-risk of the portfolios based on various scenarios using historical and Monte Carlo simulations.
- Establishment of limits to the potential losses based on the various risks incurred.
- Determination of the possible impacts of the structural risks on the income statement.
- Setting of limits and alerts to safeguard the Group's liquidity.
- Identification and quantification of operational risks by business line to enable the mitigation of these risks through corrective measures.
- Definition of circuits and procedures which are efficient and contribute to the achievement of the targets set.

In short, BBVA has a global concept of risk management which it implements by way of an integrated risk management system.

Internal Control – Risk Maps

The development, implementation and continuous improvement of a risk management system requires the establishment of controls and indicators to guarantee, on the basis of the targets set, that the management structures function adequately and that progress is made in developing the management model. Also, the best practices in risk management are identified and adopted.

To this end, BBVA has an independent function which, in keeping with the recommendations of the regulators, draws up Risk Maps identifying any gaps in the Group's risk management and the best practices, and establishes working plans with the various business areas to resolve these gaps.

Basel II

Since the publication of the Capital Accord, known as Basel II, BBVA has redoubled its efforts and assigned the necessary resources in order to successfully comply with the new regulatory framework which, from 2008 onwards, will allow capital utilisation to be determined using internal models.

In this respect, within the context of current legislation, the Bank, after obtaining the related authorisation, has been using its internal market risk model to calculate regulatory capital.

The Group has also opted to implement advanced credit and operational risk models. As required by the Basel Capital Accord, these models will initially be applied to the Bank's fundamental risk exposure.

In compliance with the timetable established by the regulators, in 2005 the BBVA Group submitted the mandatory documentation ("Request Memorandums") in order to validate its internal IRB advanced credit risk models. This validation process will continue in 2006 and 2007.

RESEARCH AND DEVELOPMENT

In 2005 the Group continued to foster the use of new technologies as a key component of its global development strategy. It explored new business and growth opportunities, focussing on three major areas: emerging technologies; asset capture/exploitation; and the customer as the focal point of banking business. In this respect, in 2005:

- The BBVA Group hosted the Fourth Technological Innovation Workshop in Madrid and held its First Technological Innovation Workshop in Mexico.

- It further strengthened the working structure of the Technological Innovation Community. This permanent forum, which analyses and debates the most significant developments in technology applied to the financial services industry, addressed the following matters :
 - The multichannel service model.
 - E-commerce.
 - Mobility services.

ENVIRONMENTAL INFORMATION

The environmental impacts of a financial services group such as BBVA are basically of two kinds:

- Direct impacts: arising from the consumption of energy and raw materials (paper consumption, air-conditioning systems in buildings, land management, etc.).
- Indirect impacts: resulting from the Group's risk policy (granting of loans to projects that might damage the environment) and the creation and marketing of products and services.

The Environmental Policy approved by the Group in 2003 addresses both direct and indirect impacts. This policy is implemented through an advanced Environmental Management System which, based on ISO 14001, promotes an integral mechanism for ongoing improvement that is applicable to the entire Group in all the activities carried on by it in all the countries in which it operates.

To ensure compliance with this policy, an Environmental Policy Committee was set up (also in 2003). This Committee, comprising executives representing the main areas involved, is the body responsible for implementing and monitoring the environmental policy. Policy coordination is managed by the Corporate Responsibility and Reputation Department, which since 2005 has reported to the Communication and Image Division.

The Environmental Management System is based on three fundamental principles: strict compliance with current regulations, responsible behaviour in discharging business functions and a proactive influence on the behaviour of the BBVA Group's stakeholders. These basic principles are implemented through seven lines of action:

1. Ecoefficiency in the use of natural resources and in the treatment of waste.
2. Use of environmental criteria in analyzing financial transaction risk.
3. Financing of, and provision of advisory services for, customers' environmental conservation and improvement projects.
4. Positive influence on suppliers' environmental behaviour.
5. Environmental training and awareness raising among employees.
6. Boosting innovative environmental initiatives through the Innova Programme.
7. Support for environmental initiatives in society.

The Group's environmental activities in 2005 included most notably:

1. Progress in developing procedures to identify, assess and manage the environmental and social risks involved in major financing projects in emerging economies (the Ecuador principles).
2. Obtainment of ISO 14001 certification -granted by an external auditor- for BBVA's operational headquarters in Spain, which house almost 2% of the Group's total workforce.
3. Assignment by Anida (a BBVA real estate company) of 0.7% of its net profit to corporate responsibility actions, with particular emphasis on environmental measures.
4. Launch of an initial project relating to compensation for CO2 emissions produced by BBVA.
5. Establishment of specific targets for the reduction of the Group's consumption of natural resources.
6. Participation in a USD 100 million operation to fund projects for Clean Development Mechanisms (under the Kyoto Protocol) for the abatement of emissions in Central America.

