*(a private company with limited liability (besloten vennootschap met beperkte aansprakelijkheid)
incorporated under Dutch law with its seat in Amsterdam, The Netherlands but its tax residency in Spain)*

€2,000,000,000 Programme for the Issue of Warrants
unconditionally and irrevocably guaranteed by

Banco Bilbao Vizcaya Argentaria, S.A.

(incorporated with limited liability in Spain)

Under this €2,000,000,000 Programme for the Issue of Warrants (the “**Programme**”), BBVA Global Markets B.V. (the “**Issuer**”) may from time to time issue warrants (the “**Warrants**”) denominated in any currency agreed with the relevant Dealer (as defined below).

This document (this “**Base Prospectus**”) constitutes a base prospectus in respect of all Warrants other than Exempt Warrants (as defined below) issued under the Programme for the purposes of Article 8 of the Prospectus Regulation (as defined below). The terms and conditions of the Warrants (the “**Conditions**”) will comprise the General Conditions, each Annex specified as applicable in the completed Issue Terms (each as defined below). This Base Prospectus, any supplement to this Base Prospectus (a “**Supplement to this Base Prospectus**”), any applicable Annex and the Issue Terms for a Series will comprise the “**Offering Documents**”.

Warrants may also be issued under the Programme on terms set out in a prospectus relating to the Warrants that incorporates by reference the whole or any part of this Base Prospectus (any such prospectus, a “**Series Prospectus**”). Where there are references to Issue Terms in this Base Prospectus, such references shall be deemed to include references to a Series Prospectus when applicable.

The satisfaction of the Issuer’s economic obligations (in cash and in deliverable assets) in respect of the Warrants will be unconditionally and irrevocably guaranteed pursuant to a guarantee (the “**Guarantee**”) entered into by Banco Bilbao Vizcaya Argentaria, S.A. (“**BBVA**” or the “**Guarantor**”). The Guarantor and its consolidated subsidiaries are referred to herein as the “**Group**”.

Warrants may be issued in bearer or, registered form (respectively “**Bearer Warrants**” and “**Registered Warrants**”).

Warrants may be issued whose return is linked to one or more indices (“**Index Linked Warrants**”), one or more shares or depositary receipts (“**Equity Linked Warrants**”), one or more inflation indices (“**Inflation Linked Warrants**”), one or more foreign exchange rates (“**Foreign Exchange (FX) Rate Linked Warrants**”), one or more exchange traded fund shares (“**ETF Linked Warrants**”), one or more fund shares or units (“**Fund Linked Warrants**”) or any combination thereof (“**Combination Warrants**”). Warrants may provide that settlement will be by way of cash settlement (“**Cash Settled Warrants**”) and/or physical delivery (“**Physical Delivery Warrants**”) as provided in the Issue Terms.

Potential investors should ensure that they understand the nature of the relevant Warrants and the extent of their exposure to risks and that they consider the suitability of the relevant Warrants as an investment in the light of their own circumstances and financial condition. An investment in Warrants may involve a high degree of risk and potential investors should be prepared to sustain a total loss of the purchase price of their Warrants. For a discussion of these risks see the “Risk Factors” section on pages 3 to 30 below.

This Base Prospectus (as supplemented as at the relevant time, if applicable) is valid for 12 months from its date in relation to Warrants which are to be admitted to trading on a regulated market in the European Economic Area (the “**EEA**”) or in the United Kingdom (the “**UK**”) and/or offered to the public in the EEA or in the UK other than in the circumstances where an exemption is available under Article 1(4) and/or 3(2) of the Prospectus Regulation (as defined below). The obligation to supplement this Base Prospectus in the event of a significant new factor, material mistake or material inaccuracy does not apply when this Base Prospectus is no longer valid. This Base Prospectus has been approved as a base prospectus by the Central Bank of Ireland, as competent authority under Regulation (EU) 2017/1129 (the “**Prospectus Regulation**”). The Central Bank of Ireland only approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Such approval should not be considered as an endorsement of the Issuer or Guarantor or the quality of the Warrants that are the subject of this Base Prospectus. Investors should make their own assessment as to the suitability of investing in the Warrants. Such approval relates only to Warrants that are to be admitted to trading on the regulated market of Euronext Dublin (the “**Regulated Market**”) or on another regulated market for the purposes of the Prospectus Regulation and/or that are to be offered to the public in any member state of the EEA or the UK in circumstances that require the publication of a prospectus.

Application has been made to the Irish Stock Exchange plc trading as Euronext Dublin (“**Euronext Dublin**”) for Warrants issued under the Programme during the period of 12 months from the date of this Base Prospectus to be admitted to its official list (the “**Official List**”) and trading on the Regulated Market. References in this Base Prospectus to Warrants being listed (and all related references) shall mean that such Warrants have been listed and admitted to the Official List and trading on the Regulated Market or any other stock exchange specified in the Issue Terms of the Warrants. Euronext Dublin is a regulated market for the purposes of Directive 2014/65/EU (as amended, “**MiFID II**”).

Application has also been made to Euronext Dublin for Warrants issued under the Programme for the period of 12 months from the date of this Information Memorandum to be admitted to the Official List and to trading on its Global Exchange Market (“**GEM**”). This document constitutes Base Listing Particulars for the purpose of such application and has been approved by Euronext Dublin.

The GEM is not a regulated market for the purposes of MiFID II. Such approval relates only to the Notes which are to be admitted to trading on the GEM.

The Warrants have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the “**Securities Act**”), or any U.S. state securities laws and may not be offered sold or delivered in the United States or to, or for the account or benefit of, U.S. persons (as defined in Regulation S under the Securities Act).

IMPORTANT – EEA AND UK RETAIL INVESTORS - If the Issue Terms in respect of any Warrants includes a legend entitled “Prohibition of Sales to EEA and UK Retail Investors”, the Warrants are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in EEA or in the UK. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; (ii) a customer within the meaning of Directive 2016/97/EU, as amended or superseded (the “**Insurance Distribution Directive**”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation. Consequently no key information document required by Regulation (EU) No 1286/2014, as amended or superseded (the “**PRIIPs Regulation**”) for offering or selling the Warrants or otherwise making them available to retail investors in the EEA or in the UK has been prepared and therefore offering or selling the Warrants or otherwise making them available to any retail investor in the EEA or in the UK may be unlawful under the PRIIPs Regulation.

If and to the extent the Warrants will be offered, sold or advertised, directly or indirectly to retail clients (*Privatkundinnen und -kunden*) ("**Retail Clients**") pursuant to Article 4 para. 2 FinSA a key investor document (*Basisinformationsblatt*) in the sense of Article 58 et seq. of FinSA relating to the (a "**FinSA-KID**") would need to be prepared, unless the Retail Clients shall receive a key information document pursuant to the PRIIPs Regulation instead of a FinSA- Warrants KID. Prior to 1 January 2022, the issuer may use a Swiss simplified prospectus in the sense of the CISA ("**Swiss Simplified Prospectus**") instead of a FinSA-KID or a key information document pursuant to the PRIIPs Regulation.

MIFID II PRODUCT GOVERNANCE TARGET MARKET – The applicable Issue Terms in respect of any Warrants may include a legend entitled "**MiFID II Product Governance Target Market**" which will outline the target market assessment in respect of the Warrants and which channels for distribution of the Warrants are appropriate. Any person subsequently offering, selling or recommending the Warrants (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Warrants (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (the "**MiFID Product Governance Rules**"), any Dealer subscribing for any Warrants is a manufacturer in respect of such Warrants, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

EU BENCHMARK REGULATION – Amounts payable under the Warrants or assets deliverable under the Warrants may be calculated or otherwise determined by reference to certain reference rates, indices or other variables, which may constitute a benchmark under the Benchmark Regulation (EU Regulation 2016/1011—"BMR"). If any such reference rate, index or variable does constitute such a benchmark, the relevant Issue Terms in respect of any Warrants which are not Exempt Warrants will indicate whether or not the administrator thereof is included in the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority ("**ESMA**") pursuant to Article 36 of the BMR. Not every reference rate, index or variable will fall within the scope of the Benchmarks Regulation. Furthermore, transitional provisions in the BMR may have the result that the administrator of a particular benchmark is not required to appear in the register of administrators and benchmarks at the date of the relevant Issue Terms. The registration status of any administrator under the BMR is a matter of public record and, save where required by applicable law, the Issuer does not intend to update any Issue Terms to reflect any change in the registration status of any administrator.

The Issuer is incorporated under Dutch law and has its seat in Amsterdam, the Netherlands but has its tax residency in Spain. The Guarantor is incorporated and has its tax residency in Spain. Potential investors should note the statements on pages 247 to 256 (inclusive) regarding the tax treatment in Spain of income obtained in respect of the Warrants.

The Issuer and the Guarantor may agree with the relevant Dealer that Warrants may be issued in a form not contemplated by the "*Terms and Conditions of the Warrants*" set out herein, in which event a Supplement to this Base Prospectus, if appropriate, will be made available which will describe the effect of the agreement reached in relation to such Warrants.

In connection with any offering of Warrants under this Base Prospectus, the Dealers are not acting for anyone other than the Issuer and will not be responsible to anyone other than the Issuer for providing the protections afforded to their clients nor for providing advice in relation to the offering. For the purposes of this Base Prospectus, all references to EU Regulations or Directives include, in relation to the UK, those Regulations or Directives as they form part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018 or have been implemented in UK domestic law, as appropriate.

The Issuer and the Guarantor (the "**Responsible Persons**") accept responsibility for the information contained in this Base Prospectus and the Issue Terms for each Tranche of Warrants issued under the Programme. To the best of the knowledge of the Responsible Persons the information contained in this Base Prospectus is in accordance with the facts and does not omit anything likely to affect the import of such information.

This Base Prospectus shall be read and construed on the basis that such documents are incorporated and form part of this Base Prospectus. Other than in relation to the documents which are incorporated herein by reference (see "*Documents Incorporated by Reference*"), the information on the websites to which this Base Prospectus refers does not form part of this Base Prospectus.

The language of this Base Prospectus is English. Any foreign language text that is included with or within this document has been included for convenience purposes only and does not form part of this Base Prospectus.

The Dealer(s) have not independently verified the information contained herein. Accordingly, no representation, warranty or undertaking, express or implied, is made and no responsibility or liability is accepted by the Dealer(s) as to the accuracy or completeness of the information contained or incorporated in this Base Prospectus or any other information provided by the Issuer or the Guarantor in connection with the Programme. The Dealer accepts no liability in relation to the information contained or incorporated by reference in this Base Prospectus or any other information provided by the Issuer or the Guarantor in connection with the Programme.

No person is or has been authorised by the Issuer or the Guarantor to give any information or to make any representation not contained in or not consistent with (a) this Base Prospectus or (b) any other information supplied in connection with the Programme or the Warrants and, if given or made, such information or representation must not be relied upon as having been authorised by the Issuer, the Guarantor or any Dealer.

Neither this Base Prospectus nor any other information supplied in connection with the Programme or any Warrants (a) is intended to provide the basis of any credit or other evaluation or (b) should be considered as a recommendation by the Issuer, the Guarantor or any of the Dealer(s) that any recipient of this Base Prospectus or any other information supplied in connection with the Programme or any Warrants should purchase any Warrants. Each investor contemplating purchasing any Warrants should make its own independent

investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of the Issuer and/or the Guarantor. Neither this Base Prospectus nor any other information supplied in connection with the Programme or the issue of any Warrants constitutes an offer or invitation by or on behalf of the Issuer or the Guarantor or any of the Dealer(s) to any person to subscribe for or to purchase any Warrants.

Neither the delivery of this Base Prospectus nor the offering, sale or delivery of any Warrants shall in any circumstances imply that the information contained herein concerning the Issuer and/or the Guarantor is correct at any time subsequent to the date hereof or that any other information supplied in connection with the Programme is correct as of any time subsequent to the date indicated in the document containing the same. The Dealer(s) expressly do not undertake to review the financial condition or affairs of the Issuer or the Guarantor during the life of the Programme or to advise any investor in the Warrants of any information coming to their attention.

IMPORTANT INFORMATION RELATING TO THE USE OF THIS BASE PROSPECTUS AND OFFERS OF WARRANTS GENERALLY

This Base Prospectus does not constitute an offer to sell or the solicitation of an offer to buy any Warrants in any jurisdiction to any person to whom it is unlawful to make the offer or solicitation in such jurisdiction. The distribution of this Base Prospectus and the offer or sale of Warrants may be restricted by law in certain jurisdictions. The Issuer, the Guarantor and the Dealer(s) do not represent that this Base Prospectus may be lawfully distributed, or that any Warrants may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular, no action has been taken by the Issuer, the Guarantor or the Dealer(s) which is intended to permit a public offering of any Warrants or distribution of this Base Prospectus in any jurisdiction where action for that purpose is required. Accordingly, no Warrants may be offered or sold, directly or indirectly, and neither the Offering Documents nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession the Offering Documents or any Warrants may come must inform themselves about, and observe any such restrictions on the distribution of the Offering Documents and the offering and sale of Warrants. In particular, there are restrictions on the distribution of the Offering Documents and the offer or sale of Warrants in, without limitation, the United States, Switzerland and the EEA (including the United Kingdom, Spain and the Kingdom of Sweden) (see “*Subscription and Sale*”).

In all cases, Warrants must not be offered, distributed or sold to Spanish Residents (as defined under “*Subscription and Sale—Spain*”, below) who are retail clients as defined under point (11) of Article 4(1) of MiFID II (see “*Subscription and Sale—Spain*”).

In addition, to the extent that Condition 7(c) is specified as being applicable in the Issue Terms if, according to certain criteria issued by the Spanish tax authorities, a particular warrant cannot be considered as an option for Spanish tax purposes but as a financial asset, as it is explained in Section “*Taxation. (B) Alternative Spanish Tax Treatment*”, such Warrant must not be offered, distributed or sold in Spain or to Spanish Residents. Furthermore, the sale, transfer, or acquisition of such Warrants to or by individuals (*personas físicas*) who are tax resident in Spain (each a “**Spanish Individual**”) is forbidden in all cases and will be considered null and void by the Issuer and the Guarantor. Accordingly, neither the Issuer nor the Guarantor will recognise any Spanish Individual as an owner of such Warrant.

This Base Prospectus has been prepared on a basis that would permit an offer of Warrants with an issue price per Warrant of less than €100,000 (or its equivalent in any other currency) only in circumstances where there is an exemption from the obligation under the Prospectus Regulation to publish a prospectus. As a result, any offer of Warrants in any member state of the EEA or the UK (each, a “**Relevant State**”) must be made pursuant to an exemption under Article 1(4) of the Prospectus Regulation from the requirement to publish a prospectus for offers of Warrants. Accordingly any person making or intending to make an offer of Warrants in that relevant Member State may only do so in circumstances in which no obligation arises for the Issuer, the Guarantor or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation, in each case, in relation to such offer. Neither the Issuer nor any Dealer have authorised, nor do they authorise, the making of any offer of Warrants in circumstances in which an obligation arises for the Issuer or any Dealer to publish or supplement a prospectus for such offer.

The Warrants will not be listed on the SIX Swiss Exchange or on any other exchange or regulated trading facility in Switzerland. This document does neither constitute a listing prospectus within the meaning of the listing rules of the SIX Swiss Exchange nor any other regulated trading facility in Switzerland or a simplified prospectus in the sense of the CISA. **The Warrants do not constitute a collective investment scheme within the meaning of the CISA. Therefore, they are not subject to authorisation by the Swiss Financial Market Supervisory Authority FINMA and potential investors do not benefit from the specific investor protection provided under the CISA. Investors bear the credit risk of the Issuer and the Guarantor.**

NEITHER THE PROGRAMME NOR THE WARRANTS HAVE BEEN APPROVED OR DISAPPROVED BY THE U.S. SECURITIES AND EXCHANGE COMMISSION (THE “SEC”), ANY STATE SECURITIES COMMISSION IN THE UNITED STATES OR ANY OTHER U.S. REGULATORY AUTHORITY, NOR HAS ANY OF THE FOREGOING AUTHORITIES PASSED UPON OR ENDORSED THE MERITS OF ANY OFFERING OF WARRANTS OR THE ACCURACY OR ADEQUACY OF THIS BASE PROSPECTUS. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENCE IN THE UNITED STATES.

None of the Issuer, the Guarantor or the Dealer(s) makes any representation to any purchaser of the Warrants regarding the legality of its investments under any applicable laws. Any purchaser of the Warrants should be able to bear the economic risk of an investment in the Warrants for an indefinite period of time.

The Warrants may not be a suitable investment for all investors. Each potential investor in the Warrants must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor may wish to consider, either on its own or with the help of its financial and other professional advisors, whether it:

- (a) has sufficient knowledge and experience to make a meaningful evaluation of the Warrants, the merits and risks of investing in the Warrants and the information contained or incorporated by reference in this Base Prospectus or any applicable Supplement to this Base Prospectus and all the information contained in the Issue Terms;
- (b) has access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Warrants and the impact the Warrants will have on its overall investment portfolio;
- (c) has sufficient financial resources and liquidity to bear all of the risks of an investment in the Warrants, including Warrants with amounts payable in one or more currencies, or where the specified currency for payments of the Warrants is different from the potential investor’s currency;
- (d) understands thoroughly the terms of the Warrants and be familiar with the behaviour of any relevant indices and financial markets;
- (e) in respect of Warrants linked to the performance of, without limitation, one or more, or a combination of, underlying shares or depositary receipts, indices, rates of interest, other rates, foreign exchange rates, exchange traded fund shares, funds, inflation indices and/or entities (together, “**Reference Items**” and each, an “**Reference Item**”) (in respect of such Warrants, together, “**Reference Item Linked Warrants**” and each an “**Reference Item Linked Warrant**”), understands thoroughly (if necessary, in consultation with the investor’s own legal, tax, accountancy, regulatory, investment or other professional advisers) the nature of each such Reference Item Linked Warrant; and
- (f) is able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

None of the Issuer, the Guarantor, the Dealer or any affiliate of BBVA has given, and will not give, to any potential purchaser of Warrants (either directly or indirectly) any assurance, advice, recommendation or guarantee as to the merits, performance or suitability of such Warrants, and the purchaser should be aware that the Issuer is acting as an arm’s-length contractual counterparty and not as an advisor or fiduciary.

In making an investment decision, investors must rely on their own examination of the Issuer and the Guarantor and the terms of the Warrants being offered, including the merits and risks involved.

No website referred to in this Base Prospectus forms part of this Base Prospectus.

GENERAL DESCRIPTION OF THE PROGRAMME

The following overview does not purport to be complete and is qualified in its entirety by, the remainder of this Base Prospectus and, in relation to the terms and conditions of any particular Tranche of Warrants, the applicable Final Terms or the applicable Pricing Supplement.

Under the Programme, the Issuer may from time to time issue Warrants. The issue terms of each Tranche of Warrants will be agreed between the Issuer, the Guarantor and the Dealer(s) prior to the issue of such Tranche. The issue terms of each Tranche of Warrants other than Exempt Warrants will be set out and completed by Part A of the applicable Final Terms or as modified and/or supplemented, as applicable. The issue terms of each Tranche of Exempt Warrants, will be set out in a pricing supplement documented by Part A of the applicable Pricing Supplement.

RISK FACTORS

In purchasing Warrants, investors expose themselves to the risk that the Issuer and the Guarantor may become insolvent, subject to early intervention or resolution measures, or otherwise be unable to make all payments due in respect of the Warrants. Each of the Issuer and the Guarantor believe that the following factors may affect their ability to fulfil their obligations under Warrants issued under the Programme. Most of these factors are contingencies which may or may not occur and neither the Issuer nor the Guarantor is in a position to express a view on the likelihood of any such contingency occurring.

In addition, factors which are material for the purpose of assessing the market risks associated with Warrants issued under the Programme are also described below.

The Issuer and the Guarantor believe that the factors described below represent the principal risks inherent in investing in Warrants issued under the Programme, but the inability of the Issuer or the Guarantor to make payments or otherwise perform its obligations in connection with any Warrants may occur for other reasons which may not be considered significant risks by either the Issuer or the Guarantor based on information currently available to them or which they may not currently be able to anticipate. Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus and reach their own views prior to making any investment decision.

Prospective investors in the Warrants should consider carefully, among other things in the light of their financial circumstances and investment objectives, all of the information in this Base Prospectus and, in particular, the risk factors set forth below (which each of the Issuer and the Guarantor, in its reasonable opinion, believes represent or may represent the risk factors known to it which may affect the Issuer's and/or the Guarantor's ability to fulfil its obligations under the Warrants) in making an investment decision. Warrant holders may lose the value of their entire investment in certain circumstances.

References herein to “**BBVA**” or to the “**Bank**” shall be read and construed as references to the Guarantor.

The Risk Factors set out below appear under the following headings:

1. **Risk Factors relating to the Issuer.**
 - 1.1 The Issuer is dependent on the Guarantor to make payments on the Warrants
 - 1.2 Certain considerations in relation to the forum upon insolvency of the Issuer
2. **Risk Factors relating to the Guarantor.**
 - 2.1 Macroeconomic Risks and COVID-19 Consequences
 - 2.2 Business Risks
 - 2.3 Financial Risks
 - 2.4 Legal, Regulatory, Tax and Compliance Risks
 - 2.5 Operational Risks
3. **Risk Factors relating to the Warrants.**
 - 3.1 The Warrants may not be a suitable investment for all investors.
 - 3.2 Risk Factors associated with Warrants that are linked to one or more specific types of Reference Items.
 - 3.3 Risk Factors associated generally with Warrants that are linked to Reference Item(s).
 - 3.4 Risk Factors relating to the structure of a particular issue of Warrants
 - 3.5 Risk Factors regarding the Warrants generally.

RISK FACTORS

1. Risk Factors relating to the Issuer

1.1 The Issuer is dependent on the Guarantor to make payments on the Warrants

The Issuer is a wholly-owned subsidiary of the Guarantor which was established for the purpose of, among others, issuing Warrants and on-lending the proceeds within the Group. The Issuer is therefore dependent upon other members of the Group paying interest on and repaying their loans in a timely fashion. Should the Guarantor fail to pay interest on or repay any loan in a timely fashion this will have a material adverse effect on the ability of the Issuer to fulfil its obligations under Warrants issued under the Programme.

By virtue of its dependence on the Guarantor, each of the risks described below that affect the Guarantor will also indirectly affect the Issuer.

1.2 Certain considerations in relation to the forum upon insolvency of the Issuer

In the event of insolvency of the Issuer, the court having jurisdiction to open insolvency proceedings and the law applicable to those proceedings and their effects will be determined in accordance with the provisions of Council Regulation (EC) No 848/2015, of 20 May 2015, on insolvency proceedings ("**Regulation 848/2015**"), the Royal Legislative Decree 1/2020, of 5 May 2020, that approved the reinstated provisions of the Spanish Insolvency Law 22/2003, of 9 July 2003, as amended (the "**Spanish Insolvency Law**") and the Dutch Insolvency Law (faillissementswet) of 30 September 1893, as amended (the "**Dutch Insolvency Law**"). Pursuant to these provisions, the courts of the place where the Issuer has its centre of main interests shall have jurisdiction to open insolvency proceedings against it and the law applicable to the insolvency proceedings and their effects will be the law of the place where such proceedings are opened.

Under Regulation 848/2015 the centre of main interests should correspond to the place where the debtor conducts the administration of its interests on a regular basis and is therefore ascertainable by third parties. In the case of a company or legal person, Regulation 848/2015 presumes, in the absence of proof to the contrary, that the place of its registered office is the centre of its main interests. Based on this presumption a Dutch court may consider that it has jurisdiction to open insolvency proceedings against the Issuer. Notwithstanding this presumption, it is arguable that the centre of main interests of the Issuer should be considered to be located in Spain and that the Spanish courts should be the courts with jurisdiction to open insolvency proceedings against it. In addition, even if the centre of main interests of the Issuer were not in Spain, the Spanish court could still open insolvency proceedings (named territorial insolvency proceedings) if they consider that the Issuer has an establishment within the territory of Spain, the effects of which would be limited to the assets of the Issuer situated in Spain.

Warrantholders should be aware that, in accordance with the above, in the case of an eventual insolvency of the Issuer, there is uncertainty as to whether the insolvency proceedings would be opened in the Netherlands or in Spain.

2. Risk Factors relating to the Guarantor

The description of the risks inherent to the activity of the BBVA Group, its businesses and its operations, as well as the quantitative information on the different risks, based on data referring to the 2019, 2018 and 2017 financial years, and, where appropriate, data referring to the three-month period ended 31 March 2020, are described in this section and it complements what is included in the Consolidated Annual Accounts and Consolidated Management Report for the year ended 31 December 2019, 2018 and 2017 and the quarterly report for the three months ended 31 March 2020.

In the Chapter of Risk Management of the Management Report attached to the Consolidated Annual Accounts for 2019, both the risk factors and the risk principles and policies of the BBVA Group are indicated, as well as the corporate governance scheme on risk management, the internal control model and the tools, circuits and relevant procedures.

The main risk factors that the BBVA Group takes into consideration at the date of this Base Prospectus are detailed below.

RISK FACTORS

2.1 Macroeconomic Risks and Covid-19 Consequences

The coronavirus (COVID-19) pandemic is adversely affecting the Group

The *coronavirus* (COVID-19) pandemic is affecting, and is expected to continue to adversely affect, the world economy and economic activity and conditions in the countries in which the Group operates, leading many of them to economic recession. Among other challenges, these countries are experiencing widespread increases in unemployment levels and falls in production, while public debt has increased significantly due to support and spending measures implemented by government authorities. In addition, there has been an increase in debt defaults by both companies and individuals, volatility in the financial markets, volatility in exchange rates and falls in the value of assets and investments, all of which have adversely affected, and are expected to continue to effect, the Group's results.

Furthermore, the Group may be affected by the measures adopted by regulatory authorities in the banking sector, including but not limited to, the recent reduction in reference interest rates, the relaxation of prudential requirements, the suspension of dividend payments until 1 October 2020, the adoption of moratorium measures for bank customers (such as those included in Royal Decree Law 11/2020 in Spain, as well as in the CECA-AEB agreement to which BBVA has adhered and which, among other things, allows loan debtors to extend maturities and defer interest payments) and facilities to grant credit with the benefit of public guarantees, especially to companies and self-employed individuals, as well as changes in the financial asset purchase programmes.

Since the outbreak of COVID-19, the Group has experienced a decline in its activity. For example, the granting of new loans to individuals has been significantly reduced since the beginning of the state of emergency or periods of confinement decreed in certain countries in which the Group operates. In addition, the Group faces various risks, such as an increased risk of deterioration in the value of its assets (including financial instruments valued at fair value, which may suffer significant fluctuations) and of the securities held for liquidity reasons, a possible significant increase in non-performing loans, a negative impact on the Group's cost of financing and on its access to financing (especially in an environment where credit ratings are affected).

In addition, in several of the countries in which the Group operates, including Spain, the Group has temporarily closed a significant number of its offices, has reduced hours of working with the public, and the teams that provide central services are working remotely. These measures are being gradually reversed in some regions, such as Spain, however, due to the continued expansion of the COVID-19 pandemic, it is unclear how long it will take for normal operations to be fully resumed. The COVID-19 pandemic could also adversely affect the business and operations of third parties that provide critical services to the Group and, in particular, the greater demand and/or reduced availability of certain resources could in some cases make it more difficult for the Group to maintain the required service levels. Furthermore, the increase in remote working has increased the risks related to cybersecurity, as the use of non-corporate networks has increased.

As a result of the above, while the impact of the COVID-19 pandemic only started to be evident at the end of the first quarter of 2020, it has had an adverse effect on the Group's results for the first half of 2020, as well as on the Group's capital base as of June 30, 2020. The main accumulated impacts have been:

- (i) an increase in the cost of risk associated with the lending activity, mainly due to the deterioration of the macroeconomic environment, which has had a negative impact of €2,009 million in the Group (including the initial adverse effect of the deferment of payment) and provisions for credit risk and contingent commitments for €95 million, ;
- (ii) the impairment of financial assets not measured at fair value through profit or loss closed the first half of 2020 with a negative balance of €4,146 million against the negative balance of €1,731 million recorded for the same period of the previous year; being the profit recognised in income statement of the first half of 2020 a loss of €823 million against a gain of € 2,916 million recorded for the six months ended 30 June 2019; and
- (iii) a deterioration in the goodwill of the Group's subsidiary in the United States, mainly due to the deterioration of the macroeconomic scenario in the United States, which has had a net negative impact of €2,084 million on the Group's attributed profit in this period (although this impact does not affect the tangible book value, nor the solvency or the liquidity of the Group).

RISK FACTORS

The final magnitude of the impact of the COVID-19 pandemic on the Group's business, financial condition and results of operations, which is expected to be significant, will depend on future and uncertain events, including the intensity and persistence over time of the consequences arising from the COVID-19 pandemic in the different geographies in which the Group operates.

A deterioration in economic conditions or the institutional environment in the countries where the Group operates could have a material adverse effect on the Group's business, financial condition and results of operations

The Group is sensitive to the deterioration of economic conditions or the alteration of the institutional environment of the countries in which it operates, and especially of Spain, Mexico, the United States and Turkey,

which respectively represented 56.5 per cent., 14.3 per cent., 13.6 per cent. and 8.7 per cent. of the Group's assets as of 31 March 2020 (52.3 per cent., 15.6 per cent., 12.7 per cent. and 9.2 per cent. as of 31 December 2019, respectively). Additionally, the Group is exposed to sovereign debt in these geographies.

Currently, the world economy is facing several exceptional challenges. In particular, the crisis derived from the COVID-19 pandemic has abruptly and significantly deteriorated the economic conditions and prospects of the countries in which the Group operates, leading many of them to an economic recession in 2020.

Furthermore, this crisis could lead to a deglobalisation of the world economy, produce an increase in protectionism or barriers to immigration, fuel the trade war between the United States and China and result in a general withdrawal of international trade in goods and services, as well as having other effects of long duration that transcend the pandemic itself. Added to this is the uncertainty regarding the United Kingdom's exit from the European Union ("**Brexit**"). The long-term effects of Brexit will depend on the relationship between the United Kingdom and the European Union after its complete exit from the European Single Market, currently scheduled for 31 December 2020. Furthermore, in a scenario as uncertain as the current one, with prospects of a severe correction in activity worldwide, emerging economies (to which the Group is significantly exposed, particularly in the case of Mexico and Turkey) could be particularly vulnerable to a trade war or if there were changes in the financial risk appetite. Likewise, the possible triggering of a disorderly deleveraging process in China would pose a significant risk to these economies.

Thus, the Group faces, among others, the following general risks to the economic and institutional environment in which it operates: a deterioration in economic activity in the countries in which it operates, which could lead to an economic recession in some or all of those countries; more intense deflationary pressures or even deflation; variations in exchange rates; a very low interest rate environment, or even a long period of negative interest rates in some regions where the Group operates; an unfavourable evolution of the real estate market, to which the Group remains significantly exposed; very low oil prices; changes in the institutional environment in the countries in which the Group operates that could lead to sudden and sharp falls in GDP and / or regulatory changes; a growing public deficit that could lead to downgrades in sovereign debt credit ratings and even a possible default or restructuring of such debt; and episodes of volatility in markets, such as those currently being experienced,, which could lead the Group to register significant losses.

2.2 Business Risks

The Group's businesses are subject to inherent risks concerning borrower and counterparty credit quality, which have affected and are expected to continue to affect the recoverability and value of assets on the Group's balance sheet

The total maximum credit risk exposure of the Group as of 31 March 2020 was €830,432 million (€809,786 million, €763,082 million and €763,165 million as of 31 December 2019, 2018 and 2017, respectively). The Group has exposures to many different products, counterparties and obligors and the credit quality of its exposures can have a significant effect on the Group's earnings. Adverse changes in the credit quality of the Group's borrowers and counterparties or collateral, or in their behaviour or businesses, may reduce the value of the Group's assets, and materially increase the Group's write-downs and loss allowances. Credit risk can be affected by a range of factors, including an adverse economic environment, reduced consumer, corporate or government spending, global economic slowdown, changes in the rating of individual contractual counterparties, their debt levels and the economic environment in which they operate, increased unemployment, reduced asset values, increased retail or corporate insolvency levels, reduced corporate profits, changes (and the timing, quantum and pace of these changes) in interest rates, counterparty challenges to the interpretation or validity of contractual arrangements and any external factors of a legislative or regulatory nature.

Non-performing or impaired financial customer loans have been negatively affecting, and could continue to affect, the Group's results given the increasing economic uncertainty. As of 31 March 2020 and 31 December 2019, the

RISK FACTORS

Group had a 3.6 per cent. and 3.8 per cent. non-performing asset ratio (as defined in "**Alternative Performance Measures**" of the Management Report 2019) as of 31 March 2020 and 31 December 2019, compared to 3.9 per cent. and 4.6 per cent. as of 31 December 2018 and 2017, respectively. Non-performing loan rates have been reduced in recent years in part due to low interest rates, which have improved clients' ability to pay, but the risk of an increase in non-performing loans has increased significantly due to the effects of the COVID-19 pandemic.

