For the Second Green Bond BBVA has obtained an independent verification assessment from DNV GL that is accessible on BBVA’s website on the following link.

Excerpts from DNV GL eligibility assessment

- **“Use of Proceeds.”** Nine projects have been reviewed for the issuance, in the categories of Renewable Energy, Energy Efficiency, Sustainable Transport and Waste Management. DNVGL concludes that BBVA is committed to issuing this Bond in line with the SDG Bond Framework. The eligible categories outlined above in the SDG Bond Framework are consistent with the categories outlined in the Green Bond Principles."

- **“Process for Project Evaluation and Selection.”** DNV GL reviewed the evidence which demonstrates BBVA’s commitment to issuing this Bond in line with the SDG Bond Framework, which describes the process through which projects are evaluated and selected. The SDG Bond Framework clearly articulates the process by which eligibility is assessed, including the eligibility criteria and the business functions involved in assessing eligibility. The SDG Bond Framework also outlines the process by which eligibility is maintained and the actions that will be taken in the event that a project is no longer eligible. DNV GL has reviewed evidence of the SDG Bonds Committee minutes describing the evaluation and selection of Eligible Projects from BBVA’s asset pool.

- **“Management of Proceeds.”** DNV GL has reviewed BBVA’s SDG Bond Framework and evidence which states the use of proceeds of this Bond issuance will be directed to financing and re-financing BBVA’s green projects which contribute to the achievement of the SDG’s. BBVA intend for the full proceeds to be disbursed at point of issuance of any Bond under the BBVA SDG Bond Framework, however any funds pending allocation will be placed in BBVA’s liquidity portfolio.

- **“Reporting.”** DNV GL can confirm BBVA has committed to annual reporting specific to this Bond issuance on the allocation of the expenditure and the balance remaining until the tracked proceeds are redeemed or fully allocated to eligible projects. BBVA has also committed to add this information to the dedicated Sustainable Development Goals Bond report which will provide investors with information on the selected projects and expected environmental or social impacts per eligible category issued in line with the SDG Bond Framework. BBVA clearly outline the proposed impact indicators for each eligible category and units of measurement.

“..it is DNV GL’s opinion that the Bond is committed to meeting the criteria established in the Protocol and that it is aligned with the stated definition of green bonds within the Green Bond Principles.”
