## Definitions

## Description

The Project consists of the construction and operation of Vineyard Wind 1, a 62-turbine offshore wind facility, with associated interconnection facilities. It is located on the coast of Massachusetts, in the New England region. The state of Massachusetts seeks to have 3,200 MW of offshore wind farms by 2035, which could represent 20% of the electricity consumed in the state. Vineyard is the first large-scale offshore wind project in the US.
