## Basic Information

Name	Pipelines in New Mexico
Sector	Oil & Gas
Country	United States
Product	Project Finance
BBVA's role	Mandated Lead Arranger
Use of funds	Acquisition and operation

## Description

The brownfield Project is the purchase of a fully completed and operational crude oil gathering and water disposal assets, located in dessert area of Eddy and Lea Counties in New Mexico. The Project was originally constructed because the existing method of water and oil delivery was via trucks which was costly, bad for the environment, and dangerous for certain endangered species.