In addition, it is possible that the current scenario of economic deterioration translates into a decrease in the prices of real estate assets in Spain and other countries. As of 31 December 2019, the Group's exposure to the construction and real estate sectors (which excludes the mortgage portfolio) in Spain was equivalent to €9,943 million, of which €2,649 million corresponded to construction loans and construction sector activities related to the development of the real estate sector in Spain (representing 1.4 per cent. of the Group's loans and advances to customers in Spain (excluding the public sector) and 0.4 per cent. of the Group's consolidated assets). The Group continues to be exposed to the real estate market, mainly in Spain, due to the fact that many of its loans are secured by real estate assets, due to the significant volume of real estate assets that it maintains on its balance sheet, and due to its participation in real estate companies such as Metrovacesa, S.A. and Divarian Propiedad, S.A ("**Divarian**"). The total real estate exposure, including developer credit, foreclosed assets and other assets, reflected a coverage rate of 52 per cent. in Spain as of 31 December 2019. A fall in the prices of real estate assets in Spain and other countries, would reduce the value of such participations as well as the security for the loans granted by the Group secured over such real estate assets and credits and, therefore, in the event of default, the amount of the "expected losses" related to those loans and credits would increase. In addition, it could also have a significant adverse effect on the default rates of the Group's residential mortgage portfolio, the balance of which, as of 31 March 2020, was €107,393 million at a global level (as of 31 December 2019, 2018 and 2017, €110,500, €111,528 and €112,274 million respectively). As of 31 March 2020, the non-performing asset and coverage ratios of the Group's residential mortgage portfolio were 3.5 per cent. and 45 per cent., respectively.

The magnitude, timing and pace of any increase in default rates will be key for the Group. Furthermore, it is possible that the Group has incorrectly assessed the creditworthiness or willingness to pay of its borrowers and counterparties, that it has underestimated the credit risks and potential losses inherent in its credit exposure and that it has made insufficient provisions for such risks in a timely manner. These processes, which have a crucial impact on the Group's results and financial condition, require difficult, subjective and complex calculations, including forecasts of the impact that macroeconomic conditions could have on these borrowers and counterparties. In particular, the current uncertainty about economic conditions may harm the processes followed by the Group to estimate the losses derived from its exposure to credit risk, which could influence the adequacy of the provisions for insolvencies provided by the Group. An increase in non-performing or low-quality loans could significantly and adversely affect the Group's business, financial condition and results of operations.

The Group's business is particularly vulnerable to volatility in interest rates

The Group's results of operations are substantially dependent upon the level of its net interest income, which is the difference between interest income from interest-earning assets and interest expense on interest-bearing liabilities. As of 31 March 2020 and 31 December 2019, the interest margin percentage with respect to the gross margin was 70 per cent. and 74 per cent., respectively. Interest rates are highly sensitive to many factors beyond the Group's control, including fiscal and monetary policies of governments and central banks, regulation of the financial sectors in the markets in which it operates, domestic and international economic and political conditions and other factors. In this sense, the COVID-19 pandemic has triggered a process of the cutting of benchmark interest rates, which, moreover, will foreseeably take longer to subsequently be increased and will do so at a slower rate than previously foreseen. It is possible that changes in market interest rates, which could be negative in some cases, and the reform of benchmarks, affect the interest the Group receives on its profitable assets differently from the interests that the Group pays for its liabilities at cost (in addition to assuming, with regard to such benchmark reform, other considerable risks, including legal and operational risks). This, in turn, may lead to a reduction in the Group's net interest margin, which could have a significant adverse effect on its results.

Furthermore, the high proportion of the Group's loans referenced to variable interest rates makes borrowers' capacity to repay such loans more vulnerable to changes in interest rates and the profitability of the loans more vulnerable to interest rate decreases. As of 31 March 2020, a drop of 100 basis points in the reference interest rates would have a negative impact on the interest margin depending on the geography reaching: Eurozone 6 per cent.; United States 4 per cent.; Mexico 2.2 per cent.; Turkey 0.7 per cent. (as of 31 January 2020) and South America 2.3 per cent.. Loans and advances to customers maturing in more than one year and bearing floating interest rates made up 59 per cent., 62 per cent. and 62 per cent. of such transactions as of 31 December 2019, 2018 and 2017, respectively. In addition, a rise in interest rates could reduce the demand for credit and the Group's ability to generate credit for its clients, as well as contribute to an increase in the credit default rate. As a result of these and

RISK FACTORS

the above factors, significant changes or volatility in interest rates could have a material adverse effect on the Group's business, financial condition or results of operations.

The Group faces increasing competition in its business lines

The markets in which the Group operates are highly competitive and it is estimated that this trend will continue in the coming years with the increasing entry of non-bank competitors (some of which have large client portfolios and strong recognition of their brands) and the emergence of new business models. According to data from the Financial Stability Board (the "FSB") in its Global Monitoring Report on Non-Bank Financial Intermediation 2019, globally, at the end of 2018, banks had a share of close to 40 per cent. of total financial

Assets and non-traditional providers had 30 per cent.. Although the Group is making efforts to anticipate these changes, betting on its digital transformation, its competitive position is undermined by the regulatory asymmetry that benefits non-bank operators. For example, banking groups are subject to prudential regulations that have implications for most of their businesses, including those in which they compete with non-bank operators that are only subject to specific regulations of the activity they develop or that benefit from loopholes. existing in the regulatory framework. Furthermore, when banking groups carry out financial activities through the use of new technologies, they are generally subject to additional internal governance rules that place the Group at a competitive disadvantage to attract and retain digital talent, including founders and management teams of the acquired companies. Furthermore, banking groups often face obstacles in engaging in new, unregulated activities. In the event that the Group cannot successfully compete in such markets, its business, financial condition and results could be significantly and adversely affected.

Furthermore, the widespread adoption of new technologies, including cryptocurrencies and payment systems, could require substantial expenses to modify or adapt existing products and services as the Group continues to increase its mobile and internet banking capabilities. Likewise, the increasing use of these new technologies and mobile banking platforms could have an adverse impact on the Group's investments in facilities, equipment and employees of the branch network. A faster pace of transformation towards mobile and online banking models could require changes in the Group's commercial banking strategy, including the closure or sale of some branches and the restructuring of others and its employees. These changes could mean losses in these assets and force increases in expenses to renovate, reconfigure or close branches and transform the Group's commercial network. Failure to effectively implement such changes could have a material adverse impact on the Group's competitive position.

The Group faces risks related to its acquisitions and divestitures

The Group has carried out both acquisitions and sale transactions of relevant entities and businesses over the past few years and plans to participate in this type of transactions in the future. As of the date of this Base Prospectus, the corresponding regulatory authorisations for the sale of BBVA's interest in Banco Bilbao Vizcaya Argentaria Paraguay, S.A. ("**BBVA Paraguay**") are pending, as well as those of the agreement announced on 27 April 2020 between BBVA and Allianz Compañía de Seguros y Reaseguros, S.A. to create a bancassurance alliance to develop the non-life insurance business in Spain, excluding health insurance.

However, the planned transactions may not be completed on time or at a reasonable cost, or may have a different outcome than expected. In addition, it is possible that transactions desired by the Group may not be carried out. Transactions of this type typically involve the integration of operations, technologies and teams with different cultures, objectives and values, which is a challenge in itself. Furthermore, the Group's results could also be adversely affected by expenses related to the acquisition or divestment itself, the amortisation of expenses related to intangible assets, and impairment charges on long-term assets, including associated goodwill. In 2019, the Group recorded an impairment of €1,318 million in the goodwill relating to BBVA USA and in the quarter ending 31 March 2020, an additional impairment of such goodwill of €2,084 million was recorded. As of 30 June 2020, the goodwill recorded by the Group amounted to 2,760 million.

In some cases, acquisition or divestment transactions give rise to joint ventures with third parties, which exposes the Group to other risks, such as the existence of disagreements with its partners, as well as the possible exposure of the Group to problems faced by those partners.

In addition, acquisition and sale transactions expose the Group to the risk of being involved in litigation or claims by the Group's counterparties in such transactions, dismissed employees, customers or third parties. In addition, with respect to divestments, the Group could be required to indemnify the purchaser with respect to such litigation or claims or other matters. Any of these factors could have a significant adverse impact on the Group's business, financial position and results of operations.

The Group faces risks derived from its international geographic diversification and its significant presence in emerging countries

RISK FACTORS

The Group is made up of commercial banks, insurance companies and other financial services companies in various countries and its performance as a global business depends on its ability to manage its different businesses under various economic, social and political conditions, facing different normative and regulatory requirements in many of the jurisdictions in which it operates (including, among others, different supervisory regimes and different fiscal and legal regimes regarding the repatriation of funds or the nationalisation or expropriation of assets). In addition, the Group's international operations may expose it to risks and challenges to which its local competitors may not be exposed, such as currency risks (as of 31 March 2020 and 31 December 2019, approximately 44.7 per cent. and 48.1 per cent. of the Group's assets and 42.2 per cent. and 45.5 per cent. of the liabilities, respectively, were denominated in currencies other than the euro), the difficulty in managing or supervising a local entity from abroad, political risks (which could only affect foreign investors) or limitations on the distribution of dividends, thus worsening its position compared to that of local competitors.

There can be no guarantee that the Group will be successful in developing and implementing policies and strategies in all of the countries in which it operates, some of which have experienced significant economic, political and social volatility in recent decades. In particular, the Group has significant operations in several emerging countries, such as Mexico and Turkey, and is therefore vulnerable to the deterioration of these economies. Emerging markets are generally affected by the situation of other commercially or financially related markets and by the evolution of global financial markets in general (they may be affected, for example, by the evolution of interest rates in the United States and the exchange rate of the US dollar), as well as, in some cases, due to fluctuations in the prices of commodities. The perception that the risks associated with investing in emerging economies have increased, in general, or in emerging markets where the Group operates, in particular, could reduce capital flows to those economies and negatively affect such economies.

The Group's activity in emerging countries could also be exposed to additional political risks. For example, the Group's activities in Venezuela (which is an economy that is considered to be highly inflationary and so the financial statements of the BBVA Group entities located in Venezuela are adjusted to correct for the effects of inflation in accordance with IAS 29 "Financial Information in hyperinflationary economies"), are subject to a high risk of changes in government policies, such as expropriation, nationalisation, international property legislation, interest rate limits, exchange controls, government restrictions on dividends and fiscal policies. The value of the net equity of the Venezuelan subsidiaries attributed to the Group was €79 million as of 31 March 2020.

2.3 Financial Risks

BBVA has a continuous demand for liquidity to finance its activities and the withdrawal of deposits or other sources of liquidity could significantly affect it

Traditionally, one of the Group's main sources of financing has been savings accounts and demand deposits. As of 31 March 2020, the balance of "**customer deposits**" represented approximately 72 per cent. of the BBVA Group's total "**financial liabilities at amortised cost**". However, the volume of wholesale and retail deposits can fluctuate significantly, including as a result of factors beyond the Group's control, such as general economic conditions, changes in economic policy or administrative decisions that diminish their attractiveness as savings instruments (for example, as a consequence of changes in taxation, coverage by guarantee funds for deposits or expropriations) or competition from other savings or investment instruments (including deposits from other banks).

Likewise, the Group depends on market confidence for its short and long-term wholesale financing. In this regard, increases in the Group's interest rates and credit spreads could significantly increase its financing cost. Changes in credit spreads are motivated by market factors and may be influenced by the market's perception of the Group's solvency. As of 31 March 2020, the balance of "**debt securities issued**" represented approximately 12.2 per cent. of the total financial liabilities at amortised cost of the Group.

In addition, the Group has made and continues to make significant use of public sources of liquidity, such as the European Central Bank's ("**ECB**") extraordinary measures taken in response to the financial crisis since 2008 or those taken in the face of the crisis caused by the COVID-19 pandemic. The relaxation of the conditions of the Targeted Long Term Refinancing Operations ("**TLTRO**") III have increased the maximum amount that BBVA could receive from €21,000 million to €35,000 million, of which at 31 March 2020, €14,000 million had been made available to BBVA (€7,000 million as of December 2019 and the same amount as of March 2020 with two amortisations of the TLTRO II programme for an amount of €9,700 million as of December 2019 and €7,000 million as of March 2020, leaving a remaining amount of €7,000 million). However, the conditions of this or other programmes could be revised or these programmes could be cancelled.

In the event of a withdrawal of deposits or other sources of liquidity, especially if it is sudden or unexpected, the Group may not be able to finance its financial obligations or meet the minimum liquidity requirements that apply to it, and may be forced to incur higher financial costs, liquidate assets and take additional measures to reduce their

RISK FACTORS

level of leverage. Furthermore, BBVA could be subject to the adoption of early action measures or, ultimately, to the adoption of a resolution measure by the Relevant Spanish Resolution Authority.

BBVA and some of its subsidiaries depend on their credit ratings, as well as that given to the sovereign debt of the Kingdom of Spain

Rating agencies periodically review the Group's debt credit ratings. Any reduction, effective or anticipated, in any such ratings of the Group, whether below investment grade or otherwise, could limit or impair the Group's access to capital markets and other possible sources of liquidity and increase the Group financing cost, and even entail the breach of certain contracts or generate additional obligations under those contracts, such as the need to grant additional guarantees (due to the fact that credit ratings are used in some contracts to trigger default and early maturity provisions or the granting of additional guarantees if the relevant ratings fall below certain levels). The Group estimates that if at 31 December 2019, all the rating agencies had downgraded BBVA long-term senior debt rating by one notch, it would have had to provide additional guarantees amounting to €61 million in accordance with the derivative contracts and other financial contracts that it has entered into. A hypothetical two-notch downgrade would have involved an additional outlay of €103 million in additional guarantees. Furthermore, if the Group were required to cancel its derivative contracts with some of its counterparties and were unable to replace them, its market risk could worsen. Likewise, a reduction in the credit rating could affect the Group's ability to sell or market some of its products or to participate in certain operations, and could lead to the loss of customer deposits and make third parties less willing to carry out commercial operations with the Group (especially those that require a minimum credit rating to invest), having a significant adverse impact on the Group's business, financial condition and results of operations.

On the other hand, the Group's credit ratings could be affected by variations in the rating of Spanish sovereign debt. The Group holds a significant portfolio of debt issued by the Kingdom of Spain, by the Spanish autonomous communities and by other Spanish issuers. As of 31 March 2020 and 31 December 2019, the Group's exposure to the Kingdom of Spain's public debt portfolio was €44,770 and €50,905 million, respectively, representing 6 per cent. and 7 per cent. of the consolidated total assets of the Group, respectively. Any decrease in the credit rating of the Kingdom of Spain could negatively affect the valuation of the respective debt portfolios held by the Group and lead to a reduction in the Group's credit ratings. Additionally, counterparties to many of the credit agreements signed with the Group could also be affected by a decrease in the credit rating of the Kingdom of Spain, which could limit their ability to attract additional resources or otherwise affect their ability to pay their outstanding obligations to the Group.

As a consequence of the COVID-19 pandemic, some rating agencies have reviewed the Group's credit ratings or trends. Specifically on 1 April, 2020, DBRS confirmed BBVA's long-term rating of A (High) and maintained the outlook as stable. On 29 April 2020, S&P Global confirmed BBVA's long-term rating of A- and maintained its negative outlook. On 22 June 2020, Fitch downgraded the BBVA's preferred senior debt rating from A with Rating Watch Negative to A- with stable outlook. There may be more ratings actions and changes in in BBVA's credit ratings in the future as a result of the crisis caused by the COVID-19 pandemic.

BBVA's ability to pay dividends depends, in part, on the receipt of dividends from its subsidiaries

As of 31 December 2019, dividend income from the subsidiaries of BBVA, represented 38 per cent. of its gross margin. Due, in part, to the Group's decision to follow a 'Multiple Point of Entry' strategy, in accordance with the framework for the resolution of financial entities designed by the FSB, the Group's subsidiaries are self-sufficient and each subsidiary is responsible for managing its own liquidity. This means that the payment of dividends, distributions and advances by BBVA's subsidiaries depends not only on the results of those subsidiaries, but also on the context of their operations and liquidity needs, and may further be limited by legal, regulatory and contractual restrictions. For example, the repatriation of dividends from the Group's Argentine subsidiary has been subject to certain restrictions and it cannot be guaranteed that new restrictions will not be imposed again in the future. Furthermore, BBVA's right, as a shareholder, to participate in the distribution of assets resulting from the eventual liquidation or any reorganisation of its subsidiaries will be effectively subordinated to the rights of the creditors of those subsidiaries, including their commercial creditors.

On the other hand, the Group (including BBVA) must comply with certain capital requirements, where non-compliance could lead to the imposition of restrictions or prohibitions on making any: (i) distributions relating to common equity tier 1 ("CET1") capital; (ii) payments related to variable remuneration or discretionary pension benefits; and (iii) distributions linked to additional tier 1 ("AT1") instruments, including the payment of

RISK FACTORS

Distributions on the Securities (collectively, the "**Discretionary Payments**"), including the distribution of dividends and other distributions. Likewise, the ability of BBVA and its subsidiaries to pay dividends is conditioned by the recommendations and requirements of their respective supervisors, such as those made in response to the COVID-19 pandemic. In this regard, on 30 April 2020, BBVA announced that it had agreed to modify, for the financial year 2020, the Group's shareholder remuneration policy, opting not to pay any amount as a dividend corresponding to the financial year 2020 until the uncertainties generated by the COVID-19 pandemic no longer remain and, in any case, not before the close of the 2020 fiscal year.

2.4 Legal, Regulatory, Tax and Compliance Risks

Legal Risks

The Group is party to a number of legal and regulatory actions and proceedings

The financial sector faces an environment of increasing regulatory and litigious pressure, and thus, the various Group entities are usually party to individual or collective judicial proceedings (including class actions) resulting from the ordinary activity of their businesses, as well as arbitration proceedings. The Group is also party to other government procedures and investigations, such as those carried out by the antitrust authorities in certain countries which, among other things, have in the past and could in the future result in sanctions, as well as lead to claims by customers and others. In addition, the regulatory framework, in the jurisdictions in which the Group operates, is evolving towards a supervisory approach more focused on the opening of proceedings leading to sanctions, while some regulators are focusing their attention on consumer protection and behavioural risk.

In Spain and in other jurisdictions where the Group operates, legal and regulatory actions and proceedings against financial institutions, prompted in part by certain judgments in favour of consumers handed down by national and supranational courts, have increased significantly in recent years and this trend could continue in the future. The legal and regulatory actions and proceedings faced by other financial institutions in relation to these and other matters, especially if such actions or proceedings result in favourable resolutions for the consumer, could also adversely affect the Group.

In relation to consumer mortgage loan contracts linked to the interest rate index known as IRPH (average rate for mortgage loans over three years for the acquisition of free housing), considered "official interest rate" by mortgage transparency regulations, calculated by the Bank of Spain and published in the Spanish Official Gazette, on 14 December 2017 the Spanish Supreme Court issued its judgment 669/2017 confirming that it was not possible to determine the lack of transparency of the interest rate of the loan merely by reference to one or other of the official indexes nor, therefore, its abuse according to Directive 93/13. In a separate legal proceeding, albeit concerning the same clause, the matter was referred to the Court of Justice of the European Union, raising a preliminary question in which the application of the above referred IRPH index and the decision of the Supreme Court on the matter was questioned again. On 3 March 2020, the Court of Justice of the European Union resolved the referred question for a preliminary ruling.

In that resolution, the Court of Justice of the European Union concluded that the fact that the main elements relating to the calculation of the saving banks IRPH index used by the bank to which the question referred refers (Bankia, SA) were provided in the Bank of Spain Regulation (Circular 8/1990), published in the Spanish Official Gazette, allowed consumers to understand the calculation of such index. In addition, the Court of Justice of the European Union indicates that the national court shall verify whether the bank that is party to this proceeding complied with the information obligations provided by national legislation. In the event that the entity had not complied with the applicable transparency regulations, the Court of Justice of the European Union decision does not declare the contract null and void but provides that the national court could replace the IRPH index applied in the case under trial for a substitute index. The resolution sets forth that, in the absence of an agreement to the contrary of the parties to the contract, the referred substitute index could be the IRPH index for credit entities in Spain (as established in the fifteenth additional provision of Law 14/2013, of 27 September 2013). BBVA considers that the ruling of the Court of Justice of the European Union should not have significant effects on the Group's business, financial situation or results of operations.

On 4 March 2020, the Supreme Court issued a ruling (number 149/2020) confirming the nullity of a revolving credit card agreement entered into by another entity (Wizink Bank) on the grounds that the interest applied to the card was usurious. In this ruling, the Supreme Court recognizes that the reference to the "normal interest on money" to be used for this product must be the average interest applicable to credit transactions by means of credit and revolving cards published in the Bank of Spain's statistics and which is slightly higher than 20 per cent. per year. In the specific case, the Supreme Court has considered usurious a rate of 26.82 per cent. when compared with 20 per cent. of the average rate. The Supreme Court concludes that for an interest rate to be usurious, it must be "manifestly disproportionate to the circumstances of the case", and therefore the ruling limits its effects to the case

RISK FACTORS

under analysis, and the marketing by credit entities of this product must be analysed on a case-by-case basis. BBVA considers that the Supreme Court's ruling should not have significant effects on the Group's business, financial situation or results of operations

All of the above result in a significant increase in operating and compliance costs or even a reduction of revenues, and it is possible that an adverse outcome in any proceedings (depending on the amount thereof, the penalties imposed or the procedural or management costs for the Group) could damage the Group's reputation, have significant consequential costs and related implications for the Group or otherwise adversely affect the Group.

It is difficult to predict the outcome of legal and regulatory actions and proceedings, both those to which the Group is currently exposed and those that may arise in the future, including actions and proceedings relating to former Group subsidiaries or in respect of which the Group may have indemnification obligations, but such outcome could be significantly adverse to the Group. In addition, a decision in any matter, whether against the Group or against another credit entity facing similar claims as those faced by the Group, could give rise to other claims against the Group. In addition, these actions and proceedings attract resources from the Group and may require significant attention on the part of the Group's management and employees.

As of 30 June 2020, the Group had €738 million in provisions for the proceedings it is currently facing. However, the uncertain outcome of these proceedings (including those for which no provisions have been made, either because it is not possible to estimate any such provisions or for other reasons) makes it impossible to guarantee that the possible losses arising from such proceedings will not exceed, where applicable, the amounts that the Group currently has provisioned and, therefore, could affect the Group's consolidated results in a given period.

As a result of the above, legal and regulatory actions and proceedings currently faced by the Group or to which it may become subject in the future or that the Group is otherwise affected by, whether individually or in the aggregate, if resolved in whole or in part adversely to the Group's interests, could have a material adverse effect on the Group's business, financial condition and results of operations.

The Spanish judicial authorities are carrying out a criminal investigation relating to possible bribery, revelation of secrets and corporate corruption by BBVA

Spanish judicial authorities are investigating the activities of Centro Exclusivo de Negocios y Transacciones, S.L. ("Cenyt"). Such investigation includes the provision of services by Cenyt to BBVA. On 27 September 2020, BBVA was named as an investigated party (investigado) in a criminal judicial investigation (Preliminary Proceeding No. 96/2017 – Piece No. 9, Central Investigating Court No. 6 of the National High Court) for alleged facts which could represent the crimes of bribery, revelation of secrets and corruption. As of the date of this Base Prospectus, no formal accusation against BBVA has been made. Certain current and former officers and employees of the BBVA Group, as well as former directors, have also been named as investigated parties in connection with this investigation. BBVA has been and continues to be proactively collaborating with the Spanish judicial authorities, including sharing with the courts information from its on-going forensic investigation regarding its relationship with Cenyt. BBVA has also testified before the judge and prosecutors at the request of the Central Investigating Court No. 6 of the National High Court.

On 3 February 2020, BBVA was notified by the Central Investigating Court No. 6 of the National High Court of the order lifting the secrecy of the proceedings.

This criminal judicial proceeding is at a preliminary stage. Therefore, it is not possible at this time to predict the scope or duration of such proceeding or any related proceeding or its or their possible outcomes or implications for the Group, including any fines, damages or harm to the Group's reputation caused thereby.

Regulatory, Tax and Compliance Risks

The financial services sector is one of the most regulated in the world. The Group is subject to a broad regulatory and supervisory framework, which has increased significantly in the last decade. Regulatory activity in recent years has affected multiple areas, including changes in accounting standards; strict regulation of capital, liquidity and remuneration; bank charges and taxes on financial transactions; mortgage regulations, on banking products, and on consumers and users; recovery and resolution measures; stress tests; prevention of money laundering and terrorist financing; market abuse; conduct in the financial markets; anti-corruption; and requirements as to the periodic publication of information. Governments, regulatory authorities and other institutions continually make proposals to strengthen their resistance to future crises.

Furthermore, the international nature of its operations means that the Group is subject to a wide and complex range of local and international regulations in these matters, sometimes with overlapping scopes and areas regulated. This complexity, which can be exacerbated by differences and changes in the interpretation or application of these

RISK FACTORS

standards by local authorities, makes compliance risk management difficult, which requires automated systems, highly sophisticated monitoring, qualified personnel and general training of employees.

Any change in the Group's business that is necessary to comply with any particular regulations at any time, especially in Spain, Mexico, and the United States or Turkey, could lead to a considerable loss of income, limit the Group's ability to identify business opportunities, affect the valuation of its assets, force the Group to increase its prices and, therefore, reduce the demand for its products, impose additional costs on the Group or otherwise negatively affect its business, financial condition and results of operations.

The Group is subject to a broad regulatory and supervisory framework, including resolution regulations, which could have a significant adverse effect on its business, financial condition and results of operations

The Group is subject to a comprehensive regulatory and supervisory framework the complexity and scope of which has increased significantly since the previous financial crisis and the upward trend in such increased complexity and scope could be reinforced by the crisis caused by the COVID-19 pandemic. In particular, the banking sector is subject to continuous scrutiny at the political and supervisory levels, and it is foreseeable that in the future there will continue to be political involvement in regulatory and supervisory processes, as well as in the governance of the main financial entities. For this reason, the laws, regulations and policies to which the Group is subject, as well as their interpretation and application, may change at any time, and supervisors and regulators also have a wide margin of discretion to carry out their duties, which gives rise to uncertainty regarding the interpretation and implementation of the regulatory framework. Likewise, regulatory fragmentation and the implementation by some countries of more flexible or stricter rules or regulations could also adversely affect the Group's ability to compete with financial institutions that may or may not have to comply with any such rules or regulations, as appropriate.

The regulatory amendments adopted or proposed, as well as their interpretation or application, have increased and may continue to substantially increase the Group's operating expenses and negatively affect its business model. For example, the imposition of prudential capital standards has limited and could further limit the ability of subsidiaries to distribute capital to BBVA, while liquidity standards may require the Group to hold a higher proportion of its assets in financial instruments with higher liquidity and lower performance, which can negatively affect its net interest margin. In addition, BBVA's regulatory and supervisory authorities may require BBVA to increase its loan loss provision fund or register additional losses, which could have an adverse effect on its financial condition. It is also possible that governments and regulators impose additional regulations ad hoc in response to a crisis such as the one unleashed by the COVID-19 pandemic or for other reasons, which could imply the imposition of financing requirements by credit institutions to different entities such as, for example, the contribution that BBVA must make to finance the Fund for Orderly Bank Restructuring (*Fondo de Reestructuración Ordenada Bancaria*) (the "**FROB**") or the Single Resolution Board ("**SRB**").

Any legislative or regulatory measure and any necessary change in the Group's business operations, as a consequence of such measures, as well as any deficiency in complying with them, could result in a significant loss of income, represent a limitation on the ability of BBVA to take advantage of business opportunities and offer certain products and services, affect the value of the Group's assets, force the Group to increase prices (which could reduce the demand for its products), impose additional compliance costs or result in other possible negative effects for the Group.

Finally, within the regulatory amendments adopted as a result of the last financial crisis, the resolution regulations stand out for their potential adverse consequences. In the event that the Relevant Spanish Resolution Authority considers that BBVA is in a situation of early action or resolution, it may adopt the measures provided for in the applicable regulations. Likewise, the Relevant Spanish Resolution Authority may apply the absorption of losses due to non-viability¹ in the event that it determines that the entity meets the conditions for its resolution or that it will become unfeasible unless such mechanism is applied.

In addition, the Relevant Spanish Resolution Authority can exercise the competences and powers described without prior notice, so their application is unpredictable. The consideration by the Relevant Spanish Resolution Authority that BBVA is in an early action or resolution situation or its mere suggestion could adversely and significantly affect the Group's business, financial condition and results of operations, as well as the market price and behaviour of certain securities issued by BBVA (or even their terms, in the event of an application of any Spanish Statutory Loss-Absorption Powers).

¹ The BRRD, Law 11/2015 and the Regulation (EU) 2019/877 of the European Parliament and of the Council of 20 May 2019 (as amended, replaced or supplemented from time to time) provide for resolution authorities to have the further power to permanently write-down or convert into equity capital instruments at the point of non-viability ("**Non-Viability Loss Absorption**") of an entity.

RISK FACTORS

Increasingly onerous capital and liquidity requirements may have a material adverse effect on the Group's business, financial condition and results of operations

In its capacity as a Spanish credit institution, BBVA is subject to compliance with a "Pillar 1" solvency requirement, a "Pillar 2" solvency requirement and a "combined buffer requirement" at both the individual and consolidated level. As a result of the latest Supervisory Review and Evaluation Process carried out by the ECB, and in accordance with the measures implemented by the ECB on 12 March 2020, by means of which banks may partially use AT1 and Tier 2 ("Tier 2") capital instruments in order to fulfil the Pillar 2 requirement, BBVA must maintain, at a consolidated level, a CET1 ratio of 8.59 per cent. and a total capital ratio of 12.75 per cent.. Likewise, BBVA must maintain, on an individual level, a CET1 ratio of 7.84 per cent. and a total capital ratio of 12.00 per cent.. As of 31 March 2020, BBVA's phased-in total capital ratio was 15.39 per cent. on a consolidated basis and 20.14 per cent. on an individual basis, and its CET1 phased-in capital ratio was 11.08 per cent. on a consolidated basis and 15.05 per cent. on an individual basis.

Additionally, the BBVA, as a Spanish credit institution, must maintain a minimum level of own funds and eligible liabilities (the "MREL" requirement) in relation to total liabilities and own funds. On 19 November 2019, BBVA announced that it had received notification from BBVA of Spain of its MREL, as determined by the SRB. BBVA's MREL was set at 15.16 per cent. of the total liabilities and own funds of BBVA's resolution group at a sub-consolidated level from 1st January, 2021. Likewise, of this MREL, 8.01 per cent. of the total liabilities and own funds must be met with subordinated instruments, once the concession established in the requirement itself has been applied. This MREL is equivalent to 28.50 per cent. of the RWAs of BBVA's resolution group, while the subordination requirement included in the MREL is equivalent to 15.05 per cent. of the RWAs of BBVA's resolution group, once the corresponding concession has been applied. In accordance with BBVA's estimates and subject to the evolution of BBVA's resolution group (including its total liabilities and own funds, and RWAs), the current structure of eligible liabilities and own funds of BBVA's resolution group, together with the expected implementation of the funding plan of BBVA for the issuance of eligible liabilities throughout the year 2020 in a total amount of at least €3,000 million, subject to market conditions and availability, will enable the fulfilment of this requirement upon its entry into force.

However, both the total capital and the MREL requirements are subject to change and, therefore, no assurance can be given that BBVA and/or the Group will not be subject to more stringent requirements at any future time. Likewise, no assurance can be given that BBVA and/or the Group will be able to fulfil whichever future requirements may be imposed, even if such requirements were to be equal or lower. There can also be no assurances as to the ability of BBVA and/or the Group to comply with whichever capital target is announced to the market at any given time, which could be negatively perceived by investors and/or supervisors, who could interpret that a lack of capital-generating capacity exists or that the capital structure has deteriorated, either of which could negatively affect the market value or behaviour of whichever securities issued by BBVA and/or the Group (and, in particular, of any of its capital instruments) and, therefore, lead to the implementation of new recommendations or requirements regarding Pillar 2 or (should the Relevant Spanish Resolution Authority interpret that obstacles may exist for the viability of the resolution on behalf of BBVA and /or the Group), MREL.

If BBVA or the Group failed to comply with its "combined buffer requirement" it would have to calculate its Maximum Distributable Amount ("MDA") and, until such calculation has been undertaken and reported to BBVA of Spain, the affected entity will not be able to make any Discretionary Payments. Once the MDA has been calculated and reported, such Discretionary Payments will be limited to the calculated MDA. Likewise, should BBVA or the Group not meet the applicable capital requirements, additional requirements of Pillar 2 or, if applicable, MREL could be imposed. Likewise, upon the entry into force of the EU Banking Reforms, BBVA or the Group must fully comply not only with its "combined buffer requirement" but also with its MREL, in order to be able to make Discretionary Payments. Additionally, failure to comply with the capital requirements may result in the implementation of early action measures or, ultimately, resolution measures on behalf of the resolution authorities.

On the other hand, Regulation (EU) 2019/876 of the European Parliament and of the Council, of 20 May 2019 (as amended, replaced or supplemented at any time, "CRR II") establishes a binding requirement for the

leverage ratio of 3 per cent. of tier 1 capital (as of 31 March 2020, the phased-in leverage ratio of the Group was

2 In accordance with the BBVA Group's Multiple Point of Entry resolution strategy, established by the SRB, the resolution group is composed by Banco Bilbao Vizcaya Argentaria, S.A. and the subsidiaries belonging to the same European resolution group. As of 31 December 2017 (reference date taken by the SRB), the total liabilities and own funds of BBVA's resolution group at a sub-consolidated level amounted to €371,910 million euros, of which the total liabilities and own funds of the Bank represented approximately 95 per cent., and the APRs of the Bank's resolution group amounted to €197,819 million.

