Silver State South Solar Project

Basic information

Name: Silver State South Solar Project
Sector: Renewable energy
Country: United States
Product: Project finance
BBVA’s role: Mandated Lead Arranger
Use of proceeds: Construction and operation

Description

Construction of a 350 MW solar power plant, in Primm, Nevada.

This will allow renewable energy production at the border between Nevada and California, two of the sunniest US states. The project is strategically located near a major transmission hub and is adjacent to an existing power plant and transmission line corridor.

Environmental and social management

E&S project category: B
E&S site category: B
E&S impact assessment: YES
E&S management plan: YES
E&S independent review: YES
