Basic information

Name	Cerro de Águila
Sector	Renewable energy
Country	Peru
Product	Project Finance
BBVA's role	Bookrunner
Use of proceeds	Construction and operation

Environmental and social management

E&S project category	A
E&S client category	C
E&S impact assessment	Yes
E&S management plan	Yes
E&S independent review	Yes

[Definitions...](#)

Description

A 514 MW run of the river hydroelectric plant, located in an area where there are already several hydroelectric projects. The majority of the land area has been modified by anthropogenic activity and there is little presence of aquatic life. The project has been approved as a Clean Development Mechanism under the Kyoto Protocol.