RISK FACTORS

6.26 per cent. and fully loaded it was 6.13 per cent.). Any failure to comply with this leverage ratio would also result in the need to calculate and report the MDA, and restrictions on Discretionary Payments. Moreover, CRR II proposes new requirements that capital instruments must meet in order to be considered AT1 or Tier 2 instruments, including certain grandfathering measures until 28 June 2025. Once CRR II has been implemented and the grandfathering period has elapsed, AT1 and/or Tier 2 instruments which do not comply with the new requirements at such date will no longer be considered as capital instruments. This could give rise to shortfalls in regulatory capital and, ultimately, could result in failure to comply with the applicable minimum regulatory capital requirements, with the aforementioned consequences.

Additionally, the implementation of the ECB expectations regarding prudential provisions for non-performing loans ("**NPLs**") (published on 15 May 2018) and the ECB's current review of internal models being used by banks subject to its supervision for the calculation of their RWAs could result, respectively, in the need to increase provisions for future NPLs and increases in the Group's capital needs.

Furthermore, the implementation of the Basel III reforms could result in an increase of BBVA's and the Group's total RWAs and, therefore, could also result in a decrease of BBVA's and the Group's capital ratios. Likewise, the lack of uniformity in the implementation of the Basel III reforms across jurisdictions in terms of timing and applicable regulations could give rise to inequalities and competition distortions. Moreover, the lack of regulatory coordination, with some countries bringing forward the application of Basel III requirements or increasing such requirements, could adversely affect an entity with global operations such as the Group and could affect its profitability.

Additionally, should the Total Loss Absorbing Capacity ("**TLAC**")³ requirements currently only imposed upon financial institutions of global systemic importance ("**G-SIBs**"), be applicable upon non-G-SIBs entities or should BBVA once again be classified as a G-SIB, additional minimum requirements similar to MREL could in the future be imposed upon BBVA.

There can be no assurance that the above capital requirements will not adversely affect BBVA's or its subsidiaries' ability to make Discretionary Payments, or result in the cancellation of such payments (in whole or in part), or require BBVA or such subsidiaries to issue additional securities that qualify as regulatory capital, to liquidate assets, to curtail business or to take any other actions, any of which may have adverse effects on the Group's business, financial condition and results of operations. Furthermore, an increase in capital requirements could negatively affect the return on equity and other of the Group's financial results indicators. Moreover, BBVA's or the Group's failure to comply with their capital and/or MREL requirements could have a significant adverse effect on BBVA's business, financial condition and results of operations.

Lastly, the Group must also comply with liquidity and funding ratios. Several elements of the liquidity coverage ratio (the "**LCR**") and the net stable financing ratio (the "**NSFR**"), as introduced by national banking regulators and fulfilled by BBVA, may require implementing changes in some of its commercial practices, which could expose BBVA to additional expenses (including an increase in compliance expenses), affect the profitability of its activities or otherwise lead to a significant adverse effect over BBVA's business, financial condition or results of operations. As of 31 March 2020 and 31 December 2019, the Group's LCR was 134 per cent. and 129 per cent. respectively. The NSFR ratio was 120 per cent. as of 31 March 2020 and 31 December 2019.

The Group is exposed to tax risks that may negatively affect it

The preparation of the Group's tax returns and the process of establishing tax provisions involve the use of estimates and interpretations of tax laws and regulations, which are complex and subject to review by the tax authorities. The size, regional diversity and complexity of some groups and their commercial and financial relationships with both third parties and related parties, as is the case with the Group, require the application and interpretation of a considerable number of laws and tax regulations and criteria that the different administrations and judicial bodies issue, as well as the use of more estimates, indeterminate legal concepts and valuations in order to comply with the tax obligations of BBVA and all its subsidiaries. Therefore, any error or discrepancy with the tax authorities in any of the jurisdictions in which the Group operates may be subject to prolonged

administrative or judicial procedures that may have a material adverse effect on the results of the Group's operations

³ On 9 November 2015, the FSB published its final TLAC Principles and Term Sheet, proposing that G-SIBs maintain significant minimum amounts of liabilities that are subordinated (by law, contract or structurally) to certain prior-ranking liabilities, such as guaranteed insured deposits, and forming a new standard for G-SIBs. The TLAC Principles and Term Sheet contain a set of principles on loss-absorbing and recapitalization capacity of G-SIBs in resolution and a term sheet for the implementation of these principles in the form of an internationally agreed standard. The TLAC Principles and Term Sheet require a minimum TLAC requirement to be determined individually for each G-SIB at the greater of (i) 16 per cent. of the RWAs as of 1 January 2019 and 18 per cent. as of 1 January 2022, and (ii) 6 per cent. of the Basel III Tier 1 leverage ratio exposure measured as of 1 January 2019, and 6.75 per cent. as of 1 January 2022.

RISK FACTORS

in the applicable period.

On the other hand, the governments of different jurisdictions are seeking to identify new fiscal sources, and recently, they have focused with special attention on the financial sector. The Group's presence in different and diverse jurisdictions increases its exposure to the different regulatory and interpretative changes that are implemented from these jurisdictions, which could lead, among other things, to (i) an increase in the types of tax, to which the Group is subject, including in response to the demands of various political forces at the national and global level, (ii) changes in the calculation of tax bases such as the proposal in Spain to limit the exemption on dividends and capital gains contemplated in the proposed General State Budget Law 2019, the approval of which would have entailed that 5 per cent. of the dividends distributed to Spanish Group companies would have been subject and not exempt to corporate tax or the imposition of a minimum tax as part of this tax, which in the case of banks would be 18 per cent. of its positive tax base or, (iii) the creation of new taxes -like the proposed Tax Directive or the Financial Transactions Tax ("FTT") of the European Commission and in respect of which a regulatory consultation has recently been published in Spain (which would tax the acquisitions of certain securities, including those issued by BBVA) may have adverse effects on the business, financial condition and results of operations of the Group

The Group is exposed to compliance risks

The Group, due to its role in the economy and the nature of its activities, is singularly exposed to certain compliance risks. In particular, the Group must comply with regulations regarding customer conduct, market conduct, the prevention of money laundering and the financing of terrorist activities, the restrictions established by international sanctions programs, and anti-corruption laws (including the US Foreign Corrupt Practices Act of 1977 and the UK Bribery Act of 2010), whose violations could carry very significant penalties.

Generally, all these regulations require banking entities to use diligence measures to manage compliance risk; and sometimes, these entities must apply reinforced due diligence measures because they understand that, due to the very nature of the activities they carry out (among others, private banking, money transfer and foreign currency exchange operations), they may present a higher risk of money laundering or terrorist financing.

Although the Group has adopted policies, procedures, systems and other measures to manage compliance risk, it cannot guarantee that these are sufficient or that the employees (126,041 as of 31 March 2020) or other persons of the Group or its business partners, agents and/or other third parties with a business or professional relationship with BBVA do not elude or infringe such measures or elude or otherwise infringe current regulations or BBVA's ethics and compliance regulations, acts for which such persons or the Group could be held ultimately responsible and/or that could damage the Group's reputation. Furthermore, the Group may not be able to prevent third parties outside the Group from using the banking network in order to launder money or carry out illegal or inappropriate activities. A further consideration is that financial crimes continually evolve and that emerging technologies, such as cryptocurrencies and blockchain, could limit the Group's ability to track the movement of funds. Additionally, in adverse economic conditions, it is possible that financial crime attempts will increase significantly (as was the case in the US in the face of the previous financial crisis). Ultimately, the Group relies heavily on the efforts of its employees and external suppliers to mitigate any threat.

In case of breach of the applicable regulations or if the competent authorities consider that the Group does not perform the necessary due diligence inherent to its activities, such authorities could impose limitations on the Group's activities, the revocation of its authorisations and licenses, and economic penalties, in addition to having significant consequences for the Group's reputation, which could have a significant adverse impact on the Group's business, financial condition and results of operations. Furthermore, the Group occasionally conducts investigations related to alleged violations of such laws and regulations, and any such investigation or any related procedure could be time consuming and costly, and its results difficult to predict.

2.5 Operational Risks

Attacks, failures or deficiencies in the Group's procedures, systems and security or those of third parties to which the Group is exposed could have a significant adverse impact on the Group's business, financial condition and results of operations, and could be detrimental for its reputation

The Group's activities depend to a large extent on its ability to process and report effectively and precisely on a high volume of highly complex operations with numerous and diverse products and services (by their nature, generally ephemeral), in different currencies and subject to different regulatory regimes. Therefore, it relies on highly sophisticated information technology ("IT") systems for data transmission, processing and storage. However, IT systems are vulnerable to various problems, such as hardware and software malfunctions, computer viruses, hacking, and physical damage to IT centers. BBVA's exposure to these risks has increased significantly in

RISK FACTORS

recent years due to the Group's implementation of its ambitious digital strategy (which has allowed the Group to have a pioneering global mobile development platform in the sector, with around 60 per cent. of customers using the bank's digital channels). According to data as of 31 March 2020, 59 per cent. of the Group's customers are digital and 54 per cent. of customers regularly use their mobile phones to interact with BBVA, and digital sales represent 63 per cent. of total sales. BBVA already has more than 500,000 customers registered exclusively through digital channels in Spain, of which more than 50 per cent. did so via mobile. These digital services, as well as the rest of the alternatives that BBVA offers users to become BBVA customers, have become even more important after the COVID-19 pandemic outbreak and the decrees of a state of emergency (or similar) in the countries in which the Group operates, which restrict or advise against travel. Currently, one in three new clients chooses digital channels to start their relationship with BBVA. In April 2020, these digital customers exceeded 77 million monthly sessions in the BBVA 'app', making this channel the fastest growing in use. Any attack, failure or deficiency in the Group's systems could, among other things, lead to the misappropriation of funds of the Group's clients or the Group itself and to the unauthorised disclosure, destruction or use of confidential information, as well as preventing the normal operation of the Group, and impairing its ability to provide services and carry out its internal management. In addition, any attack, failure or deficiency could result in the loss of customers and business opportunities, damage to computers and systems, violation of regulations regarding data protection and / or other regulations, exposure to litigation, fines, sanctions or interventions, loss of confidence in the Group's security measures, damage to its reputation, reimbursements and compensation, and additional regulatory compliance expenses and could have a significant adverse impact on the Group's business, financial condition and results of operations. Furthermore, it is possible that such attacks, failures or deficiencies will not be detected on time or never. The Group is likely to be forced to spend significant additional resources to improve its security measures in the future. Even so, the Group may not be able to anticipate or prevent all possible vulnerabilities, nor to implement preventive measures that are effective or sufficient. In particular, cyberattacks are becoming increasingly sophisticated and difficult to prevent.

Customers and other third parties to which the Group is significantly exposed, including the Group's service providers (such as data processing companies to which the Group has outsourced certain services), face similar risks (specially under the current COVID-19 pandemic, see also the Risk Factor "*The coronavirus (COVID-19) pandemic is adversely affecting the Group*" above). Any attack, failure or deficiency that may affect such third parties could, among other things, adversely affect the Group's ability to carry out operations or provide services to its clients or result in the unauthorised disclosure, destruction or use of confidential information. Furthermore, the Group may not be aware of such attack, failure or deficiency in time, which could limit its ability to react. Moreover, as a result of the increasing consolidation, interdependence and complexity of financial institutions and technological systems, an attack, failure or deficiency that significantly degrades, eliminates or compromises the systems or data of one or more financial institutions could have a significant impact on its counterparts or other market participants, including the Group.

3. Risks relating to the Warrants

3.1 The Warrants may not be a suitable investment for all purchasers

Each potential purchaser of Warrants should realise that investing in the Warrants entails significant risks and may not be appropriate for purchasers lacking financial expertise. Prospective purchasers should consult their own financial, tax and legal advisors as to the risks entailed by an investment in such Warrants and the suitability of such Warrants in light of their particular circumstances and ensure that its acquisition is fully consistent with their financial needs and investment policies, is lawful under the laws of the jurisdiction of its incorporation and/or in which it operates, and is a suitable investment for it to make. Each potential purchaser of the Warrants must determine the suitability of that investment in light of its own circumstances. In particular each potential purchaser should:

- (a) have sufficient knowledge and experience to make a meaningful evaluation of the Warrants, the merits and risks of investing in the Warrants and the information contained or incorporated by reference in this Base Prospectus, any applicable supplement or any other Offering Document, including all the information contained in the Issue Terms;
- (b) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Warrants and the impact the Warrants will have on its overall investment portfolio;
- (c) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Warrants;
- (d) understand thoroughly the terms of the Warrants and be familiar with the behaviour of any relevant indices

RISK FACTORS

and financial markets;

- (e) understand thoroughly (if necessary, in consultation with the purchaser's own legal, tax, accountancy, regulatory, investment or other professional that the nature of the Warrants which may be linked to the performance of one or more, or a combination of, underlying shares, indices, inflation indices, fund shares, or foreign exchange rates (together, "**Reference Items**" and each, a "**Reference Item**"); and
- (f) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

3.2 Risk Factors associated with Warrants that are linked to one or more specific types of Reference Items

There are certain factors which are material for the purpose of assessing the risks associated with an investment in Warrants issued under the Programme. Such factors will vary depending on the type of Warrants issued, in particular in relation to Warrants in respect of which the Settlement Amount or the value of the Entitlement (if any) is linked to the value of one or more index, share, inflation index, unit, interest or share in a fund, foreign exchange rate or the combination of any of the foregoing. If a particular Warrant is linked to more than one reference item investors may have increased risk exposure.

3.2.1 There are specific risks relating to Equity Linked Warrants

The Issuer may issue Equity Linked Warrants where the Settlement Amount or the value of the Entitlement (if any) is dependent upon the price of or changes in the price of shares or a basket of shares (or depositary receipts) or, depending on the price of or change in the price of shares or the basket of shares (or depositary receipts), where the Issuer's obligation on exercise is to deliver a specified number of shares ("**Equity Linked Warrants**"). Accordingly an investment in Equity Linked Warrants may bear similar market risks to a direct equity investment and potential investors should take advice accordingly.

In addition, depending on the terms of the Equity Linked Warrants, (i) potential investors should be aware that the Settlement or delivery of any specified shares and/or depositary receipts may occur at a different time than expected and (ii) potential investors may lose all or a substantial portion of their investment if the value of the share(s) and/or depositary receipt(s) does not move in the anticipated direction. In addition, the movements in the price of the share or depositary receipt or basket of shares and/or depositary receipts may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices and the timing of changes in the relevant price of the share or shares may affect the return to investors, even if the average level is consistent with their expectations. If the Settlement Amount or the Entitlement (if any), as the case may be, is determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the price of the share or shares on the amount of potential losses will be magnified. See also risk factor "*Risk of Leveraged Exposure*" above. All these factors may affect the investments in the Warrants.

The market price of such Warrants may be volatile and may be affected by the time remaining to the exercise date, the volatility of the share(s) and/or depositary receipt(s), the dividend rate (if any) and the financial results and prospects of the issuer or issuers of the relevant share(s) or depositary receipt(s) as well as economic, financial and political events in one or more jurisdictions, including factors affecting the stock exchange(s) or quotation system(s) on which any such shares or depositary receipts may be traded.

See also risk factors "A Noteholder does not have rights of ownership in the Reference Item(s) and "the Calculation Agent, which will generally be the Guarantor or an affiliate of the Guarantor, has broad discretionary powers which may not take into account the interests of the Warrantholders" below.

Upon determining that a Potential Adjustment Event, Extraordinary Event or Additional Disruption Event has occurred in relation to an underlying share or the issuer of such underlying share, the Calculation Agent has broad discretion to make certain determinations to account for such event including to (i) make adjustments to the terms of the Equity Linked Warrants and/or (ii) (in the case of an Extraordinary Event or an Additional Disruption Event) cause cancellation of the Equity Linked Warrants, any of which determinations may have an adverse effect on the value of the Equity Linked Warrants.

Potential Adjustment Events include (a) a sub-division, consolidation or re-classification of the shares, (b) an extraordinary dividend, (c) a call of the shares that are not fully paid, (d) a repurchase by the issuer, or an affiliate thereof, of the shares, (e) a separation of rights from the shares or (f) any event having a dilutive or concentrative effect on the value of the shares. Extraordinary Events include (a) a delisting of the shares on an exchange, (b) an insolvency (where all the shares of the issuer of the underlying shares are transferred to a trustee, liquidator or similar official or may not be legally transferred) or bankruptcy of the issuer of the shares,

- (a) a merger event entailing the consolidation of the shares with those of another entity, (d) a nationalisation of the issuer of the shares or transfer of the shares to a governmental entity, or (e) a tender offer or takeover offer

RISK FACTORS

that results in transfer of the shares to another entity.

Extraordinary Events include (a) De-Listing, (b) Insolvency, (c) Merger Event, (d) Nationalization or (e) if specified to be applicable in the Issue Terms, (i) Tender Offer, (ii) Listing Change, (iii) Listing Suspension and (iv) Illiquidity

Additional Disruption Events include (a) a change in applicable law since the Issue Date that makes it illegal to hold, acquire or dispose of the shares or more expensive for the Issuer to hedge its obligations under the relevant Equity Linked Warrants or (b) if specified to be applicable in the Issue Terms, (i) an insolvency filing by or on behalf of the issuer of the underlying shares or (ii) Hedging Disruption or (iii) Failure to Deliver due to Illiquidity or (iv) Increased Cost of Hedging or (v) Increased Cost of Stock Borrow or (vi) Loss of Stock Borrow and (vii) Stop-Loss Event.

3.2.3 There are specific Risks relating to ETF Linked Warrants and Fund Linked Warrants

The Issuer may issue Warrants where the Settlement Amount or the value of the Entitlement (if any) is dependent upon the price or changes in the price of units or shares in one or more funds or ETFs or, depending on the price or changes in the price of units or shares in such funds or ETFs, where the Issuer's obligation on exercise is to deliver a specified amount of shares in such funds or ETFs ("**Fund / ETF Linked Warrants**"). Accordingly an investment in Fund / ETF Linked Warrants may bear similar market risks to a direct fund investment and potential investors should take advice accordingly.

Depending on the terms of the Fund / ETF Linked Warrants (i) potential investor should be aware that the Settlement or delivery of any specified Fund Shares may occur at a different time than expected and (ii) potential investors may lose all or a substantial portion of their investment. In addition, the movements in the price of units, shares or interests in the fund or funds may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices and the timing of changes in the relevant price of the units or shares in the fund or funds may affect the return to investors, even if the average level is consistent with their expectations.

In the event of the occurrence of one or more Potential ETF Events, the Calculation Agent may seek to make adjustments in accordance with the ETF Linked Conditions. Such adjustments may have an adverse effect on the value of the Warrants.

Prospective investors should also be aware that in the event of the occurrence of one or more Extraordinary Fund Events or Extraordinary ETF Events, as the case may be, the Issuer may substitute the relevant Fund Shares or ETF Shares, as the case may be, with fund shares of a fund, or ETF shares, as the case may be, with similar characteristics or, if no such fund or ETF is selected, with a replacement index, or cancel the Warrants depending on whether such Extraordinary Fund Event is a Substitution Event or a Termination Event.

In the event that redemption proceeds in respect of the underlying Fund Shares or ETF Shares, as the case may be, are not received by the hedge provider on or prior to the Settlement Date or Termination Date, such date may be postponed for a period of up to two calendar years (or such other period as may be specified in the Issue Terms) and no additional amount shall be payable as a result of such delay.

If the Settlement Amount or Entitlement amount deliverable are determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the price of the units or shares of the fund or funds on amounts so payable or deliverable will be magnified. See also risk factor "*There are Risks Associated with Leveraged Exposures*" above.

If the Settlement Amount or the Entitlement (if any), as the case may be, is determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the price of the share or shares on the amount of potential losses will be magnified. See also risk factor "*There are Risks Associated with Leveraged Exposures*" above.

The market price of such Warrants may be volatile and may depend on the time remaining to the expiration date and the volatility of the price of units or shares in the fund(s) or ETF(s). The price of units or shares in a fund or ETF may be affected by the economic, financial and political events in one or more jurisdictions, including factors affecting the exchange(s) or quotation system(s) on which any units or Shares in the fund(s) or ETF(s) may be traded. In addition, the price of units or shares in a fund or ETF may be affected by the performance of the fund service providers, and, in particular, the investment advisor. Prospective investors should review carefully the prospectus, information memorandum and/or base prospectus (if any) issued by any relevant fund or ETF before purchasing any Warrants. None of the Issuer, the Guarantor, any affiliate of the Issuer or Guarantor or the Calculation Agent make any representation as to the creditworthiness of any relevant fund or ETF or any such fund's or ETF's administrative, custodian, investment manager or adviser. If such persons are not creditworthy or otherwise fail to perform, as the case may be, it may adversely affect the value of the Warrants.

RISK FACTORS

Where the Issuer issues Fund / ETF Linked Warrants linked to one or more funds, including hedge funds and ETFs, the relevant Warrants reflect the performance of such fund(s).

In addition, when the Issuer issues Fund/ETF Linked Warrants to one or more funds, including hedge funds and exchange traded funds, the relevant fund(s) or exchange traded fund(s) may trade and invest in a broad range of investments such as debt and equity securities, commodities or commodity indices and foreign exchange and may enter into derivative transactions, including, without limitation, futures and options. Funds may often be illiquid and may only be traded on a monthly, quarterly or even less frequent basis. The trading strategies of funds are often opaque. Funds, as well as the markets and instruments in which they invest, are often not subject to review by governmental authorities, self-regulatory organisations or other supervisory authorities. If the underlying relevant fund(s) or exchange traded fund(s) do not perform sufficiently well, the value of the Warrants will fall, and may in certain circumstances be zero.

For all the above reasons, investing directly or indirectly in funds is generally considered to be risky. If the underlying fund does not perform sufficiently well, the value of the Warrants will fall, and may in certain circumstances be zero.

See also risk factors "*Warrantholder does not have rights of ownership in the Reference Item(s)*" and "*The Calculation Agent, which will generally be the Guarantor or an affiliate of the Guarantor, has broad discretionary powers which may not take into account the interests of the Warrantholders*" below.

3.2.4 Risks relating to Foreign Exchange (FX) Rate Linked Warrants and Currency Adjustment Warrants

The Issuer may issue Warrants where the Settlement Amount is dependent upon movements in currency exchange rates or are payable in one or more currencies which may be different from the currency in which the Warrants are issued ("**Foreign Exchange (FX) Rate Warrants**"). Accordingly an investment in Foreign Exchange (FX) Rate Warrants may bear similar market risks to a direct foreign exchange investment and potential investors should take advice accordingly.

Depending on the terms of the Foreign Exchange (FX) Rate Warrants (i) potential investors should be aware that the settlement may occur at a different time or in a different currency than expected and

(ii) potential investors may lose a substantial portion of their investment. In addition, movements in currency exchange rates may be subject to significant fluctuations that may not correlate with changes in interest rates or other indices and the timing of changes in the exchange rates may affect the return to investors, even if the average level is consistent with their expectations.

The foreign exchange rate(s) to which the Warrants are linked will affect the nature and value of the investment return on the Warrants. The performance of foreign exchange rates are dependent upon the supply and demand for currencies in the international foreign exchange markets, which are subject to economic factors, including inflation rates in the countries concerned, interest rate differences between the respective countries, economic forecasts, international political factors, currency convertibility and safety of making financial investments in the currency concerned, speculation and measures taken by governments and central banks. Such measures include, without limitation, imposition of regulatory controls or taxes, issuance of a new currency to replace an existing currency, alteration of the exchange rate or exchange characteristics by devaluation or revaluation of a currency or imposition of exchange controls with respect to the exchange or transfer of a specified currency that would affect exchange rates and the availability of a specified currency. Where the Warrants are linked to

RISK FACTORS

the currency of an emerging market jurisdiction, such risks maybe magnified—see also risk factor “*Where the Warrants are denominated in an emerging market currency or linked to one or more emerging market currencies, such emerging market currencies can be significantly more volatile than currencies of more developed markets*” above.

If the Settlement Amount is dependent upon movements in currency exchange rates and are determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the currency exchange rates on amounts so payable will be magnified. See also risk factor “There are Risks Associated with Leveraged Exposures” above.

Settlement Amounts payable or other obligations of the Issuer in respect of any Tranche of Warrants may be restricted upon the occurrence of certain disruption events applicable to the Warrants, if so specified in the Issue Terms (the “**Currency Adjustment Warrants**”). A relevant disruption event may relate to the imposition of currency or exchange controls in any specified country or to a nationalisation, or any other circumstance as provided in the Issue Terms. Following a relevant disruption event in respect of Currency Adjustment Warrants, the Issuer shall be entitled to require the Calculation Agent to adjust the Warrants or to settle the Warrants early or to postpone payments or deliveries in respect of the Warrants so long as the relevant disruption event continues.

3.3 Risk Factors associated generally with Warrants that are linked to Reference Item(s)

3.3.1 The Guarantor’s securities may be/form part of a Reference Item

The Guarantor’s shares or other instruments issued by the Guarantor may be/form part of a Reference Item in Index Linked Warrants, Equity Linked Warrants or other type of Warrants. The Guarantor will have material information in relation to such Warrants which the Guarantor will not be obliged to disclose to a purchaser of Warrants.

3.3.1 It may not be possible to use the Warrants as a perfect hedge against the market risk associated with investing in a Reference Item

Potential purchasers intending to purchase Warrants to hedge against the market risk associated with investing in a Reference Item should recognise the complexities of utilising Warrants in this manner. For example, the value of the Warrants may not exactly match the value of the Reference Item. Due to fluctuating supply and demand for the Warrants, there is no assurance that their value will match movements in the value of the Reference Item. For these reasons, among others, it may not be possible to purchase or liquidate Warrants in a portfolio at the prices used to calculate the value of any Reference Item.

3.3.2 There may be regulatory consequences to the holder of holding Warrants linked to a certain Reference Item

There may be regulatory and other consequences associated with the ownership by certain purchasers of Warrants linked to a certain Reference Item. Each purchaser of Warrants must conduct its own investigation into its regulatory position with respect to the potential purchase of Warrants, and neither the Issuer nor the Guarantor assumes any obligation or liability whatsoever to such purchaser in such regard.

3.3.3 There are specific risks with regard to Warrants with a combination of Reference Items

An investment in Warrants with a combination of Reference Items will entail significant risks. A combination of the risks associated to the Reference Items may be significantly higher than the risks of each Reference Item considered on its own. On exercise of this type of Warrant, the Warranholders will receive a Cash Settlement Amount or Entitlement (if any) determined by reference to the value of a combination of a number of different Reference Items.

3.3.4 A Warrabtgikder dies bit gave rights of ownership in the Reference Item(s)

Purchasers of Warrants should be aware that the relevant Reference Item(s) will not be held by the Issuer for the benefit of the purchasers of such Warrants, and as such, purchasers will not obtain any rights of ownership, including, without limitation, any voting rights, any rights to receive dividends or other distributions or any other rights with respect to any Reference Item referenced by such Warrants. For the avoidance of doubt, no BBVA affiliate is under any obligation whatsoever to acquire and hold any Reference Item. As a result, warranholders will not be able to exercise rights they would have as owner or have any recourse to any issuer of a Reference Item.

3.3.5 The past performance of a Reference Item is not indicative of future performance

Any information about the past performance of the Reference Item at the time of the issue of the Warrants should not be regarded as indicative of the range of, or trends in, fluctuations in the Reference Item that may occur in the future. It is therefore possible that the future performance of a Reference Item may differ form and be worse than, such past performance.

3.3.6 There are specific risks Risks relating to Index Linked Warrants

RISK FACTORS

The Issuer may issue Warrants where the Settlement Amount (if any) is dependent upon the level of an index or indices (“**Index Linked Warrants**”).

Potential investors in any such Warrants should be aware that depending on the terms of the Index Linked Warrants (i) settlement may occur at a different time than expected and (ii) they may lose all substantial portion of their investment if the value of the index/indices does not move in the anticipated direction. In addition, movements in the level of the index or indices may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices and the timing of changes in the relevant level of the index or indices may affect the return to investors, even if the average level is consistent with their expectations.

If the Settlement Amount (if any) is determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the level of the index or the indices on the amount of potential losses incurred, will be magnified. See also risk factor “There are Risks Associated with Leveraged Exposures” above.

The market price of such Warrants may be volatile and may depend on the time remaining to the exercise date and the volatility of the level of the index or indices. The level of the index or indices may be affected by the economic, financial and political events in one or more jurisdictions, including the stock exchange(s) or quotation system(s) on which any securities comprising the index or indices may be traded. The index may reference equities, bonds or other securities, or it may be a property index referencing certain property price data which will be subject to market price fluctuations. A property index may include valuations only and not actual transactions and the property data sources used to compile the index may be subject to change, which may adversely affect the return on the Warrants.

Adjustment to indices for Index Linked Warrants

If an index adjustment event (as described in “*Additional Terms and Conditions for Index Linked Warrants*”) occurs the Issuer may require the Calculation Agent to make such adjustments as it determines appropriate to the terms of the Warrants or cancel the Warrants. Such action may have an adverse effect on the value and liquidity of the affected Warrants.

A change in the composition or discontinuance of an index could adversely affect the market value of the Warrants

The sponsor of any index can add, delete or substitute the components of such index or make other methodological changes that could change the level of one or more components. The changing of components of any index may affect the level of such index as a newly added component may perform significantly worse or better than the component it replaces, which in turn may affect the payments made by the Issuer to the purchasers of the Warrants. The sponsor of any such index may also alter, discontinue or suspend calculation or dissemination of such index. The sponsor of an index will have no involvement in the offer and sale of the Warrants and will have no obligation to any purchaser of such Warrants. The sponsor of an index may take any actions in respect of such index without regard to the interests of the purchasers of the Warrants, and any of these actions could adversely affect the market value of the Warrants.

3.3.7 The Issuer and/or the Guarantor may have confidential information relating to the Reference Item and the Warrants

The Issuer and/or the Guarantor or its affiliates may from time to time, by virtue of their status as underwriter, advisor or otherwise, possess or have access to information relating to the Warrants, the Reference Item and any derivatives referencing them. Such affiliates will not be obliged to disclose any such information to a purchaser of the Warrants provided that when such information constitutes inside information for the purposes of the Market Abuse Regulation 596/2014 (“**MAR**”), then the provisions of MAR and of any other conduct rules will be of application in relation to the same.

3.3.8 *The value of Warrants linked to a relevant Reference Item may be influenced by unpredictable factors*

The value of the Warrants may be influenced by several factors beyond the Issuer’s, and/or its Affiliates and, where applicable, the Guarantor’s control including:

- (a) Valuation of the relevant Reference Item. The value of a Warrant at any time is expected to be affected primarily by changes in the level of the relevant Reference Item to which the Warrants are linked. It is impossible to predict how the level of the relevant Reference Item will vary over time. The historical performance value (if any) of the relevant Reference Item does not indicate the future performance of the relevant Reference Item. Factors which may have an effect on the value of the relevant Reference Item

include the rate of return of the relevant Reference Item and, where relevant, the financial position and prospects of the issuer of the relevant Reference Item, the market price or value of the applicable underlying security, index,

RISK FACTORS

fund (including mutual funds and hedge funds) exchange traded fund (“ETF”) or basket of securities, indices, funds (including mutual funds and hedge funds) or ETFs. In addition, the level of the relevant Reference Item may depend on a number of inter-related factors, including economic, financial and political events and their effect on the capital markets generally and relevant stock exchanges. Potential purchasers should also note that whilst the value of the Warrants is linked to the relevant Reference Item and will be influenced (positively or negatively) by the relevant Reference Item, any change may not be comparable and may be disproportionate. It is possible that while the relevant Reference Item is increasing in value, the value of the Warrants may fall. Further, the Conditions of the Warrants will allow the Calculation Agent to make adjustments or take any other appropriate action if circumstances occur where the Warrants or any exchanges or price sources are affected by market disruption, adjustment events or circumstances affecting normal activities;

- (b) Volatility. The term “volatility” refers to the actual and anticipated frequency and magnitude of changes of the market price with respect to a relevant Reference Item. Volatility is affected by a number of factors such as macroeconomic factors (i.e. those economic factors which have broad economic effects), speculative trading and supply and demand in the options, futures and other derivatives markets. Volatility of a relevant Reference Item will move up and down over time (sometimes more sharply than at other times) and different relevant Reference Items will most likely have separate volatilities at any particular time;
- (c) Dividend Rates and other Distributions. The value of Warrants could, in certain circumstances, be affected by fluctuations in the actual or anticipated rates of dividend (if any) or other distributions on a relevant Reference Item;
- (d) Creditworthiness. Any prospective purchaser who purchases the Warrants is relying upon the creditworthiness of the Issuer and, if applicable, the Guarantor and has no rights against any other person. If the Issuer or the Guarantor, if applicable, becomes insolvent, purchasers may suffer potential loss of their entire investment irrespective of any favourable development of the other value determining factors, such as a relevant Reference Item; and
- (e) Exchange Rates. Even where payments in respect of the Warrants are not expressly linked to a rate or rates of exchange between currencies, the value of the Warrants could, in certain circumstances, be affected by such factors as fluctuations in the rates of exchange between any currency in which any payment in respect of the Warrants is to be made and any currency in which a relevant Reference Item is traded, appreciation or depreciation of any such currencies and any existing or future or governmental or other restrictions on the exchangeability of such currencies. There can be no assurance that rates of exchange between any relevant currencies which are current rates at the date of issue of the Warrants will be representative of the relevant rates of exchange used in computing the value of the Warrants at any time thereafter.

Some or all of the above factors will influence the price purchasers will receive if a purchaser sells its Warrants prior to exercise. For example, purchasers may have to sell certain Warrants at a substantial discount from the investment amount if the market price or value of the applicable relevant Reference Item is at, below, or not sufficiently above the initial market price or value.

