## Basic information

Name	Broken Bow
Sector	Renewable energy
Country	United States
Product	Project Finance
BBVA's role	Mandated Lead Arranger
Use of funds	Construction and operation

## Environmental and social management

E&S project category	B
E&S client category	B
E&S impact assessment	Yes
E&S action plan	Yes
E&S independent review	Yes

[Definitions...](#)

## Description

Broken Bow is a 50-turbine wind farm with each turbine having a capacity of 1.6 MW. It is located in the State of Nebraska and has a total capacity of 80 MW. The electricity produced will be purchased by the Nebraska Public Power District (NPPD) through a 20-year contract. This wind farm together with Crofton Bluffs, another project financed by BBVA, will enable NPPD to cover 5.2% of its energy needs with renewable energy, and thus achieve the 10% target by 2020.