At 31 December 2005, there were no in the Bank's financial statements that warranted inclusion in the separate environmental information document envisaged in the Ministry of the Economy Order dated October 8, 2001.

REPORT ON THE ACTIVITY OF THE CUSTOMER CARE AND CONSUMER OMBUDSMAN DEPARTMENT

In accordance with the stipulations of Article 17 of Ministry of the Economy Order ECO/734/2004 on customer care and consumer ombudsman departments and services at financial institutions, the activities of these units in 2005 are summarized as follows:

- a) Statistical summary of the grievances and complaints handled by BBVA's Customer Care Service in 2005, the first full year of the Service's operations under Ministry of the Economy Order ECO/734/2004, which will serve as a basis for the analysis of trends with respect to prior years.

The number of customer complaints received by BBVA's Customer Care Service in 2005 was 5,067, of which 30 were ultimately not processed because they did not comply with the requirements of Ministry of the Economy Order ECO/734/2004. 95.42% of the complaints (4,806 files) were resolved in the year and 231 complaints had not yet been analysed at 31 December 2005.

The complaints managed can be classified as follows:

Operations.....	18.21 %
Commission and expenses	17.21 %
Asset products	16.42 %
Customer information.....	15.17 %
Means of payment.....	7.30 %
Financial and welfare products.....	6.18 %
Other complaints.....	19.51 %

The principles and methods used by the Customer Care Service to resolve complaints are based on the application of the rules on transparency and customer protection and best banking practices. The Service adopts its decisions independently, notifying the various units involved of any actions which require review or adaptation to the related regulations.

- b) Recommendations or suggestions deriving from your experience, with a view to better attaining the aims of your work.

In 2005 the Customer Care Service encouraged the use of the branch network to resolve a large number of complaints through closer contact with customers. This facilitated the obtainment of amicable agreements, which without doubt resulted in a greater perception of quality by customers.

Various recommendations were implemented which led to a series of initiatives designed to improve banking practices at the companies subject to banking industry regulations.

Once again in 2005, as a result of the strategic and operational improvements introduced in this unit, thus continuing the trend set in 2004, there was a reduction in the number of complaints lodged with the various public supervisory bodies. In 2005, the complaints filed with the Bank of Spain and referred to BBVA fell by 4.25 %.

OUTLOOK

In 2005 the world economy, despite rising oil prices, grew by 4%. Although in light of this figure the growth of the European economy was disappointing, Spain outperformed initial expectations to report 3.4% growth. 2005 was marked by the globalization of the banking business and high levels of liquidity worldwide.

In 2006 Spanish GDP is expected to grow by 3.1%, slightly less than in 2005. However, the prospects for GDP growth in the EMU are good, and forecasts point to a rise of 2.0% (from 1.4% in 2005).

Faced by this new scenario, BBVA plans to continue to implement its strategy of profitable growth based on its excellent corporate positioning (the Group is present in high-growth markets through leading franchises) and on its tried and tested management model.

In order to meet the challenges of its evolution into a worldwide group, BBVA will base its approach on a simpler, more flexible structure geared towards global growth, business, innovation and diversity.

This new structure aims to promote the Group's expansion by attaining three major goals: to make further progress towards the globalisation of the Group; to reinforce the business units' decision-making capacity; and to expedite change through innovation. The new organisational structure comprises three types of area or unit: Business, Shared Resources and Chairmanship.

The Group's business units, or value creation centres, have increased in number from three to five. These segments, which are directly responsible for their market approach, growth and income statement, are Retail Banking Spain and Portugal, Wholesale Business, Mexico, South America and the United States.

In addition to restructuring the business segments, it was also decided to reinforce the Management Committee by increasing the number of its members from 12 to 18 and ensuring a strong representation of the business units.

Backed by a powerful team of professionals, the BBVA Group is currently experiencing a period of momentous achievements. Once again in 2006, BBVA intends to achieve profitable growth and create value to enable it to cater for the needs of its customers and to meet the expectations of its shareholders and employees.

EVENTS AFTER 31 DECEMBER 2005

In the period from 31 December 2005, to the day when these consolidated financial statements were authorised for issue no events took place having a material effect on the accompanying consolidated financial statements.