3.4 Risk Factors relating to the structure of a particular issue of Warrants

3.4.1 Purchasers may lose the entire amount paid in respect of the Warrants

Purchasers may lose up to the entire amount of the price paid for the relevant Warrants as a result of the occurrence of any one or more of the following events:

- (a) the Issuer and the Guarantor of the Warrants are subject to insolvency proceedings or some other event impairing the ability of each to meet its obligations under the Warrants;
- (b) the purchaser seeks to sell the relevant Warrants prior to their exercise in full, and the sale price of the Warrants in the secondary market is less than the amount originally paid by such purchaser for the relevant Warrants; and
- (c) the Warrants are subject to certain adjustments in accordance with the terms and conditions of such Warrants that may result in the scheduled amount to be paid or asset(s) to be delivered upon maturity being reduced to or being valued at an amount less than the amount originally paid by such purchaser for the relevant Warrants.

Notwithstanding that the relevant Warrants may be linked to the performance of one or more Reference Items, purchasers of such Warrants do not have and shall not receive any rights in respect of any Reference Item and shall have no right to call for any Reference Item to be delivered to them (unless otherwise provided in the Final Terms). Neither the Issuer nor the Guarantor shall be required to hold any Reference Item.

3.4.2 There are risks associated with leveraged exposures

RISK FACTORS

Leverage involves the use of a number of financial techniques to increase the exposure to a Reference Item, and can therefore magnify both returns and losses. While the use of leverage allows for potential multiples of a return (assuming a return is achieved) when the Reference Item moves in the anticipated direction, it will conversely magnify losses when the Reference Item moves against expectations. If the relevant Warrants include leverage, potential holders of such Warrants should note that these Warrants will involve a higher level of risk, and that whenever there are losses such losses will be higher (other things being equal) than those of a similar Warrant which is not leveraged. Purchasers should therefore only invest in leveraged Warrants if they fully understand the effect of leverage.

3.4.3 If an investor holds Warrants which are not issued in, and/or do not settle in the investor's home currency, that investor will be exposed to movements in exchange rates adversely affecting the value of its holding. In addition, the imposition of exchange controls in relation to any Warrant could result in an investor not receiving payments (if any) on those Warrants

The Issuer will settle the Warrants, and the Guarantor will make any payments under the Guarantee in the Specified Currency or, where Settlement Exchange Rate provisions apply, the Settlement Currency (such currency, the "**Currency of Payment**"). This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than the Currency of Payment. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Currency of Payment or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Currency of Payment would decrease (1) the Investor's Currency equivalent yield on the Warrants, (2) the Investor's Currency equivalent value of the Settlement Amount (if any) payable on the Warrants and (3) the Investor's Currency equivalent market value of the Warrants.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate or the ability of the Issuer or Guarantor to make payments in respect of the Warrants.

3.4.4 There are Certain Considerations Associated with Warrants Linked to Emerging Markets

The Issuer may issue Warrants where the settlement amount (if any) is linked to Reference Items which consist of (i) securities, funds, ETFs or indices comprising securities of issuers that are located in, or subject to regulation in, emerging or developing countries, or (ii) securities which are denominated in the currency of, or are traded in, emerging or developing countries or (iii) currencies of emerging or developing countries. Prospective investors should note that additional risks may be associated with investment in such Warrants, including risks associated with political and economic uncertainty, adverse governmental policies, restrictions on foreign investment and currency convertibility, currency exchange rate fluctuations, possible lower levels of disclosure and regulation, and uncertainties as to the status, interpretation and application of laws including, but not limited to, those relating to expropriation, nationalisation and confiscation. Warrants traded in emerging or developing countries tend to be less liquid and the prices of such securities more volatile. In addition, settlement of trades in some such markets may be slower and more subject to failure than in markets in developed countries.

The probability of the occurrence of a disruption event and consequently loss of investment or profit by an investor may be higher for certain developing or emerging markets.

3.4.5 Where the Warrants are denominated in an emerging market currency or linked to one or more emerging market currencies, such emerging market currencies can be significantly more volatile than currencies of more developed markets

Where the Warrants are issued in or settle in an emerging market currency or linked to one or more emerging market currencies, amounts determined to be due or deliverable in respect of such Warrants may be significantly more volatile and subject to less certainty as to future rates than if the Warrants were linked to currencies of more developed markets, for example emerging markets' currencies are highly exposed to the risk of a currency crisis happening in the future.

In particular, policies or actions of any relevant governments of the jurisdictions of such emerging market currencies to which the warrants may be linked (the "**Currency Jurisdictions**") could adversely affect the relevant exchange rate(s) (such as through market interventions of their central banks or equivalent bodies; governmental action which changes or interferes with currency valuations or currency fluctuations that would otherwise occur in response to economic forces; and restrictions on foreign investment and currency convertibility or movement across borders). Non-governmental action may also directly or indirectly adversely affect the relevant exchange rates (such as through weak overall growth and performance of each applicable Currency Jurisdiction's economy and stock exchanges; political, economic and social uncertainty, including risks of nationalisation and expropriation of assets and natural disasters; or wars which affect any Currency Jurisdiction directly or indirectly).

RISK FACTORS

Investors should note that the risk of occurrence and the severity of consequence of the matters described above may be greater with respect to any emerging market jurisdiction than they otherwise would be in relation to more developed countries. Economies in emerging markets are generally more heavily dependent upon international trade, and accordingly, may be affected adversely by trade barriers, foreign exchange controls

(including taxes), managed adjustments in relative currency values and other protectionist measures imposed or negotiated with countries with which they trade.

The occurrence of any of the above circumstances may have an adverse effect on the value of the Warrants and amounts due (if any) or assets deliverable (if any), or the date for payment thereunder.

Additionally, investors should note that if a disruption event occurs which prohibits or prevents the Issuer from making a payment in respect of the Warrants, such payment will be postponed to a date falling 14 calendar days after the date on which such disruption event is no longer occurring and no interest shall accrue or Event of Default occur as a result of such postponement. In the event that the disruption event is continuing on the date which is one year after the last scheduled payment date in respect of the Warrants, the Issuer shall make payment of the relevant amount U.S. dollars or euros.

3.4.6 Warrants may be issued in one currency and settled in another currency

If the Issue Terms specify that the Settlement Exchange Rate Provisions are applicable, then such Warrants are issued in one currency but all amounts due thereunder (if any) are settled in another currency (the “**Settlement Currency**”). As such, the applicable amounts are converted by converting such amounts by reference to the applicable Settlement Exchange Rate specified in the applicable Issue Terms or, if not so specified, determined by the Calculation Agent in accordance with the terms and conditions of the Warrants.

If the currency of issue depreciates against the Settlement Currency, this will reduce the Settlement Currency amounts received (if any) under the Warrants

Investors should understand, where a fixed Settlement Exchange Rate is not specified in the Issue Terms, that neither the Issuer nor the Guarantor have control over the Settlement Exchange Rate and will not make any adjustment or change in the terms of the Warrants in the event that exchange rates should become fixed, or in the event of any devaluation or revaluation or imposition of exchange or other regulatory controls or taxes, or in the event of other developments affecting the settlement currency, the settlement currency or any foreign currency. Investors will bear those risks. In addition, if an Unscheduled Holiday or a Price Source Disruption occurs in respect of the applicable Settlement Exchange Rate, the applicable disruption fallbacks may provide that the scheduled settlement exchange rate valuation date for such rate will be postponed, then this may result in deferral of the corresponding settlement date under the Warrants. If a date for payment is so postponed, this could adversely affect an investor’s investment schedule, timetable or plans as they will receive settlement amounts (if any) in respect of the Warrants later than the originally scheduled date for payment. No interest will accrue or other amount will be payable by the Issuer in the event of any such delay.

3.4.7 If a Reference Item Linked Note includes Market Disruption Events or Failure to Open of an Exchange and the Calculation Agent determines such an event has occurred, any consequential postponement of the Valuation Date, Observation Date, Automatic Early Expiration Valuation Date, Knock-in Determination Day, Knock-out Determination Day or an Averaging Date may have an adverse effect on the Warrants

If an issue of Warrants includes provisions dealing with the occurrence of a Market Disruption Event or failure to open of an exchange on a Valuation Date, Observation Date, Automatic Early Expiration Valuation Date, Knock-in Determination Day, Knock-out Determination Day or an Averaging Date and the Calculation Agent determines that a Market Disruption Event or failure to open of an exchange has occurred or exists on such date, any consequential postponement of the Valuation Date, Observation Date, Automatic Early Expiration Valuation Date, Knock-in Determination Day, Knock-out Determination Day or Averaging Date or any alternative provisions for valuation provided in any such Warrants may have an adverse effect on the value of such Warrants. The timing of such dates (as scheduled or as so postponed or adjusted) may affect the value of the relevant Warrants such that the Warrantholder may receive a lower cash Settlement Amount or other payment under the relevant Warrants than otherwise would have been the case. The occurrence of such a Market Disruption Event or failure to open of an exchange in relation to any Reference Item comprising a basket may also have such an adverse effect on Warrants related to such basket. In addition, any such

consequential postponement may result in the postponement of the date of settlement of the Warrants. These details of the events are described in the Annexes

3.4.8 There are risks associated with Physical Delivery Warrants

In the case of Physical Delivery Warrants, if a Settlement Disruption Event occurs or exists on the Settlement Date,

RISK FACTORS

settlement will be postponed until the next Settlement Business Day in respect of which there is no Settlement Disruption Event. The Issuer in these circumstances also has the right to pay the Disruption Cash Settlement Price in lieu of delivering the Entitlement. As further described below, the Disruption Cash Settlement Price may be less than the fair market value of the Entitlement.

3.4.9 Warrantholders may be required to pay certain Taxes and Expenses in relation to Warrants subject to Physical Delivery

Holder of Physical Delivery Warrants must pay all Taxes and Expenses relating to delivery of such Warrants. As defined in General Condition 3(e) Physical Delivery Warrants), “**Expenses**” means, in this Risk Factor, any expenses, costs or charges or other payments (including depository, custodial, registration, transaction and exercise charges) incurred by the Issuer in respect of the delivery of the Entitlement, and “**Taxes**” means, in this Risk Factor, all applicable stamp tax, stamp duty reserve tax, estate, inheritance, gift, transfer, capital gains, corporation, income, property, withholding, other taxes, duties and charges incurred by the Issuer in respect of the delivery of the Entitlement.

3.4.10 There are certain requirements to be fulfilled and payments to be made by the holder in order to receive Physical Delivery Warrants and failure to comply with such requirements may lead to the Warrant becoming void

In order to receive the Entitlement in respect of a Physical Delivery Warrant, the holder of such Warrant must deliver or send to the relevant Warrant Agent (in the case of any Bearer Warrants) or to the Registrar (in the case of any Registered Warrants), with a copy to the Calculation Agent, of an Exercise Notice on or prior to the relevant time on the relevant cut-off date and pay the relevant Taxes and Expenses. In the case of a Warrantholder participating in a Global Warrant or Global Warrant Certificate, the relevant Exercise Notice must be delivered to the relevant Clearing System(s) in accordance with their respective rules and procedures. If such Exercise Notice is not delivered before the relevant deadline, the Warrant shall become void.

3.4.11 There are risks associated with Warrants to which Option to Vary Settlement applies

If so indicated in the Issue Terms, the Issuer may, in its sole and absolute discretion, elect to vary the settlement of the Warrants, by (i) in the case of Cash Settled Warrants, delivering or procuring delivery of the Entitlement instead of making payment of the Settlement Amount to the relevant Warrantholders or (ii) in the case of Physical Delivery Warrants, making payment of the Settlement Amount to the relevant Warrantholders instead of delivering or procuring delivery of the Entitlement.

3.4.12 Currency exchange conversions may affect payments on some Warrants

Warrants may be issued and settled in a currency (the “**Currency**”) that is not the same currency or currency unit as that in which a purchaser’s financial activities are denominated (the “**Purchaser’s Currency**”). This gives rise to certain risks, including the risk that exchange rates may significantly change (including changes due to devaluation of the Currency or revaluation of the Purchaser’s Currency) and the risk that authorities with jurisdiction over the Purchaser’s Currency may impose or modify exchange controls. An appreciation in the value of the Purchaser’s Currency relative to the Currency would decrease the Purchaser’s Currency equivalent value of the Warrants.

3.4.13 Option to Substitute Assets or to Pay the Alternate Cash Amount

The Issuer may, in its sole and absolute discretion, if the Calculation Agent determines (in its sole and absolute discretion) that the Relevant Asset or Relevant Assets, as the case may be, comprise assets which are not freely tradable, elect either (i) to substitute a Substitute Asset or Substitute Assets, as the case may be, for the Relevant Asset or Relevant Assets or (ii) not to deliver or procure the delivery of the Entitlement or the Substitute Asset or Substitute Assets, as the case may be, to the relevant holders, but in lieu thereof to make payment to the relevant holders on the Settlement Date of the Alternate Cash Amount.

3.5 Risk Factors regarding the Warrants generally

3.5.1 Claims of Holders under the Warrants are effectively junior to those of certain other creditors

The BRRD and Law 11/2015 contemplate that Warrants may be subject to the application of the general bail-in tool.

In addition the Warrants and any guarantee in respect of them (the “**Guarantees**”) are unsecured and unsubordinated obligations of the Issuer and the Guarantor, respectively. Subject to statutory preferences, the Warrants and the Guarantees will rank equally with any of the Issuer’s and the Guarantor’s other unsecured and

RISK FACTORS

unsubordinated indebtedness. However, the Warrants and the Guarantees will be effectively subordinated to all of, respectively, the Issuer's and the Guarantor's secured indebtedness, to the extent of the value of the assets securing such indebtedness, and other preferential obligations under Spanish law.

3.5.2 An active secondary market in respect of the Warrants may never be established or may be illiquid and this would adversely affect the value at which an investor could sell his Warrants

Warrants may be unlisted or listed on a recognised stock exchange and there can be no assurance regarding the ability of holders of Warrants to sell their Warrants or the price at which they may be able to do so. Warrants may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. Therefore, investors may not be able to sell their Warrants easily or at prices that will provide them with a return comparable to similar investments that have a developed secondary market. This is particularly the case for Warrants that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. Illiquidity may have a severely adverse effect on the market value of Warrants.

3.5.3 The Calculation Agent, which will generally be the Guarantor or an affiliate of the Guarantor, has broad discretionary powers which may not take into account the interests of the Warrantholders

As the Calculation Agent will generally be the Guarantor or an affiliate of the Guarantor, potential conflicts of interest may exist between the Calculation Agent and the Warrantholders, including with respect to the exercise of the very broad discretionary powers of the Calculation Agent. For example, the Calculation Agent has the authority (i) to determine whether certain specified events and/or matters so specified in the conditions relating to a Series of Warrants have occurred and (ii) to determine any resulting adjustments and calculations or substitutions as described in such conditions. Potential purchasers should be aware that any determination made by the Calculation Agent may have an impact on the value and financial return of the Warrants. Any such discretion exercised by, or any calculation made by, the Calculation Agent (in the absence of manifest or proven error) shall be binding on the relevant Issuer and all Warrantholders.

3.5.4 Warrants may be amended without the consent of the Warrantholders or with the consent of only some of the Warrantholders binding all the Warrantholders

Subject as provided below, the Terms and Conditions of the Warrants may be amended by the Issuer and the Guarantor with the approval of the Principal Warrant Agent but without the consent of the Warrantholders if the amendment relates to:

- (b) any modification of the Warrants or the Warrant Agreement which is not materially prejudicial to the interests of the Warrantholders; or
- (c) any modification of the Warrants or the Warrant Agreement which is of a formal, minor or technical nature or is made to cure, correct or supplement any defective provision or is made to correct a manifest or proven error or to comply with mandatory provisions of the law of the jurisdiction in which the Issuer or the Guarantor are incorporated or the law governing the Warrants.

In addition, other changes may be made to the terms and conditions with the consent of the Warrantholders. In order to make such changes without the unanimous consent of all the Warrantholders of the relevant Series, the Issuer requires the consent of not less than three quarters of the votes cast in respect of a resolution voted on at a meeting of Warrantholders convened for such purpose. Any such meeting will be quorate if at least one more than half (or three quarters, in the case of certain reserved matters) of the aggregate number of outstanding Warrants of the relevant Series are represented, and in the case of an adjourned meeting, one quarter. Any dissenting Warrantholders will be bound by such changes. Therefore the Issuer may be able to make a change which some Warrantholders of the relevant Series have not consented to if the relevant portion of Warrantholders of the entire Series of Warrants has consented to the change.

3.5.5 Potential conflicts of interest relating to distributors or other entities involved in the offer or listing of the Warrants

Potential conflicts of interest may arise in connection with the Warrant, as any distributors or other entities involved in the offer and/or the listing of the Warrants as indicated in the Final Terms, may act pursuant to a mandate from the Issuer and/or the Guarantor and may receive commissions and/or fees on the basis of the services performed in relation to such offer and/or listing.

3.5.6 The Issuer of the Warrants may be substituted without the consent of the Warrantholders

The Issuer of the Warrants may be replaced as obligor under such Warrants with the Guarantor or any company from BBVA's group. Warrantholders will not have the right to object to such substitution. See General Condition 12(a) (Substitution of the Issuer).

RISK FACTORS

3.5.7 The Guarantor of the Warrants may be substituted without the consent of the Warrantholders

The Guarantor of the Warrants may be replaced as guarantor under such Warrants with another company incorporated anywhere in the world. Warrantholders will not have the right to object to such substitution. See General Condition 12(b) (Substitution of the Guarantor).

3.5.8 The value of the Warrants could be adversely affected by a Change in English Law or administrative practice

The Conditions of the Warrants are governed by English law, or in the case of the Guarantee, Spanish law, in effect as at the date of this Base Prospectus. No assurance can be given as to the impact of any possible judicial decision or change to an administrative practice or change to English law or Spanish law, as applicable, after the date of this Base Prospectus.

3.5.9 The Issue Price of the Warrants may be more than the market value of such Warrants as at the Issue Date and the price of the Warrants in the secondary market

The Issue Price in respect of any Warrant specified in the relevant Issue Terms may be more than the market value of such Warrants as at the Issue Date, and more than the price, if any, at which the Dealer or any other person is willing to purchase such Warrants in the secondary market. In particular, the Issue Price in respect of any Warrants may take into account amounts with respect to commissions relating to the issue, placement and sale of such Warrants and amounts relating to the hedging of the Issuer's obligations under such Warrants.

Any such difference may have an adverse effect on the value of the Warrants, particularly immediately following the Issue Date relating to such Warrants, where any such commissions may be deducted from the price at which such Warrants can be sold by the initial investor in the secondary market.

3.5.10 Because the Warrants may be held by or on behalf of Euroclear or Clearstream, Luxembourg purchasers will have to rely on their procedures for transfer, payment and communication with the Issuer

Warrants issued under the Program may be represented by one or more temporary global warrants (each a "**Temporary Global Warrant**") or permanent global warrants (each a "**Permanent Global Warrant**" and together with the Temporary Global Warrant, the "**Global Warrants**"). Such Global Warrants may be deposited with a common depository or common safekeeper for Euroclear and Clearstream, Luxembourg. Except in the circumstances described in the relevant Global Warrant, purchasers will not be entitled to receive definitive Warrants. Euroclear and Clearstream, Luxembourg will maintain records of the beneficial interests in the Global Warrants. While the Warrants are represented by one or more Global Warrant, purchasers will be able to trade their beneficial interests only through Euroclear or Clearstream, Luxembourg.

3.5.11 U.S. Foreign Account Tax Compliance Act Withholding

Whilst the Warrants are in global form and held within the Clearing Systems, in all but the most remote circumstances it is not expected that the new reporting regime and potential withholding tax imposed by Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986 ("**FATCA**") will affect the amount of any payment received by the Clearing Systems (see "**Taxation—Foreign Account Tax Compliance Act**").

However, FATCA may affect payments made to custodians or intermediaries in the subsequent payment chain leading to the ultimate investor if any such custodian or intermediary generally is unable to receive payments free of FATCA withholding. It also may affect payment to any ultimate investor that is a financial institution that is not entitled to receive payments free of withholding under FATCA, or an ultimate investor that fails to provide its broker (or other custodian or intermediary from which it receives payment) with any information, forms, other documentation or consents that may be necessary for the payments to be made free of FATCA withholding. Investors should choose custodians or intermediaries with care (to ensure each is compliant with FATCA or other laws or agreements related to FATCA) and provide each custodian or intermediary with any information, forms, other documentation or consents that may be necessary for such custodian or intermediary to make a payment free of FATCA withholding. Investors should consult their own tax adviser to obtain a more detailed explanation of FATCA and how FATCA may affect them. The Issuer's obligations under the Warrants are discharged once it has made payment to, or to the order of, the common depository or common safekeeper for the Clearing Systems and the Issuer has therefore no responsibility for any amount thereafter transmitted through the Clearing Systems and custodians or intermediaries. Further, foreign financial institutions in a jurisdiction which has entered into an intergovernmental agreement with the United States (an "**IGA**") are generally not expected to be required to withhold under FATCA or an IGA (or any law implementing an IGA) from payments they make.

3.5.12 Hiring Incentives to Restore Employment Act withholding may affect payments on the Warrants

The U.S. Hiring Incentives to Restore Employment Act introduced Section 871(m) of the Code, which imposes a 30 per cent. withholding tax on amounts attributable to U.S. source dividends that are paid or "deemed paid" under certain financial instruments if certain conditions are met, beginning 1 January 2017. If the Issuer or any

RISK FACTORS

withholding agent determines that withholding is required, neither the Issuer nor any withholding agent will be required to pay any additional amounts with respect to amounts so withheld. Prospective investors should consult their tax advisers regarding the potential application of Section 871(m) to the Warrants.

3.5.13 Spanish Tax Rules

If according to certain criteria issued by the Spanish tax authorities, a particular warrant cannot be considered as an option for Spanish tax purposes but as a financial asset, any gain or loss deriving from the warrant will qualify as income obtained from the use of third party capital rather than a capital gain or loss. If this is the case, reporting obligations would be applicable and if they would not be met, payments would be made net of the applicable Spanish withholding tax (this is currently at the rate of 19%), as described in “Spanish Taxation

(B) Alternative Spanish Tax Treatment” on page 251.

The procedure described in this Base Prospectus for the provision of information required by Spanish laws and regulations if a particular warrant is considered as a financial asset is a summary only and none of the Issuer, the Guarantor or the Dealers, assumes any responsibility therefore. In the event that the currently applicable procedures are modified, amended or supplemented by, among other things, any Spanish law, regulation, interpretation or ruling of the Spanish tax authorities, the relevant Issuer will notify the holders of such information procedures and their implications, as the relevant Issuer may be required to apply withholding tax on distributions in respect of the relevant securities if the holders do not comply with such information procedures. Warrant holders must seek their own advice to ensure that the relevant procedures comply with the correct tax treatment of their warrants.

3.5.14 Effect on the Warrants of hedging transactions by the Issuer

The Issuer may use a portion of the total proceeds from the sale of the Warrants for transactions to hedge the risks of the Issuer relating to the Warrants. In such case, the Issuer or any of its Affiliates may conclude transactions that correspond to the obligations of the Issuer under the Warrants. As a rule, such transactions are concluded prior to or on the issue date of the relevant Warrants, but it is also possible to conclude such transactions after such date. On or before a valuation date the Issuer or any of its Affiliates may take the steps necessary for closing out any hedging transactions. It cannot, however, be ruled out that the price of a relevant Reference Item will be influenced by such transactions. Entering into or closing out these hedging transactions may influence the probability of occurrence or non-occurrence of determining events in the case of Warrants with a value based on the occurrence of a certain event in relation to a relevant Reference Item.

3.5.15 Limitations on exercise of Warrants

If so indicated in the Issue Terms, the Issuer will have the option to limit the number of Warrants exercisable on any date (other than the final exercise date) to the maximum number specified in the Issue Terms and, in conjunction with such limitation, to limit the number of Warrants exercisable by any person or group of persons (whether or not acting in concert) on such date. In the event that the total number of Warrants being exercised on any date (other than the final exercise date) exceeds such maximum number and the Issuer elects to limit the number of Warrants exercisable on such date, a Warrant holder may not be able to exercise on such date all the Warrants that such Warrant holder desires to exercise. In any such case, the number of Warrants to be exercised on such date will be reduced until the total number of Warrants exercised on such date no longer exceeds such maximum, such Warrants being selected at the discretion of the Issuer or in any other manner specified in the Issue Terms. Unless otherwise specified in the Issue Terms, the Warrants tendered for exercise but not exercised on such date will be automatically exercised on the next date on which Warrants may be exercised, subject to the same daily maximum limitation and delayed exercise provisions.

3.5.16 Minimum exercise amount of Warrants

If so indicated in the Issue Terms, a Warrant holder must tender or, in the case of automatic exercise, hold, a specified number of Warrants at any one time in order to exercise. Thus, Warrant holders with fewer than the specified minimum number of Warrants will either have to sell their Warrants or purchase additional Warrants, incurring transaction costs in each case, in order to realise their investment. Furthermore, holders of such

Warrants incur the risk that there may be differences between the trading price of such Warrants and the Cash Settlement Amount (in the case of Cash Settled Warrants) or the value of the Entitlement (in the case of Physical Delivery Warrants) of such Warrants.

3.5.17 Time lag after exercise of Warrants

In the case of any exercise of Warrants, there will be a time lag between the time that a Warrant holder gives instructions to exercise and the time the applicable Cash Settlement Amount (in the case of Cash Settled Warrants) or the value of the Entitlement (in the case of Physical Delivery Warrants) relating to such exercise is determined. Any such delay between the time of exercise and the determination of the Cash Settlement Amount or value of the

RISK FACTORS

Entitlement will be specified in the Issue Terms. However, such delay could be significantly longer, particularly in the case of a delay in the exercise of Warrants arising from any daily maximum exercise limitation, the occurrence of a Market Disruption Event or the failure to open of an exchange (if applicable) or following the imposition of any exchange controls or other similar regulations affecting the ability to obtain or exchange any relevant currency (or basket of currencies) in the case of Foreign Exchange (FX) Rate Linked Warrants. The applicable Cash Settlement Amount or Entitlement may change significantly during any such period, and such movement or movements could decrease the Cash Settlement Amount or Entitlement of the relevant Warrants, and may result in such Cash Settlement Amount or Entitlement being zero.

4. There are specific risks relating to Inflation Linked Warrants

The Issuer may issue Warrants where the Settlement Amount (if any) is dependent upon the level of an inflation index or indices (“**Inflation Linked Warrants**”).

Potential investors in any such Warrants should be aware that depending on the terms of the Inflation Linked Warrants (i) settlement may occur at a different time than expected and (ii) they may lose all or a substantial portion of their investment. In addition, the movements in the level of the inflation index or indices may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices and the timing of changes in the relevant level of the inflation index or indices may affect the return to investors, even if the average level is consistent with their expectations. In certain circumstances following cessation of publication of the inflation index, the Calculation Agent may determine that there is no appropriate alternative inflation index, in which case the Issuer may cancel the Warrants. Such action may have an effect on the value of the Warrants.

If the Settlement Amount (if any) is determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the price of the share or shares on the amount of potential losses will be magnified. See also risk factor “*There are Risks Associated with Leveraged Exposures*” above.

The market price of such Warrants may be volatile and may depend on the time remaining to the exercise date and the volatility of the level of the inflation index or indices. The level of the inflation index or indices may be affected by the economic, financial and political events in one or more jurisdictions.

5. The Issuer, the Guarantor and its affiliates may take positions in or deal with Reference Item(s)

The Issuer, the Guarantor and its affiliates may:

- (a) in the ordinary course of business, effect transactions for their own account or for the account of their customers and hold long or short positions in the Reference Item(s) or related derivatives;
- (b) in connection with an offering of Warrants, enter into one or more hedging transactions with respect to the Reference Item(s) or related derivatives; and/or
- (c) in connection with such hedging or market-making activities or with respect to proprietary or other trading activities, enter into transactions in the Reference Item(s) or related derivatives which may adversely (or positively) affect the price, liquidity or value of the relevant Warrants and which could therefore be adverse to the interests of the relevant Warrant holders.

Warrants may be issued in bearer form (“**Bearer Warrants**”) or in registered form (“**Registered Warrants**”).

(a) Form and Title

(i) Bearer Warrants

- (A) *Form*: Each tranche of Warrants in global bearer form (a “**Global Warrant**”) will be initially issued in the form of a temporary global warrant (a “**Temporary Global Warrant**”) or a permanent global warrant (a “**Permanent Global Warrant**”) as indicated in the Issue Terms which will be delivered on or prior to the original issue date to a common depository for Euroclear and Clearstream, Luxembourg. Bearer Warrants in definitive form will be serially numbered.
- (B) *Title*: Title to the Bearer Warrants will pass by delivery. “**Warrantholder**” or “**holder**” means the holder of such Bearer Warrant.
- (C) *Ownership*: The holder of any Bearer Warrant shall (except as otherwise required by law) be treated as its absolute owner for all purposes (regardless of any notice of ownership, trust or any other interest therein, any writing thereon or any notice of any previous loss or theft thereof) and no person shall be liable for so treating such holder.

(ii) Registered Warrants

- (A) *Form*: Registered Warrants may be evidenced by either an individual certificate if in definitive form (“**Individual Warrant Certificate**”) or a global certificate if in global form (“**Global Warrant Certificate**”).
- (B) *Title*: Title to the Registered Warrants passes by registration in the register which is kept by the Registrar in accordance with the provisions of the Warrant Agreement (the “**Register**”). A certificate (a “**Warrant Certificate**”) will be issued to each holder of Registered Warrants in respect of its registered holding. Each Warrant Certificate will be numbered serially with an

identifying number which will be recorded in the Register. “**Warrantholder**” or “**holder**” means the person in whose name such Registered Warrant is for the time being registered in the Register (or, in the case of a joint holding, the first named thereof).

- (C) *Ownership*: The holder of any Registered Warrant shall (except as otherwise required by law) be treated as its absolute owner for all purposes (regardless of any notice of ownership, trust or any other interest therein, any writing thereon or on the Warrant Certificate relating thereto (other than the endorsed form of transfer) or any notice of any previous loss or theft thereof) and no person shall be liable for so treating such holder.

(b) Transfers of Warrants

- (i) *Transfers*: Subject to General Conditions 1(b)(iv) (*Closed Periods*) and 1(b)(v) (*Regulations concerning transfers and registration*) below, a Registered Warrant may be transferred upon surrender of the relevant Warrant Certificate, with the endorsed form of transfer duly completed, at the specified office of the Registrar or any Transfer Agent, together with such evidence as the Registrar or (as the case may be) such Transfer Agent may reasonably require to prove the title of the transferor and the authority of the individuals who have executed the form of transfer. Where not all the Registered Warrants represented by the surrendered Warrant Certificate are the subject of the transfer, a new Warrant Certificate in respect of the balance of the Registered Warrants will be issued to the transferor.
- (ii) *Registration and Delivery*: Within five business days of the surrender of a Warrant Certificate in accordance with General Condition 1(b)(i) (*Transfers*) above, the Registrar will register the transfer in question and deliver a new Warrant Certificate of a like number or nominal amount to the Registered Warrants transferred to each relevant holder at its specified office or (as the case may be) the specified office of any Transfer Agent or (at the request and risk of any such relevant holder) by uninsured first class mail (airmail if overseas) to the address specified for the purpose by such relevant holder. In this General Condition 1(b)(ii) (*Registration and Delivery*), “**business day**” means a day on which commercial banks are open for general business (including dealings in foreign currencies) in the city where the Registrar or (as the case may be) the relevant Transfer Agent has its specified office.
- (iii) *No charge*: The transfer of a Registered Warrant will be effected without charge by or on behalf of the Issuer or the Registrar or any Transfer Agent but against such indemnity as the Registrar or (as the case may be) such Transfer Agent may require in respect of any tax or other duty of whatsoever nature which may be levied or imposed in connection with such transfer.
- (iv) *Closed Periods*: Holders of Registered Warrants may not require transfers to be registered during the period of 15 days ending on the due date for any payment or on the due date for delivery of any Reference Item in respect of the Registered Warrants.
- (v) *Regulations concerning transfers and registration*: All transfers of Registered Warrants and entries on the Register are subject to the detailed regulations concerning the transfer of Registered Warrants scheduled to the Warrant Agreement. The regulations may be changed by the Issuer with the prior written approval of the Registrar. A copy of the current regulations will be mailed (free of charge) by the Registrar to any holder of Registered Warrants who requests in writing a copy of such regulations.

(c) General provisions relating to the Warrants

Warrants will be issued in an “**Aggregate Number of Warrants**” on the Issue Date as specified in the Issue Terms. The “**Notional Amount per Warrant**”, the “**Aggregate Notional Amount of the Series**” and the “**Aggregate Notional Amount of the Tranche**” may each be included for information purposes as an amount in the Specified Currency as specified in the Issue Terms. The Notional Amount per Warrant may be an amount in the Specified Currency that is different from the Issue Price for such Warrant and may be set out in the Issue Terms. The Issue Price per Warrant will be the amount in the Specified Currency specified in the Issue Terms and may also be expressed as a percentage of the Notional Amount per Warrant. If so specified in the Issue Terms, interests in any Warrants will be transferable in a minimum amount of such number of Warrants (the “**Minimum Transfer Number**”) as is specified in the Issue Terms.

Warrants may not be offered, sold, delivered or otherwise transferred at any time within the United States or for the account or benefit of U.S. persons (as such are used in Regulation S under the Securities Act or, in the case

TERMS AND CONDITIONS OF THE WARRANTS

of Bearer Warrants, the United States Internal Revenue Code of 1986, as amended, and the CEA) and each Warrant will have a legend to such effect.

