Pledge 2025

BBVA strategy on climate change and sustainable development

**To finance**
We will help to create the **scale of capital mobilization** to halt global climate change & attain the UN Sustainable Development Goals

- Green finance
- Sustainable infrastructure and agribusiness
- Financial inclusion & entrepreneurship

**To manage**
We will manage our environmental & social risks to **minimize potential negative direct & indirect impacts**

- Transparency in carbon-related exposure
- Alignment with 2°C scenario
- Sector norms in mining, energy, agribusiness & infrastructure

**To engage**
We will engage with all our stakeholders to **collectively promote the contribution** of financial industry to sustainable development

- TCFD recommendations implementation on 2020
- Financial education
- Promotion of Responsible Banking standards within the industry

---

Our purpose: to bring the age of opportunity to everyone
A €100 Billion mobilization between 2018 and 2025

**Transition to a low carbon economy**
- Green lending to companies & institutions
- Green bonds intermediated as bookrunner
- Energy efficiency, water & waste management & solutions for SMEs & individuals
- Green investment funds & equity

**Financial inclusion & entrepreneurship**
- Lending to underserved
- Lending to vulnerable microentrepreneurs
- Lending to women entrepreneurs
- New digital business
- Impact investment

**Infrastructures & agribusiness**
- Project & corporate lending in education, health & affordable housing
- Social bonds intermediated as bookrunner
- Social investment funds & equity
- Agribusiness lending under sustainability criteria
Current exposure on sustainable finance

Credit exposure
December 2017

Sustainable bonds
2017

Sustainable bonds intermediated

€10.6 BILLION

€1.5 BILLION as bookrunner

---

(1) Including BBVA Microfinance Foundation
(2) Green criteria aligned with Green Bond Principles. Social criteria aligned with Social Bond Principles
BBVA SDGs Bonds Framework

Background

- There is a growing market on green & social bonds (USD131bn issued in 2017, USD180bn forecast for 2018)
- Financial institutions are starting to play a relevant role as issuers
- Main advantages for BBVA: increase and diversify its investors’ base and a clear positive impact on reputation
- BBVA has a strong positioning on green bonds and green loan. There is an opportunity to be perceived as first mover

Our solution

BBVA’s SDGs Bond Framework follows the ICMA Green Bond Principles (GBP), Social Bond Principles (SBP) and Sustainable Bond Guidelines which have four requirements:

- Use of Proceeds
- Process for Project Evaluation and Selection
- Management of Proceeds
- Reporting

(1) International Capital Market Association (ICMA)

Strategy

Metrics & targets
Conclusions

Environmental & social issues are gaining relevance in our business, not only as emerging risks but also as business opportunities.

Sustainable Development Goals (SDGs) & fight against climate change are global challenges that commit States, companies and the whole civic society.

Pledge 2025, our strategy on climate change and sustainable development. A strategy based in our purpose and three fundamental pillars:

To finance
- €100 Billion mobilized for sustainable finance 2018-2025
- Green finance, sustainable infrastructure, agribusiness, financial inclusion & entrepreneurship

To manage
- 70% renewable energy & 68% reduction in direct emissions
- First global bank to report carbon-related assets
- New sector norms in mining, energy, infrastructure & agribusiness

To engage
- Active collaboration with all stakeholders and commitment with main global initiatives promoting sustainable finance
- TCFD recommendations implemented in 2020
- Education & financial education

A pledge that will be annually reported with third party verification.
ANNEXES

UN Sustainable Development Goals
Sector norms: main exclusions
TCFD recommendations  road map
Sustainable Development Goals (SDGs)

On 2015 United Nations agreed these 17 goals & 169 targets for 2030

- Goal 1. End poverty in all its forms everywhere
- Goal 2. End hunger, achieve food security and improved nutrition and promote sustainable agriculture
- Goal 3. Ensure healthy lives and promote well-being for all at all ages
- Goal 4. Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all
- Goal 5. Achieve gender equality and empower all women and girls
- Goal 6. Ensure availability and sustainable management of water and sanitation for all
- Goal 7. Ensure access to affordable, reliable, sustainable and modern energy for all
- Goal 8. Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all
- Goal 9. Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation
- Goal 10. Reduce inequality within and among countries
- Goal 11. Make cities and human settlements inclusive, safe, resilient and sustainable
- Goal 12. Ensure sustainable consumption and production patterns
- Goal 13. Take urgent action to combat climate change and its impacts*
- Goal 14. Conserve and sustainably use the oceans, seas and marine resources for sustainable development
- Goal 15. Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss
- Goal 16. Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels
- Goal 17. Strengthen the means of implementation and revitalize the global partnership for sustainable development

https://sustainabledevelopment.un.org/
Sector norms: general exclusions

BBVA will not provide financial services to projects or clients whose core business is linked to any of the following activities or environmental and social impacts:

- Companies that have shown credible and clear evidence (based on court rulings or relevant controversies), of material breaches regarding applicable laws and regulations, or taking part in human rights abuses regardless of the country.
- Activities that involve child or forced labor as defined in ILO conventions.
- Projects that entail the resettlement or violation of rights of indigenous peoples, without their free, prior and informed consent (FPIC)
- Projects located or in the vicinity of UNESCO World Heritage sites, List of Ramsar wetlands, Alliance for Zero Extinction sites and Category I-IV areas of the International Union for the Conservation of Nature.
- Businesses with headquarters based in countries subject to EU, US or UN sanctions
Sector norms: main exclusions

Mining
- New coal mines and coal mine expansions.
- New projects on Mountaintop Removal (MTR) extraction methods.
- Asbestos extraction projects.
- Major coal producers using MTR mining in more than 10% of their activity.
- Clients with a significant portion of their activity consisting in the extraction of coal (more than 40%) used to generate electricity that lack a diversification strategy.

Energy
- New nuclear power plants.
- Construction of new and expansion of existing coal power plants.
- Exploration and production of oil and gas in the Arctic.
- Tar sand exploration and production.
- Simple hull oil tankers.
- Significant coal-based power generation (more than 40%) without a diversification strategy.

Exceptions may be made for new nuclear power plants, construction of new and expansion of existing coal power plants, and coal-based power generating clients, in countries with high energy dependency and without viable alternatives. BBVA will report on such projects/clients financed.
Sector norms: main exclusions

Agribusiness

- Illegal logging
- The burning of natural ecosystems to clear land for the development of agricultural projects
- Projects for production of first-generation biofuel
- Use of substances prohibited by the Stockholm Convention
- Non-certified Palm oil operations or not in the process of obtaining certification by the Roundtable on Sustainable Palm Oil (RSPO)
- Clients engaging in blast and cyanide fishing
- Clients using driftnets in excess of 2.5km
- Clients trading and manufacturing angora wool
- Clients with animal testing not related to health research
- Clients with direct participation in the trade of shark fins, commercial whale hunting, illegal, undeclared and unregulated fishing

Infrastructure

- Dams failing to comply with WCD Framework
- Facilities failing to comply with the Hong Kong Ship Recycling Convention
- Clients that cannot furnish the health and safety records of their workers and/or areas of influence
- Clients that cannot disclose or provide information about their performance in connection with the use of water, waste and greenhouse gas emissions
