E&S independent review	YES
Human Risk Assessment	YES

Definitions

Description

The Project is the Stage 3 construction of a liquefied natural gas export terminal located on the La Quinta Channel on the northeast side of Corpus Christi Bay in San Patricio County, Texas. It involves the inclusion of 7 medium-scale LNG liquefaction trains, with a nominal LNG liquefaction capacity of 1.49 million tons per year ("mtpa"). It also includes the construction of a new main parallel to the existing pipeline, and the addition of two gas turbo compressors.

Environmental and social impacts

Trains capacity (mtpa)	10.43
Pipeline length (miles)	21.5