2. Status of the Warrants and the Guarantee

(a) Status of the Warrants

The Warrants are direct, unsecured and unsubordinated obligations of the Issuer and rank *pari passu*, without any preference among themselves, with all other outstanding unsecured and unsubordinated obligations of the Issuer present and future, but, in the event of insolvency, only to the extent permitted by applicable laws relating to creditor's right.

In the event of insolvency of the Issuer, the court having jurisdiction to open an insolvency proceeding and the law applicable to those proceedings and their effects will be determined in accordance with the provisions of Council Regulation (EU) No 2015/848, of 20 May 2015, on insolvency proceedings (“**Regulation 1346/2000**”), the Spanish Insolvency Law 22/2003, of 9 July 2003, as amended (the “**Spanish Insolvency Law**”) and the Dutch Insolvency Law (*faillissementswet*) of 30 September 1893, amended (the “**Dutch Insolvency Law**”). Pursuant to these provisions, the courts of the place where the Issuer has its centre of main interests shall have jurisdiction to open insolvency proceedings against it and the law applicable to the insolvency proceedings and their effects will be the law of the place where such proceedings are opened.

Under Regulation 2015/848 the centre of main interests should correspond to the place where the debtor conducts the administration of its interests on a regular basis and is therefore ascertainable by third parties. In the case of a company or legal person, Regulation 2015/848 presumes, in the absence of proof to the contrary, that the place of its registered office is the centre of main interests. Based on this presumption a Dutch court may consider that it has jurisdiction to open insolvency proceedings against the Issuer. Notwithstanding this presumption, it is arguable that the centre of main interests of the Issuer should be considered to be located in Spain and that the Spanish courts should be the courts with jurisdiction to open insolvency proceedings against it. In addition, even if the centre of main interests of the Issuer were not in Spain, Spanish court could still open insolvency proceedings (named territorial insolvency proceedings) if they consider that the Issuer has an establishment within the territory of Spain, the effects of which would be limited to the assets of the Issuer situated in Spain

In the event of insolvency (*faillissement*) of the Issuer declared by a Dutch court (either principal or territorial proceedings), claims relating to Warrants will be *pari passu* claims (*concurrente vorderingen*) as defined in the Dutch Insolvency Law. Ordinary claims rank below claims against the insolvency estate (*boedelschuld*) and claims with a privilege (*voorrecht*). Ordinary claims rank above subordinated credits and the rights of shareholders.

In the event of insolvency (*concurso*) of the Issuer declared by a Spanish court (either principal or territorial insolvency proceedings) claims relating to Warrants (assuming that the Warrantholders are not related to the Issuer under article 92 of the Spanish Insolvency Law) will be ordinary credits (*créditos ordinarios*) as defined in the Spanish Insolvency Law. Ordinary credits rank below credits against the insolvency estate (*créditos contra la masa*) and credits with a privilege (*créditos privilegiados*). Ordinary credits rank above subordinated credits and the rights of shareholders.

(b) Status of the Guarantee

The payment and non-cash delivery obligations in respect of the Warrants have been irrevocably and jointly and severally (*solidariamente*) guaranteed by the Guarantor pursuant to the Guarantee.

The obligations of the Guarantor under the Guarantee constitute direct, unconditional, unsubordinated and unsecured obligations of the Guarantor and rank *pari passu* with all other outstanding unsecured and unsubordinated obligations of the Guarantor, present and future, but, in the event of insolvency, only to the extent permitted by applicable laws relating to creditors' rights.

In the event of insolvency (*concurso*) of the Guarantor, under the Spanish Insolvency Law, claims of Warrantholders (which are not subordinated pursuant to article 92 of the Insolvency law) will be ordinary credits (*créditos ordinarios*) as defined in the Spanish Insolvency Law. Ordinary credits rank below credits against the insolvency estate (*créditos contra la masa*) and privileged credits (*créditos privilegiados*) (including, without limitation, any deposits for the purposes of Additional Provision 14.1 of Law 11/2015) which shall be paid in full before ordinary credits. The claims of all creditors against the Guarantor considered as “ordinary

TERMS AND CONDITIONS OF THE WARRANTS

credits” will be satisfied pro rata in insolvency. Ordinary credits rank above subordinated credits and the rights of shareholders.

The obligations of the Guarantor under the Guarantee are also subject to the application of the general bail-in tool by the Fondo de Reestructuración Ordenada Bancaria or any successor resolution authority (the FROB) pursuant to Law 11/2015.

3. Exercise of Warrants

The Issue Terms will indicate whether the Warrants are American style Warrants (“**American Style Warrants**”), European style Warrants (“**European Style Warrants**”) or Bermudan style Warrants (“**Bermudan Style Warrants**”) and whether settlement shall be by way of cash payment and/or physical delivery. In the case of Warrants which are specified in the Issue Terms to be Cash Settled Warrants, the Issue Terms will also indicate whether automatic exercise (“**Automatic Exercise**”) is applicable.

(a) American Style Warrants

American Style Warrants are exercisable on any Exercise Business Day prior to the expiry of the Exercise Period.

If (i) the Warrants are Cash Settled Warrants and Automatic Exercise is not specified as applying in the Issue Terms or (ii) if the Warrants are Physical Delivery Warrants, any American Style Warrant with respect to which no Exercise Notice (as defined below) has been delivered in the manner set out in General Condition 4 (Exercise Procedure), at or prior to 10.00 a.m. (London time) on the last Exercise Business Day of the Exercise Period (the “**Expiration Date**”), shall become void.

If the Warrants are Cash Settled Warrants (as defined below) and Automatic Exercise is specified as applying in the Issue Terms, any such American Style Warrant shall become void unless automatically exercised on or prior to the Expiration Date. If automatically exercised the provisions of General Condition 4(a) (*Automatic Exercise*) shall apply.

The (i) Exercise Business Day during the Exercise Period on which an Exercise Notice is delivered prior to 10.00 a.m. (Local Time) to the relevant Clearing System and the copy thereof is received by the Principal Warrant Agent or, if the Warrants are Cash Settled Warrants and Automatic Exercise is specified as applying in the Issue Terms, the Exercise Business Day on which the Warrants are automatically exercised, is referred to herein as the “**Actual Exercise Date**”.

If any Exercise Notice is received by the relevant Clearing System or if the copy thereof is received by the Principal Warrant Agent, in each case, after 10.00 a.m. (London time) on any Exercise Business Day during the Exercise Period, such Exercise Notice will be deemed to have been delivered on the next Exercise Business Day, which Exercise Business Day shall be deemed to be the Actual Exercise Date.

(b) European Style Warrants

European Style Warrants are only exercisable on the Specified Exercise Date.

If (i) the Warrants are Cash Settled Warrants and Automatic Exercise is not specified as applying in the Issue Terms or (ii) if the Warrants are Physical Delivery Warrants, any European Style Warrant with respect to which no Exercise Notice has been delivered in the manner set out in General Condition 4 (*Exercise Procedure*), at or prior to 10.00 a.m. (London time) on the Specified Exercise Date, shall become void.

If the Warrants are Cash Settled Warrants and Automatic Exercise is specified as applying in the Issue Terms, any such European Style Warrant shall be automatically exercised on the Specified Exercise Date and the provisions of General Condition 4(a) (*Automatic Exercise*) shall apply.

(c) Bermudan Style Warrants

Bermudan Style Warrants are exercisable on the Potential Exercise Dates specified in the Issue Terms prior to the expiry of the Exercise Period.

If (i) the Warrants are Cash Settled Warrants and Automatic Exercise is not specified as applying in the Issue Terms or (ii) if the Warrants are Physical Delivery Warrants, any Bermudan Style Warrant with respect to which no Exercise Notice (as defined below) has been delivered in the manner set out in General Condition 4 (*Exercise Procedure*), at or prior to 10.00 a.m. (London time) (the “**Latest Exercise**”

TERMS AND CONDITIONS OF THE WARRANTS

Time”), on any Potential Exercise Date on or before the final such Potential Exercise Date (the “**Final Potential Exercise Date**”), shall become void.

If the Warrants are Cash Settled Warrants and Automatic Exercise is specified as applying in the Issue Terms, any such Bermudan Style Warrant shall become void unless previously automatically exercised on any Potential Exercise Date or on the Final Potential Exercise Date. If automatically exercised the provisions of General Condition 4(a) (Automatic Exercise) shall apply.

(d) *Cash Settlement*

Unless previously exercised or purchased and cancelled, if the Warrants are specified in the Issue Terms as being Cash Settled Warrants and, in circumstances where more than one settlement method applies, the Warrants are to be settled by cash settlement (“**Cash Settled Warrants**”), then, each such Warrant entitles its holder, upon due exercise and subject to certification as to non-U.S. beneficial ownership, to receive from the Issuer on the Settlement Date a Cash Settlement Amount calculated by the Calculation Agent (which shall not be less than zero) equal to an amount calculated in accordance with the Issue Terms (the “**Settlement Amount**”) in the currency (the “**Specified Currency**” or subject to the Settlement Exchange Rate Provisions being applicable, the “**Settlement Currency**” as the case may be) specified in the Issue Terms (the “**Cash Settlement Amount**”).

In relation to any Cash Settled Warrants where Automatic Exercise is specified as applying in the Issue Terms, the expressions “**exercise**”, “**due exercise**” and related expressions shall be construed to apply to any such Cash Settled Warrants which are automatically exercised in accordance with the above provisions.

(e) *Payment Disruption*

If “**Payment Disruption Event**” is specified as applicable in the Issue Terms, where the Calculation Agent determines that a Payment Disruption Event has occurred or is likely to occur:

- (A) the next date for payment of any amount due in respect of the Warrants will be postponed to the earliest to occur of (i) the date falling 2 Business Days after the date on which the Calculation Agent determines that Payment Disruption Event is no longer occurring or (ii) the date falling 30 calendar days following the any scheduled due date for payment of the relevant amount (the “**Postponed Settlement Date**”) which, for the avoidance of doubt, may be later than the scheduled Settlement Date. No interest shall accrue and no Event of Default will result on account of such postponement; and
- (B) (i) in the case of (A)(i) above, the Issuer will pay the relevant amount due in respect of the Warrants in the Specified Currency on the Postponed Settlement Date, or (ii) in the case of (A)(ii) above, the Issuer shall give notice to the Warrantholders in accordance with Condition 10, and (i) convert the relevant amount due in respect of the Warrants into U.S. Dollars using the rate of exchange between the Specified Currency and the U.S. Dollar that the Calculation Agent determines 5 Business Days prior to the Postponed Settlement Date and taking into consideration all information that it deems relevant. The Issuer will pay such amount in U.S. Dollars less the cost to the Issuer and/or any of its Affiliates (if any) of unwinding any underlying related hedging arrangements in connection with such Payment Disruption Event and/or the related payment, and the Issuer shall have no further obligations whatsoever under the Warrants or (ii) if the Calculation Agent determines that it is not possible to determine the rate of exchange, the Issuer will settle the Warrants at an amount in U.S. Dollars determined by the Calculation Agent as the fair market value of the Warrants taking into account all factors which the Calculation Agent determines relevant less all costs (if any) incurred by the Issuer and/or any of its Affiliates in connection with the settlement, including, without limitation, any costs associated with unwinding any underlying related hedging arrangements, and all other expenses related thereto, as determined by the Calculation Agent in good faith and in a commercially reasonable manner.

For the purposes of the above, “**Payment Disruption Event**” means an event which (a) prevents, restricts or delays the Issuer from converting or delivering relevant currencies, (b) imposes capital or exchange controls, (c) implements changes to laws relating to foreign investments or, (d) otherwise prohibits or prevents the Issuer from making a payment or performing an obligation required of it as a result of war, catastrophe, governmental action or other event beyond its control, including the relevant currencies exclusion as full settlement currency in the clearing systems where the Warrants settled on the Issue Date.

TERMS AND CONDITIONS OF THE WARRANTS

(f) *Physical Settlement*

- (i) *Physical Delivery Warrants*: If the Warrants are specified in the Issue Terms as being Physical Delivery Warrants and in circumstances where more than one settlement method applied, the Warrants are to be settled by physical delivery (“**Physical Delivery Warrants**”), then upon the exercise of a Warrant by a Warrantholder and subject to certification as to non-U.S. beneficial ownership, the Issuer will deliver or procure the delivery of the Entitlement in respect of such Warrant on the Settlement Date to the account of the Clearing System specified, or as may otherwise be specified for that purpose by such Warrantholder in the relevant Exercise Notice, following payment by such Warrantholder to or to the order of the Issuer on or before the Exercise Price Payment Date of the Exercise Price (plus an amount equal to all applicable stamp tax, stamp duty reserve tax, estate, inheritance, gift, transfer, capital gains, corporation, income, property, withholding, other taxes, duties and charges (“**Taxes**”) or expenses, costs or charges or other payments (including depository, custodial, registration, transaction and exercise charges) (“**Expenses**”) due by reason of the exercise of such Warrant and the purchase for, and credit to or to the order of such Warrantholder of such Entitlement, all as more fully described in General Condition 4 (*Exercise*)). Physical Delivery Warrants may not be automatically exercised.
- (ii) *Settlement Disruption*: If, following the exercise of Physical Delivery Warrants, in the opinion of the Calculation Agent, delivery of the Entitlement is not practicable by reason of a Settlement Disruption Event (as defined below) having occurred and continuing on any Settlement Date, then such Settlement Date for such Warrants shall be postponed to the first following Settlement Business Day in respect of which there is no such Settlement Disruption Event, provided that the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant Warrant by delivering the Entitlement using such other commercially reasonable manner as it may select and in such event the Settlement Date shall be such day as the Issuer deems appropriate in connection with delivery of the Entitlement in such other commercially reasonable manner. For the avoidance of doubt, where a Settlement Disruption Event affects some but not all of the Relevant Assets comprising the Entitlement, the Settlement Date for the Relevant Assets not affected by the Settlement Disruption Event will be the originally designated Settlement Date. In the event that a Settlement Disruption Event will result in the delivery on a Settlement Date of some but not all of the Relevant Assets comprising the Entitlement, the Calculation Agent shall determine in its discretion the appropriate *pro rata* portion of the Exercise Price to be paid by the relevant Holder in respect of that partial settlement. For so long as delivery of the Entitlement is not practicable by reason of a Settlement Disruption Event, then in lieu of physical settlement and notwithstanding any other provision hereof, the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant Warrant by payment to the relevant Holder of the Disruption Cash Settlement Price (as defined below) on the fifth Business Day following the date that notice of such election is given to the holders in accordance with General Condition 10 (Notices). Payment of the Disruption Cash Settlement Price will be made in such manner as shall be notified to the holders in accordance with General Condition 10 (Notices). The Calculation Agent shall give notice as soon as practicable to the holders in accordance with General Condition 10 (Notices) that a Settlement Disruption Event has occurred. No Holder shall be entitled to any payment in respect of the relevant Warrant in the event of any delay in the delivery of the Entitlement due to the occurrence of a Settlement Disruption Event and no liability in respect thereof shall attach to the Issuer or the Guarantor.

For the purposes hereof:

“**Disruption Cash Settlement Price**” in respect of any relevant Warrant shall be the fair market value of such Warrant (disregarding, where the Settlement Disruption Event affected some but not all of the Relevant Assets comprising the Entitlement and such non-affected Relevant Assets have been duly delivered as provided above, the value of such Relevant Assets), less the cost to the Issuer and/ or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Issuer in its sole and absolute discretion, plus, if applicable and if already paid, the Exercise Price (or, whereas provided above some Relevant Assets have been delivered, and a *pro rata* portion thereof has been paid, such *pro rata* portion);

“**Settlement Business Day**” in respect of each Warrant, has the meaning specified in the Issue Terms relating to such Warrant; and

TERMS AND CONDITIONS OF THE WARRANTS

“**Settlement Disruption Event**” means, in the opinion of the Calculation Agent an event beyond the control of the Issuer or the Guarantor as a result of which the Issuer or the Guarantor, as the case may be, cannot make or procure delivery of the Relevant Asset(s).

- (iii) *Failure to Deliver due to Illiquidity*: If “Failure to Deliver due to Illiquidity” is specified as applying in the Issue Terms and, in the opinion of the Calculation Agent, it is impossible or impracticable to deliver, when due, some or all of the Relevant Assets (the “**Affected Relevant Assets**”) comprising the Entitlement, where such failure to deliver is due to illiquidity in the market for the Relevant Assets (a “**Failure to Deliver due to Illiquidity**”), then:
- (1) subject as provided elsewhere in the Conditions, any Relevant Assets which are not Affected Relevant Assets, will be delivered on the originally designated date of settlement in accordance with this General Condition 3(e); and
 - (2) in respect of any Affected Relevant Assets, in lieu of physical settlement and notwithstanding any other provision hereof the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant Warrants by payment to the relevant Warrantholder of the Failure to Deliver Settlement Amount (as defined below) on the fifth Business Day following the date that notice of such election is given to the Warranholders in accordance with General Condition 10. Payment of the Failure to Deliver Settlement Amount will be made in such manner as shall be notified to the Warranholders in accordance with General Condition 10. The Calculation Agent shall give notice as soon as practicable to the Warranholders in accordance with General Condition 10 that the provisions of this General Condition 3(e)(iv) apply.

For the purposes hereof, “**Failure to Deliver Settlement Amount**” means, in respect of any relevant Warrant, the fair market value of such Warrant (taking into account, the Relevant Assets comprising the Entitlement which have been duly delivered as provided above, the value of such Relevant Assets), less the cost to the Issuer and/or any of its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Issuer in its sole and absolute discretion.

- (iv) *Issuer’s Option to Substitute Assets or to pay the Alternate Cash Settlement Amount*: Notwithstanding any provision of these General Conditions to the contrary, the Issuer may, in its sole and absolute discretion in respect of Warrants to which this General Condition 3(e) applies, if the Calculation Agent determines (in its sole and absolute discretion) that the Relevant Asset or Relevant Assets, as the case may be, comprises assets which are not freely tradable, elect either (i) to substitute for the Relevant Asset or the Relevant Assets, as the case may be, an equivalent value (as determined by the Calculation Agent in its sole and absolute discretion) of such other assets which the Calculation Agent determines, in its sole and absolute discretion, are freely tradable (the “**Substitute Asset**” or the “**Substitute Assets**”, as the case may be) or (ii) not to deliver or procure the delivery of the Entitlement or the Substitute Asset or Substitute Assets, to the relevant Warranholders, but in lieu thereof to make payment to the relevant Warranholder on the Delivery Date of an amount equal to the fair market value of the Entitlement on or about the time of so electing as determined by the Calculation Agent in its sole and absolute discretion by reference to such sources as it considers appropriate (the “**Alternate Cash Settlement Amount**”). Notification of any such election will be given to Warranholders in accordance with General Condition 10 and in the event that the Issuer elects to pay the Alternate Cash Settlement Amount such notice shall give details of the manner in which such amount shall be paid.

For purposes hereof, a “**freely tradable**” security shall mean (i) with respect to the United States, a security which is registered under the Securities Act or not restricted under the Securities Act and which is not purchased from the issuer of such security and not purchased from an affiliate of the issuer of such security or which otherwise meets the requirements of a freely tradable security for purposes of the Securities Act, in each case, as determined by the Calculation Agent in its sole and absolute discretion or (ii) with respect to any other jurisdiction, a security not subject to any legal restrictions on transfer in such jurisdiction.

- (v) *Rights of Warranholders and Calculations* None of the Issuer, the Guarantor (if applicable), the Calculation Agent, any Delivery Agent and the Agents shall have any responsibility for any errors or omissions in any calculation or determination in respect of the Warrants.

The purchase of Warrant does not confer on any holder of such Warrants any rights (whether in respect of voting, distributions or otherwise) attaching to any Relevant Asset.

TERMS AND CONDITIONS OF THE WARRANTS

(g) Rounding

The Cash Settlement Amount will be rounded to the nearest two decimal places in the Specified Currency or, if applicable, the Settlement Currency, 0.005 being rounded upwards, with Warrants exercised at the same time by the same Warrantholder being aggregated for the purpose of determining the aggregate Cash Settlement Amounts payable in respect of such Warrants.

(h) *Payment and delivery—Registered Warrants*

- (i) In respect of Registered Warrants which have been exercised in full and which are Cash Settled Warrants, payments shall be made only following surrender of the relevant Warrant Certificate at the specified office of the Registrar outside the United States by cheque drawn in the currency in which the payment is due on, or, upon application of a holder of a Registered Warrant, by transfer to the account specified by the relevant Warrantholder in the Exercise Notice denominated in that currency (or, if that currency is euro, any other account to which euro may be credited or transferred) and maintained by the payee with, a bank in the principal financial centre of that currency not later than the Business Day that is not later than fifteen days prior to the due date for payment.
- (ii) In respect of Registered Warrants which have been exercised and which are Physical Delivery Warrants, subject to transfer of the Exercise Price (plus any applicable Taxes and Expenses) from the relevant account of the Warrantholder to the relevant account of the Principal Warrant Agent (in favour of the Issuer) as aforesaid, the Issuer shall, on the Settlement Date deliver or procure the delivery of the Entitlement in respect of each Registered Warrant for credit to the account specified in the relevant Exercise Notice. A holder of a Registered Warrant shall not be entitled to any payment in respect of any delay in payment resulting from (A) the due date for a payment not being a Business Day or (B) a cheque mailed in accordance with this General Condition 4 (*Exercise Procedure*) arriving after the due date for payment or being lost in the mail.

- (v) Each payment or delivery in respect of a Registered Warrant will be made to the person shown as the holder in the Register at the opening of business in the place of the Registrar's specified office on the fifteenth day before the due date for such payment (the "**Record Date**"). Where the payment in respect of a Registered Warrant is to be made by cheque, the cheque will be mailed to the address of the holder in the Register at the close of the business on the relevant Record Date.
- (i) *Effect of Exercise Notice*
- (i) For so long as any Warrant is held by a Warrant Agent, the Registrar or the Transfer Agent in accordance with this General Condition 4 (*Exercise Procedure*), the depositor of the relevant definitive Bearer Warrant or Individual Warrant Certificate and not such Warrant Agent, Registrar or Transfer Agent (as applicable) shall be deemed to be the Warrantholder for all purposes.
 - (ii) Delivery of an Exercise Notice shall constitute an irrevocable election and undertaking by the Warrantholder to exercise the Warrants specified therein, provided that, in the case of a Registered Warrant, the person exercising and delivering such Exercise Notice is the person then appearing in the Register as the holder of the relevant Registered Warrant. If the person exercising and delivering the Exercise Notice is not the person so appearing, such Exercise Notice shall for all purposes become void and shall be deemed not to have been so delivered.
 - (iii) After the delivery of an Exercise Notice (other than an Exercise Notice which shall become void pursuant to General Condition 4(b)(ii)) by a Warrantholder, such Warrantholder shall not be permitted to transfer either legal or beneficial ownership of the Warrants exercised thereby. Notwithstanding this, if any Warrantholder does so transfer or attempt to transfer such Warrants, the Warrantholder will be liable to the Issuer and the Guarantor for any losses, costs and expenses suffered or incurred by either of them including those suffered or incurred as a consequence of their having terminated any related hedging operations in reliance on the relevant Exercise Notice and subsequently: (i) entering into replacement hedging operations in respect of such Warrants; or (ii) paying any amount on the subsequent exercise of such Warrants without having entered into any replacement hedging operations.
- (j) *General*
- (i) *Aggregation*: Warrants held by the same Warrantholder may be aggregated for the purpose of determining the aggregate Entitlement in respect of such Warrants, provided that, the aggregate Entitlement in respect of the same Warrantholder will be rounded down to the nearest whole unit of the Relevant Asset or each of the Relevant Assets, as the case may be, in such manner as the Calculation Agent shall determine. Fractions of the Relevant Asset or of each of the Relevant Assets, as the case may be, will not be delivered and in lieu thereof a cash adjustment calculated by the Calculation Agent in its sole and absolute discretion shall be paid to the Warrantholder.
 - (ii) *Dividends in respect of Physical Delivery Warrants*: If, in the case of Physical Delivery Warrants, the Relevant Assets to be delivered on the Settlement Date include shares, all dividends on the relevant shares to be delivered will be payable to the party that would receive such dividend according to market practice for a sale of the shares executed on the Settlement Date and to be delivered in the same manner as such relevant shares. Any such dividends to be paid to a Warrantholder will be paid to the account specified by the Warrantholder in the relevant Exercise Notice as referred to in General Condition 4 (*Exercise Procedure*).
 - (iii) *Limitation on rights of Warrantholders during Intervening Period*: For such period of time after delivery of the Entitlement as the Issuer or any person acting on behalf of the Issuer shall continue to be the legal owner of the Relevant Assets (the "**Intervening Period**"), none of the Issuer, the Guarantor, the Warrant Agents, the Registrar or the Transfer Agent or any other person shall at any time (i) be under any obligation to deliver or procure delivery to any Warrantholder any letter, certificate, notice, circular or any other document or, except as provided herein, payment whatsoever received by that person in respect of such Relevant Assets, (ii) be under any obligation to exercise or procure exercise of any or all rights attaching to such Relevant Assets or (iii) be under any liability to

TERMS AND CONDITIONS OF THE WARRANTS

a Warrantholder in respect of any loss or damage which such Warrantholder may sustain or suffer as a result, whether directly or indirectly, of that person being registered during such Intervening Period as legal owner of such Relevant Assets.

- (iv) *Replacements*: If any Warrant or Warrant Certificate is lost, stolen, mutilated, defaced or destroyed, it may be replaced at the specified office of the Principal Warrant Agent, in the case of Bearer Warrants, or the Registrar, in the case of Registered Warrants, during normal business hours (and, if the Warrants are then admitted to listing, trading and/or quotation by any listing authority, stock exchange and/or quotation system which requires the appointment of a Warrant Agent or a Transfer Agent in any particular place, the Warrant Agent or Transfer Agent having its specified office in the place required by such listing authority, stock exchange and/or quotation system), subject to all applicable laws and stock exchange requirements, upon payment by the claimant of the expenses incurred in connection with such replacement and on such terms as to evidence, security, indemnity and otherwise as the Issuer may reasonably require. Mutilated or defaced forms must be surrendered before replacements will be issued.

(k) *Force Majeure, Illegality and Administrator/Benchmark Event*

- (i) Subject to General Condition 4(k)(iii) below, the Issuer shall have the right to cancel the Warrants if it shall have determined, in its sole and absolute discretion, that (i) its performance thereunder shall have become or will be unlawful in whole or in part as a result of compliance in good faith by the Issuer or the Guarantor with any applicable present or future law, rule, regulation, judgment, order or directive of any governmental, administrative, legislative or judicial authority or power (“**applicable law**”), or (ii) results in an Administrator/Benchmark Event.
- (ii) In such circumstances the Issuer will, however, if and to the extent permitted by applicable law, pay to each Warrantholder in respect of each Warrant held by it an amount determined by the Calculation Agent, in its sole and absolute discretion, as representing the fair market value of such Warrant immediately prior to such cancellation (ignoring such illegality) less the cost to the Issuer of, or the loss realised by the Issuer or any of its affiliates on, unwinding any related underlying hedging arrangements, the amount of such cost or loss being as determined by the Calculation Agent in its sole and absolute discretion. Payment will be made in such manner as shall be notified to the Warrantholders in accordance with Condition 9 (*Notices*).
- (iii) Notwithstanding General Condition 4(k)(i) and (ii) above, in the event that the Calculation Agent determines that an Administrator/Benchmark Event has occurred, the Calculation Agent, shall give notice to the Issuer, and the Warrantholders as soon as reasonably practicable of the occurrence of such Administrator/Benchmark Event. The Calculation Agent shall then use reasonable endeavours to determine what amendments (if any) may be made to the terms and conditions of the Warrants that would result in such Administrator/Benchmark Event ceasing to apply within 20 calendar days of the Issuer receiving notice of the occurrence of such Administrator/Benchmark Event. In the event that the Calculation Agent proposes amendments to the terms and conditions of the Warrants in accordance with General Condition 4(k)(i), the Issuer shall make such amendments to the terms and conditions of the Warrants and there shall be no cancellation of the Warrants. In the event that the Calculation Agent determines, within 20 calendar days of the Issuer receiving notice of an Administrator/Benchmark Event, that no amendments may be made to the terms and conditions of the Warrants, (i) the Calculation Agent shall notify the Issuer of the same and (ii) upon, the Issuer having given not less than 10 nor more than 30 days’ notice to the Warrantholders in accordance with General Condition 10 (*Notices*) (which notice shall be irrevocable), the Warrants shall be cancelled in accordance with Condition 4(k)(ii).

For the purposes of this Condition 4(k):

“**Administrator/Benchmark Event**” means, in relation to any Benchmark, the occurrence of a Benchmark Modification or Cessation Event, a Non-Approval Event, a Rejection Event or a Suspension/Withdrawal Event.

“**Benchmark**” means any figure which is a benchmark as defined in BMR and where any amount payable under the Warrants, or the value of the Warrants, is determined by reference to such figure, all as determined by the Calculation Agent.

TERMS AND CONDITIONS OF THE WARRANTS

“Benchmark Modification or Cessation Event” means, in respect of the Benchmark,:

- (i) any material change in such Benchmark; or
- (ii) the permanent cancellation or cessation in the provision of such Benchmark.

“**BMR**” means the EU Benchmark Regulation (Regulation (EU) 2016/1011). “**Non-Approval Event**” means, in respect of the Benchmark:

- (i) any authorisation, registration, recognition, endorsement, equivalence decision or approval in respect of the Benchmark or the administrator of the Benchmark is not obtained or will not be obtained;
- (ii) the Benchmark or the administrator of the Benchmark is not or will not be included in an official register; or
- (iii) the Benchmark or the administrator of the Benchmark does not or will not fulfil any legal or regulatory requirement applicable to the Issuer, the Calculation Agent or the Benchmark,

in each case, as required under any applicable law or regulation in order for any of the Issuer, the Calculation Agent or any other entity to perform its obligations in respect of the Warrants. For the avoidance of doubt, a Non-Approval Event shall not occur if the Benchmark or the administrator of the Benchmark is not included in an official register because its authorisation, registration, recognition, endorsement, equivalence or approval is suspended if, at the time of such suspension, the continued provision and use of the Benchmark is permitted in respect of the Warrants under the applicable law or regulation during the period of such suspension.

“**Rejection Event**” means, in respect of the Benchmark, the relevant competent authority or other relevant official body rejects or refuses, or will reject or refuse any application for authorisation, registration, recognition, endorsement, equivalence, approval or inclusion in any official register which, in each case, is required in relation to the Benchmark or the administrator of the Benchmark under any applicable law or regulation for any of the Issuer, the Calculation Agent or any other entity to perform its obligations in respect of the Warrants.

“**Suspension/Withdrawal Event**” means, in respect of the Benchmark:

- (i) the relevant competent authority or other relevant official body suspends or withdraws, or will suspend or withdraw any authorisation, registration, recognition, endorsement, equivalence decision or approval in relation to the Benchmark or the administrator of the Benchmark which is required under any applicable law or regulation in order for any of the Issuer, the Calculation Agent or any other entity to perform its obligations in respect of the Warrants; or
- (ii) the Benchmark or the administrator of the Benchmark is or will be removed from any official register where inclusion in such register is required under any applicable law in order for any of the Issuer, the Calculation Agent or any other entity to perform its obligations in respect of the Warrants.

For the avoidance of doubt, a Suspension/Withdrawal Event shall not occur if such authorisation, registration, recognition, endorsement, equivalence decision or approval is suspended or where inclusion in any official register is withdrawn if, at the time of such suspension or withdrawal, the continued provision and use of the Benchmark is permitted in respect of the Warrants under the applicable law or regulation during the period of such suspension or withdrawal.

5. Limitations on Rights of Warrantholders and Calculations

- (i) *Relevant Assets*: The purchase of Warrants does not confer on any holder of such Warrants any rights (whether in respect of voting, distributions or otherwise) attaching to any Relevant Asset.
- (ii) *Calculations*: Any discretion exercised by, or any calculation made by, the Calculation Agent (in the absence of manifest or proven error) shall be binding on the Issuer and all Warrantholders. None of the Issuer, the Guarantor or the Calculation Agent shall have any responsibility for any errors or omissions in any calculation or determination in respect of the Warrants.

TERMS AND CONDITIONS OF THE WARRANTS

6. Limitations on the number of Warrants exercisable

(a) *American Style Warrants*

This General Condition 6(a) applies only to American Style Warrants.

- (i) The number of Warrants exercisable on any Actual Exercise Date (whether pursuant to Automatic Exercise or by delivery of an Exercise Notice by the relevant Warrantholder, in each case as determined by the Issuer), must not be less than the Minimum Exercise Number (if any) specified in the Issue Terms. If the number of Warrants purported to be exercised by a Warrantholder on any Actual Exercise Date (or, in the case of Automatic Exercise, the number of Warrants held by such Warrantholder on the Actual Exercise Date) is greater than any Minimum Exercise Number specified in the Issue Terms, such Warrants may only be exercised in integral multiples of the such Minimum Exercise Amount. Any Exercise Notice which purports to exercise Warrants in breach of this provision shall be void and of no effect.
- (ii) If the Issuer determines that the number of Warrants being exercised on any Actual Exercise Date by any Warrantholder or a group of Warrantholders (whether or not acting in concert) exceeds the Maximum Exercise Number (a number equal to the Maximum Exercise Number being the “**Quota**”), the Issuer may deem the Actual Exercise Date for the first Quota of such Warrants, selected at the discretion of the Issuer, to be such day and the Actual Exercise Date for each additional Quota of such Warrants (and any remaining number thereof) to be each of the succeeding Exercise Business Days until all such Warrants have been attributed with an Actual Exercise Date, provided, however, that the deemed Actual Exercise Date for any such Warrants which would thereby fall after the Expiration Date shall fall on the Expiration Date. In any case where more than the Quota of Warrants are exercised on the same day by Warrantholder(s), the order of settlement in respect of such Warrants shall be at the sole discretion of the Issuer.

(b) *European Style Warrants*

This General Condition 6(b) applies only to European Style Warrants.

The number of Warrants exercisable by any Warrantholder on the Specified Exercise Date, as determined by the Issuer, must not be less than the Minimum Exercise Number (if any) specified in the Issue Terms. If the number of Warrants purported to be exercised by a Warrantholder on the relevant Specified Exercise Date is greater than any Minimum Exercise Number specified in the Issue Terms, such Warrants may only be exercised in integral multiples of such Minimum Exercise Amount. Any Exercise Notice which purports to exercise Warrants in breach of this provision shall be void and of no effect.

(c) *Bermudan Style Warrants*

This General Condition 6(c) applies only to Bermudan Style Warrants.

- (i) The number of Warrants exercisable by any Warrantholder on any Potential Exercise Date (or, in the case of Automatic Exercise, the number of Warrants held by any Warrantholder on the Final Potential Exercise Date, in each case as determined by the Issuer), must not be less than the Minimum Exercise Number (if any) specified in the Issue Terms. If the number of Warrants purported to be exercised by a Warrantholder on any Potential Exercise Date (or, in the case of Automatic Exercise, the number of Warrants held by such Warrantholder on the Final Potential Exercise Date) is greater than any Minimum Exercise Number specified in the Issue Terms, such Warrants may only be exercised in integral multiples of the such Minimum Exercise Amount. Any Exercise Notice which purports to exercise Warrants in breach of this provision shall be void and of no effect.
- (ii) If the Issuer determines that the number of Warrants being exercised on any Potential Exercise Date by any Warrantholder or a group of Warrantholders (whether or not acting in concert) exceeds the Quota, the Issuer may deem the Potential Exercise Date for the first Quota of such Warrants, selected at the discretion of the Issuer, to be such day and the Potential Exercise Date for each additional Quota of such Warrants (and any remaining number thereof) to be each succeeding Potential Exercise Date until all such Warrants have been attributed with a Potential Exercise Date, provided, however, that the deemed Potential Exercise Date for any such Warrants which would thereby fall after the Final Potential Exercise Date shall fall on the Final Potential Exercise Date. In any case where more than the Quota of Warrants are exercised on the same day by Warrantholder(s), the order of settlement in respect of such Warrants shall be at the sole discretion of the Issuer.

TERMS AND CONDITIONS OF THE WARRANTS

7. Taxation

- (a) Neither the Issuer nor the Guarantor shall be liable for, or otherwise obliged to pay, any Taxes in The Netherlands which may arise as a result of the ownership, transfer or exercise of any Warrants.
- (b) If it is specified in the Issue Terms that a particular warrant is considered as an “option” for Spanish tax purposes neither the Issuer nor the Guarantor shall be liable for, or otherwise obliged to pay, any Taxes in the Kingdom of Spain which may arise as a result of the ownership, transfer or exercise of any Warrants.
- (c) If it is specified in the Issue Terms that a particular warrant is considered as a “financial asset” for Spanish tax purposes, all payments in respect of the Warrants by the Issuer or the Guarantor will be made without withholding or deduction for or on account of any present or future taxes or duties of whatever nature imposed or levied by or on behalf of Spain or any political subdivision or authority thereof or therein having the power to tax unless such withholding or deduction is required by law. In such event, the Issuer or, as the case may be, the Guarantor will pay such additional amounts as shall be necessary in order that the net amounts received by the holders of the Warrants after such withholding or deduction shall equal the respective amounts which would have been receivable in respect of the Warrants, as the case may be, in the absence of such withholding or deduction; except that no such additional amounts shall be payable with respect to any Warrants:
 - (i) Presented for payment by or on behalf of a holder who is liable for such taxes or duties in respect of such Warrant by reason of his having some connection with Spain other than the mere holding of such Warrant; or
 - (ii) Presented for payment more than 30 days after the relevant Date as defined below except to the extent that the holder thereof would have been entitled to an additional amount on presenting the same for payment on such thirtieth day assuming that day to have been a Payment Date (as defined also below); or
 - (iii) to, or to a third party on behalf of, a holder if such taxes or duties may be avoided by complying with any relevant requirement of Spanish law or by making a declaration of non-residence or other similar claim for exemption to any authority of or in Spain, unless such holder proved that he is not entitled so to comply or to make such declaration or claim, or
 - (iv) Presented for payment by or on behalf of a holder who would be able to avoid such withholding or deduction by presenting the relevant Warrant to another Warrant Agent in a Member State of the European Union.
- (d) Both the Issuer and the Guarantor shall be permitted to withhold or deduct any amounts required by the rules of United States Internal Revenue Code Sections 1471 through 1474 (or any amended or successor provisions) or pursuant to any agreement with the U.S. Internal Revenue Service (“**FATCA withholding**”) as a result of a holder, beneficial owner or an intermediary that is not an agent of the Issuer not being entitled to receive payments free of FATCA withholding. Neither the Issuer nor the Guarantor shall be liable for, or otherwise obliged to pay, any FATCA withholding deducted or withheld by the Issuer, any Warrant Agent or any other party.

In these General Conditions, the “**Relevant Date**” means the date on which such payment first becomes due, except that, if the full amount of the moneys payable has not been duly received by the Principal Warrant Agent or the Registrar, as the case may be, on or prior to such due date, it means the date on which, the full amount of such moneys having been so received, notice to that effect is duly given to the Warrant holders in accordance with General Condition 10.

Likewise, the “**Payment Date**” means any day which is a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in:

- (A) either (i) in relation to any sum payable in a currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant currency (if other than the place of presentation, any Financial Centre and which, (x) if such currency is Australian dollars or New Zealand dollars, shall be Sydney and Auckland, respectively) or
- (ii) in relation to any sum payable in euro, a day on which the TARGET2 System is open;

TERMS AND CONDITIONS OF THE WARRANTS

- (B) each city specified as a Financial Centre (each, a “**Financial Centre**”) in the Issue Terms; and
- (C) in relation to Warrants in definitive form, the relevant place of presentation.

8. Prescription

Claims for payment or delivery in respect of the Warrants shall become void unless the Warrants are presented for payment or delivery within ten years of the appropriate Relevant Due Date for payment or delivery.

For the purposes of this Condition 8, “**Relevant Due Date**” means the date on which such payment first becomes due.

9. Further Issues

The Issuer shall be at liberty from time to time without the consent of the Warrantheolders to create and issue further Warrants having terms and conditions the same as the Warrants or the same in all respects save for the amount and so that the same shall be consolidated and form a single Series with the outstanding Warrants.

10. Notices

All notices regarding the Bearer Warrants will be deemed to be validly given if published in one leading English language daily newspaper of general circulation in Europe (which is expected to be the Financial Times). In relation to Warrants which are not Exempt Warrants, the Issuer shall also ensure that notices are duly published in a manner which complies with the rules of any stock exchange or any other relevant authority on which the Bearer Warrants are for the time being listed or by which they have been admitted to trading. Any such notice will be deemed to have been given on the date of the first publication or, where required to be published in more than one newspaper, on the date of the first publication in all required newspapers.

All notices regarding the Registered Warrants will be deemed to be validly given if sent by first class mail or (if posted to an address overseas) by airmail to the holders (or the first named of joint holders) at their respective addresses recorded in the Register and will be deemed to have been given on the fourth day after mailing and, in addition, for so long as any Registered Warrants are listed on a stock exchange or admitted to trading by another relevant authority, such notice will be published in a manner which complies with the rules of that stock exchange or relevant authority.

Until such time as any definitive Warrants are issued, notice may be given (so long as any Global Warrants or Global Warrant Certificates representing the Warrants are held in their entirety on behalf of Euroclear and/or Clearstream, Luxembourg (instead of by way of publication in a newspaper or mailing)) by delivery of the relevant notice to Euroclear and/or Clearstream, Luxembourg for communication by them to the holders of the Warrants. Any such notice shall be deemed to have been given to the holders of the Warrants on the day after the day on which the said notice was given to Euroclear and/or Clearstream, Luxembourg. For so long as any Warrants are listed on a stock exchange or admitted to listing by another relevant authority, any such notice provided to any Clearing System will be also published in a manner which complies with the rules of that stock exchange or relevant authority by the Issuer.

Notices to be given by any Warrantheolder shall be in writing and given by lodging the same, together (in the case of any Warrants in definitive form) with the relative Warrant or Warrants, with the Principal Warrant Agent (in the case of Bearer Warrants) or the Registrar (in the case of Registered Warrants). Whilst any of the Warrants are represented by a Global Warrant or Global Warrant Certificate, such notice may be given by any holder of a Warrant to the Principal Warrant Agent or the Registrar through Euroclear and/or Clearstream, Luxembourg, in such manner as the Principal Warrant Agent, the Registrar and Euroclear and/or Clearstream, Luxembourg may approve for this purpose.

14. Contracts (Rights of Third Parties) Act 1999

The Warrants shall not confer any rights under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of the Warrants, but this does not affect any right or remedy of a third party which exists or is available apart from that Act.

15. Purchase by the Issuer or the Guarantor

Each of the Issuer and the Guarantor may at any time purchase Warrants at any price in the open market or by tender or private treaty. Any Warrants so purchased may be held, surrendered for cancellation or reissued or resold, and Warrants so reissued or resold shall for all purposes be deemed to form part of the original Series of Warrants.

16. Governing Law and Submission to Jurisdiction

(a) *Governing law*

The Warrants and any non-contractual obligations arising out of or in connection with them are governed by, and shall be construed in accordance with, English law. The Guarantee (including the status of the Guarantee pursuant to General Condition 2(b) (*Status of the Guarantee*)) and any non-contractual obligations arising out of or in connection with the Guarantee, are governed by, and shall be construed in accordance with, Spanish law.

(b) *Submission to jurisdiction*

The Issuer agrees for the exclusive benefit of the Warrantholders that the courts of England are to have jurisdiction to settle any disputes which may arise out of or in connection with the Warrants (including any disputes relating to any non-contractual obligations arising out of or in connection with them) and that accordingly any suit, action or proceedings (together referred to as “**Proceedings**”) arising out of or in connection with the Warrants (including any non-contractual obligations arising out of or in connection with them) may be brought in such courts.

The Issuer (if applicable) hereby irrevocably waives any objection which it may have now or hereafter to the laying of the venue of any such Proceedings in any such court and any claim that any such Proceedings have been brought in an inconvenient forum and hereby further irrevocably agrees that a judgment in any such Proceedings brought in the English courts shall be conclusive and binding upon it and may be enforced in the courts of any other jurisdiction.

Nothing contained in this General Condition shall limit any right to take Proceedings against the Issuer (if applicable) in any other court of competent jurisdiction, nor shall the taking of Proceedings in one or more jurisdictions preclude the taking of Proceedings in any other jurisdiction, whether concurrently or not.

(c) *Appointment of Process Agent*

The Issuer appoints the Guarantor at its registered office for the time being in England as its agent for service of process, and undertakes that, in the event of the Guarantor ceasing so to act or ceasing to be registered in England, it will appoint another person as its agent for service of process in England in respect of any Proceedings. Nothing herein shall affect the right to serve proceedings in any other manner permitted by law.

ANNEX 1

ADDITIONAL TERMS AND CONDITIONS FOR PAYOUTS

If specified as applicable in the Issue Terms, the terms and conditions applicable to payouts shall comprise the General Conditions and the additional terms and conditions for payouts set out below (the “**Payout Conditions**”), together with the terms and conditions as set out in each other Annex which is specified as applicable in the Issue Terms and subject to completion in the Issue Terms. In the event of any inconsistency between (i) the General Conditions and/or any other Annex and (ii) the Payout Conditions, the Payout Conditions shall prevail.

1. Structured Warrants

(a) Use of Payout Conditions

These Payout Conditions set out the methodology for determining various payouts and product features in respect of the Warrants. The applicable text shown in Payout Conditions 2, 3, 4, 5 and 6 below will be extracted, included and completed at the paragraph indicated in the Issue Terms on the basis that

(i) applicable text (including, where appropriate, section headings and terms defined in Payout Condition 6 which are required to be completed) from the relevant Payout Condition will be set out at the paragraph indicated in the Issue Terms and (ii) inapplicable text (and any terms defined in Payout Condition 6 which are not required to be completed) need not be included. Where the Issue Terms specify that a table may be inserted, such table will set out amounts, entities, dates, items, rates, value levels, triggers, figures and other information which completes the definitions that appear in the relevant subparagraphs of the Issue Terms, the Terms and Conditions of the Warrants and the applicable Annex(es) to the Terms and Conditions of the Warrants. Notwithstanding the above, a table may be inserted in any section of the Issue Terms whether or not is so specified that a table may be inserted in such section of the Issue Terms.

(b) Use of Terms

Terms in these Payout Conditions or in the Issue Terms may be attributed a numerical or letter suffix value when included in the Issue Terms. Without limitation, the suffix can be denoted as “j”, “k”, “m”, “q”, “n”, “t”, “A”, “B”, “C” or “1”, “2”, “3” etc. And the term may be completed on the basis of the number or numbers represented by “j”, “k”, “m”, “q”, “n”, “p”, “r”, “s”, “A”, “B”, “C” or 1, 2, 3 etc, as chosen at the time of an issue of Warrants. Moreover suffixes may be placed in series as necessary, such as “A(1)”, “B(1)”, “C(1)” etc. When applicable and in order to improve the reading and intelligibility of the formula(e) in the Issue Terms, the applicable suffixes may be included, completed and the relation between the term and the suffix will be explained and may be presented as a table, if necessary, in the Issue Terms. A term in Payout Condition 6 may be included in the applicable Issue Terms section more than once if there is more than one number represented by the term n, t or i. Conjunctions (e.g. or, and, but) and punctuation may also be included where appropriate. Suffixes may denote that a relevant term relates to an asset, item or date associated with that suffix.

The constituent parts of any formula(e) or term(s) used in these Payout Conditions and that are to be specified in the Issue Terms may be replaced in the Issue Terms by the prescribed amount, level, or percentage or other value or term (the “**Variable Data**”). If a Variable Data has a value of either 0 (zero) or 1 (one), or is not applicable in respect of the relevant formula(e), then the related formula(e) may be simplified, for the purpose of improving the reading and intelligibility in the formula(e) in Issue Terms, by deleting such Variable Data.

(c) Types of Warrants

The Issue Terms will specify whether the Warrants are: Index Linked Warrants, each an “**Index Linked Warrant**”; Equity Linked Warrants, each an “**Equity Linked Warrant**”, ETF Linked Warrants, each an “**ETF Linked Warrant**”, Fund Linked Warrants, each a “**Fund Linked Warrant**”, Inflation Linked Warrants, each an “**Inflation Linked Warrant**”; Foreign Exchange Linked Warrant, each a “**Foreign Exchange (FX) Linked Warrant**” or any combination thereof, a “**Combination Warrant**”.

ADDITIONAL TERMS AND CONDITIONS FOR EQUITY LINKED WARRANTS

determination of the Calculation Agent would have given rise to an adjustment by the Options Exchange if such options were so traded; or

- (iii) where the Issuer determines that no adjustment has been proposed by the Options Exchange and that no other action will produce a commercially reasonable result, the Issuer, in its sole and absolute discretion may, on giving notice to Warranholders in accordance with General Condition 10 (*Notices*),

For the avoidance of doubt the remaining part of each Warrant after such cancellation and adjustment shall remain outstanding with full force and effect. Payments will be made in such manner as shall be notified to the Warranholders in accordance with General Condition 10;
- (v) in the case of Equity Linked Warrants relating to a Basket of Shares, on or after the relevant Extraordinary Event Effective Date, require the Calculation Agent to adjust the Basket of Shares to include a Share selected by it in accordance with the criteria for Share selection set out below (each, a “**Substitute Share**”) for each Share (each, an “**Affected Share**”) of each Basket Company (each, an “**Affected Basket Company**”) which is affected by such Extraordinary Event and the Substitute Share will be deemed to be a “**Share**”, and the issuer of such shares a “**Basket Company**”, for the purposes of the Warrants, and the Calculation Agent will make such adjustment, if any, to any one or more of any Relevant Asset and/or the Entitlement (in each case where the Warrants are Physical Delivery Warrants) and/or the Exercise Price and/or the Weighting and/or any of the other terms of the General Conditions, these Equity Linked Conditions and/or the Issue Terms as the Calculation Agent in its sole and absolute discretion determines appropriate, provided that in the event that any amount payable under the Warrants was to be determined by reference to an initial price (the “**Initial Price**”) of the Affected Share, the relevant Initial Price of each Substitute Share will be determined by the Calculation Agent in accordance with the following formula:

$$\text{Initial Price} = A \times (B/C)$$

In the event of any inconsistency between (i) the General Conditions and/or the Inflation Linked Conditions and (ii) the Issue Terms, the Issue Terms shall prevail.*

1. Delay in Publication

If the Calculation Agent determines that a Delayed Index Level Event in respect of an Index has occurred, then the Relevant Level with respect to any Reference Month which is to be utilised in any calculation of any payment or delivery under the Warrants and/or any other determination to be made in respect of the Warrants (the “**Substitute Inflation Index Level**”) shall be determined by the Calculation Agent (subject to Inflation Linked Condition 1(b) (Substitute Inflation Index Level) below), as follows:

- (a) if Related Bond is specified as applicable in the Issue Terms, the Calculation Agent shall determine the Substitute Inflation Index Level by reference to the corresponding index level determined under the terms and conditions of the relevant Related Bond; or
- (b) if (a) Related Bond is not specified as applicable in the Issue Terms, or (b) the Calculation Agent is not able to determine a Substitute Inflation Index Level under (i) above for any reason, then the Calculation Agent shall determine the Substitute Inflation Index Level by reference to the following formula:

Substitute: Inflation Index Level = Base Level x (Latest Level/Reference Level)

2. Successor Index

If the Calculation Agent determines that the level of an Index has not been published by the Index Sponsor for two consecutive months and/or the Index Sponsor announces that it will no longer continue to publish or announce the Index and/or the Index Sponsor cancels the Index then the Calculation Agent shall determine a successor index (a “**Successor Index**”) (in lieu of any previously applicable Index) for the purposes of the Warrants as follows:

- (c) if no Successor Index has been determined under paragraphs (i) or (ii) above the Calculation Agent shall ask five leading independent dealers to state what the replacement index for the Index should be. If at least four responses are received, and of those responses, three or more leading independent dealers state the same index, such index will be deemed the Successor Index. If three responses are received, and two or more leading independent dealers state the same index, such index will be deemed the Successor Index. If fewer than three responses are received by the Cut-Off Date or no Successor Index is determined pursuant to this provision, the Calculation Agent will apply the provisions of paragraph (iv) below;
- (d) if no Successor Index has been determined pursuant to paragraphs (a), (b) or (c) above, by the next occurring Cut-Off Date, subject as provided below, the Calculation Agent will determine an appropriate alternative index as of such Cut-Off Date for such affected Determination Date, and such index will be deemed a Successor Index for the purposes of the Warrants; or
- (e) if the Calculation Agent cannot determine an appropriate alternative index pursuant to sub-paragraphs (i) to (iv) above, there will be deemed to be no Successor Index and an Index Cancellation will be deemed to have occurred.

For the avoidance of doubt, the Calculation Agent shall determine the date on which the Successor Index shall be deemed to replace the Index for the purposes of the Warrants. The Calculation Agent shall give notice to the Warrantholders of any such adjustment in accordance with General Condition 10 (*Notices*).

The Calculation Agent shall take the relevant actions specified in either (i) or (ii) below.

- (ii) if an Averaging Date or any Settlement Price Date is a Disrupted Day but is not the Valuation Date on giving notice to Warrantholders in accordance with General Condition 10, the Issuer shall cancel all but not some only of the Warrants, each Warrant being cancelled by payment of an amount equal to the fair market value of such Warrant, less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent in its sole and absolute discretion. Payment shall be made in such manner as shall be notified to the Warrantholders in accordance with General Condition 10.

(b) Consequences of an EM Disruption Event

Upon an EM Disruption Event occurring or continuing on any Averaging Date, Settlement Price Date, Knock-In Determination Day or Knock-Out Determination Day, as the case may be (or, if different, the day on which prices for that date would, in the ordinary course, be published by the relevant EM FX Price Source) as determined by the Calculation Agent, the Calculation Agent shall apply in determining the consequences of the EM Disruption Event: (a) EM Calculation Agent Determination where the applicable EM Disruption Event is other than Price Source Disruption or Price Materiality; and (b) the applicable EM Disruption Fallback where the applicable EM Disruption Event is a Price Source Disruption or Price Materiality.

[These Warrants are not intended for, and are not to be offered to, the public in any jurisdiction of the European Economic Area or in the United Kingdom. Any person making or intending to make an offer of the Warrants may only do so in circumstances in which no obligation arises for the Issuer or the Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or to supplement a prospectus pursuant to Article 23 of the Prospectus Regulation, in each case, in relation to such offer. [The Warrants are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the EEA or in the UK other than in accordance with Regulation (EU) No 1286/2014 (the "**PRIIPs Regulation**") and in each case in accordance with the additional requirements (if any) of the national competent authority in the Member State of EEA and the UK (the "**Relevant State**"). Pursuant to the PRIIPs Regulation, any Relevant State may require the ex-ante notification of the key information document (the "**KID**") to the competent authority for PRIIPs marketed in that Relevant State (a "**Notification State**"). The Warrants should not be offered, sold or otherwise made available to any retail investor in any such Notification State unless all relevant requirements in such Notification State have been first complied with. Where the Notification State requires a KID to be provided in a particular language, to the extent that BBVA has not already prepared a KID in such language, the Warrants should not be offered, sold or otherwise made available to any retail investor in any such Notification State unless a KID has been prepared by Banco Bilbao Vizcaya Argentaria, S.A. in the relevant language. However, that exchange will be made only upon receipt of Ownership Certificates (as defined below).

Whenever any interest in the Temporary Global Warrant is to be exchanged for an interest in a Permanent Global Warrant, the Issuer shall procure (in the case of the first exchange) the prompt delivery (free of charge to the bearer) of such Permanent Global Warrant, duly authenticated, to the bearer of the Temporary Global Warrant or (in the case of any subsequent exchange) an increase in the aggregate number of Warrants represented by the Permanent Global Warrant the Permanent Global Warrant in accordance with its terms against:

- (a) presentation and (in the case of final exchange) surrender of the Temporary Global Warrant at the specified office of the Principal Warrant Agent; and
- (b) receipt by the Principal Warrant Agent of a certificate or certificates of non-U.S. beneficial ownership, within seven days of the bearer requesting such exchange.

The aggregate number of Warrants represented by the Permanent Global Warrant shall be equal to the aggregate number of Warrants specified in the certificates of non-U.S. beneficial ownership; provided, however, that in no circumstances shall the aggregate number of Warrants represented by the Permanent Global Warrant exceed the aggregate number of Warrants represented by the Temporary Global Warrant.

The Permanent Global Warrant will be exchangeable in whole, but not in part, for warrants in definitive bearer form (each, a “**Definitive Warrant**”), which will be serially numbered, if Euroclear or Clearstream, Luxembourg or any other relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business.

Whenever the Permanent Global Warrant is to be exchanged for Definitive Warrants, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Warrants, duly authenticated, in an aggregate number of Warrants equal to the aggregate number of Warrants represented by the Permanent Global Warrant to the bearer of the Permanent Global Warrant against the surrender of the Permanent Global at the specified office of the Principal Warrant Agent within 30 days of the bearer requesting such exchange. The depository or common depository for Euroclear and Clearstream, Luxembourg or, as applicable, any other relevant clearing system will instruct the Principal Warrant Agent regarding the aggregate number of Definitive Warrants that must be authenticated and delivered to each of Euroclear and Clearstream, Luxembourg or, as applicable, any other relevant clearing system. Definitive Warrants may not be delivered in the United States.

FORMS OF WARRANTS

Legend Concerning United States Persons

Unless otherwise specified in the Final Terms, Global Warrants and Definitive Warrants will bear a legend, in English, to the following effect:

“Any United States person who holds this obligation will be subject to limitations under the United States income tax laws, including the limitations provided in Sections 165(j) and 1287(a) of the Internal Revenue Code.”

The sections referred to in such legend provide that a United States person who holds a Warrant will generally not be allowed to deduct any loss realised on the sale, exchange or exercise of such Warrant and any gain (which might otherwise be characterised as capital gain) recognised on such sale, exchange or exercise will be treated as ordinary income.

Unless otherwise specified in the Final Terms, Bearer Warrants will not be offered, sold or delivered, directly or indirectly, in the United States or its possessions or to United States persons, as defined below, except as otherwise permitted by United States Treasury Regulations Section 1.163-5(c)(2)(i)(D) (or any successor rules). Any Dealer participating in the offerings of Bearer Warrants, directly or indirectly, must agree that (i) it will not, in connection with the original issue of any Bearer Warrants or during the restricted period with respect to such Bearer Warrants (as defined in United States Treasury Regulations Section 1.163-5(c)(2)(i)(D)(7)) (the “**Restricted Period**”), offer, sell or deliver, directly or indirectly, any Bearer Warrants in the United States or its possessions or to United States persons, other than as permitted by the applicable Treasury Regulations described above; and (ii) it will not at any time offer, sell or deliver, directly or indirectly, any Bearer Warrants in the United States or its possessions or to United States persons, other than as permitted by the applicable Treasury Regulations above. For these purposes, it is presumed that United States Treasury Regulations Section 1.163-5(c)(2)(i)(D) will apply to the Bearer Warrants.

In addition, any Dealer must have procedures reasonably designed to ensure that its employees or agents who are directly engaged in selling Bearer Warrants is aware of the above restrictions on the offering, sale or delivery of Bearer Warrants.

Unless otherwise specified in the Final Terms, Bearer Warrants, other than Bearer Warrants that satisfy the requirements of United States Treasury Regulations Section 1.163-5(c)(2)(i)(D)(3)(iii), will not be delivered in definitive form, and no payment will be made thereon, unless the Issuer has received a signed certificate in writing, or an electronic certificate described in United States Treasury Regulations Section 1.163-5(c)(2)(i)(D)(3)(ii), (an “**Ownership Certificate**”) stating that on the date of the Ownership Certificate that Bearer Warrant:

- (1) is owned by a person that is not a United States person;
- (2) is owned by a United States person that is described in United States Treasury Regulations Section 1.163-5(c)(2)(i)(D)(6); or
- (3) is owned by a United States or foreign financial institution for the purposes of resale during the Restricted Period,

and, in addition, if the owner of the Bearer Warrant is a United States or foreign financial institution described in clause (3) above, whether or not also described in clause (1) or clause (2) above, the financial institution certifies that it has not acquired the Bearer Warrant for purposes of resale directly or indirectly to a United States person or to a person within the United States or its possessions.

The Issuer will make payments on Bearer Warrants only outside the United States and its possessions.

As used herein, “**United States person**” means, for United States federal income tax purposes, (i) a citizen or resident of the United States; (ii) a corporation, partnership or other entity created or organised in or under the laws of the United States or any political subdivision thereof; (iii) an estate the income of which is subject to United States federal income taxation regardless of its source; or (iv) any trust if a court within the United States is able to exercise primary supervision over the administration of the trust, and one or more United States persons have the authority to control all substantial decisions of the trust.

FORMS OF WARRANTS

Terms and Conditions applicable to the Bearer Warrants

The terms and conditions applicable to any Bearer Warrant in global form will differ from those terms and conditions which would apply to the Warrant were it in definitive form to the extent described under “*Summary of Provisions Relating to the Warrants While in Global Form*” below.

Registered Warrants

Registered Warrants will be in the form of either individual warrant certificates in registered form (“**Individual Warrant Certificates**”) or a global warrant certificate in registered form (a “**Global Warrant Certificate**”), in each case as specified in the Final Terms. Each Global Warrant Certificate will be registered in the name of a common depository (or its nominee) for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system and the relevant Global Warrant Certificate will be deposited on or about the Closing Date with the depository or common depository for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system, and will be exchangeable in accordance with its terms.

If the Final Terms specify the form of Warrants or Certificates as being “Individual Warrant Certificates”, then the Warrants will at all times be in the form of Individual Warrant Certificates issued to each Warrantholder in respect of their respective holdings.

If the Final Terms specify the form of Warrants or Certificates as being “Global Warrant Certificate exchangeable for Individual Warrant Certificates”, then the Warrants will initially be in the form of a Global Warrant Certificate which will be exchangeable in whole, but not in part, for Individual Warrant Certificates if Euroclear or Clearstream, Luxembourg or any other relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business

Whenever the Global Warrant Certificate is to be exchanged for Individual Warrant Certificates, the Issuer shall procure that Individual Warrant Certificates will be issued in an aggregate number of Warrants equal to the number of Warrants represented by the Global Warrant Certificate within five business days of the delivery, by or on behalf of the registered holder of the Global Warrant Certificate to the Registrar of such information as is required to complete and deliver such Individual Warrant Certificates (including, without limitation, the names and addresses of the persons in whose names the Individual Warrant Certificates are to be registered and the quantity of each such person’s holding) against the surrender of the Global Warrant Certificate at the specified office of the Registrar.

Such exchange will be effected in accordance with the provisions of the Warrant Agreement and the regulations concerning the transfer and registration of Warrants scheduled thereto and, in particular, shall be effected without charge to any holder, but against such indemnity as the Registrar may require in respect of any tax or other duty of whatsoever nature which may be levied or imposed in connection with such exchange.

The terms and conditions applicable to any Global Warrant Certificate will differ from those terms and conditions which would apply to the Warrants were they in individual form to the extent described under “*Summary of Provisions Relating to the Warrants while in Global Form*” below.

Legends Concerning Regulation S and ERISA

Unless otherwise specified in the Final Terms, Bearer Warrants will bear a legend, in English, substantially to the following effect:

“Any United States person who holds this obligation will be subject to limitations under the United States income tax laws, including the limitations provided in Sections 165(j) and 1287(a) of the United States Internal Revenue Code of 1986, as amended (the “**Internal Revenue Code**”).

Unless otherwise specified in the Final Terms, certificates in respect of Registered Warrants will bear a legend, in English, substantially to the following effect:

SUMMARY OF PROVISIONS RELATING TO THE WARRANTS WHILE IN GLOBAL FORM

Clearing System Accountholders

In relation to any Bearer Warrants (or any Tranche thereof) represented by a Global Warrant, references in the “Terms and Conditions of the Warrants” to “**Warrantholder**” are references to the bearer of the relevant Global Warrant which, for so long as the Global Warrant is held by a depositary or common depositary for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system, will be such depositary or common depositary. In relation to any Registered Warrants (or any Tranche thereof) represented by a Global Warrant Certificate, references in the “Terms and Conditions of the Warrants” to “**Warrantholder**” are references to the person in whose name such Global Warrant Certificate is for the time being registered which, for so long as the Global Warrant Certificate is held by or on behalf of a depositary or common depositary for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system, will be such depositary or common depositary.

Each of the persons shown in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Global Warrant or a Global Warrant Certificate (each an “**Accountholder**”) must look solely to Euroclear and/or Clearstream, Luxembourg and/or such other relevant clearing system (as the case may be) for such Accountholder’s share of each payment made by the Issuer to the holder of such Global Warrant or Global Warrant Certificate and in relation to all other rights arising under such Global Warrant or Global Warrant Certificate, including any right to exchange any exchangeable Warrants or any right to require the Issuer to repurchase such Warrants. The respective rules and procedures of Euroclear and Clearstream, Luxembourg and any other relevant clearing system from time to time will determine the extent to which, and the manner in which, Accountholders may exercise any rights arising under the Global Warrant or Global Warrant Certificate and the timing requirements for meeting any deadlines for the exercise of those rights. For so long as the relevant Warrants are represented by the Global Warrant or Global Warrant Certificate, Accountholders shall have no claim directly against the Issuer in respect of its obligations under the Warrants and such obligations of the Issuer will be discharged by payment or delivery to the holder of the Global Warrant or Global Warrant Certificate, as the case may be, of each amount to be so paid or of each relevant Reference Item to be so delivered.

So long as Euroclear, Clearstream, Luxembourg or its nominee is the registered holder of a Global Warrant or Global Warrant Certificate, Euroclear, Clearstream, Luxembourg or such nominee, as the case may be, will be considered the sole owner of the Warrants represented by such Global Warrant or Global Warrant Certificate for all purposes under the Warrant Agreement and such Warrants, except to the extent that in accordance with Euroclear or Clearstream, Luxembourg’s published rules and procedures any ownership rights may be exercised by its participants or beneficial owners through participants.

Exchange of Temporary Global Warrant

If:

- (a) a Permanent Global Warrant has not been delivered or the number of Warrants represented thereby increased by 5.00 p.m. (London time) on the seventh day after the bearer of a Temporary Global Warrant has requested exchange of an interest in the Temporary Global Warrant for an interest in a Permanent Global Warrant; or
- (b) a Temporary Global Warrant (or any part thereof) has become due and payable in accordance with the terms and conditions of such Temporary Global Warrant as set out in “Terms and Conditions of the Warrants” or the date for final exercise of a Temporary Global Warrant has occurred and, in either case, payment or delivery (as applicable) in full has not been made to the bearer of the Temporary Global Warrant in accordance with the terms of the Temporary Global Warrant on the due date for payment or delivery (as applicable),

then the Temporary Global Warrant (including the obligation to deliver a Permanent Global Warrant or increase the number of Warrants represented thereby, as the case may be) will become void at 5.00 p.m. (London time) on such seventh day (in the case of (a) above) or at 5.00 p.m. (London time) on such due date (in the case of (b) above) and the bearer of the Temporary Global Warrant will have no further rights thereunder (but without prejudice to the rights which the bearer of the Temporary Global Warrant or others may have in respect of the Warrants under the Deed of Covenant). Under the Deed of Covenant, persons shown in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Temporary Global Warrant will acquire directly against the Issuer all those rights to which they would have been entitled if, immediately before such Temporary Global Warrant became void, they had been

SUMMARY OF PROVISIONS RELATING TO THE WARRANTS WHILE IN GLOBAL FORM

the holders of Warrants in definitive form in an aggregate number of Warrants equal to the number of the Warrants they were shown as holding in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system.

Exchange of Permanent Global Warrant

Whenever a Permanent Global Warrant is to be exchanged for Warrants in definitive form, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such definitive Warrants, duly authenticated, in an aggregate number of Warrants equal to the number of Warrants represented by the Permanent Global Warrant to the bearer of the Permanent Global Warrant against the surrender of the Permanent Global Warrant at the Specified Office of the Principal Warrant Agent within 30 calendar days of the bearer requesting such exchange.

If:

- (a) a Permanent Global Warrant was originally issued in exchange for part only of a Temporary Global Warrant representing the Warrants and such Temporary Global Warrant becomes void in accordance with its terms; or
- (b) a Permanent Global Warrant (or any part of it) has become due and payable in accordance with the terms and conditions of such Permanent Global Warrant as set out in “Terms and Conditions of the Warrants” or the Warrants have been exercised and, in either case, payment or delivery (as applicable) in full has not been made to the bearer of the Permanent Global Warrant in accordance with the terms of the Permanent Global Warrant on the due date for payment or delivery (as applicable),

then the Permanent Global Warrant (including the obligation to deliver Warrants in definitive form) will become void at 5.00 p.m. (London time) on the date on which such Temporary Global Warrant becomes void (in the case of (a) above) or at 5.00 p.m. (London time) on such due date (in the case of (b) above) and the bearer of the Permanent Global Warrant will have no further rights thereunder (but without prejudice to the rights which the bearer of the Permanent Global Warrant or others may have in respect of the Warrants under the Deed of Covenant). Under the Deed of Covenant, persons shown in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system in force as being entitled to an interest in a Permanent Global Warrant in respect of the Warrants will acquire directly against the Issuer all those rights to which they would have been entitled if, immediately before such Permanent Global Warrant became void, they had been the holders of Warrants in definitive form in an aggregate number of Warrants equal to the number of the Warrants they were shown as holding in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system.

Exchange of Global Warrant Certificates

Whenever a Global Warrant Certificate is to be exchanged for Individual Warrant Certificates, the Issuer shall procure that the relevant quantity of Individual Warrant Certificates will be issued within five business days of the delivery, by or on behalf of the holder of the Global Warrant Certificate to the Registrar of such information as is required to complete and deliver such Individual Warrant Certificates (including, without limitation, the names and addresses of the persons in whose names the Individual Warrant Certificates are to be registered and the quantity of each such person’s holding) against the surrender of the Global Warrant Certificate at the specified office of the Registrar. Such exchange will be effected in accordance with the provisions of the Warrant Agreement and the regulations concerning the transfer and registration of Registered Warrants scheduled thereto and, in particular, shall be effected without charge to any holder, but against such indemnity as the Registrar may require in respect of any tax or other duty of whatsoever nature which may be levied or imposed in connection with such exchange.

If:

- (a) Individual Warrant Certificates have not been delivered by 5.00 p.m. (London time) on the thirtieth day after they are due to be issued and delivered in accordance with the terms of the Global Warrant Certificate; or
- (b) any of the Warrants represented by a Global Warrant Certificate (or any part of it) has become due and payable in accordance with the Terms and Conditions of the Warrants, payment or delivery (as applicable) in full has not been made to the holder of the Global Warrant Certificate in accordance with the terms of the Global Warrant Certificate on the due date for payment or delivery (as applicable),

SUMMARY OF PROVISIONS RELATING TO THE WARRANTS WHILE IN GLOBAL FORM

then 5.00 p.m. (London time) on such thirtieth day (in the case of (a) above) or at 5.00 p.m. (London time) on such due date (in the case of (b) above), each person shown in the records of Euroclear and/or Clearstream, Luxembourg (or any other relevant clearing system) as being entitled to interest in the Warrants (each an “**Accountholder**”), shall acquire rights under the Deed of Covenant to enforce against the Issuer, the Issuer’s obligations to the Warrantholder in respect of the Warrants represented by the Global Warrant Certificate, including the obligation of the Issuer to make all payments and deliveries when due at any time in respect of such Warrants as if such Warrants had been duly presented and (where required by the Conditions) surrendered on the due date in accordance with the Conditions. Each Accountholder shall acquire such right without prejudice to any other rights which the Warrantholder may have under the Global Warrant Certificate and the Deed of Covenant. Notwithstanding the rights that each Accountholder may acquire under the Deed of Covenant, payment or delivery to the Warrantholder in respect of any Warrants represented by the Global Warrant Certificate shall constitute a discharge of the Issuer’s obligations to the extent of any such payment or delivery and nothing in the Deed of Covenant shall oblige the Issuer to make any payment or delivery under the Warrants to or to the order of any person other than the Warrantholder.

Conditions Applicable to Global Warrants and Global Warrant Certificates

Each Global Warrant and Global Warrant Certificate will contain provisions which modify the terms and conditions set out in “*Terms and Conditions of the Warrants*” as they apply to the Global Warrant and the Global Warrant Certificate. The following is a summary of certain of those provisions:

Transfers of interests in the Warrants : Any transfers of the interest of an Accountholder in any Warrants that are represented by a Global Warrant or a Global Warrant Certificate must be effected through the relevant Accountholder’s account with Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system (each a “**Clearing System**”) and in accordance with the rules of the relevant Clearing System.

Exercise procedures: Subject to prior termination of the Warrants as provided in the Conditions and except if the Warrants are Cash Settled Warrants and General Condition 4(a) (*Automatic Exercise in respect of Global Warrants or Global Warrant Certificates*) has been specified as applicable in the Final Terms, Warrants may be exercised by an Accountholder (at its own expense) at such time and on such day(s) as provided in Conditions 3(a) (*American Style Warrants*), 3(b) (*European Style Warrants*) or 3(c) (*Bermudan Style Warrants*) of the “*Terms and Conditions of the Warrants*” by delivery of a duly completed and signed Exercise Notice to:

- (i) the Clearing Systems (if so permitted by the rules and procedures of the Clearing Systems, such Exercise Notice may be in the form of an authenticated instruction via SWIFT delivered to the Clearing Systems by the relevant Warrantholder or, if such Warrantholder is not a participant or customer of the Clearing Systems, then on such Warrantholder’s behalf by such participant or customer, or such Exercise Notice may be sent to the Clearing Systems by any other communications channel authorised by the rules and operating procedures of the relevant Clearing System); and
- (ii) the relevant Warrant Agent or Registrar, with a copy to the Calculation Agent.

Any such exercise shall be subject to the rules and procedures of the relevant Clearing System and any Exercise Notice will be irrevocable and may not be withdrawn by the Accountholder. The holder of the Global Warrant (or Global Warrant Certificate upon the exercise of the Warrant in full) must, within the period specified therein for the deposit of the relevant Warrant, deposit such Global Warrant or Global Warrant Certificate (as the case may be) with the Principal Warrant Agent (in the case of a Global Warrant) or the Registrar (in the case of a Global Warrant Certificate).

Any Exercise Notice delivered (a) after the Expiration Date, in the case of American Style Warrants, shall be void, (b) after 10.00 a.m. (London time) on the Specified Exercise Date, in the case of European Style Warrants, shall be void, and (c) after the Latest Exercise Time on the Final Potential Exercise Date in the case of Bermudan Style Warrants, shall be void.

Exercise dates and times: Exercise of Warrants represented by a Global Warrant or a Global Warrant Certificate may only be effected on a day on which the relevant Clearing System is open for business in addition to any other relevant day as provided in the Conditions. Such Warrants must be exercised as provided in the “*Terms and Condition of the Warrants*” (as modified as set out below) by 10.00 a.m. in the place where Euroclear and/ or Clearstream, Luxembourg and/or any other relevant clearing system through which the relevant Warrants are exercised (unless otherwise specified in the Final Terms).

SUMMARY OF PROVISIONS RELATING TO THE WARRANTS WHILE IN GLOBAL FORM

Form of Exercise Notice: Each Exercise Notice shall be in the form (for the time being current) available from each Warrant Agent or the Registrar and must:

- (i) specify the name, address, telephone and facsimile details of the Accountholder in respect of the Warrants being exercised;
- (ii) specify the number of Warrants of the relevant Series being exercised by the Accountholder (which must not be less than the Minimum Exercise Number);
- (iii) specify the number of the Accountholder's account at the relevant Clearing System to be debited with the Warrants being exercised and irrevocably instruct, or, as the case may be, confirm that the Accountholder has irrevocably instructed, the relevant Clearing System to debit the Accountholder's account with the Warrants being exercised and credit the same to the account of the Principal Warrant Agent (for the account of the Issuer);
- (iv) where applicable, specify the number of the Accountholder's account at the relevant Clearing System to be credited with the Cash Settlement Amount or the relevant Entitlement (as applicable) for the Warrants being exercised;
- (v) include an irrevocable undertaking to pay any applicable Taxes due and Expenses payable by reason of exercise of and an authority to the Issuer and the relevant Clearing System to deduct an amount in respect thereof from any Cash Settlement Amount due to such Accountholder or otherwise (on, or at any time after, the Cash Settlement Date) and to debit a specified account of the Accountholder at the relevant Clearing System with an amount or amounts in respect thereof;
- (vi) in the case of Physical Delivery Warrants, include an irrevocable instruction to the relevant Clearing System to debit the specified account of the Accountholder with an amount equal to the aggregate Exercise Price on the Exercise Price Payment Date in respect of the Warrants being exercised on the Physical Delivery Settlement Date and to credit such amount to the account of the Principal Warrant Agent (for the account of the Issuer);
- (vii) give a certification as to the non-U.S. beneficial ownership of the Warrants being exercised therewith; and
- (viii) authorise the production of such certification in any applicable administrative or legal proceedings.

Verification of Accountholder: To exercise any Warrants, the relevant Accountholder must duly complete an Exercise Notice. The relevant Clearing System shall, in accordance with its normal operating procedures, verify that each person exercising Warrants is the Accountholder thereof according to the records of such Clearing System and that such Accountholder has an account at the relevant Clearing System which contains Warrants in an amount being exercised and funds equal to any applicable Taxes in respect of the Warrants being exercised.

If, in the determination of the relevant Clearing System, the relevant Warrant Agent or the Registrar:

- (i) the Exercise Notice is not complete or not in proper form;
- (ii) the Accountholder submitting an Exercise Notice is not validly entitled to exercise the relevant Warrants or not validly entitled to deliver such Exercise Notice; or
- (iii) the relevant Accountholder does not provide evidence on behalf of the Warrant holder, at the reasonable request of the relevant Warrant Agent or the Registrar, that sufficient funds equal to any applicable Taxes, Expenses and the aggregate Exercise Price (if any) will be available on the Exercise Date,

that Exercise Notice will be treated as void and a new duly completed Exercise Notice must be submitted if exercise of the Accountholder's Warrants is still desired. The Issuer shall procure that the Principal Warrant Agent, upon being informed of the defective Exercise Notice by the relevant Clearing System, Warrant Agent or the Registrar, as the case may be, informs the Accountholder submitting such defective Exercise Notice of the defect(s) and of the requirement to submit a new duly completed Exercise Notice if such Accountholder intends to exercise the relevant Warrants on the relevant Exercise Date.

Any determination by the relevant Clearing System, the relevant Warrant Agent or the Registrar as to any of the matters set out above shall, in the absence of manifest error, be conclusive and binding upon the Issuer, the Accountholder and the beneficial owner of the Warrants exercised.

SUMMARY OF PROVISIONS RELATING TO THE WARRANTS WHILE IN GLOBAL FORM

Notification to the relevant Warrant Agent or the Registrar: Subject to the verification set out above, the relevant Clearing System will:

- (i) confirm to the relevant Warrant Agent, in the case of Bearer Warrants, or to the Registrar, in the case of Registered Warrants (copied to the Issuer and the Calculation Agent) the number of Warrants being exercised and the number of the account to be credited with the Cash Settlement Amount; and
- (ii) promptly notify the common depository of receipt of the Exercise Notice and the number of the Warrants to be exercised.

Upon exercise of less than all of the Warrants represented by the Global Warrant or Global Warrant Certificate, the common depository will note such exercise on the Schedule to the Global Warrant or the Registrar will note such exercise in the Register relating to such Global Warrant Certificate and the aggregate number of Warrants so exercised as represented by the Global Warrant or Global Warrant Certificate shall be cancelled pro tanto.

Debit of Accountholder's Account: The relevant Clearing System will on or before the Settlement Date debit the relevant account of the Accountholder and credit the relevant account of the Principal Warrant Agent (in favour of the Issuer) with: (i) the Warrants being exercised, (ii) any applicable Taxes (if any) in respect of the Warrants being exercised and (iii) any other amounts as may be specified in the Final Terms.

If any of the items set out in the paragraph above are not so credited to the relevant account of the Principal Warrant Agent (in favour of the Issuer), then the Issuer shall be under no obligation to make any payment of any nature to the relevant Accountholder in respect of the Warrants being exercised, and the Exercise Notice delivered in respect of such Warrants shall thereafter be void for all purposes.

Effect of Exercise Notice: Delivery of an Exercise Notice shall constitute an irrevocable election and undertaking by the Accountholder to exercise the Warrants specified therein, provided that the person exercising and delivering such Exercise Notice is the person then appearing in the records of the relevant Clearing System as the holder of the relevant Warrants. If the person exercising and delivering the Exercise Notice is not the person so appearing, such Exercise Notice shall for all purposes become void and shall be deemed not to have been so delivered.

After the delivery of an Exercise Notice (other than an Exercise Notice which shall become void) by an Accountholder, such Accountholder shall not be permitted to transfer either legal or beneficial ownership of the Warrants exercised thereby. Notwithstanding this, if any Accountholder does so transfer or attempt to transfer such Warrants, the Accountholder will be liable to the Issuer for any losses, costs and expenses suffered or incurred by the Issuer including those suffered or incurred as a consequence of it having terminated any related hedging operations in reliance on the relevant Exercise Notice and subsequently: (i) entering into replacement hedging operations in respect of such Warrants; or (ii) paying any amount on the subsequent exercise of such Warrants without having entered into any replacement hedging operations.

Payments: All payments in respect of a Global Warrant which, in accordance with the “*Terms and Conditions of the Warrants*”, require presentation and/or surrender of a definitive Warrant or definitive Certificate will be made against presentation and (in the case of payment in full) and/or surrender of the Global Warrant at the specified office of the Principal Warrant Agent and will be effective to satisfy and discharge the corresponding liabilities of the Issuer in respect of the Warrants. On each occasion on which a payment is made in respect of the Global Warrant, the Issuer shall procure that the same is noted in a schedule thereto and entered *pro rata* in the records of Euroclear, Clearstream, Luxembourg and/or any other relevant clearing system. Any payments shall be made in accordance with the rules and procedures of the relevant Clearing System and the Issuer. ("**Allianz**") in order to create a bancassurance partnership, for the purpose of developing the non-life insurance business in Spain, excluding the health insurance line. The transaction will be implemented through the creation by BBVA Seguros, S.A., de Seguros y Reaseguros ("**BBVA Seguros**") of a newly-incorporated insurance company, to which the assets and liabilities related to the non-life insurance business owned by BBVA Seguros will be contributed. The agreements to be signed at closing of the transaction will include, among others, a distribution agreement for a 15-year term under which BBVA will distribute in Spain, on an exclusive basis, the non-life insurance products of the newly incorporated insurance company (excluding the health insurance line) on the terms and conditions established in such agreement. On the closing date of the transaction, BBVA Seguros will transfer 50 percent plus one share of the newly created company to Allianz for an initial fixed price of approximately 277 million euros, which will be adjusted based on the variation in the company's shareholders equity between signing and closing date. In addition to the initial fixed price, Allianz shall pay to BBVA Seguros, if applicable, a variable price of up to 100 million euros related to achieving specific business goals and attaining certain milestones included in the integration plan agreed by the parties.

This operating segment's non-performing loan ratio decreased to 4.4 per cent as of 31 December 2019 from 5.1 per cent as of 31 December 2018, mainly due to a 14.3 per cent decrease in the balance of non-performing loans in the period (€8,635 million as of 31 December 2019 and €10,073 million as of 31 December 2018). This change was mainly explained by the sale of non-performing mortgage loans and write-offs in 2019. This operating segment's non-performing loan coverage ratio increased to 60 per cent as of 31 December 2019 from 57 per cent as of 31 December 2018.

DIRECTORS AND SENIOR MANAGEMENT

BBVA is managed by a Board of Directors which, in accordance with its current by-laws (*Estatutos*), must consist of no less than 5 and no more than 15 members. All members of the Board of Directors are elected to serve three-year terms. BBVA's Board of Directors' Regulations state that the Board of Directors must try to ensure that there is an ample majority of non-executive directors over executive directors on the Board of Directors.

BBVA's corporate governance system is based on the distribution of functions between the Board of Directors, the Executive Committee (*Comisión Delegada Permanente*) and other specialised Board Committees, namely: the Audit Committee; the Appointments and Corporate Governance Committee; the Remunerations Committee; the Risk and Compliance Committee; and the Technology and Cybersecurity Committee. BBVA's Board of Directors are assisted in fulfilling its responsibilities by the Executive Committee. The Executive

Committee will deal with those matters of the Board of Directors that the Board agrees to delegate to it, in accordance with the law, the Bylaws, the Board of Directors' Regulations or its own Regulations approved by the Board of Directors.

BBVA may, from time to time, enter into transactions in the ordinary course of its business, and on an arm's length basis, with the Directors.

BBVA's Board of Directors' Regulations includes rules which are designed to prevent situations where a potential conflict of interest may arise. These Regulations provide, among other matters, that directors must refrain from participating in deliberations and vote on resolutions or decisions in which they or a related party may have a direct or indirect conflict of interest. Accordingly, there are no potential conflicts of interest between the private interests or other duties of the directors and their duties to BBVA.

Legal Proceedings

The Group operates in legal and regulatory environments that expose it to potentially significant legal and regulatory actions and proceedings, including legal claims and proceedings, civil and criminal regulatory proceedings, governmental and judicial investigations and proceedings, tax proceedings and other proceedings. Legal and regulatory actions and proceedings are subject to many uncertainties, and their outcomes, including the timing thereof, the amount of fines or settlements, which may be material, arising therefrom, or the form of any settlements, or changes in business practices the Group may need to introduce as a result thereof are often difficult to predict, particularly in the early stages of a particular legal or regulatory matter.

As of the date hereof, the Guarantor and its subsidiaries are involved in a number of legal and regulatory actions and proceedings in various jurisdictions around the world (including, among others, Spain, Mexico and the United States). See *"Risk Factors—The Group is party to a number of legal and regulatory actions and proceedings"* and *"Risk Factors - The Spanish judicial authorities are carrying out a criminal investigation relating to possible bribery, revelation of secrets and corporate corruption by BBVA."*

The Group can provide no assurance that the legal and regulatory actions and proceedings to which it is subject, or to which it may become subject in the future or otherwise affected by, will not, if resolved adversely, result in a material adverse effect on the Group's business, financial position or results of operations.

TAXATION

General

Transactions involving Warrants including the purchase, ownership, disposition and exercise of Warrants may have tax consequences for potential purchasers which may depend, amongst other things, upon the conditions applicable to the particular issue of Warrants, the status and circumstances of the potential purchaser and the applicable law and practice of taxation authorities in relevant jurisdictions.

POTENTIAL PURCHASERS WHO ARE IN ANY DOUBT ABOUT THE TAX POSITION IN RESPECT OF ANY ASPECT OF TRANSACTIONS INVOLVING WARRANTS OR THE OWNERSHIP OF WARRANTS SHOULD CONSULT THEIR OWN TAX ADVISERS

Potential purchasers of Warrants should note that they may be required to pay stamp taxes and other charges in accordance with the laws and practices of the country of purchase or other relevant jurisdictions, depending upon the circumstances, in addition to the issue price of each Security.

Each potential purchaser of Warrants should carefully consider General Condition 6 (Taxation)

The following comments are of a general nature. They do not constitute legal or tax advice; they are not exhaustive and should be treated with appropriate caution.

Preliminary consideration: Tax residence of the Issuer

The Issuer is incorporated as a private company with limited liability under the laws of the Netherlands. On the basis of section 2 subsection 4 Dutch Corporate Income Tax Act 1969, a company which is incorporated under Dutch law, is considered to be resident of the Netherlands for Dutch domestic tax purposes. This notwithstanding, the effective management of the company is currently carried out from Spain, since the key management and commercial decisions that are necessary to conduct the entity's business are taken from Spain. On the basis of such circumstance, the Issuer is also regarded as resident in Spain for tax purposes, as provided by Law 27/2014, of 27 November 2014 of the Corporate Income Tax (*Impuesto sobre Sociedades*).

Under this scenario in which the Issuer is resident for tax purposes both in Spain and in the Netherlands, the provisions contained in the Convention between The Netherlands and Spain for the Avoidance of Double Taxation with respect to Taxes on Income and on Net Wealth (the "**Convention**") apply. The Convention was ratified by Instrument made in Madrid on 16 June 1971 and was published on the Spanish National Gazette on 16 October 1972.

Pursuant to section 4 of the Convention (which deals with the general criteria followed by the Convention to consider a person as a resident of a Contracting State), an entity which is a resident of both Spain and the Netherlands is considered to be a resident of the State in which the place of its effective management is located (i.e., Spain).

Responsibility for Withholding

Payments in respect of Warrants will be made without withholding or deduction for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed or levied by or on behalf of Spain or any political subdivision thereof or any authority or agency therein or thereof having power to tax. However, if the withholding or deduction of such taxes, duties, assessments or governmental charges is required by law in case B as defined in "Spanish Taxation" of Section "Taxation", the Issuer or, as the case may be, the Guarantor will (subject to certain exceptions described in General Conditions 6) pay such additional amounts as will result in the holders of Warrants receiving such amounts as they would have received in respect of such Warrants had no such withholding or deduction been required.

Spanish Taxation

The provisions of sub-section (A) below shall apply to a Series of Warrants if Condition 6(b) is specified as being applicable in the Final Terms in respect of such Series:

(A) The acquisition of the Warrants is exempt from Transfer and Stamp Tax (*Impuesto sobre Transmisiones Patrimoniales y Actos Jurídicos Documentados*) and Value Added Tax (*Impuesto sobre el Valor Añadido*).

TAXATION

1. Spanish resident individuals

(a) *Personal Income Tax*

In the case of holders who are personal income tax (“**Personal Income Tax**”) taxpayers, the tax regime applicable to income deriving from the Warrants is regulated in Law 35/2006, of 28 November on Personal Income Tax (“**Law 35/2006**”) as amended by Law 26/2014 of November 28, 2014 and in Royal Decree 439/2007, of 30 March as amended by Royal Decree 1003/2014 of December 5, 2014 approving the Personal Income Tax regulations.

In relation to the income deriving from the Warrants, the Issuer is of the opinion that an issue of Warrants will not represent the obtaining and use of third party capital and, therefore will not be a source of income obtained from the transfer of own capital to third parties as defined in Article 25.2 of Law 35/2006 as amended by Law 26/2014 of November 28, 2014.

The price paid for the subscription of a Warrant or its acquisition in a secondary market will be treated as its acquisition value.

Income deriving from the transfer of the Warrant will qualify as a capital gain or loss. The amount will be determined as the difference between the acquisition value (including related taxes and expenses) of the relevant Warrant and the transfer price (net from any taxes and expenses related to the transfer provided that they have been paid by the transferor) of such Warrant.

If the Warrant is exercised, the income obtained, calculated as the difference between the amount received and the acquisition value of the Warrant, will be treated as a capital gain and should be included, in the savings income (*base del ahorro*), and taxable, at the rate of 19% on any income up to EUR 6,000, 21% from EUR 6,000.01 to 50,000; and 23% over EUR 50,000. If the exercise of a Warrant results in the delivery of shares, no taxation would result for the investor.

If the Warrant is not exercised at maturity, the investor will obtain a capital loss calculated as the acquisition value of the Warrant.

Capital loss obtained may be offset against any capital gain obtained during the tax period included in the Saving Income Base. The excess, if any, may be offset against the other incomes included in such Base with a limit of 20%. The excess, if any, may be offset in the same order within the following four years.

Any capital loss obtained from the Warrants would not be offsettable if the investor acquires homogeneous securities within the two months period after or before the transfer of the Warrant.

Income deriving from the Warrants will not be subject to any withholding or deduction for or on account of Spanish taxes.

(b) *Wealth Tax*

Individuals with tax residency in Spain are subject to Wealth Tax on tax year 2020 to the extent that their net worth exceeds €700,000. Therefore, they should take into account the value of the Warrants which they hold as at 31 December 2020.

Individuals resident in a country with which Spain has entered into a double tax treaty in relation to Wealth Tax would generally not be subject to such tax. Otherwise, non-Spanish resident individuals whose properties and rights located in Spain, or that can be exercised within the Spanish territory, exceed €700,000 would be subject to Wealth Tax at the applicable rates, ranging between 0.2 per cent. and 2.5 per cent., without prejudice of any exemption that should be applicable and the laws and regulations in force in each Autonomous Region.

As a consequence of the European Court of Justice Judgment (Case C-127/12), the Wealth Tax Law has been amended by Law 26/2014. As a result, non-Spanish tax resident individuals who are residents in the EU or in the European Economic Area can apply the legislation of the region in which the highest value of the assets and rights of the individuals are located.

(c) *Legal entities are not subject to Wealth Tax. Inheritance and Gift Tax*

The transfer of the Warrants to individuals by inheritance, legacy or donation shall be subject to the general rules of Inheritance and Gift Tax (Impuesto sobre Sucesiones y Donaciones) in accordance with the applicable Spanish and State rules even if title passes outside Spain and neither the heir nor the

TAXATION

beneficiary, as the case may be, is resident in Spain for tax purposes, without prejudice to the provisions of any DTT signed by Spain.

The effective tax rates, after applying all relevant factors, range between 0 per cent. and 81.6 per cent.

However, the Judgment from the European Court of Justice dated 3 September 2014 has declared that Spanish Inheritance and Gift Tax Law is against the principle of free movement of capital within the EU as the Spanish residents are granted tax benefits that, in practice, allow them to pay much lower taxes than non residents. According to Law 26/2014, it will be possible to apply tax benefits approved in some Spanish regions to EU residents following specific rules.

In the event that the beneficiary is an entity other than a natural person, the income obtained shall be subject to Corporate Income Tax or Non-Resident Income Tax, as the case may be, and without prejudice, in the latter event, to the provisions of any DTT that may apply.

2. Spanish resident legal entities

(a) *Corporate Income Tax*

In the case of Warrantheolders subject to corporate income tax (“**Corporate Income Tax**”), the applicable tax regime is governed by the Law 27/2014 of November 28, 2014 approving the consolidated text of the Corporate Income Tax Law and in Royal Decree 634/2015, of 10 July approving the Corporate Income Tax regulations.

The price paid for the acquisition of a Warrant will not have the condition of a tax-deductible expense and will be treated as the acquisition value of the relevant Warrant. Likewise, the price paid for a Warrant in the secondary market will be treated as its acquisition value.

If the Warrant is transferred, the accounting result deriving from such transfer, computed as the difference between the acquisition value (net of any provision) and the transfer price will be treated as income subject to Corporate Income Tax in accordance with the general rules.

If the Warrant is exercised, the income obtained, calculated as the difference between the amount received and the acquisition value of the Warrant, will be treated as taxable income and taxed at the general applicable tax rate (25%). If the exercise of a Warrant results in the delivery of shares, no taxation would result for the investor.

If the Warrant is not exercised at maturity, the investor will obtain a negative income calculated as the acquisition value of the Warrant.

Income deriving from the Warrants will not be subject to any withholding or deduction for or on account of Spanish taxes.

(b) *Wealth Tax*

Legal entities are not subject to Wealth Tax.

(c) *Inheritance and Gift Tax*

Legal entities with tax residence in Spain which acquire ownership or other rights over the Warrants by inheritance, gift or legacy are not subject to Inheritance and Gift Tax and must include the market value of the Warrants in their taxable income for Corporate Income Tax purposes.

3. Non Spanish resident investors

(a) *Non-Residents Income Tax*

In case of Warrantheolders subject to non residents income tax (“**Non Residents Income Tax**”), the applicable tax regime is governed by Royal Legislative Decree 5/2004, of 5 March as amended by Law 26/2014 of November 28, 2014 approving the consolidated text of the Non Residents Income Tax Law and in Royal Decree 1776/2004, of 30 July approving the Non Residents Income Tax regulations as amended by Royal Decree 1003/2014 of December 5, 2014.

(i) *Investors not operating through a permanent establishment in Spain:* The price paid for the subscription of the Warrant or its acquisition in a secondary market will be considered as its acquisition value.

TAXATION

Income deriving from the transfer of the Warrant will qualify as a capital gain or loss. The amount will be determined as the difference between the acquisition value (including related taxes and expenses) of the relevant Warrant and the transfer price (net from any taxes and expenses related to the transfer provided that they have been paid by the transferor) of such Warrant.

If the Warrant is exercised, the income obtained, calculated as the difference between the amount received and the acquisition value of the Warrant, will be treated as a capital gain. If the exercise of a Warrant results in the delivery of shares, no taxation would result for the investor.

As a general rule, any capital gain will be taxable at the general rate of 19%. However, if the investor is resident in a country with which Spain has signed a double tax treaty containing an exchange of information clause, income deriving from the transfer or exercise of the Warrant carried out in any of the Spanish official secondary stock markets will be exempt from taxation in Spain subject to the relevant formalities.

Moreover, if an investor is resident in a Member State of the European Union not qualified as a tax haven for Spanish tax purposes (as defined in Royal Decree 1080/1991, of 5 July) and does not obtain the income through a permanent establishment located in Spain, the capital gain obtained from the transfer or exercise of the Warrant will be exempt from taxation in Spain.

- (ii) *Investors operating through a permanent establishment in Spain:* In the case of a non-resident investor operating through a permanent establishment in Spain, the income will be subject to Non Residents Income Tax in accordance with Corporate Income Tax rules.

In both cases 3(a)(i) and 3(a)(ii) above, income deriving from the Warrants will not be subject to any withholding or deduction for or on account of Spanish taxes.

(b) *Wealth Tax*

Individuals resident in a country with which Spain has entered into a double tax treaty in relation to Wealth Tax would generally not be subject to such tax. Otherwise, non-Spanish resident individuals whose properties and rights located in Spain, or that can be exercised within the Spanish territory exceed €700,000 would be subject to Wealth Tax, the applicable rates ranging between 0.2% and 2.5%.

Non-Spanish resident legal entities are not subject to Wealth Tax.

(c) *Inheritance and Gift Tax*

Individuals who do not have tax residence in Spain and who acquire ownership or other rights over the Warrants by inheritance, gift or legacy will be subject to Inheritance and Gift Tax in accordance with the applicable regional or State rules to the extent that the Warrants are located in Spain or the rights deriving from them can be exercised in Spanish territory.

Individuals who are resident in a country with which Spain has entered into a double tax treaty in relation to Inheritance and Gift Tax will generally not be subject to inheritance and gift tax.

Non resident legal entities which acquire ownership or other rights over the Warrants by inheritance, gift or legacy are not subject to Inheritance and Gift Tax but to Non Residents Income Tax.

4. Payments made by the Guarantor

The payment of any Cash Settlement Amount and/or the delivery of any Entitlement by the Guarantor under the Guarantee may be made or delivered free and clear of withholding or deduction on account of Spanish taxes either (i) if such distribution is characterised as an indemnity under Spanish law or (ii) if the Spanish Tax Authorities take the view that the Guarantor has effectively assumed the obligations of the Issuer under the Warrants (whether contractually or by any other means) since distributions by the Guarantor would then be subject to the same tax rules as described above in relation to distributions by the Issuer.

THE ABOVEMENTIONED TAXATION CONSIDERATIONS SHALL BE APPLICABLE UNLESS, ACCORDING TO CERTAIN CRITERIA ISSUED BY THE SPANISH TAX AUTHORITIES, A PARTICULAR WARRANT CAN NOT BE CONSIDERED AS AN OPTION FOR SPANISH TAX PURPOSES BUT AS A FINANCIAL ASSET. SHOULD THIS BE THE CASE, ANY GAIN OR LOSS DERIVING FROM THE WARRANT WILL QUALIFY AS INCOME OBTAINED FROM THE USE OF THIRD PARTY CAPITAL RATHER THAN A CAPITAL GAIN OR LOSS. DUE TO THE RESTRICTIONS OF SUBSCRIPTION AND SALE OF THE WARRANTS (as defined under

TAXATION

“Subscription and Sale—Spain”), THIS KIND OF WARRANTS COULD BE VALID ONLY FOR NON RESIDENT WARRANTHOLDERS. IN THIS CASE, THE SPANISH TAXATION APPLICABLE SHALL BE PARAGRAPH (B) BELOW AND THIS WILL BE SPECIFIED IN THE FINAL TERMS.

(B) Alternative Spanish Tax Treatment

The provisions of this sub-section (B) shall apply to a Series of Warrants if Condition 7(c) is specified as being applicable in the Final Terms in respect of such Series:

Acquisition of the Warrants

The issue of, subscription for, transfer and acquisition of the Warrants is exempt from Transfer and Stamp Tax (Impuesto sobre Transmisiones Patrimoniales y Actos Jurídicos Documentados) and Value Added Tax (Impuesto sobre el Valor Añadido).

Taxation on the income and transfer of the Warrants

The tax treatment of the acquisition, holding and subsequent transfer of the Warrants is summarised below and is based on the tax regime applicable to the Warrants pursuant to Royal Legislative Decree 5/2004 of 5 March 2004 as amended by Law 26/2014 of November 28, 2014 approving the consolidated text of the Non-Resident Income Tax Law (*Impuesto sobre la Renta de los no Residentes*). Consideration has also been given to the rules for the implementation of such regulation (basically Royal Decree 1776/2004 of 30 July 2004 as amended by Royal Decree 1003/2014 of December 5, 2014 approving the Non-Resident Income Tax Regulations).

Consideration has also been given to Spanish legislation on the issuance of preferred securities and debt securities issued by Spanish financial and non-financial listed entities, either directly or through a subsidiary (Additional Provision one of Law 10/2014 of 26 June 2014 on investment ratios, own funds and information obligations of financial intermediaries, as amended; and Royal Decree 1065/2007 of 27 July 2007 (as amended by RD 1145/2011) approving the General Regulations of the tax inspection and management procedures and developing the common rules of the procedures to apply taxes.

Income obtained by Warrantholders who are Non-Resident Income Tax payers, both on interest and in connection with the transfer, repayment or settlement of the Warrants, whether or not through a permanent establishment, shall be considered Spanish source income and therefore subject to taxation in Spain under Legislative Royal Decree 5/2004 of 5 March 2004 as amended by Law 26/2014 of November 28, 2014 approving the Consolidated Non-Resident Income Tax Law, without prejudice to the provisions contained in any applicable tax treaty for the avoidance of double taxation (“**DTT**”).

Income obtained through a permanent establishment in Spain in respect of the Warrants

The holding of Warrants by investors who are not resident for tax purposes in Spain will not in itself create the existence of a permanent establishment in Spain.

Income obtained by Non Spanish resident holders acting through a permanent establishment in Spain in respect of the Warrants will be taxed under the rules provided by Chapter III of the Non-Resident Income Tax Law. These Warrantholders will be subject to taxation substantially in the same manner as Spanish Corporate Income Tax taxpayers and, therefore, it shall be computed as taxable income in accordance with the general rules set out in the Corporate Income Tax Law and will therefore be taxed at the current general tax rate of 25%. The aforesaid income shall not be subject to withholding tax.

Income not obtained through a permanent establishment in Spain in respect of the Warrants

Income obtained by Warrantholders who are not tax resident in Spain acting for these purposes without a permanent establishment within Spain is exempt from such Non-Resident Income Tax according to Additional Provision Two of Law 10/2014 of 26 June, 2014.

Tax rules for payments made by the Guarantor

Payments which may be made by the Guarantor to Warrantholders, if the Guarantee is enforced, will be subject to the same tax rules previously set out for payments made by the Issuer.

TAXATION

Tax Reporting Obligations of the Issuer and the Guarantor

Royal Decree 1145/2011 modified, among others, article 44 of Royal Decree 1065/2007 of 27 July, which sets out the reporting obligations applicable to preference shares and debt instruments issued under Additional Provision One of Law 10/2014 of 26 June, 2014. The new procedures apply to interest deriving from preference shares and debt instruments to which Additional Provision One of Law 10/2014 of 26 June, refers, including debt instruments issued at a discount for a period equal to or less than twelve months.

According to the literal wording of Royal Decree 1145/2011, income derived from securities originally registered with the entities that manage clearing systems located outside Spain, that are recognized by Spanish law or by the law of another OECD country (such as Euroclear or Clearstream), will be paid free of Spanish withholding tax provided that the paying agent appointed by the issuer submits a statement to the issuer, in accordance with the form attached as annex to RD 1145/2011, with the following information:

- (i) identification of the securities; and
- (ii) total amount of the income corresponding to each clearing house located outside Spain. These obligations refer to the total amount paid to investors through each foreign clearing house.

The statement mentioned above must be dated the business day immediately before the date on which the interest is payable or, in the case of securities issued at a discount, the business day immediately before the settlement date of such securities. The statements must reflect the situation at the close of business on the business day immediately before the date on which the interest is payable.

In the case of payments made in respect of the Warrants, the failure to submit the relevant statement will result in the issuer or its authorized paying agent being liable to make the corresponding payment net of the applicable Spanish withholding tax (this is currently at the rate of 19%. In such circumstances, neither the Issuer nor the Guarantor will be required to pay additional amounts in respect of such withholding tax. The Warrant Agreement in respect of the Warrants contains provisions for the Principal Warrant Agent to provide the relevant information to the Issuer in due course.

Notwithstanding the above, if on or before the 10th day of the month following the month in which the payment is made, the relevant entity submits the statement, the issuer or its authorized paying agent will refund the amount withheld in excess, as soon as it receives the statement.

Please note that this is for general information purposes only and is not intended to be nor shall it be deemed to be, or constitute legal advice.

None of the Issuer, the Guarantor, the Dealer(s), the Paying Agent, and/or the European Clearing Systems assumes any responsibility therefore.

Refund by the Spanish tax authorities

Warrantholders who might otherwise have been entitled to a gross payment but in respect of whom the Principal Warrant Agent does not provided with the relevant Annex on or before the 10th calendar day of the month that follows the month in which the interest is payable may seek a refund of Spanish tax withheld directly from the Spanish tax authorities.

Dutch Taxation

The following describes the principal Dutch tax consequences of the holding, exchange and disposal of the Warrants. This summary does not purport to be a comprehensive description of all Dutch tax considerations that may be relevant to a decision to purchase, to hold, and to dispose of the Warrants. Each prospective holder of Warrants should consult a professional adviser with respect to the tax consequences of an investment in the Warrants. The discussion of certain Dutch taxes set forth below is included for general information purposes only.

This summary is based on the Dutch tax legislation, published case law, treaties, rules, regulations and similar documentation, in force as of the date of this Base Prospectus, without prejudice to any amendments introduced at a later date and implemented with retroactive effect. Where this summary refers to the Netherlands, such reference is restricted to the part of the Kingdom of the Netherlands that is situated in Europe and the legislation applicable in that part of the Kingdom.

TAXATION

Tax position of the Issuer

Under the Convention, the Issuer is considered to be resident of Spain for tax purposes and therefore the Netherlands should refrain from levying corporate income tax on profits generated by the Issuer, except if and to the extent such profits are allocable to a Dutch permanent establishment or permanent representative of the Issuer.

Withholding tax

All payments made by the Issuer under a Warrant may be made free of withholding or deduction of, for or on account of any taxes of whatever nature imposed, levied, withheld or assessed by The Netherlands or any political subdivision or taxing authority thereof or therein.

Taxes on Income and Capital Gains

A holder of the Warrants (the “**Warrantholder**”) who derives income from a Warrant or who realises a gain from the disposal or settlement of a Warrant will not be subject to Dutch taxation on such income or gain, provided that:

- (a) the Warrantholder is neither resident nor deemed to be resident of the Netherlands for Dutch tax purposes ;
- (b) the Warrantholder does not have an enterprise or deemed enterprise (as defined in Dutch tax law) or an interest in an enterprise or deemed enterprise (as defined in Dutch tax law) that is, in whole or in part, carried on through a permanent establishment (vaste inrichting) or a permanent representative (vaste vertegenwoordiger) in the Netherlands and to which permanent establishment or permanent representative, as the case may be, the Warrants are attributable;
- (c) the Warrantholder is not entitled to a share in the profits of an enterprise that is effectively managed in the Netherlands, other than by way of securities and to which enterprise the Warrants are attributable;
- (d) the Warrantholder does not have a substantial interest (aanmerkelijk belang) or a deemed substantial interest in the Issuer as defined in the Dutch Income Tax Act 2001 (Wet op de inkomstenbelasting 2001); and
- (e) if the Warrantholder is an individual, the Warrantholder does not derive benefits from the Warrants that are taxable as benefits from miscellaneous activities in the Netherlands (resultaat uit overige werkzaamheden in Nederland) as defined in the Dutch Income Tax Act 2001, which include, but are not limited to, activities in respect of the Warrants which are beyond the scope of “regular active asset management” (normaal actief vermogensbeheer).

Under Dutch tax law a Warrantholder will not be deemed a resident, domiciled or carrying on a business in the Netherlands by reason only of its holding of the Warrants or the performance by the Issuer of its obligations under the Warrants.

Gift and Inheritance Taxes

No gift or inheritance taxes will arise in the Netherlands with respect to the acquisition of the Warrants by way of gift by, or on the death of, a Warrantholder, unless:

- (a) the Warrantholder is a resident or deemed to be resident of the Netherlands for the purpose of the relevant Dutch tax law provisions; or
- (b) in the case of a gift of the Warrants by an individual who at the date of the gift was neither resident nor deemed to be resident in the Netherlands, such individual dies within 180 days after the date of the gift, while being resident or deemed to be resident of the Netherlands.

For the purpose of Dutch gift and inheritance tax, an individual who has the Dutch nationality will be deemed to be a resident of the Netherlands at the date of the gift or the date of his death, if he has been a resident of the Netherlands at any time during the ten years preceding the date of the gift or the date of his death.

For the purposes of Dutch gift tax, an individual who does not have the Dutch nationality will be deemed to be a resident of the Netherlands at the date of the gift, if he has been a resident of the Netherlands at any time during the twelve months preceding the date of the gift.

TAXATION

Value Added Tax

No Value Added Tax (Omzetbelasting) will arise in The Netherlands in respect of any payment in consideration for the issue of the Warrants or with respect to any payment by the Issuer in respect of the Warrants.

Other Taxes and Duties

No registration tax, stamp duty or any other similar documentary tax or duty, other than court fees, will be payable in the Netherlands in respect of or in connection with the issue of the Warrants.

Irish Taxation

The following discussion is a summary of the Irish withholding tax treatment of the Warrants. It is based on the laws and practice of the Revenue Commissioners currently in force in Ireland as at the date of this Base Prospectus and may be subject to change. The summary does not purport to be a comprehensive description of all of the Irish tax considerations that may be relevant to a decision to purchase, own or dispose of the Warrants. The summary does not constitute tax or legal advice and the comments below are of a general nature only and it does not discuss all aspects of Irish taxation that may be relevant to any particular holder of Warrants. Prospective investors in the Warrants should consult their professional advisers on the tax implications of the purchase, holding, exercise or sale of the Warrants and the receipt of payments thereon under any laws applicable to them.

Irish Withholding Tax

Irish withholding tax applies to certain payments including payments of:

- (c) Irish source yearly interest (yearly interest is interest that is capable of arising for a period in excess of one year);
- (d) Irish source annual payments (annual payments are payments that are capable of being made for a period in excess of one year and are pure income-profit in the hands of the recipient); and
- (e) Distributions (including interest that is treated as a distribution under Irish law) made by companies that are resident in Ireland for the purposes of Irish tax;

at the standard rate of income tax (currently 20 per cent.) in the case of (i) and (ii) above and at the rate of 25% in the case of (iii) above.

On the basis that the Issuer is not resident in Ireland for the purposes of Irish tax, nor does the Issuer operate in Ireland through a branch or agency with which the issue of the Warrants is connected, nor are the Warrants held in Ireland through a depository or otherwise located in Ireland, then to the extent that payments of interest or annual payments arise on the Warrants, such payments should not be regarded as payments having an Irish source for the purposes of Irish taxation.

Accordingly, the Issuer or any paying agent acting on behalf of the Issuer should not be obliged to deduct any amount on account of these Irish withholding taxes from payments made in connection with the Warrants.

Separately, for as long as the Warrants are quoted on a stock exchange, a purchaser of the Warrants should not be obliged to deduct any amount on account of Irish tax from a payment made by it in connection with the purchase of the Warrants.

Irish Encashment Tax

Payments on any Warrants paid by a paying agent in Ireland or collected or realised by an agent in Ireland acting on behalf of the beneficial owner of Warrants will be subject to Irish encashment tax at the standard rate of Irish tax (currently 20 per cent), unless it is proved, on a claim made in the required manner to the Revenue Commissioners of Ireland, that the beneficial owner of the Warrants entitled to the interest or distribution is not resident in Ireland for the purposes of Irish tax and such interest or distribution is not deemed, under the provisions of Irish tax legislation, to be income of another person that is resident in Ireland.

The Proposed Financial Transaction Tax

The European Commission has published a proposal for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the participating Member States). However, Estonia has since stated that it will not participate.

TAXATION

The proposed FTT has very broad scope and could, if introduced in its current form, apply to certain dealings in the Warrants (including secondary market transactions) in certain circumstances. The issuance and subscription of Warrants should, however, be exempt.

Under current proposals the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Warrants where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, “established” in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

The FTT proposal remains subject to negotiation between the participating Member States and is the subject of legal challenge. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate. Prospective holders of the Warrants are advised to seek their own professional advice in relation to the FTT.

AUTOMATIC EXCHANGE OF TAX INFORMATION BETWEEN STATES

On 17th November 2015, the Spanish Government published Royal Decree 1021/2015, of 13 November, (the “**Royal Decree**”) which establishes the obligation on financial institutions to identify the tax residence of persons holding or controlling certain financial accounts and to report them to the Spanish tax authorities within the context of mutual assistance.

The Royal Decree implements into Spanish domestic legislation the rules on the information to be reported to the tax authorities in respect of financial accounts and due diligence procedures that must be applied by affected financial institutions when obtaining such information per EC Council Directive 2011/16/EU on administrative cooperation in the field of taxation (as amended by EC Council Directive 2014/107/EU) as regards mandatory automatic exchange of information in the field of taxation and the provisions of article 29 bis and additional provision twenty-two of Spanish General Taxation Law.

The Royal Decree is set to enter into force on 1 January 2016 and Spanish financial institutions must therefore report the relevant information relating to 2015 to the Spanish tax authorities in 2020.

Based on the Royal Decree, BBVA may be compelled to provide the Spanish tax authorities with certain information in respect of certain categories of financial accounts held or controlled by some investors in the Warrants.

FOREIGN ACCOUNT TAX COMPLIANCE ACT

Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986 (“**FATCA**”) impose a new reporting regime and potentially a 30 per cent. withholding tax with respect to certain payments to (i) any non-U.S. financial institution (a “**foreign financial institution**”, or “**FFI**” (as defined by FATCA)) that does not become a “Participating FFI” by entering into an agreement with the U.S. Internal Revenue Service (“**IRS**”) to provide the IRS with certain information in respect of its account holders and investors or is not otherwise exempt from or in deemed compliance with FATCA and (ii) any investor (unless otherwise exempt from FATCA) that does not provide information sufficient to determine whether the investor is a U.S. person or should otherwise be treated as holding a “United States account” of the Issuer (a “**Recalcitrant Holder**”). The Issuer may be classified as an FFI.

The new withholding regime is now in effect for payments from sources within the United States and will apply to “foreign passthru payments” (a term not yet defined) no earlier than 1st January, 2017. This withholding would potentially apply to payments in respect of (i) any Warrants characterized as debt (or which are not otherwise characterized as equity and have a fixed term) for U.S. federal tax purposes that are issued on or after the grandfathering date, the date that is six months after the date on which final U.S. Treasury regulations defining the term foreign passthru payment are filed with the Federal Register, or which are materially modified after the grandfathering date and (ii) any Warrants characterised as equity or which do not have a fixed term for U.S. federal tax purposes, whenever issued. If Warrants are issued before the grandfathering date, and additional Warrants of the same series are issued on or after that date, the additional Warrants may not be treated as grandfathered, which may have negative consequences for the existing Warrants, including a negative impact on market price.

TAXATION

The United States and a number of other jurisdictions have entered into intergovernmental agreements to facilitate the implementation of FATCA (each, an “**IGA**”). Pursuant to FATCA and the “Model 1” and “Model 2” IGAs released by the United States, an FFI in an IGA signatory country could be treated as a “Reporting FI” not subject to withholding under FATCA on any payments it receives. Further, an FFI in an IGA jurisdiction generally would not be required to withhold under FATCA or an IGA (or any law implementing an IGA) (any such withholding being “**FATCA Withholding**”) from payments it makes. Under each Model IGA, a Reporting FI would still be required to report certain information in respect of its account holders and investors to its home government or to the IRS. The United States and Spain have entered into an IGA based largely on the Model 1 IGA with each of the Netherlands and Spain.

If the Issuer is treated as a Reporting FI pursuant to any applicable IGA, the Issuer would not anticipate that it will be obliged to deduct any FATCA Withholding on payments it makes. There can be no assurance, however, that the Issuer will be treated as a Reporting FI, or that the Issuer would in the future not be required to deduct FATCA Withholding from payments it makes. Accordingly, the Issuer and financial institutions through which payments on the Warrants are made may be required to withhold FATCA Withholding if (i) any FFI through or to which payment on such Warrants is made is not a Participating FFI, a Reporting FI, or otherwise exempt from or in deemed compliance with FATCA or (ii) an investor is a Recalcitrant Holder.

Whilst the Warrants are in global form and held within the Clearing Systems, it is expected that FATCA will not affect the amount of any payments made under, or in respect of, the Warrants by the Issuer, any paying agent and the common depositary or common safekeeper, given that each of the entities in the payment chain between the Issuer and with the participants in the Clearing Systems is a major financial institution whose business is dependent on compliance with FATCA and that any alternative approach introduced under an IGA will be unlikely to affect the Warrants. The documentation expressly contemplates the possibility that the Warrants may go into definitive form and therefore that they may be taken out of the clearing systems. If this were to happen, then a non-FATCA compliant holder could be subject to FATCA Withholding. However, definitive Warrants will only be printed in remote circumstances.

If an amount in respect of FATCA Withholding were to be deducted or withheld from payments made in respect of the Warrants, neither the Issuer nor any paying agent nor any other person would, pursuant to the conditions of the Warrants, be required to pay additional amounts as a result of the deduction or withholding. As a result, investors may receive less than expected. FATCA is particularly complex and its application is uncertain at this time. The above description is based in part on regulations, official guidance and the IGAs between the United States and the Netherlands and Spain, all of which are subject to change or may be implemented in a materially different form. Prospective investors should consult their tax advisers on how these rules may apply to the Issuer and to payments they may receive in connection with the Warrants.

SUBSCRIPTION AND SALE

United States of America

The Warrants have not been and will not be registered under the Securities Act and may not be offered, sold, transferred, pledged, delivered or exercised, directly or indirectly, at any time within the United States or to, or for the account or benefit of, or by, any U.S. person. Accordingly, the Warrants are only for offer and sale outside the United States in offshore transactions to non-U.S. persons in reliance on Regulation S under the Securities Act.

Public Offer Selling Restriction under the Prospectus Regulation

For the purposes of this section, all references to EU Regulations or Directives include, in relation to the UK, those Regulations or Directives as they form part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018 or have been implemented in UK domestic law, as appropriate.

United Kingdom

The Arranger has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that:

- (a) in relation to any Warrants having a maturity of less than one year, (i) it is a person whose ordinary activities involve it in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of its business and (ii) it has not offered or sold and will not offer or sell any Warrants other than to persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or as agent) for the purposes of their businesses or who it is reasonable to expect will acquire, hold, manage or dispose of investments (as principal or agent) for the purposes of their businesses where the issue of the Warrants would otherwise constitute a contravention of Section 19 of the Financial Services and Markets Act 2000 (the "**FSMA**") by the Issuer;
- (b) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FSMA) received by it in connection with the issue or sale of any Warrants in circumstances in which Section 21(1) of the FSMA does not or, in the case of the Guarantor, would not if it was not an authorised person, apply to the Issuer or the Guarantor; and
- (c) it has complied and will comply with all applicable provisions of the FSMA and the Financial Services Act 2012 with respect to anything done by it in relation to any Warrants in, from or otherwise involving the United Kingdom.

Ireland

Spain

The Arranger has acknowledged, and each further Dealer appointed under the Programme will be required to acknowledge, that the Warrants must not be offered, distributed or sold to Spanish Residents who are retail clients under point (11) of Article 4(1) of MiFID II. No publicity of any kind shall be made in Spain.

As used herein, "**Spanish Resident**" means a tax resident of Spain for the purposes of the Spanish tax legislation and any tax treaty signed by Spain for the avoidance of double taxation, including (i) any corporation or other entity taxable as a corporation incorporated under Spanish law, whose registered office is located in Spain or whose effective management is performed in Spain and (ii) any individual who is physically present in Spanish territory for more than 183 days in the calendar year or whose main centre or base of activities or economic interests is in Spain.

If the Issue Terms in respect of any Warrants specifies Sales outside EEA and UK only as Applicable, the arranger has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that the Warrants are not intended to be offered, distributed or sold to any investor in the European Economic Area and the United Kingdom, and that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Warrants which are the subject of the offering contemplated by this Base Prospectus as completed by the Issue Terms in relation thereto to any investor in the European Economic Area and the United Kingdom.

The offering of the Warrants has not been cleared by the *Commissione Nazionale per la Società e la Borsa* (the "**CONSOB**") (the Italian securities exchange commission), pursuant to Italian securities legislation. Accordingly, no Warrants may be offered, sold or delivered, directly or indirectly nor may copies of this Base Prospectus or of any other document relating to the Warrants be distributed in the Republic of Italy, except (a) to qualified investors (*investitori qualificati*) as defined in Article 35, first paragraph, letter (d) of CONSOB Regulation No. 20307 of 15 February 2018, as amended ("**Regulation No. 20307**"), pursuant to Article 34-ter, first paragraph letter (b) of CONSOB Regulation No. 11971 of 14 May 1999, as amended (the "**Company Regulation**"), implementing Article 100 of Italian Legislative Decree No. 58 of 24 February 1998, as amended (the "**Italian Financial Act**"); and (b) in any other circumstances which are exempted from the rules on public offerings pursuant to Article 100 of the Italian Financial Act and the implementing CONSOB regulations, including the Company Regulation.

- (c) in compliance with any other applicable laws and regulations or requirement imposed by CONSOB or the Bank of Italy or other Italian authority.

Please note that in accordance with Article 100-bis of the Financial Services Act:

Investors should also note that, in any subsequent distribution of the Warrants in the Republic of Italy, Article 100-bis of the Financial Services Act may require compliance with the law relating to public offers of securities. Furthermore, where the Warrants are placed solely with "qualified investors" and are then systematically ("sistematicamente") resold on the secondary market at any time in the 12 months following such placing, purchasers of Warrants who are acting outside of the course of their business or profession may in certain circumstances be entitled to declare such purchase void and, in addition, to claim damages from any authorised person at whose premises the Warrants were purchased, unless an exemption provided for under the Financial Services Act applies.

Restrictions for distribution of Warrants to Retail Clients:

Warrants qualifying as structured products pursuant to Article 70 of the Swiss Federal Act on Financial Services of 15 June 2018 ("**FinSA**") may be offered to retail clients (*Privatkundinnen und -kunden*) pursuant to Article 4 para. 2 FinSA ("**Retail Clients**") in, into or from Switzerland only if a key investor document (*Basisinformationsblatt*) relating to the Warrants in the sense of Article 58 et seq. FinSA ("**FinSA-KID**") or a key information document pursuant to Regulation (EU) No 1286/2014 and Delegated Regulation (EU) No. 2017/653 ("**PRIIPs-KID**") has been prepared and provided to the relevant Retail Clients. Before 1 January 2022, the issuer may prepare a Swiss simplified prospectus (a "**Swiss Simplified Prospectus**") pursuant to Article 5 of the Swiss Federal Act on Collective Investment Schemes of 23 June 2006 ("**CISA**") instead of a FinSA-KID or a PRIIPs-KID and such Swiss Simplified Prospectus may be provided to Retail Clients instead of a FinSA-KID or a PRIIPs-KID. If the Warrants may only be offered to Retail Clients in the context of asset management mandates, such obligation to provide a FinSA-KID, a PRIIPs-KID or a Swiss Simplified Prospectus would not apply.

All clients other than professional clients (*professionelle Kunden*) and institutional clients (*institutionelle Kunden*), as defined in Article 4 para. 3, 4 and 5 and Article 5 para. 1 and 2 FinSA ("**Professional or Institutional Clients**"), are Retail Clients. Without a registration of the Base Prospectus with a FinSA Prospectus Office pursuant to the rules of the FinSA, from 1 December 2020, the Warrants may only be offered, sold or advertised, directly or indirectly, in, into or from Switzerland if the Warrants (a.) are addressed solely at investors classified as Professional or Institutional Clients; (b.) are addressed at fewer than 500 Retail Clients; (c.) are addressed at investors acquiring securities to the value of at least CHF 100,000; (d.) have a minimum issue price per Warrant of CHF 100,000; or (e.) do not exceed a total value of CHF 8 million over a 12-month period.

The Arranger has agreed, and each further Dealer appointed under the Programme will be required to agree, that it will (to the best of its knowledge and belief) comply with all applicable securities laws and regulations in force in any jurisdiction in which it purchases, offers, sells or delivers Warrants or possesses or distributes this Base Prospectus and will obtain any consent, approval or permission required by it for the purchase, offer, sale or delivery by it of Warrants under the laws and regulations in force in any jurisdiction to which it is subject or in which it makes such purchases, offers, sales or deliveries and neither the Issuer, the Guarantor nor the Dealers shall have any responsibility therefor.

SUBSCRIPTION AND SALE

None of the Issuer, the Guarantor nor the Dealer(s) represents that Warrants may at any time lawfully be sold in compliance with any applicable registration or other requirements in any jurisdiction, or pursuant to any exemption available thereunder, or assumes any responsibility for facilitating such sale.

With regard to each Tranche, the relevant Dealer will be required to comply with such other restrictions as the Issuer and the relevant Dealer shall agree and as shall be set out in the applicable Issue Terms

IMPORTANT INFORMATION RELATING TO NON-EXEMPT OFFERS OF WARRANTS

Restrictions on Non-exempt offers of Warrants in Relevant Member States

Certain Tranches of Warrants with an issue price per Warrant of less than €100,000 (or its equivalent in any other currency) may be offered in circumstances where there is no exemption from the obligation under the Prospectus Regulation to publish a prospectus. Any such offer is referred to as a “**Non-exempt Offer**”. This Base Prospectus has been prepared on a basis that permits Non-exempt Offers of Warrants in each Member State in relation to which the Issuer has given its consent as specified in the applicable Final Terms (each specified Member State, a “**Non-exempt Offer Jurisdiction**” and together the “**Non-exempt Offer Jurisdictions**”). A person making or intending to make a Non-exempt Offer of Warrants on the basis of this Base Prospectus must do so only with the Issuer’s consent to the use of this Base Prospectus as provided under “*Consent given in accordance with Article 3.2 of the Prospectus Regulation*” and provided such person complies with the conditions attached to that consent.

Save as provided above, none of the Issuer, the Guarantor nor any Dealer have authorised, nor do they authorise, the making of any Non-exempt Offer of Warrants in circumstances in which an obligation arises for the Issuer or any Dealer to publish or supplement a prospectus for such offer.

Warrants to be offered pursuant to a Non-Exempt Offer will be issued by the Issuer at the Issue Price specified in the applicable Final Terms. The Issue Price will be determined by the Issuer in consultation with the relevant Dealer at the time of the relevant Non-Exempt Offer and will depend, amongst other things, on prevailing market conditions at that time. The offer price at which the Authorised Offeror will offer such Warrants to the Investor will be the Issue Price or (where agreed with the relevant Dealer) such other price as may be agreed between an Investor and the Authorised Offeror making the offer of the Warrants to such Investor. Neither the Issuer nor the Guarantor will be party to arrangements between an Investor and an Authorised Offeror, and the Investor will need to look to the relevant Authorised Offeror to confirm the price at which such Authorised Offeror is offering the Warrants to such Investor.

Consent given in accordance with Article 5 of the Prospectus Regulation

In the context of a Non-exempt Offer of such Warrants, the Issuer and the Guarantor each accept responsibility, in each of the Non-exempt Offer Jurisdictions, for the consent of this Base Prospectus in relation to any person (an “**Investor**”) who purchase any Warrant in a Non-exempt Offer made by a Dealer or an Authorised Offeror (as defined below), where that offer is made during the Offer Period specified in the applicable Final Terms and provided that the conditions attached to the giving of the consent for the use of this Base Prospectus are complied with. The consent and conditions attached to it are set out under “*Consent*” and “*Conditions to Consent*” below.

None of the Issuer, the Guarantor or any Dealer makes any representation as to the compliance by an Authorised Offeror with any applicable conduct of business rules or other applicable regulatory or securities law requirements in relation to any Non-exempt Offer and none of the Issuer or the Dealer has any responsibility or liability for the actions of that Authorised Offeror.

Except in the circumstances set out in the following paragraphs, neither the Issuer nor the Guarantor has authorised the making of any Non-exempt Offer by any offeror and the Issuer has not consented to the use of this Base Prospectus by any other person in connection with any Non-exempt Offer of Warrants. Any Non-exempt Offer made without the consent of the Issuer is unauthorised and none of the Issuer and the Guarantor accepts any responsibility or liability for the actions of the persons making any such unauthorised offer.

If, in the context of a Non-exempt Offer, an Investor is offered Warrants by a person who is not an Authorised Offeror, the Investor should check with that person whether anyone is responsible for this Base Prospectus for the purposes of the relevant Non-exempt Offer and, if so, who that person is. If the Investor is in any doubt about whether it can rely on this Base Prospectus and/or who is responsible for its contents it should take legal advice.

Consent

In connection with each Tranche of Warrants, and subject to the conditions set out below under “*Conditions to Consent*”, the Issuer consents to the use of this Base Prospectus (as supplemented as at the relevant time, if applicable) in connection with a Non-exempt Offer of such Warrants by:

Non-Exempt Offers: Issue Price and Offer Price

Warrants to be offered pursuant to a Non-Exempt Offer will be issued by the Issuer at the Issue Price specified in the applicable Final Terms. The Issue Price will be determined by the Issuer in consultation with the relevant Dealer at the time of the relevant Non-Exempt Offer and will depend, amongst other things, on prevailing market conditions at that time. The offer price at which the Authorised Offeror will offer such Warrants to the Investor will be the Issue Price or (where agreed with the relevant Dealer) such other price as may be agreed between an Investor and the Authorised Offeror making the offer of the Warrants to such Investor. Neither the Issuer nor the Guarantor will be party to arrangements between an Investor and an Authorised Offeror, and the Investor will need to look to the relevant Authorised Offeror to confirm the price at which such Authorised Offeror is offering the Warrants to such Investor.

GENERAL INFORMATION

12 Credit Ratings

The Guarantor has been rated A– by S&P Global, A3 by Moody’s and A - by Fitch Ratings España, S.A.U. (“**Fitch**”). The Issuer has been rated A– by S&P Global. Each of S&P Global, Moody’s and Fitch is established in the European Union and is registered under the CRA Regulation. As such, each of S&P Global, Moody’s and Fitch is included in the list of credit rating agencies published by the European Securities and Markets Authority (“**ESMA**”) on its website (at <http://www.esma.europa.eu/page/List-registered-and-certified-CRAs>) in accordance with such CRA Regulation.

The Credit Ratings stated above have the following meanings according to the relevant rating agencies:

S&P Global

An obligor rated "A" has strong capacity to meet its financial commitments but is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligors in higher-rated categories.

An S&P Global negative outlook means that a rating may be lowered. (Source:

Moody's

Obligations rated "A" are considered upper-medium-grade and are subject to low credit risk. (Source: https://www.moodys.com/Pages/amr002002.aspx?stop_mobi=yes)

Fitch

"A" ratings denote expectations of low credit risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings. (Source:

13 Important information

In connection with the issue of any Tranche of **Warrants**, the Dealer or Dealers (if any) named as the Stabilisation Manager(s) (or persons acting on behalf of any Stabilisation Manager(s)) in the Final Terms may over-allot **Warrants** or effect transactions with a view to supporting the market price of the **Warrants** of the Series (as defined below) of which such Tranche forms part at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the final terms of the offer of the relevant Tranche of **Warrants** is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of **Warrants** and 60 days after the date of the allotment of the relevant Tranche of **Warrants**. Any stabilisation action or over-allotment must be conducted by the Stabilisation Manager(s) (or person(s) acting on behalf of any Stabilisation Manager(s)) in accordance with all applicable laws and rules.

Euroclear Bank S.A./N.V. ("**Euroclear**") and Clearstream Banking, S.A. If any European Clearing System is, in the future, unable to facilitate the collection of such information, it may decline to allow any or all Series of the Warrants to be cleared through such European Clearing System and this may affect the liquidity of such Warrants. Provisions have been made for the Warrants, in such a case, to be represented by definitive Warrants (see "*Form of Warrants*"). The procedures agreed and described in the Amended and Restated Agency Agreement dated 9 July 2020 (the "**Agency Agreement**") may, in the future, be amended to comply with Spanish tax law and regulations and operational procedures of the European Clearing Systems. The Guarantor and the Issuer may from time to time, at their discretion, appoint an agent to intermediate with the European Clearing Systems in the provision of such information. Details of any such appointment will be set out in the Final Terms.

In the case of any Warrants which are held in The Depository Trust Company ("**DTC**"), the Issuer and the Guarantor may agree procedures with DTC and, if necessary, an intermediary agent appointed by the Issuer and the Guarantor to facilitate the collection of such details. Any such procedures will be summarised in the Final Terms and otherwise made available to holders of the relevant Warrants as described in the Final Terms.
